

1
00:00:41,780 --> 00:00:51,750
all right when is Turtles

2
00:00:45,649 --> 00:00:55,409
come on start well I just want to let

3
00:00:51,750 --> 00:00:59,399
you know that I'm very privileged to be

4
00:00:55,409 --> 00:01:02,878
here in Spain speaking to you now in

5
00:00:59,399 --> 00:01:05,689
English I wish it were Spanish it will

6
00:01:02,878 --> 00:01:09,629
be I promise in a few years because

7
00:01:05,688 --> 00:01:12,209
Meredith and I live in Ecuador living on

8
00:01:09,629 --> 00:01:14,849
a beautiful retreat in the Andes where

9
00:01:12,209 --> 00:01:17,129
we're hosting conferences like this one

10
00:01:14,849 --> 00:01:20,179
maybe not as big as this but

11
00:01:17,129 --> 00:01:22,319
nevertheless we are doing that on

12
00:01:20,180 --> 00:01:28,770
subjects that are near and dear to all

13
00:01:22,319 --> 00:01:32,129
of us and today this trip for us is an

14
00:01:28,769 --> 00:01:35,310
extraordinary one it's the fifth week of

15
00:01:32,129 --> 00:01:38,310
a tour of Canada and Europe and we're

16
00:01:35,310 --> 00:01:40,618
returning back home afterwards and it's

17
00:01:38,310 --> 00:01:43,469
because the subject that we've been

18
00:01:40,618 --> 00:01:46,259
asked to address is obviously the most

19
00:01:43,469 --> 00:01:48,989
important one in the history of our

20
00:01:46,259 --> 00:01:54,118
planet and it involves not only

21
00:01:48,989 --> 00:01:57,539
disclosure of the UFO et phenomenon but

22
00:01:54,118 --> 00:02:01,828
it involves the use of the new

23
00:01:57,540 --> 00:02:04,860
technologies of so-called free energy or

24
00:02:01,828 --> 00:02:08,068
clean break through energy and of

25
00:02:04,859 --> 00:02:11,908
consciousness our ability to create

26
00:02:08,068 --> 00:02:15,089
in the physical world and so what's

27
00:02:11,908 --> 00:02:18,358
happening now I see is the unfoldment of

28
00:02:15,090 --> 00:02:24,030
a magnificent future if we can be

29

00:02:18,359 --> 00:02:26,010
responsible about it 30 years ago when I

30
00:02:24,030 --> 00:02:28,680
was at Princeton University in the

31
00:02:26,009 --> 00:02:32,848
physics department doing mainstream

32
00:02:28,680 --> 00:02:36,718
physics and minding my own business I

33
00:02:32,848 --> 00:02:39,388
had a remote viewing experience I had a

34
00:02:36,718 --> 00:02:42,180
near-death experience and I had a

35
00:02:39,389 --> 00:02:46,980
healing experience and all of that

36
00:02:42,180 --> 00:02:51,449
prompted me to expand my box of science

37
00:02:46,979 --> 00:02:53,968
to expand the scientific inquiry that I

38
00:02:51,449 --> 00:02:57,359
was involved in and that my colleagues

39
00:02:53,968 --> 00:02:59,938
at Princeton were not involved in and so

40
00:02:57,359 --> 00:03:03,689
therefore for the past 30 years I've

41
00:02:59,938 --> 00:03:06,120
been an independent scientist now one

42
00:03:03,688 --> 00:03:11,280
disclaimer I want to make is that I am a

43
00:03:06,120 --> 00:03:15,658

scientist at heart and in practice my

44

00:03:11,280 --> 00:03:19,019

role is not to make predictions or to

45

00:03:15,658 --> 00:03:22,048

vet stories of this person or that

46

00:03:19,019 --> 00:03:27,590

person's experience these could well be

47

00:03:22,049 --> 00:03:30,719

valid or not valid in my mind but

48

00:03:27,590 --> 00:03:35,669

sometimes many of these predictions are

49

00:03:30,719 --> 00:03:38,158

very negative and yet it seems to me

50

00:03:35,669 --> 00:03:40,859

that very few of the negative

51

00:03:38,158 --> 00:03:42,298

predictions come to pass now this

52

00:03:40,859 --> 00:03:45,840

doesn't mean that there isn't a

53

00:03:42,299 --> 00:03:49,590

conspiracy there definitely is there are

54

00:03:45,840 --> 00:03:52,438

is an international elite that's kind of

55

00:03:49,590 --> 00:03:55,169

in charge of the agenda and what I'm

56

00:03:52,438 --> 00:03:57,780

going to be proposing to you today is

57

00:03:55,169 --> 00:04:00,479

that we can have another agenda a much

58
00:03:57,780 --> 00:04:06,180
more positive agenda and that we can

59
00:04:00,479 --> 00:04:09,479
open that up for public discussion so my

60
00:04:06,180 --> 00:04:13,739
work is based mostly on hard scientific

61
00:04:09,479 --> 00:04:16,500
evidence and verifiable data and on a

62
00:04:13,739 --> 00:04:21,000
consciousness that seeks to bring the

63
00:04:16,500 --> 00:04:21,870
best possible outcome of any potential

64
00:04:21,000 --> 00:04:25,079
scenario

65
00:04:21,870 --> 00:04:28,949
and we're dealing with many scenarios

66
00:04:25,079 --> 00:04:32,849
many of us are already aware of the

67
00:04:28,949 --> 00:04:35,399
agenda that's in front of us now it's a

68
00:04:32,850 --> 00:04:37,980
pretty dark agenda it we talked about

69
00:04:35,399 --> 00:04:41,810
eugenics the possible elimination of

70
00:04:37,980 --> 00:04:44,670
parts of the population we talked about

71
00:04:41,810 --> 00:04:49,019
bankers and the military-industrial

72
00:04:44,670 --> 00:04:51,720
complex amassing ever more power and in

73
00:04:49,019 --> 00:04:53,879
the face of that we have possibilities

74
00:04:51,720 --> 00:04:57,210
that are magnificent that we can truly

75
00:04:53,879 --> 00:05:01,680
have a sustainable world in the future

76
00:04:57,209 --> 00:05:04,739
if only we have the courage to look at

77
00:05:01,680 --> 00:05:06,540
what those possibilities are today I'm

78
00:05:04,740 --> 00:05:09,389
going to be talking about one of them

79
00:05:06,540 --> 00:05:12,150
and that is the potential for so-called

80
00:05:09,389 --> 00:05:15,719
free energy or clean break through

81
00:05:12,149 --> 00:05:18,839
energy now many of you in the context of

82
00:05:15,720 --> 00:05:22,070
looking at the UFO e.t question have

83
00:05:18,839 --> 00:05:25,679
talked about or studied back-engineering

84
00:05:22,069 --> 00:05:28,680
technology transfer and so forth and

85
00:05:25,680 --> 00:05:31,079
that certainly is an aspect of it but

86

00:05:28,680 --> 00:05:35,459
meanwhile out in the public domain

87
00:05:31,079 --> 00:05:38,490
there are many hundreds of free energy

88
00:05:35,459 --> 00:05:41,180
inventors Tesla's if you will in their

89
00:05:38,490 --> 00:05:44,220
garages and laboratories toiling away

90
00:05:41,180 --> 00:05:46,740
unsung heroes people that have been

91
00:05:44,220 --> 00:05:49,140
suppressed and taken out of the

92
00:05:46,740 --> 00:05:51,210
mainstream of our culture and today

93
00:05:49,139 --> 00:05:54,209
we'll be talking about some of them and

94
00:05:51,209 --> 00:05:56,839
we'll also be talking a little bit about

95
00:05:54,209 --> 00:06:00,239
some books that I've published recently

96
00:05:56,839 --> 00:06:02,639
one of them having to do with solutions

97
00:06:00,240 --> 00:06:07,470
to the most heartfelt problems we have

98
00:06:02,639 --> 00:06:10,919
on the planet it's called Rhian heritage

99
00:06:07,470 --> 00:06:13,620
the earth it's also out in Spanish and

100
00:06:10,920 --> 00:06:15,780

then another book is the energy solution

101

00:06:13,620 --> 00:06:19,259

revolution where I actually talked about

102

00:06:15,779 --> 00:06:23,429

the political social implications of a

103

00:06:19,259 --> 00:06:25,949

new energy economy now here's a little

104

00:06:23,430 --> 00:06:30,360

word for those of you that might still

105

00:06:25,949 --> 00:06:34,399

be in the audience who are still working

106

00:06:30,360 --> 00:06:38,900

for the secret government

107

00:06:34,399 --> 00:06:40,759

we are at a point in human history where

108

00:06:38,899 --> 00:06:42,039

we need to make a decision about which

109

00:06:40,759 --> 00:06:46,039

way to go

110

00:06:42,040 --> 00:06:48,580

collectively and I want to speak to

111

00:06:46,040 --> 00:06:52,850

those of you that may be sitting here

112

00:06:48,579 --> 00:06:55,039

who may see it as their duty to be the

113

00:06:52,850 --> 00:06:59,000

watchdogs for those who want to maintain

114

00:06:55,040 --> 00:07:01,879

the current balance of power I want to

115
00:06:59,000 --> 00:07:04,459
ask you if you have ever asked yourself

116
00:07:01,879 --> 00:07:08,089
what you want your role to be at this

117
00:07:04,459 --> 00:07:12,620
point in history what do you want your

118
00:07:08,089 --> 00:07:15,049
legacy to be at this time where the

119
00:07:12,620 --> 00:07:17,418
number of whistleblowers who are

120
00:07:15,050 --> 00:07:20,030
deciding to come out is on the increase

121
00:07:17,418 --> 00:07:24,769
I want to ask you which side you want to

122
00:07:20,029 --> 00:07:27,759
be on how does it feel to know that the

123
00:07:24,769 --> 00:07:31,129
technologies that the planet needs are

124
00:07:27,759 --> 00:07:35,240
available or could soon become available

125
00:07:31,129 --> 00:07:38,629
and yet remains you remain silent

126
00:07:35,240 --> 00:07:42,319
how does it feel to harass your peers in

127
00:07:38,629 --> 00:07:46,038
the name of patriotism and enduring

128
00:07:42,319 --> 00:07:48,469
national security and to protect an

129
00:07:46,038 --> 00:07:51,469
elitist agenda that has already given up

130
00:07:48,470 --> 00:07:54,500
on the chance for all of humanity to

131
00:07:51,470 --> 00:07:57,830
evolve and to benefit from a collective

132
00:07:54,500 --> 00:08:01,629
change in consciousness now is the time

133
00:07:57,829 --> 00:08:04,579
to exercise your free will and make sure

134
00:08:01,629 --> 00:08:06,620
that your birthright it is your

135
00:08:04,579 --> 00:08:11,329
birthright to decide which path you will

136
00:08:06,620 --> 00:08:14,060
take at this point onward every moment

137
00:08:11,329 --> 00:08:16,609
of the rest of your life is an

138
00:08:14,060 --> 00:08:20,300
opportunity to turn it around for

139
00:08:16,610 --> 00:08:24,620
yourself and through your contribution

140
00:08:20,300 --> 00:08:27,889
for the human collective to be able to

141
00:08:24,620 --> 00:08:29,439
evolve to its next step the choice is

142
00:08:27,889 --> 00:08:33,620
yours

143

00:08:29,439 --> 00:08:35,778
thank you for that listening it's it's I

144
00:08:33,620 --> 00:08:38,299
think a very important juncture of our

145
00:08:35,778 --> 00:08:41,509
history because it's very clear to me

146
00:08:38,299 --> 00:08:44,078
having visited the laboratories of the

147
00:08:41,509 --> 00:08:46,879
leading new energy and consciousness

148
00:08:44,078 --> 00:08:47,359
researchers on this planet we are in the

149
00:08:46,879 --> 00:08:50,720
brink

150
00:08:47,360 --> 00:08:54,440
of a tremendous quantum leap of a new

151
00:08:50,720 --> 00:08:56,629
paradigm and we need to go into it now

152
00:08:54,440 --> 00:08:59,269
and embrace it with all our hearts and

153
00:08:56,629 --> 00:09:03,139
have the courage to walk through the

154
00:08:59,269 --> 00:09:06,049
known into the unknown and as they say

155
00:09:03,139 --> 00:09:08,838
fear the fear of the unknown is the

156
00:09:06,049 --> 00:09:10,699
biggest fear there is there's another

157
00:09:08,839 --> 00:09:14,269

phrase better the devil you know than

158

00:09:10,700 --> 00:09:17,540

the devil you don't know and the fear is

159

00:09:14,269 --> 00:09:20,810

all around us but we live in the Stars

160

00:09:17,539 --> 00:09:24,528

and we're moved at last by our greatest

161

00:09:20,809 --> 00:09:27,439

adventures and so I invite you to

162

00:09:24,528 --> 00:09:29,179

embrace some of the information which my

163

00:09:27,440 --> 00:09:32,570

colleagues and I will be sharing with

164

00:09:29,179 --> 00:09:35,659

you during this conference and so with

165

00:09:32,570 --> 00:09:38,920

the some of those remarks now we will

166

00:09:35,659 --> 00:09:40,939

get into the energy solution revolution

167

00:09:38,919 --> 00:09:43,149

so if we could have the first slide

168

00:09:40,940 --> 00:09:43,149

please

169

00:09:47,289 --> 00:09:51,078

but and this book was six years in the

170

00:09:50,509 --> 00:09:54,980

making

171

00:09:51,078 --> 00:09:57,229

and I decided to no longer spend my time

172
00:09:54,980 --> 00:10:01,459
going to people's laboratories or trying

173
00:09:57,230 --> 00:10:04,490
to vet this or that new energy concept

174
00:10:01,458 --> 00:10:07,278
suffice it to say there are hundreds of

175
00:10:04,490 --> 00:10:09,799
people in their laboratories that are

176
00:10:07,278 --> 00:10:12,948
working on proofs of concept of

177
00:10:09,799 --> 00:10:15,379
so-called free energy and so what I'd

178
00:10:12,948 --> 00:10:19,000
like to do talk a talk about today is

179
00:10:15,379 --> 00:10:23,269
more of the socio-political aspects of

180
00:10:19,000 --> 00:10:26,720
free and clean energy it's promised its

181
00:10:23,269 --> 00:10:30,940
suppression and it's absolute necessity

182
00:10:26,720 --> 00:10:30,940
for our future next slide please

183
00:10:31,389 --> 00:10:36,169
George Orwell said in a time of

184
00:10:33,828 --> 00:10:40,448
universal deceit telling the truth

185
00:10:36,169 --> 00:10:43,669
becomes a universal act or a

186
00:10:40,448 --> 00:10:45,649
revolutionary act excuse me

187
00:10:43,669 --> 00:10:49,939
and and of course that's what's

188
00:10:45,649 --> 00:10:51,860
happening now but I also say I had this

189
00:10:49,940 --> 00:10:54,170
bumper sticker that says the truth will

190
00:10:51,860 --> 00:10:59,028
set us free but first it will piss us

191
00:10:54,169 --> 00:11:00,919
off and yesterday we talked about fear

192
00:10:59,028 --> 00:11:03,850
we talked about

193
00:11:00,919 --> 00:11:07,729
the fact that people are getting angry

194
00:11:03,850 --> 00:11:09,980
because many of us know in our hearts

195
00:11:07,730 --> 00:11:12,980
our future can be very different from

196
00:11:09,980 --> 00:11:16,220
that which is being presented to us by

197
00:11:12,980 --> 00:11:19,430
our leaders and that the truth is

198
00:11:16,220 --> 00:11:22,820
awaiting us but anger is an inevitable

199
00:11:19,429 --> 00:11:25,159
part of the process and what I'm hoping

200

00:11:22,820 --> 00:11:28,430
for in the long run is a process of

201
00:11:25,159 --> 00:11:31,699
Truth and Reconciliation a process of

202
00:11:28,429 --> 00:11:34,429
truth-telling and an exchange of

203
00:11:31,700 --> 00:11:38,810
information with those forces that are

204
00:11:34,429 --> 00:11:41,569
now perhaps themselves afraid of the

205
00:11:38,809 --> 00:11:45,979
anger that could be leveled against them

206
00:11:41,570 --> 00:11:49,970
for having held secrets for so long we

207
00:11:45,980 --> 00:11:53,600
hope that at ventually we can all

208
00:11:49,970 --> 00:11:56,930
forgive and move on and create a future

209
00:11:53,600 --> 00:11:59,750
of positive consciousness the next slide

210
00:11:56,929 --> 00:12:02,449
and this is a good one

211
00:11:59,750 --> 00:12:05,929
Isaac Asimov when stupidity is

212
00:12:02,450 --> 00:12:10,070
considered patriotism it is unsafe to be

213
00:12:05,929 --> 00:12:12,949
intelligent and in the United States my

214
00:12:10,070 --> 00:12:15,680

native country I regret to say that

215

00:12:12,950 --> 00:12:19,129

there's been a dumbing down process and

216

00:12:15,679 --> 00:12:21,469

the media has been a big part of it I'm

217

00:12:19,129 --> 00:12:25,700

very gratified to see the media here in

218

00:12:21,470 --> 00:12:28,460

Spain is a little bit ahead of the media

219

00:12:25,700 --> 00:12:31,550

in the US and that there is such

220

00:12:28,460 --> 00:12:35,480

coverage of this conference the next

221

00:12:31,549 --> 00:12:38,419

slide well Meredith and I live in

222

00:12:35,480 --> 00:12:41,360

Ecuador we live in the Andes of Ecuador

223

00:12:38,419 --> 00:12:44,208

in this slide I don't know whether I

224

00:12:41,360 --> 00:12:49,100

have a laser pointer here but I'm

225

00:12:44,208 --> 00:12:51,469

looking if there isn't I can just kind

226

00:12:49,100 --> 00:12:54,139

of point it out epidural is a small

227

00:12:51,470 --> 00:12:57,139

country in the upper left of this map

228

00:12:54,139 --> 00:13:00,549

this map shows the Western Amazon region

229
00:12:57,139 --> 00:13:03,019
and to give you an idea of the extreme

230
00:13:00,549 --> 00:13:06,559
problems that we're facing in our energy

231
00:13:03,019 --> 00:13:09,409
crisis worldwide all of those blocks

232
00:13:06,559 --> 00:13:12,609
those yellow areas and crosshatch areas

233
00:13:09,409 --> 00:13:16,199
in the western Amazon that include

234
00:13:12,610 --> 00:13:21,820
vast regions of Peru Ecuador Brazil

235
00:13:16,200 --> 00:13:24,899
Colombia and Bolivia are now being

236
00:13:21,820 --> 00:13:29,350
leased for oil and natural gas drilling

237
00:13:24,899 --> 00:13:33,009
the areas you see comprise at least half

238
00:13:29,350 --> 00:13:35,980
of the vast Western Amazon rainforest

239
00:13:33,009 --> 00:13:39,129
the one intact rainforest left on earth

240
00:13:35,980 --> 00:13:42,399
and it's about to be decimated it's

241
00:13:39,129 --> 00:13:45,370
about to be deforested the voluntarily

242
00:13:42,399 --> 00:13:48,278
isolated indigenous peoples are about to

243
00:13:45,370 --> 00:13:50,919
be too to be moved off of their land

244
00:13:48,278 --> 00:13:53,919
this has already happened in some areas

245
00:13:50,919 --> 00:13:56,889
in Ecuador and other countries and the

246
00:13:53,919 --> 00:14:00,729
indigenous people are fighting back but

247
00:13:56,889 --> 00:14:03,610
with their spears a group of indigenous

248
00:14:00,730 --> 00:14:08,050
people occupied a bridge in nonviolent

249
00:14:03,610 --> 00:14:11,589
protests of of oil drilling in their

250
00:14:08,049 --> 00:14:14,819
region and about a month ago the

251
00:14:11,589 --> 00:14:17,709
government of Peru came in with

252
00:14:14,820 --> 00:14:20,589
helicopters and machine guns and killed

253
00:14:17,708 --> 00:14:22,778
about a hundred and fifty of them these

254
00:14:20,589 --> 00:14:25,959
are the kinds of things that are still

255
00:14:22,778 --> 00:14:28,328
going on right now as the energy crisis

256
00:14:25,958 --> 00:14:31,889
erupts and we're dealing with non

257

00:14:28,328 --> 00:14:34,509
solutions to the energy problem just

258
00:14:31,889 --> 00:14:37,509
cosmetic solutions ones that won't

259
00:14:34,509 --> 00:14:39,578
really last and to my way of thinking in

260
00:14:37,509 --> 00:14:42,129
that after having analyzed this for

261
00:14:39,578 --> 00:14:45,698
several years there seemed to be no

262
00:14:42,129 --> 00:14:49,299
answer alternative to embracing the

263
00:14:45,698 --> 00:14:52,778
breakthrough new energy economies the

264
00:14:49,299 --> 00:14:56,078
next slide this is a writer for the San

265
00:14:52,778 --> 00:14:58,750
Francisco Chronicle mark Morford and he

266
00:14:56,078 --> 00:15:01,719
said much as I love the green movement

267
00:14:58,750 --> 00:15:04,629
and that includes the green parties in

268
00:15:01,720 --> 00:15:07,649
the face of countless billions to be

269
00:15:04,629 --> 00:15:10,659
made by raping the planet for oil

270
00:15:07,649 --> 00:15:13,389
they're merely the equivalent of trying

271
00:15:10,659 --> 00:15:16,778

to water the rainforest with an

272

00:15:13,389 --> 00:15:20,439

eyedropper we need radical solutions

273

00:15:16,778 --> 00:15:23,860

folks we need to be able to embrace new

274

00:15:20,440 --> 00:15:25,240

technologies we need to go into the 21st

275

00:15:23,860 --> 00:15:31,570

century here

276

00:15:25,240 --> 00:15:35,409

not look backwards the next slide this

277

00:15:31,570 --> 00:15:39,520

is the president of Ecuador Rafael

278

00:15:35,409 --> 00:15:42,990

Correa who has done many things to help

279

00:15:39,519 --> 00:15:48,549

the country come into the 21st century

280

00:15:42,990 --> 00:15:51,159

he has for example supported the passage

281

00:15:48,549 --> 00:15:54,849

of a new constitution which the people

282

00:15:51,159 --> 00:15:57,338

of Ecuador enthusiastically endorsed the

283

00:15:54,850 --> 00:15:59,680

constitution for the first time ever in

284

00:15:57,339 --> 00:16:03,100

the history of the world provides for

285

00:15:59,679 --> 00:16:06,129

the rights of nature and this is an

286
00:16:03,100 --> 00:16:08,759
extraordinary provision and to that end

287
00:16:06,129 --> 00:16:13,299
the next slide

288
00:16:08,759 --> 00:16:16,870
well I'll discuss this in a moment

289
00:16:13,299 --> 00:16:20,979
to that end Correa has invited the world

290
00:16:16,870 --> 00:16:24,850
community to match funds with Ecuador in

291
00:16:20,980 --> 00:16:27,789
terms of potential lost revenues to keep

292
00:16:24,850 --> 00:16:32,409
the oil in the ground in the one of the

293
00:16:27,789 --> 00:16:35,409
most biodiverse indigenous rainforests

294
00:16:32,409 --> 00:16:38,379
on the earth Yasuni National Park and

295
00:16:35,409 --> 00:16:41,259
these are the kinds of activist issues

296
00:16:38,379 --> 00:16:44,379
that need to engage more and more of us

297
00:16:41,259 --> 00:16:47,319
as we go further into this century as we

298
00:16:44,379 --> 00:16:50,970
begin to realize that the atmospheric

299
00:16:47,320 --> 00:16:53,770
pollution climate change and many on

300
00:16:50,970 --> 00:16:59,160
deforestation all of these things

301
00:16:53,769 --> 00:16:59,159
collectively are creating an incredibly

302
00:17:01,590 --> 00:17:18,660
did this shutoff it's not again great

303
00:17:04,549 --> 00:17:21,959
this technology you know the machines

304
00:17:18,660 --> 00:17:25,620
machines seem to be very prevalent in

305
00:17:21,959 --> 00:17:27,839
Europe and they're very complicated I'm

306
00:17:25,619 --> 00:17:30,509
mostly a creature of the 20th century

307
00:17:27,838 --> 00:17:32,639
and I remember giving talks 50 years ago

308
00:17:30,509 --> 00:17:35,509
40 years ago just walking around and

309
00:17:32,640 --> 00:17:39,810
projecting my voice and no machines

310
00:17:35,509 --> 00:17:43,379
anyway the point here is that solutions

311
00:17:39,809 --> 00:17:46,639
to the energy crisis do exist but are

312
00:17:43,380 --> 00:17:50,640
suppressed by governments and industry

313
00:17:46,640 --> 00:17:53,310
through the profit motive self-interest

314

00:17:50,640 --> 00:17:56,270
and incrementalism incremental ISM

315
00:17:53,309 --> 00:18:00,869
meaning little here a little bit there

316
00:17:56,269 --> 00:18:01,829
maybe this will make the people less

317
00:18:00,869 --> 00:18:04,709
activist

318
00:18:01,829 --> 00:18:07,139
if we do carbon cap and trading or

319
00:18:04,710 --> 00:18:09,120
something like that some ridiculous

320
00:18:07,140 --> 00:18:14,009
solution that really has nothing to do

321
00:18:09,119 --> 00:18:17,729
with reality this is not enough to avert

322
00:18:14,009 --> 00:18:22,289
disaster the humans are terribly messing

323
00:18:17,730 --> 00:18:24,990
up this planet and I believe that this

324
00:18:22,289 --> 00:18:27,990
present population of the earth can be

325
00:18:24,990 --> 00:18:32,220
supported through the use of new energy

326
00:18:27,990 --> 00:18:37,559
technologies and a sensible set of

327
00:18:32,220 --> 00:18:39,809
leadership leadership options we need

328
00:18:37,559 --> 00:18:43,349

new human systems which are earth

329

00:18:39,809 --> 00:18:46,559

oriented and visionary the New World

330

00:18:43,349 --> 00:18:51,500

Order or Illuminati agenda is not the

331

00:18:46,559 --> 00:18:51,500

way we want to go the next slide

332

00:19:01,900 --> 00:19:08,630

the next slide let's say we could create

333

00:19:06,349 --> 00:19:11,449

our own future instead of being

334

00:19:08,630 --> 00:19:14,780

subjected to others agendas what kind of

335

00:19:11,450 --> 00:19:18,048

energy source do we want we want clean

336

00:19:14,779 --> 00:19:21,609

energy really clean energy zero

337

00:19:18,048 --> 00:19:26,960

emissions minimal lifecycle

338

00:19:21,609 --> 00:19:31,099

environmental costs and we want it to be

339

00:19:26,960 --> 00:19:33,950

renewable and it's it's very strange

340

00:19:31,099 --> 00:19:37,849

that sometimes people say solar or wind

341

00:19:33,950 --> 00:19:39,860

are renewable or biofuels where well yes

342

00:19:37,849 --> 00:19:42,949

they're renewable but they're not really

343
00:19:39,859 --> 00:19:46,369
because they're incredibly materials

344
00:19:42,950 --> 00:19:50,000
intensive and capital intensive and land

345
00:19:46,369 --> 00:19:52,609
intensive we want the energy source to

346
00:19:50,000 --> 00:19:56,230
be cheap we want it to be affordable to

347
00:19:52,609 --> 00:19:58,699
everyone we want to end the energy

348
00:19:56,230 --> 00:20:01,700
monopolies that are controlling the

349
00:19:58,700 --> 00:20:03,350
world and we want the energy to be

350
00:20:01,700 --> 00:20:07,669
decentralized

351
00:20:03,349 --> 00:20:11,269
we don't need big power plants or power

352
00:20:07,669 --> 00:20:14,419
grids that litter the landscape and we

353
00:20:11,269 --> 00:20:18,349
want the energy to be safe and publicly

354
00:20:14,419 --> 00:20:26,360
accountable no weapons no secrecy no

355
00:20:18,349 --> 00:20:30,769
greed next slide well the bulk of energy

356
00:20:26,359 --> 00:20:33,829
we now use is obviously unsustainable

357
00:20:30,769 --> 00:20:38,779
and is destroying the world through wars

358
00:20:33,829 --> 00:20:41,139
of conquest pollution and irreversible

359
00:20:38,779 --> 00:20:46,819
civilization destroying climate change

360
00:20:41,140 --> 00:20:50,210
the next slide the hydrocarbons for

361
00:20:46,819 --> 00:20:51,168
example oil coal natural gas it's

362
00:20:50,210 --> 00:20:53,690
terrible

363
00:20:51,169 --> 00:20:55,330
100 million people a year die of

364
00:20:53,690 --> 00:20:58,970
emphysema and other lung diseases

365
00:20:55,329 --> 00:21:01,359
because of air pollution just because of

366
00:20:58,970 --> 00:21:05,230
the routine burning of hydrocarbons

367
00:21:01,359 --> 00:21:09,168
nuclear power it's expensive it's unsafe

368
00:21:05,230 --> 00:21:11,329
we all remember Chernobyl there's no

369
00:21:09,169 --> 00:21:14,130
safe disposal of the long-lived

370
00:21:11,329 --> 00:21:17,639
radioactive wastes there we'll leave

371

00:21:14,130 --> 00:21:21,780
to future generations for thousands of

372
00:21:17,640 --> 00:21:24,930
years and of course using nuclear

373
00:21:21,779 --> 00:21:27,420
technology there's the potential for the

374
00:21:24,930 --> 00:21:31,490
global proliferation of doomsday weapons

375
00:21:27,420 --> 00:21:34,170
and distributed targets for terrorists

376
00:21:31,490 --> 00:21:37,769
now some people say let's have a

377
00:21:34,170 --> 00:21:40,050
hydrogen economy well there's a problem

378
00:21:37,769 --> 00:21:43,410
there and that is that it takes more

379
00:21:40,049 --> 00:21:46,319
energy to produce the hydrogen than you

380
00:21:43,410 --> 00:21:50,430
get out of it the same is true by the

381
00:21:46,319 --> 00:21:53,369
way of electric cars and air cars you

382
00:21:50,430 --> 00:21:56,580
have to have an energy source somewhere

383
00:21:53,369 --> 00:21:59,069
to compress the air or an energy source

384
00:21:56,579 --> 00:22:02,099
for the electricity so in the long run

385
00:21:59,069 --> 00:22:04,220

that's a no-win situation I'm sorry I

386

00:22:02,099 --> 00:22:08,969

wish I could say otherwise

387

00:22:04,220 --> 00:22:13,019

biofuels biofuels are a disaster they

388

00:22:08,970 --> 00:22:17,519

compete with agriculture one SUV tankful

389

00:22:13,019 --> 00:22:23,970

of a biofuel SUV sports utility vehicle

390

00:22:17,519 --> 00:22:27,569

great big monstrous cars one SUV tank

391

00:22:23,970 --> 00:22:31,110

full of height of biofuel of corn

392

00:22:27,569 --> 00:22:34,950

ethanol from corn could feed a hungry

393

00:22:31,109 --> 00:22:37,139

person for one year that is just out

394

00:22:34,950 --> 00:22:41,640

early ridiculous it competes with

395

00:22:37,140 --> 00:22:45,390

agriculture and it pollutes just like

396

00:22:41,640 --> 00:22:48,420

the hydrocarbons and you have to develop

397

00:22:45,390 --> 00:22:50,730

a huge infrastructure it doesn't work

398

00:22:48,420 --> 00:22:54,870

although it can work with some

399

00:22:50,730 --> 00:22:58,410

substances on smaller scales solar and

400
00:22:54,869 --> 00:23:01,739
wind they suffer from high cost and/or

401
00:22:58,410 --> 00:23:06,090
great materials and land use and are

402
00:23:01,740 --> 00:23:08,190
diffuse and intermittent I calculated

403
00:23:06,089 --> 00:23:13,619
that it would cost somewhere between 20

404
00:23:08,190 --> 00:23:18,660
and 40 trillion euros to develop a wind

405
00:23:13,619 --> 00:23:22,709
or solar energy economy to replace the

406
00:23:18,660 --> 00:23:26,400
current energy use on the planet the

407
00:23:22,710 --> 00:23:27,519
next slide shows what we need to do we

408
00:23:26,400 --> 00:23:30,610
need to go

409
00:23:27,519 --> 00:23:31,180
to the new energy technologies next

410
00:23:30,609 --> 00:23:35,379
slide please

411
00:23:31,180 --> 00:23:37,720
and that includes the vacuum energy the

412
00:23:35,380 --> 00:23:40,690
zero-point energy I'm going to be

413
00:23:37,720 --> 00:23:43,299
showing a few slides of people who are

414
00:23:40,690 --> 00:23:46,779
developing these kinds of energy sources

415
00:23:43,299 --> 00:23:50,049
they can be magnets on a wheel the wheel

416
00:23:46,779 --> 00:23:52,660
spins up approaches a certain number of

417
00:23:50,049 --> 00:23:55,720
revolutions per minute you unplug it and

418
00:23:52,660 --> 00:23:58,540
it's a freerunning generator if it's

419
00:23:55,720 --> 00:24:01,539
cleverly designed or there can be

420
00:23:58,539 --> 00:24:04,539
solid-state devices there are many many

421
00:24:01,539 --> 00:24:07,240
technologies out there the problem is

422
00:24:04,539 --> 00:24:09,700
that they haven't been developed yet as

423
00:24:07,240 --> 00:24:12,190
soon as they begin to reach the

424
00:24:09,700 --> 00:24:17,019
marketplace they become suppressed

425
00:24:12,190 --> 00:24:20,320
through threats assassinations and or

426
00:24:17,019 --> 00:24:23,680
just told not to work on it anymore

427
00:24:20,319 --> 00:24:26,740
there are many many such case studies we

428

00:24:23,680 --> 00:24:29,350
also have cold fusion which is low

429
00:24:26,740 --> 00:24:32,259
temperature non radioactive nuclear

430
00:24:29,349 --> 00:24:34,029
reactions this is a concept that's been

431
00:24:32,259 --> 00:24:36,309
around for 20 years

432
00:24:34,029 --> 00:24:38,619
there are many competent scientists all

433
00:24:36,309 --> 00:24:42,009
over the world that are developing these

434
00:24:38,619 --> 00:24:46,500
technologies which produce huge amounts

435
00:24:42,009 --> 00:24:51,309
of thermal energy which can be used to

436
00:24:46,500 --> 00:24:54,880
run cars or power power electrical

437
00:24:51,309 --> 00:24:56,919
devices we have advanced hydrogen and

438
00:24:54,880 --> 00:24:59,740
water technologies many of you have

439
00:24:56,920 --> 00:25:04,029
heard of water cars various forms of the

440
00:24:59,740 --> 00:25:07,299
water molecule h h o for example brown's

441
00:25:04,029 --> 00:25:10,829
gas these are all concepts that are

442
00:25:07,299 --> 00:25:18,490

waiting for their opportunity to enter

443

00:25:10,829 --> 00:25:20,379

the cultural domain next slide well for

444

00:25:18,490 --> 00:25:23,109

over a hundred years since the time of

445

00:25:20,380 --> 00:25:25,720

Nikola Tesla hundreds of new energy

446

00:25:23,109 --> 00:25:28,839

researchers have been suppressed by

447

00:25:25,720 --> 00:25:33,910

powerful vested interests in government

448

00:25:28,839 --> 00:25:36,699

industry science and media but only with

449

00:25:33,910 --> 00:25:39,920

modest investments we can develop and

450

00:25:36,700 --> 00:25:43,610

make available new energy devices

451

00:25:39,920 --> 00:25:47,420

now the next slide will say well some

452

00:25:43,609 --> 00:25:51,429

people still believe that solution

453

00:25:47,420 --> 00:25:56,330

energy cannot exist because it violates

454

00:25:51,430 --> 00:25:58,730

existing scientific laws well guess what

455

00:25:56,329 --> 00:26:02,839

folks there are no laws in science only

456

00:25:58,730 --> 00:26:06,500

theories and the so called laws of

457
00:26:02,839 --> 00:26:09,470
thermodynamics apply to only a narrow

458
00:26:06,500 --> 00:26:12,710
range of conditions and there are many

459
00:26:09,470 --> 00:26:14,289
many conditions in which those theories

460
00:26:12,710 --> 00:26:17,840
can be violated

461
00:26:14,289 --> 00:26:20,960
another mythology of solution energy is

462
00:26:17,839 --> 00:26:24,049
that it is so advanced its use must be

463
00:26:20,960 --> 00:26:27,620
further in the future we must only look

464
00:26:24,049 --> 00:26:30,440
backwards at what already exists in

465
00:26:27,619 --> 00:26:32,959
other words if people say well we have

466
00:26:30,440 --> 00:26:37,370
the latest solar energy or wind energy

467
00:26:32,960 --> 00:26:39,380
technology or a biofuel technology yeah

468
00:26:37,369 --> 00:26:41,929
that's gonna help a little bit here and

469
00:26:39,380 --> 00:26:44,930
there but what we're talking about here

470
00:26:41,930 --> 00:26:49,220
our energy concepts that create billions

471
00:26:44,930 --> 00:26:53,240
of times more energy than any of the

472
00:26:49,220 --> 00:26:55,759
conventional sources and a lot of people

473
00:26:53,240 --> 00:27:00,410
will say well this violates the laws of

474
00:26:55,759 --> 00:27:03,349
conservation of energy no actually not

475
00:27:00,410 --> 00:27:06,560
at all it's just that the system we've

476
00:27:03,349 --> 00:27:09,649
defined is much larger than we had

477
00:27:06,559 --> 00:27:13,129
previously thought and then indeed every

478
00:27:09,650 --> 00:27:16,790
point in time and space has an infinite

479
00:27:13,130 --> 00:27:21,020
potential energy field that we can tap

480
00:27:16,789 --> 00:27:23,839
and now the UFO et phenomenon becomes

481
00:27:21,019 --> 00:27:26,750
very important here because of course we

482
00:27:23,839 --> 00:27:29,329
see craft that have apparently violate

483
00:27:26,750 --> 00:27:32,660
the so-called Newtonian laws of physics

484
00:27:29,329 --> 00:27:35,799
all the time through their very very

485

00:27:32,660 --> 00:27:38,480
unusual motions and anti-gravity

486
00:27:35,799 --> 00:27:41,869
technology well this is the very same

487
00:27:38,480 --> 00:27:45,740
thing it's a very closely related

488
00:27:41,869 --> 00:27:48,559
phenomenon another mythology is that we

489
00:27:45,740 --> 00:27:51,109
can trust governments in the marketplace

490
00:27:48,559 --> 00:27:52,730
to support the research and development

491
00:27:51,109 --> 00:27:55,609
that isn't true

492
00:27:52,730 --> 00:27:58,339
believe me I I have tried to approach

493
00:27:55,609 --> 00:28:01,329
the US Department of Energy which

494
00:27:58,339 --> 00:28:05,089
supports research and fossil fuels

495
00:28:01,329 --> 00:28:07,609
hydrocarbons nuclear power and even a

496
00:28:05,089 --> 00:28:09,470
little bit for solar and wind but they

497
00:28:07,609 --> 00:28:15,769
haven't listened at all to these

498
00:28:09,470 --> 00:28:18,470
possibilities next slide so who are the

499
00:28:15,769 --> 00:28:22,639

suppressors of new energy technologies

500

00:28:18,470 --> 00:28:24,559

it's many people the scientists the

501

00:28:22,640 --> 00:28:27,710

scientists are among the biggest

502

00:28:24,559 --> 00:28:30,799

suppressors because you see many of them

503

00:28:27,710 --> 00:28:33,860

I was once one of these people I was at

504

00:28:30,799 --> 00:28:36,710

Princeton and Cornell and I didn't

505

00:28:33,859 --> 00:28:38,979

support new energy research because I

506

00:28:36,710 --> 00:28:41,120

would have lost my job and many

507

00:28:38,980 --> 00:28:43,839

scientists lose their job when they

508

00:28:41,119 --> 00:28:46,789

start to venture outside of the box of

509

00:28:43,839 --> 00:28:49,099

conventional thinking it's very

510

00:28:46,789 --> 00:28:52,690

interesting that throughout the history

511

00:28:49,099 --> 00:28:57,139

of science these things have happened

512

00:28:52,690 --> 00:29:00,680

Bertrand Russell one time said that the

513

00:28:57,140 --> 00:29:04,190

resistance to a new idea increases as

514
00:29:00,680 --> 00:29:06,410
the square of its importance and the

515
00:29:04,190 --> 00:29:09,110
scientists are in the frontlines of

516
00:29:06,410 --> 00:29:12,410
resisting this change not all scientists

517
00:29:09,109 --> 00:29:15,139
but most scientists the scientists

518
00:29:12,410 --> 00:29:18,080
denied for example the early days of

519
00:29:15,140 --> 00:29:22,250
aviation when the Wright brothers first

520
00:29:18,079 --> 00:29:24,799
flew an airplane in 1903 the reporter

521
00:29:22,250 --> 00:29:27,109
that covered that was fired from his

522
00:29:24,799 --> 00:29:29,990
position because his editor didn't

523
00:29:27,109 --> 00:29:32,209
believe that it was possible and then

524
00:29:29,990 --> 00:29:35,000
Scientific American ran an editorial

525
00:29:32,210 --> 00:29:39,190
saying well because it wasn't reported

526
00:29:35,000 --> 00:29:41,029
it's not possible it's a fraud the

527
00:29:39,190 --> 00:29:43,240
environmentalists have not really

528

00:29:41,029 --> 00:29:46,490

supported this the green movement

529

00:29:43,240 --> 00:29:49,730

because they don't think big enough the

530

00:29:46,490 --> 00:29:53,569

green movement needs more vision it used

531

00:29:49,730 --> 00:29:56,690

to have it it I had it when I worked

532

00:29:53,569 --> 00:29:59,019

with the US Congress in the 1970s but

533

00:29:56,690 --> 00:30:02,600

since Ronald Reagan became president and

534

00:29:59,019 --> 00:30:05,129

secrecy became a big thing in the United

535

00:30:02,599 --> 00:30:07,889

States the environmental movement

536

00:30:05,130 --> 00:30:10,940

so became suppressed the large

537

00:30:07,890 --> 00:30:13,650

corporations they don't want new energy

538

00:30:10,940 --> 00:30:15,779

because they have too much of a vested

539

00:30:13,650 --> 00:30:19,890

interest in conventional ways of

540

00:30:15,779 --> 00:30:21,599

producing power and fuel and powerful

541

00:30:19,890 --> 00:30:23,850

government's don't want it because

542

00:30:21,599 --> 00:30:28,559
they're controlled by the large

543
00:30:23,849 --> 00:30:32,459
corporations I'm back on again good the

544
00:30:28,559 --> 00:30:34,349
mainstream media also suppresses this

545
00:30:32,460 --> 00:30:39,120
believe me this has happened many times

546
00:30:34,349 --> 00:30:42,209
the BBC one time invited me to appear on

547
00:30:39,119 --> 00:30:45,989
one of their shows on new energy

548
00:30:42,210 --> 00:30:48,150
technologies I accepted and then two

549
00:30:45,990 --> 00:30:50,069
days later the executive producer told

550
00:30:48,150 --> 00:30:52,410
the producer we're not going to cover

551
00:30:50,069 --> 00:30:54,569
that we're only going to cover that

552
00:30:52,410 --> 00:30:57,690
which is already authorized by

553
00:30:54,569 --> 00:31:01,439
governments and so it goes it's a big

554
00:30:57,690 --> 00:31:04,590
conundrum another suppressor of new

555
00:31:01,440 --> 00:31:12,590
energy are ourselves just through our

556
00:31:04,589 --> 00:31:16,559

inactivity we support by default the the

557

00:31:12,589 --> 00:31:19,109

the primacy of existing energy and so

558

00:31:16,559 --> 00:31:22,649

there's hardly anybody supporting these

559

00:31:19,109 --> 00:31:25,919

breakthroughs so many vested interests

560

00:31:22,650 --> 00:31:29,130

are threatened by the possibility of an

561

00:31:25,920 --> 00:31:33,539

abundant sustainable future with clean

562

00:31:29,130 --> 00:31:39,360

break through energy and it's denied the

563

00:31:33,539 --> 00:31:42,420

next slide well some of us convened the

564

00:31:39,359 --> 00:31:46,019

best and brightest inventors of free

565

00:31:42,420 --> 00:31:48,259

energy devices in an attempt to create a

566

00:31:46,019 --> 00:31:51,319

colleague ship a whole new

567

00:31:48,259 --> 00:31:58,170

institutionalization and so we met in

568

00:31:51,319 --> 00:32:00,359

1993 in Colorado and next slide we well

569

00:31:58,170 --> 00:32:03,509

these are some of the inventors we met

570

00:32:00,359 --> 00:32:07,259

the following year as well but I did a

571
00:32:03,509 --> 00:32:10,950
world tour in the 1990s of some of the

572
00:32:07,259 --> 00:32:14,160
inventors of free energy devices for

573
00:32:10,950 --> 00:32:17,620
example paramount masa Tiwari in India

574
00:32:14,160 --> 00:32:22,788
and she drew Inomata in Japan

575
00:32:17,619 --> 00:32:27,009
the next slide or train read in the

576
00:32:22,788 --> 00:32:29,658
United States or you'll Brown next slide

577
00:32:27,009 --> 00:32:32,379
this is another shot of you'll brown

578
00:32:29,659 --> 00:32:35,470
these are photographs I took and

579
00:32:32,380 --> 00:32:38,210
investigations I did during the 1990s

580
00:32:35,470 --> 00:32:41,600
showing the proof of concept of these

581
00:32:38,210 --> 00:32:45,950
breakthrough energy technologies the

582
00:32:41,599 --> 00:32:48,138
next slide Sparky sweet he had a little

583
00:32:45,950 --> 00:32:51,169
magnetic device that was specially

584
00:32:48,138 --> 00:32:53,298
conditioned a solid-state device that

585
00:32:51,169 --> 00:32:57,980
was able to light up a bank of light

586
00:32:53,298 --> 00:33:01,460
bulbs the next slide John Hutchison from

587
00:32:57,980 --> 00:33:03,639
Canada who does remarkable work on

588
00:33:01,460 --> 00:33:07,819
anti-gravity and free energy

589
00:33:03,638 --> 00:33:11,298
demonstrations the next slide Tom

590
00:33:07,819 --> 00:33:13,970
Bearden who is one of the great minds in

591
00:33:11,298 --> 00:33:17,528
free energy technology and who wrote the

592
00:33:13,970 --> 00:33:22,159
book energy from the vacuum next slide

593
00:33:17,528 --> 00:33:25,038
we also have a very sad a series of sad

594
00:33:22,159 --> 00:33:28,490
stories where some people have murdered

595
00:33:25,038 --> 00:33:31,908
been murdered such as Eugene mallove the

596
00:33:28,490 --> 00:33:35,149
editor of infinite energy magazine in O

597
00:33:31,909 --> 00:33:39,528
four he was murdered probably in

598
00:33:35,148 --> 00:33:41,418
assassination and Stephon Marin off the

599

00:33:39,528 --> 00:33:46,339
gentlemen on your right who is a

600
00:33:41,419 --> 00:33:48,528
Bulgarian inventor and professor at the

601
00:33:46,339 --> 00:33:51,168
University of Graz in Austria who was

602
00:33:48,528 --> 00:33:53,898
seen falling from the tenth story of his

603
00:33:51,169 --> 00:33:56,630
library building to his death there are

604
00:33:53,898 --> 00:34:00,469
many many people who have not survived

605
00:33:56,630 --> 00:34:03,049
the conditions of suppression here we

606
00:34:00,470 --> 00:34:05,259
also have in the middle there Randall

607
00:34:03,048 --> 00:34:08,719
Mills who has developed a remarkable

608
00:34:05,259 --> 00:34:11,659
technology he's at backlight power in

609
00:34:08,719 --> 00:34:15,168
the United States which develops certain

610
00:34:11,659 --> 00:34:17,450
hydrogen plasma cells that produce about

611
00:34:15,168 --> 00:34:22,250
a hundred times more energy than go into

612
00:34:17,449 --> 00:34:25,480
it the next slide and this was another

613
00:34:22,250 --> 00:34:29,210

meeting of free energy inventors and

614

00:34:25,480 --> 00:34:30,108

researchers held in Colorado and there

615

00:34:29,210 --> 00:34:32,889

are many people

616

00:34:30,108 --> 00:34:36,318

you might recognize in this photograph

617

00:34:32,889 --> 00:34:40,639

many of these people are no longer with

618

00:34:36,318 --> 00:34:42,498

us one still is and he's sort of in the

619

00:34:40,639 --> 00:34:44,659

front row and that's Jim Carrey the

620

00:34:42,498 --> 00:34:48,498

actor and you're wondering what is Jim

621

00:34:44,659 --> 00:34:51,220

Carrey doing with a number of eggheads

622

00:34:48,498 --> 00:34:53,748

that are inventing free energy devices

623

00:34:51,219 --> 00:34:56,209

well he was filming Dumb and Dumber

624

00:34:53,748 --> 00:35:00,259

while we were trying to be smart and

625

00:34:56,210 --> 00:35:04,130

smarter now the sad story here was that

626

00:35:00,259 --> 00:35:06,920

a software billionaire worth billions of

627

00:35:04,130 --> 00:35:10,940

dollars who was going to fund these

628
00:35:06,920 --> 00:35:13,278
overall efforts decided not to either

629
00:35:10,940 --> 00:35:16,220
because somebody told him not to or

630
00:35:13,278 --> 00:35:19,809
because he developed the perception that

631
00:35:16,219 --> 00:35:24,498
there was no profit in it yet until you

632
00:35:19,809 --> 00:35:26,739
ascend the steep profit curve the next

633
00:35:24,498 --> 00:35:26,738
slide

634
00:35:27,460 --> 00:35:34,970
well let's go on to the next one this is

635
00:35:33,018 --> 00:35:38,179
an interesting quote from Tom Bearden

636
00:35:34,969 --> 00:35:40,338
but let's go to the next Adam Trombly

637
00:35:38,179 --> 00:35:43,518
who is one of the great inventors of

638
00:35:40,338 --> 00:35:47,690
free energy devices and was told by the

639
00:35:43,518 --> 00:35:50,419
government not to do it anymore I love

640
00:35:47,690 --> 00:35:53,869
this quote he says there's a limitless

641
00:35:50,420 --> 00:35:57,619
and practically useful energy anywhere

642
00:35:53,869 --> 00:36:00,680
you stand or sit we can feel it and we

643
00:35:57,619 --> 00:36:04,099
can be it we can tap into it with real

644
00:36:00,679 --> 00:36:07,219
technologies we can light our homes and

645
00:36:04,099 --> 00:36:10,338
drive our quiet clean vehicles as the

646
00:36:07,219 --> 00:36:14,149
wounds of our tortured earth are healed

647
00:36:10,338 --> 00:36:19,509
forever let's take our planet back let's

648
00:36:14,150 --> 00:36:19,509
start now next slide

649
00:36:27,510 --> 00:36:34,990
the r8 visionary buckminster fuller in

650
00:36:30,760 --> 00:36:38,830
the US when he became in contact with

651
00:36:34,989 --> 00:36:41,619
the reality of free energy technologies

652
00:36:38,829 --> 00:36:44,739
he said I am glad I've lived long enough

653
00:36:41,619 --> 00:36:47,469
to see this it is simply wonderful

654
00:36:44,739 --> 00:36:50,259
I hope and pray you will live long

655
00:36:47,469 --> 00:36:53,439
enough to see the principle upon which

656

00:36:50,260 --> 00:36:56,160
this artifact is based become the new

657
00:36:53,440 --> 00:37:06,610
energy source for all passengers in

658
00:36:56,159 --> 00:37:08,980
spaceship earth next slide some of us in

659
00:37:06,610 --> 00:37:13,510
motor sueños in ecuador have gathered

660
00:37:08,980 --> 00:37:15,670
people to try to discuss how can we

661
00:37:13,510 --> 00:37:19,270
create a sustainable future for

662
00:37:15,670 --> 00:37:21,730
humankind once such was called the

663
00:37:19,269 --> 00:37:25,480
Phoenix gathering we did this a year ago

664
00:37:21,730 --> 00:37:27,400
and besides discussing the real local

665
00:37:25,480 --> 00:37:30,159
ization movement the importance of

666
00:37:27,400 --> 00:37:34,240
growing your own food and coming back to

667
00:37:30,159 --> 00:37:37,000
the villages and having local government

668
00:37:34,239 --> 00:37:40,109
currencies and sustainable practices

669
00:37:37,000 --> 00:37:43,329
which is I think very important nowadays

670
00:37:40,110 --> 00:37:46,240

we also discussed the possibility of a

671

00:37:43,329 --> 00:37:50,279

new energy economy we're going to go to

672

00:37:46,239 --> 00:37:53,709

the next one now and the next one and

673

00:37:50,280 --> 00:37:58,090

the next one well we won't get into that

674

00:37:53,710 --> 00:38:02,230

too much another man who just left us on

675

00:37:58,090 --> 00:38:05,079

from this planet so arthur c clarke felt

676

00:38:02,230 --> 00:38:08,309

that free a free energy future or cold

677

00:38:05,079 --> 00:38:11,889

fusion future does await us that he's

678

00:38:08,309 --> 00:38:14,880

99% sure of it and that this is the

679

00:38:11,889 --> 00:38:19,650

greatest scientific scandal of all time

680

00:38:14,880 --> 00:38:23,740

to suppress these new technologies and

681

00:38:19,650 --> 00:38:26,579

he also said one time any sufficiently

682

00:38:23,739 --> 00:38:28,659

advanced technology is indistinguishable

683

00:38:26,579 --> 00:38:31,509

from magic

684

00:38:28,659 --> 00:38:35,319

and i think that's one of the problems

685
00:38:31,510 --> 00:38:38,740
we all face in looking at the UFO et

686
00:38:35,320 --> 00:38:40,809
phenomena at looking at free energy and

687
00:38:38,739 --> 00:38:44,289
are looking at the technology

688
00:38:40,809 --> 00:38:49,029
jeez of consciousness the next slide

689
00:38:44,289 --> 00:38:53,050
and yet our our choice of future energy

690
00:38:49,030 --> 00:38:55,269
sources should be openly debated we

691
00:38:53,050 --> 00:38:58,750
shouldn't be suppressing the discussion

692
00:38:55,269 --> 00:39:04,090
of this at the very least they should be

693
00:38:58,750 --> 00:39:08,769
clean cheap reliable safe decentralized

694
00:39:04,090 --> 00:39:12,100
and publicly transparent we must

695
00:39:08,769 --> 00:39:15,820
transform our institutions to adapt our

696
00:39:12,099 --> 00:39:19,900
energy technologies to the needs of the

697
00:39:15,820 --> 00:39:26,800
20th century rather than look back at

698
00:39:19,900 --> 00:39:32,320
the 20th century next slide well the

699
00:39:26,800 --> 00:39:35,380
rate Martin Luther King said this to

700
00:39:32,320 --> 00:39:38,350
ignore evil is to become an accomplice

701
00:39:35,380 --> 00:39:39,880
to it and there certainly is a lot of

702
00:39:38,349 --> 00:39:43,690
malevolence around

703
00:39:39,880 --> 00:39:46,599
I see it as a consciousness not at

704
00:39:43,690 --> 00:39:50,200
blaming individuals but a consciousness

705
00:39:46,599 --> 00:39:53,889
which seems to grip so many of us and

706
00:39:50,199 --> 00:39:56,739
hence my remarks to ask those of you

707
00:39:53,889 --> 00:39:59,039
that are still working on the other side

708
00:39:56,739 --> 00:40:03,579
of the fence of the Great Divide of

709
00:39:59,039 --> 00:40:06,880
agendas to reconsider to consider the

710
00:40:03,579 --> 00:40:09,130
journey of your soul and to look at ways

711
00:40:06,880 --> 00:40:12,519
that you can expand your consciousness

712
00:40:09,130 --> 00:40:15,849
go beyond the fear go beyond the anger

713

00:40:12,519 --> 00:40:22,030
and to embrace a positive future for all

714
00:40:15,849 --> 00:40:25,059
of humankind the next slide embracing

715
00:40:22,030 --> 00:40:28,150
the possibility of a breakthrough energy

716
00:40:25,059 --> 00:40:32,469
solution revolution should be our

717
00:40:28,150 --> 00:40:36,220
mandate not an idle speculation to be

718
00:40:32,469 --> 00:40:39,099
ignored or ridiculed or feared and

719
00:40:36,219 --> 00:40:42,250
that's really the main point I want to

720
00:40:39,099 --> 00:40:45,130
make here is that we're not talking

721
00:40:42,250 --> 00:40:48,460
about a certain future we're not trying

722
00:40:45,130 --> 00:40:51,940
to talk about well prove this or prove

723
00:40:48,460 --> 00:40:53,920
that concept works or doesn't work what

724
00:40:51,940 --> 00:40:58,088
we're talking about is a human

725
00:40:53,920 --> 00:41:00,730
hurt an Apollo program if you will to

726
00:40:58,088 --> 00:41:03,608
come together and research those

727
00:41:00,730 --> 00:41:06,909

technologies of energy and of

728

00:41:03,608 --> 00:41:09,460

consciousness now the technologies of

729

00:41:06,909 --> 00:41:12,190

consciousness I think are just as

730

00:41:09,460 --> 00:41:16,210

important and it's turning out that many

731

00:41:12,190 --> 00:41:19,170

free energy devices work in the presence

732

00:41:16,210 --> 00:41:22,329

of people who combined in positive

733

00:41:19,170 --> 00:41:24,880

intention and there are many experiments

734

00:41:22,329 --> 00:41:27,730

out there now that show that people

735

00:41:24,880 --> 00:41:31,390

coming together combined and positive

736

00:41:27,730 --> 00:41:34,990

intention can literally heal can

737

00:41:31,389 --> 00:41:38,920

literally produce energy can literally

738

00:41:34,989 --> 00:41:42,429

create our own reality and we see that a

739

00:41:38,920 --> 00:41:44,650

lot in the UFO et phenomenon I think

740

00:41:42,429 --> 00:41:47,679

that's showing the way it's showing in

741

00:41:44,650 --> 00:41:50,470

the way in which humanity can get beyond

742
00:41:47,679 --> 00:41:54,639
its fears beyond its assumptions of

743
00:41:50,469 --> 00:41:57,338
materialism and reductionism and to be

744
00:41:54,639 --> 00:42:00,568
able to embrace through combined

745
00:41:57,338 --> 00:42:04,500
positive intention a positive future of

746
00:42:00,568 --> 00:42:07,779
all humankind there are many many

747
00:42:04,500 --> 00:42:14,400
experimental proofs of the power of our

748
00:42:07,780 --> 00:42:14,400
consciousness the next slide thank you

749
00:42:19,289 --> 00:42:27,869
and so the technologies of consciousness

750
00:42:24,840 --> 00:42:30,570
the technology of free energy the

751
00:42:27,869 --> 00:42:33,000
technology is a combined positive human

752
00:42:30,570 --> 00:42:36,720
intention need to be taken much more

753
00:42:33,000 --> 00:42:39,239
seriously and we and by we are meeting

754
00:42:36,719 --> 00:42:44,959
those of you in the audience and myself

755
00:42:39,239 --> 00:42:47,519
and those on I'm back on again that

756
00:42:44,960 --> 00:42:54,210
those of you that were beginning to

757
00:42:47,519 --> 00:42:57,329
catch on to these things are you to to

758
00:42:54,210 --> 00:43:00,889
explore these ideas to read the books

759
00:42:57,329 --> 00:43:04,349
that describe them and to join the team

760
00:43:00,889 --> 00:43:08,519
the team that will create a sustainable

761
00:43:04,349 --> 00:43:11,429
future for all of humankind now to that

762
00:43:08,519 --> 00:43:16,019
end Meredith and I have created multi

763
00:43:11,429 --> 00:43:18,599
sueños Spanish for mountain dreams which

764
00:43:16,019 --> 00:43:23,608
is a retreat center a conference center

765
00:43:18,599 --> 00:43:28,858
that we created in Ecuador we invite you

766
00:43:23,608 --> 00:43:30,449
to come to visit us either that our

767
00:43:28,858 --> 00:43:33,000
bed-and-breakfast service or to our

768
00:43:30,449 --> 00:43:35,819
coming conferences we're doing many

769
00:43:33,000 --> 00:43:40,980
visionary conferences on free energy on

770

00:43:35,820 --> 00:43:44,550
new science in the arts and yoga and

771
00:43:40,980 --> 00:43:47,840
many other activities that are truly

772
00:43:44,550 --> 00:43:51,570
relaxing this is one of our buildings

773
00:43:47,840 --> 00:43:54,480
we're in very blessed to be in an ideal

774
00:43:51,570 --> 00:43:56,970
environment nestled in a tropical garden

775
00:43:54,480 --> 00:43:59,909
on a mountainside in the Andes of

776
00:43:56,969 --> 00:44:02,659
Ecuador not far from the Amazon just on

777
00:43:59,909 --> 00:44:08,129
the other side of the ridge of the Andes

778
00:44:02,659 --> 00:44:13,819
the next slide shows our waterfall the

779
00:44:08,130 --> 00:44:19,140
next slide our main house next slide

780
00:44:13,820 --> 00:44:21,660
main house next slide and this is the

781
00:44:19,139 --> 00:44:23,909
book that that I've recently written

782
00:44:21,659 --> 00:44:30,029
which I'll be glad to sign copies

783
00:44:23,909 --> 00:44:32,460
afterwards next slide and this is a view

784
00:44:30,030 --> 00:44:32,880

from Mountain Suenos it gives you an

785

00:44:32,460 --> 00:44:35,250

idea

786

00:44:32,880 --> 00:44:38,130

the incredible beauty of where we live

787

00:44:35,250 --> 00:44:40,619

and how relaxing it is and how it's a

788

00:44:38,130 --> 00:44:45,480

great place to create new ideas for

789

00:44:40,619 --> 00:44:48,329

humankind next slide this requires an

790

00:44:45,480 --> 00:44:52,920

explanation which I don't have time to

791

00:44:48,329 --> 00:44:54,989

describe except that that's a Photoshop

792

00:44:52,920 --> 00:44:58,079

special of my alter ego

793

00:44:54,989 --> 00:45:01,679

the lapis pig you can check it out on

794

00:44:58,079 --> 00:45:03,569

the website next slide last slide which

795

00:45:01,679 --> 00:45:06,509

gives you the information we hope to

796

00:45:03,570 --> 00:45:08,490

hear from you we invite you to look at

797

00:45:06,510 --> 00:45:11,370

more of the kind of information I just

798

00:45:08,489 --> 00:45:14,189

shared and I'd like to just conclude by

799

00:45:11,369 --> 00:45:18,630

saying that we are in an extraordinary

800

00:45:14,190 --> 00:45:21,929

time and it's not only about the UFO et

801

00:45:18,630 --> 00:45:24,619

phenomenon and disclosure the exit

802

00:45:21,929 --> 00:45:29,579

political future that I see for us

803

00:45:24,619 --> 00:45:33,089

involves a wide range of activities that

804

00:45:29,579 --> 00:45:35,849

would include humanity once again taking

805

00:45:33,090 --> 00:45:38,910

charge of our planet in a way that's

806

00:45:35,849 --> 00:45:42,559

benign in a way that supports nature in

807

00:45:38,909 --> 00:45:45,739

a way that we can all enjoy together

808

00:45:42,559 --> 00:45:45,739

thank you

809

00:46:03,619 --> 00:46:05,679

you
