

1
00:00:10,039 --> 00:00:18,000
good morning my name is Harlan Bentley

2
00:00:12,599 --> 00:00:20,969
during 1957 in 1959 I was a PFC in the

3
00:00:18,000 --> 00:00:23,309
United States Army stationed north of

4
00:00:20,969 --> 00:00:29,879
washington DC on a Nike Ajax missile

5
00:00:23,309 --> 00:00:32,849
base close to Olney Maryland in May this

6
00:00:29,879 --> 00:00:35,820
month of nineteen sixty in 1958 about

7
00:00:32,850 --> 00:00:38,789
6am I heard a noise outside to sound

8
00:00:35,820 --> 00:00:41,189
like a pulsating transformer i SAT up in

9
00:00:38,789 --> 00:00:44,539
my bunk I looked out the window I saw a

10
00:00:41,189 --> 00:00:46,530
craft heading for the ground and crashed

11
00:00:44,539 --> 00:00:51,058
pieces broke off of that craft

12
00:00:46,530 --> 00:00:52,500
immediately took off again so there's a

13
00:00:51,058 --> 00:00:57,149
lot more to that story that I've gotta

14
00:00:52,500 --> 00:00:59,399
speed this site now the next night I was

15
00:00:57,149 --> 00:01:03,780
on radar duty I get a call from the

16
00:00:59,399 --> 00:01:07,920
Gaithersburg missile base he says hey I

17
00:01:03,780 --> 00:01:10,049
got 12 15 UFOs outside 50 200 feet above

18
00:01:07,920 --> 00:01:11,939
me so I asked him I said what does it

19
00:01:10,049 --> 00:01:15,140
sound like he took his head my cop held

20
00:01:11,939 --> 00:01:17,939
it out the damn window and said here and

21
00:01:15,140 --> 00:01:21,209
to sound the same sound I heard the

22
00:01:17,939 --> 00:01:25,530
previous morning except a lot more of

23
00:01:21,209 --> 00:01:28,560
them so I my radar was on standby so I

24
00:01:25,530 --> 00:01:30,000
immediately turned it on and got the

25
00:01:28,560 --> 00:01:35,340
blip just outside of the ground clutter

26
00:01:30,000 --> 00:01:37,109
I marked it on my radar screen and then

27
00:01:35,340 --> 00:01:40,770
for a few minutes later all of a sudden

28
00:01:37,109 --> 00:01:44,039
they took off as they took off the sweep

29

00:01:40,769 --> 00:01:46,949
came around hit the blip the second when

30
00:01:44,039 --> 00:01:49,109
it came around and hit it again that

31
00:01:46,950 --> 00:01:52,469
blip was two-thirds away off my radar

32
00:01:49,109 --> 00:01:55,228
scope in order to get that far at a

33
00:01:52,469 --> 00:01:59,250
constant velocity with 17,000 miles an

34
00:01:55,228 --> 00:02:02,009
hour that was my first incident ten

35
00:01:59,250 --> 00:02:03,390
years later by this time I received a

36
00:02:02,009 --> 00:02:06,719
beat of Bachelor Science degree in

37
00:02:03,390 --> 00:02:09,659
electrical engineering and I was working

38
00:02:06,719 --> 00:02:11,969
in California now I'm sorry that all i

39
00:02:09,659 --> 00:02:14,939
can say is I was somewhere in California

40
00:02:11,969 --> 00:02:17,489
working on a classified project they had

41
00:02:14,939 --> 00:02:19,489
nothing to do with my experience that I

42
00:02:17,489 --> 00:02:23,549
had there

43
00:02:19,489 --> 00:02:27,709

as I was working and I was like 23 in

44

00:02:23,549 --> 00:02:31,260

the morning california time I heard a

45

00:02:27,709 --> 00:02:34,468

Houston astronaut communication link

46

00:02:31,259 --> 00:02:38,699

comm link I didn't pay much attention to

47

00:02:34,468 --> 00:02:40,799

it until I heard the word bogey of

48

00:02:38,699 --> 00:02:43,138

course my ears picked up immediately and

49

00:02:40,799 --> 00:02:44,730

I unidentified flying object of some

50

00:02:43,139 --> 00:02:47,159

sort whether it's a craft meteorite or

51

00:02:44,729 --> 00:02:49,798

whatever was on a collision course with

52

00:02:47,158 --> 00:02:55,858

that module going to loop around the

53

00:02:49,799 --> 00:02:59,069

moon so basically I listened for some

54

00:02:55,859 --> 00:03:04,620

time and then I stopped in went back to

55

00:02:59,068 --> 00:03:07,560

work and then I heard there they go in

56

00:03:04,620 --> 00:03:10,680

astronaut world for some of you may or

57

00:03:07,560 --> 00:03:14,609

may not know this there's a term called

58
00:03:10,680 --> 00:03:16,620
green turtle and used to be I don't know

59
00:03:14,609 --> 00:03:18,480
if it is today or not that needs to be

60
00:03:16,620 --> 00:03:21,599
is you're not allowed to use profanity

61
00:03:18,479 --> 00:03:24,060
over the net and the first person that

62
00:03:21,598 --> 00:03:27,000
does that whoever hears at first and

63
00:03:24,060 --> 00:03:29,609
says green turtle that astronauts got to

64
00:03:27,000 --> 00:03:31,348
buy that man and his entire family had

65
00:03:29,609 --> 00:03:38,510
dinner at the most expensive place with

66
00:03:31,348 --> 00:03:38,509
Cape Canaveral well den dis were quick

67
00:03:38,810 --> 00:03:44,639
run out and said damn they went off the

68
00:03:41,729 --> 00:03:48,420
UFOs took off this is damn that's fast

69
00:03:44,639 --> 00:03:50,969
and somebody yelled green turtle

70
00:03:48,419 --> 00:03:54,119
and then he said in other word cinnamon

71
00:03:50,969 --> 00:03:58,439
to crap and there's somebody else yelled

72
00:03:54,120 --> 00:04:00,319
green turtle and you can see him grit

73
00:03:58,439 --> 00:04:04,770
his teeth is now you had to buy two

74
00:04:00,318 --> 00:04:06,119
expensive meals and my particular

75
00:04:04,770 --> 00:04:09,420
experience I will testify before

76
00:04:06,120 --> 00:04:13,219
Congress if necessary and explain

77
00:04:09,419 --> 00:04:13,219
exactly what happened thank you
