

1  
00:00:09,349 --> 00:00:17,160  
hi my name is George filer the third the

2  
00:00:14,849 --> 00:00:19,140  
reason I'm here is because George filer

3  
00:00:17,160 --> 00:00:23,839  
the fifth is in the hangar and will be

4  
00:00:19,140 --> 00:00:26,250  
born on friday and and I'm a retired

5  
00:00:23,839 --> 00:00:29,789  
intelligence officer and flyer with

6  
00:00:26,250 --> 00:00:32,698  
almost 5,000 hours and I didn't believe

7  
00:00:29,789 --> 00:00:35,939  
in UFOs until London control called us

8  
00:00:32,698 --> 00:00:39,448  
in the winner of 1962 and asked us would

9  
00:00:35,939 --> 00:00:43,049  
we chase one and we said sure so he let

10  
00:00:39,448 --> 00:00:45,718  
down from 30,000 feet to a thousand feet

11  
00:00:43,049 --> 00:00:47,909  
where the UFO was hovering and we went

12  
00:00:45,719 --> 00:00:50,910  
into a steep dive and actually exceeded

13  
00:00:47,909 --> 00:00:53,759  
the red line of the aircraft so it's

14  
00:00:50,909 --> 00:00:56,669  
kind of dangerous chasing UFOs any case

15  
00:00:53,759 --> 00:00:59,280  
I was able to get the UFO on the

16  
00:00:56,670 --> 00:01:01,140  
aircraft radar at about 40 miles and we

17  
00:00:59,280 --> 00:01:04,259  
could see a light on in the distance and

18  
00:01:01,140 --> 00:01:07,140  
as we closed we kept on picking up this

19  
00:01:04,259 --> 00:01:11,219  
radar return point i'm mentioning that

20  
00:01:07,140 --> 00:01:13,859  
the radar return was very distinct and

21  
00:01:11,219 --> 00:01:16,978  
that solid indicating it was some kind

22  
00:01:13,859 --> 00:01:20,340  
of a metallic object we got about a mile

23  
00:01:16,978 --> 00:01:23,459  
from the UFO and it kind of lit up in

24  
00:01:20,340 --> 00:01:25,530  
the sky and went off into space very

25  
00:01:23,459 --> 00:01:30,239  
similar to what the shuttle looks like

26  
00:01:25,530 --> 00:01:33,239  
when it takes off later on i was working

27  
00:01:30,239 --> 00:01:36,359  
in intelligence in Vietnam I braced the

28  
00:01:33,239 --> 00:01:39,390  
general Brown about UFOs

29

00:01:36,359 --> 00:01:43,609  
the 21st Air Force McGuire Air Force

30  
00:01:39,390 --> 00:01:49,560  
Base brief general glau about a UFO over

31  
00:01:43,609 --> 00:01:51,659  
Tehran Iran in 1976 the two f-4s from

32  
00:01:49,560 --> 00:01:55,290  
the Iranian Air Force had taken off and

33  
00:01:51,659 --> 00:01:58,439  
try to intercept the UFO and when they

34  
00:01:55,290 --> 00:02:00,540  
turn on their fire control systems he

35  
00:01:58,439 --> 00:02:02,280  
immediately went on all the electrical

36  
00:02:00,540 --> 00:02:04,710  
systems went out the planes had a

37  
00:02:02,280 --> 00:02:07,140  
returning to base this was particularly

38  
00:02:04,709 --> 00:02:13,949  
significant because it was also picked

39  
00:02:07,140 --> 00:02:16,919  
up on satellites in 1978 on January 18th

40  
00:02:13,949 --> 00:02:19,310  
I was going into the base every morning

41  
00:02:16,919 --> 00:02:23,399  
I did the briefing to the General Staff

42  
00:02:19,310 --> 00:02:25,319  
and I noticed that there are some lights

43  
00:02:23,400 --> 00:02:27,750

off in the distance at the end of the

44

00:02:25,319 --> 00:02:31,079

end runway dark when I got into the

45

00:02:27,750 --> 00:02:34,439

command post the senior master sergeant

46

00:02:31,080 --> 00:02:36,450

in charge said that there had been UFOs

47

00:02:34,439 --> 00:02:39,750

in the pattern all night they're on

48

00:02:36,449 --> 00:02:42,000

radar the tower had seen them they'd

49

00:02:39,750 --> 00:02:47,489

gotten aircraft reports and so on and

50

00:02:42,000 --> 00:02:50,689

that one had landed or crashed at Fort

51

00:02:47,489 --> 00:02:53,189

Dix Fort Dix and McGwire right together

52

00:02:50,689 --> 00:02:57,989

this is kind of like the Roswell of the

53

00:02:53,189 --> 00:03:00,569

east but any case an alien had come off

54

00:02:57,989 --> 00:03:03,150

the craft and had been shot by a

55

00:03:00,569 --> 00:03:06,840

military policeman and apparently was

56

00:03:03,150 --> 00:03:09,870

wounded was heading for McGwire so for

57

00:03:06,840 --> 00:03:11,489

whatever reason the aliens like to the

58  
00:03:09,870 --> 00:03:13,920  
Air Force better than the army perhaps

59  
00:03:11,489 --> 00:03:17,159  
because he's shooting at him but any

60  
00:03:13,919 --> 00:03:20,219  
case our security police went out there

61  
00:03:17,159 --> 00:03:24,689  
and found him on the end of the runway

62  
00:03:20,219 --> 00:03:28,150  
dead and they asked me to brief the

63  
00:03:24,689 --> 00:03:30,128  
general staff a general Tom Sadler and

64  
00:03:28,150 --> 00:03:32,980  
at the eight o'clock stand-up briefing

65  
00:03:30,128 --> 00:03:34,509  
and I said I don't think I want to do

66  
00:03:32,979 --> 00:03:37,840  
this you know general doesn't have a

67  
00:03:34,509 --> 00:03:39,578  
good sense of humor and I'm not sure I

68  
00:03:37,840 --> 00:03:42,269  
believe this so I did some checking

69  
00:03:39,579 --> 00:03:44,769  
called the fork 38th command post and

70  
00:03:42,269 --> 00:03:48,430  
everybody had pretty much the same story

71  
00:03:44,769 --> 00:03:50,109  
and at eight o'clock that morning just

72  
00:03:48,430 --> 00:03:52,659  
before I went on was going to brief this

73  
00:03:50,109 --> 00:03:54,519  
that was very worried about it they said

74  
00:03:52,658 --> 00:03:58,959  
don't brief it that it's too hot so to

75  
00:03:54,519 --> 00:04:01,030  
speak that's pretty much my story then

76  
00:03:58,959 --> 00:04:04,750  
I'm prepared to tell the story in front

77  
00:04:01,030 --> 00:04:08,829  
of Congress and it is a truth now

78  
00:04:04,750 --> 00:04:12,128  
because of this I stayed interested in

79  
00:04:08,829 --> 00:04:16,600  
UFOs and I'm the eastern director of the

80  
00:04:12,128 --> 00:04:18,759  
mutual UFO network and between the

81  
00:04:16,600 --> 00:04:22,720  
national reporting center and Peter

82  
00:04:18,759 --> 00:04:25,779  
diamond port and the new fon we get 100

83  
00:04:22,720 --> 00:04:27,550  
reports a week on average of people from

84  
00:04:25,779 --> 00:04:30,069  
all over the united states that see

85  
00:04:27,550 --> 00:04:32,020  
these things regularly and if you start

86

00:04:30,069 --> 00:04:35,139  
checking they're out there and they're

87  
00:04:32,019 --> 00:04:37,359  
low and people are seeing them all the

88  
00:04:35,139 --> 00:04:39,819  
time and these are highly qualified

89  
00:04:37,360 --> 00:04:44,520  
people all of whom essentially give us

90  
00:04:39,819 --> 00:04:44,519  
the reports by email thank

91  
00:04:47,920 --> 00:04:49,980  
you
