

1
00:00:19,579 --> 00:00:30,059
buenas tardes a todos obrigado thank you

2
00:00:24,868 --> 00:00:33,539
very much to being here today i am

3
00:00:30,059 --> 00:00:38,488
adriana vm from spain partner from

4
00:00:33,539 --> 00:00:43,738
people and i want to begin my

5
00:00:38,488 --> 00:00:47,599
presentation just taking the last words

6
00:00:43,738 --> 00:00:52,439
of the pond we need to move forward and

7
00:00:47,600 --> 00:00:54,710
I must do my presentation so fast

8
00:00:52,439 --> 00:01:02,968
because we are running out of time so

9
00:00:54,710 --> 00:01:05,728
let's start we were just leaving a very

10
00:01:02,969 --> 00:01:08,760
special moment because we are just on

11
00:01:05,728 --> 00:01:13,530
the cutting edge of paradise eyes like

12
00:01:08,760 --> 00:01:25,680
the pancho villa's set before this man

13
00:01:13,530 --> 00:01:30,599
Rita woodland is a scientist sorry thank

14
00:01:25,680 --> 00:01:34,530
you Robert let's go as I said Rita

15
00:01:30,599 --> 00:01:39,509
Huglin it's a well-known scientist who

16
00:01:34,530 --> 00:01:44,430
work for NASA as a science advisor for

17
00:01:39,509 --> 00:01:47,640
more than 20 years and he wrote an

18
00:01:44,430 --> 00:01:51,659
amazing book this book is the mission

19
00:01:47,640 --> 00:01:56,129
and in the first couple of chapters of

20
00:01:51,659 --> 00:01:59,969
their mission he explains some things

21
00:01:56,129 --> 00:02:03,478
that are very interesting one of those

22
00:01:59,968 --> 00:02:05,759
things is that at the moment even the

23
00:02:03,478 --> 00:02:08,429
amateur astronomers are seeing things

24
00:02:05,759 --> 00:02:11,459
that she'll never be there we are

25
00:02:08,429 --> 00:02:12,180
talking about the moon ok the surface on

26
00:02:11,459 --> 00:02:15,799
the moon

27
00:02:12,180 --> 00:02:23,329
there is some some strange things and

28
00:02:15,799 --> 00:02:30,709
now anyone could see that kind of things

29

00:02:23,329 --> 00:02:35,700
okay also we have an interesting images

30
00:02:30,709 --> 00:02:39,389
of NASA of the American space agency of

31
00:02:35,699 --> 00:02:42,468
approves and the vehicles the main

32
00:02:39,389 --> 00:02:47,040
vehicles on the surface of Mars that

33
00:02:42,468 --> 00:02:52,168
there are many pictures were analyzed

34
00:02:47,039 --> 00:02:56,699
with people like like me like you in the

35
00:02:52,169 --> 00:03:01,169
house with simple programs with

36
00:02:56,699 --> 00:03:04,578
Photoshop and they found some very

37
00:03:01,169 --> 00:03:10,680
interesting evidence inside the pictures

38
00:03:04,579 --> 00:03:13,290
so what's happening it's happening that

39
00:03:10,680 --> 00:03:18,150
that kind of knowledge it's coming it's

40
00:03:13,289 --> 00:03:22,439
coming out at high speed okay no one can

41
00:03:18,150 --> 00:03:26,840
stop this kind of information this is

42
00:03:22,439 --> 00:03:31,709
coming out this is no way to come back

43
00:03:26,840 --> 00:03:37,699

we are here and we are making history at

44

00:03:31,709 --> 00:03:40,049
those years so also as Paula said

45

00:03:37,699 --> 00:03:45,290
insiders former Army members

46

00:03:40,049 --> 00:03:50,120
intelligence agents scientists who work

47

00:03:45,289 --> 00:03:54,568
in the so-called dark budget projects

48

00:03:50,120 --> 00:04:00,079
are talking about et contact amazing

49

00:03:54,568 --> 00:04:09,530
technologies like our partner of Denmark

50

00:04:00,079 --> 00:04:09,530
Freddy said before and sorry

51

00:04:09,789 --> 00:04:18,079
this the all the subjects are going in

52

00:04:14,840 --> 00:04:23,090
the same time are creating a situation

53

00:04:18,079 --> 00:04:28,009
that mainstream science is ready to go

54

00:04:23,089 --> 00:04:34,459
on on the subject recent discoveries

55

00:04:28,009 --> 00:04:38,660
like the new exoplanets by Kepler

56

00:04:34,459 --> 00:04:44,409
mission I even know if you know or you

57

00:04:38,660 --> 00:04:49,570
you know something about Gliese 581g

58
00:04:44,410 --> 00:04:57,110
yeah how many people heard about it Oh

59
00:04:49,569 --> 00:05:01,668
few people this planet is one of the

60
00:04:57,110 --> 00:05:04,280
fifty four planets that well known

61
00:05:01,668 --> 00:05:06,709
candidates to be planets with

62
00:05:04,279 --> 00:05:11,448
characteristics very similar to the

63
00:05:06,709 --> 00:05:15,649
earth okay we are talking about all the

64
00:05:11,449 --> 00:05:20,000
four months of analyze information of

65
00:05:15,649 --> 00:05:24,288
the Kepler mission and NASA is talking

66
00:05:20,000 --> 00:05:26,990
about 1,200 new planets candidates okay

67
00:05:24,288 --> 00:05:31,819
not planets confirm it only candidates

68
00:05:26,990 --> 00:05:36,550
II among this number there are forty

69
00:05:31,819 --> 00:05:43,459
fifty four candidates to be very similar

70
00:05:36,550 --> 00:05:47,389
with our earth okay and Gliese 581g it's

71
00:05:43,459 --> 00:05:50,629
one of the most interesting planets so

72
00:05:47,389 --> 00:05:53,900
there are huge with frogs in quantum

73
00:05:50,629 --> 00:05:57,918
physics and this is made possible the

74
00:05:53,899 --> 00:06:01,538
wrong soap called science fiction as

75
00:05:57,918 --> 00:06:05,000
Paula said because not this is not a

76
00:06:01,538 --> 00:06:07,519
science fiction is a science fact okay

77
00:06:05,000 --> 00:06:09,579
is the science fact working behind the

78
00:06:07,519 --> 00:06:09,579
scenes

79
00:06:10,720 --> 00:06:17,800
now we are living the contradiction okay

80
00:06:13,500 --> 00:06:19,509
every day surprisingly meanwhile the

81
00:06:17,800 --> 00:06:24,129
discoveries are happening the way

82
00:06:19,509 --> 00:06:27,009
majority ignores that discoveries a few

83
00:06:24,129 --> 00:06:31,480
moments ago we had talked with talk

84
00:06:27,009 --> 00:06:40,569
about glee's and I think five or six

85
00:06:31,480 --> 00:06:43,509
people here not a new about Greece so in

86

00:06:40,569 --> 00:06:49,180
general people there is not inform

87
00:06:43,509 --> 00:06:50,860
inform about this subject so people

88
00:06:49,180 --> 00:06:54,670
behind the scenes are using the

89
00:06:50,860 --> 00:06:58,360
so-called projected programming and the

90
00:06:54,670 --> 00:07:01,870
EM they are partying in inside the

91
00:06:58,360 --> 00:07:07,060
movies and series inside the science

92
00:07:01,870 --> 00:07:09,280
fiction the truth the inoculating the

93
00:07:07,060 --> 00:07:13,680
truth okay in order to manipulate

94
00:07:09,279 --> 00:07:16,418
emotions so when the right time comes

95
00:07:13,680 --> 00:07:22,720
people take the fiction reference to

96
00:07:16,418 --> 00:07:26,589
make decisions let's go to the reality

97
00:07:22,720 --> 00:07:29,970
for a moment for a while how they are

98
00:07:26,589 --> 00:07:33,699
releasing the truth you know about

99
00:07:29,970 --> 00:07:39,550
Ronald Reagan talking about aliens this

100
00:07:33,699 --> 00:07:44,228

subject this is 1987 at the United

101

00:07:39,550 --> 00:07:50,610
Nations and I think it's a more

102

00:07:44,228 --> 00:07:50,610
interesting if I show you the video of

103

00:07:51,149 --> 00:07:56,969
Ronald Reagan telling this this kind of

104

00:07:54,639 --> 00:07:56,969
issues

105

00:08:11,379 --> 00:08:15,569
so that's the cable

106

00:08:50,100 --> 00:08:58,480
okay we cut the video here that it is

107

00:08:55,000 --> 00:09:00,759
very interesting the words of a former

108

00:08:58,480 --> 00:09:06,459
president of United States in the middle

109

00:09:00,759 --> 00:09:10,059
of United Nations okay Paula talk or

110

00:09:06,458 --> 00:09:13,559
also about Werner von Braun and cuddle

111

00:09:10,059 --> 00:09:19,169
Rosen it's very interesting because

112

00:09:13,559 --> 00:09:23,500
Carol rose in 2001 made this segment and

113

00:09:19,169 --> 00:09:27,629
told us which is the game behind the

114

00:09:23,500 --> 00:09:32,620
scenes okay and also I think it's

115
00:09:27,629 --> 00:09:38,129
important to say to her to help the the

116
00:09:32,620 --> 00:09:38,129
words by the mouth of the Carol Rosen's

117
00:09:47,730 --> 00:09:55,089
school teacher I was introduced to the

118
00:09:50,589 --> 00:09:56,870
way he was around three in my first

119
00:09:55,089 --> 00:10:01,190
meeting with Helena

120
00:09:56,870 --> 00:10:05,659
hours he said to me help you build stop

121
00:10:01,190 --> 00:10:08,450
the organization of space and I said you

122
00:10:05,659 --> 00:10:10,969
know teachers don't stop until June he

123
00:10:08,450 --> 00:10:14,270
said no you have to understand this

124
00:10:10,970 --> 00:10:17,240
several women and we have to prevent the

125
00:10:14,269 --> 00:10:20,329
weaponization of space because there's a

126
00:10:17,240 --> 00:10:22,580
live being told to everyone that the

127
00:10:20,330 --> 00:10:24,710
Webster's asian of space is now Chris

128
00:10:22,580 --> 00:10:27,500
being based upon the Eagle Empire the

129
00:10:24,710 --> 00:10:29,360
Russians there may NBC set against who

130
00:10:27,500 --> 00:10:31,580
with Mayor Bill de space-based weapon

131
00:10:29,360 --> 00:10:34,039
system the first of those direction

132
00:10:31,580 --> 00:10:35,389
which was existing at iron then there

133
00:10:34,039 --> 00:10:37,250
could be terrorists then it would be

134
00:10:35,389 --> 00:10:40,730
third world countries now recall

135
00:10:37,250 --> 00:10:43,070
donations or nations of concern then

136
00:10:40,730 --> 00:10:46,430
there were the asteroids and then you

137
00:10:43,070 --> 00:10:49,970
would repeat to me over and over and the

138
00:10:46,429 --> 00:10:54,169
last car the last car the last car

139
00:10:49,970 --> 00:10:57,250
that's the dress real price the time

140
00:10:54,169 --> 00:10:57,250
Kevin laughs what

141
00:10:58,289 --> 00:11:07,389
okay and today this week then only this

142
00:11:05,889 --> 00:11:09,759
time I'm going to protect our satellites

143

00:11:07,389 --> 00:11:11,980
in other words we have some reasons but

144
00:11:09,759 --> 00:11:14,350
these trillions to waste these dollars

145
00:11:11,980 --> 00:11:17,680
on a space-based weapon system and

146
00:11:14,350 --> 00:11:20,500
they're all lies this is a system he

147
00:11:17,679 --> 00:11:22,449
told me that would never protect me even

148
00:11:20,500 --> 00:11:25,929
back then he talked about suitcase Sox

149
00:11:22,450 --> 00:11:28,810
you talk about chemical viral bacterial

150
00:11:25,929 --> 00:11:31,769
back biological warfare that these

151
00:11:28,809 --> 00:11:31,769
facing problems

152
00:11:32,799 --> 00:11:48,409
interesting information I think so now

153
00:11:43,519 --> 00:11:52,789
we move forward to the present or need

154
00:11:48,409 --> 00:11:55,509
the near present and I want to know how

155
00:11:52,789 --> 00:12:00,889
many people I know about Stephen Hawking

156
00:11:55,509 --> 00:12:05,899
statement yeah more people than the

157
00:12:00,889 --> 00:12:09,759

other time see see what what kind of a

158

00:12:05,899 --> 00:12:13,730

statement made one of the most reported

159

00:12:09,759 --> 00:12:18,559

physicists of the world we must fear ET

160

00:12:13,730 --> 00:12:22,750

contact most most well-known physicist

161

00:12:18,559 --> 00:12:26,449

opens the Pandora's box this is april

162

00:12:22,750 --> 00:12:30,789

2010 he released information at

163

00:12:26,450 --> 00:12:34,879

Discovery Channel serious I want to know

164

00:12:30,789 --> 00:12:39,769

how was the face of people seeing at the

165

00:12:34,879 --> 00:12:45,649

time Discovery Channel series amazing

166

00:12:39,769 --> 00:12:49,879

teacher I think this statement is in if

167

00:12:45,649 --> 00:12:52,309

aliens visit us the outcome will be much

168

00:12:49,879 --> 00:12:55,279

as when Columbus arrived to America

169

00:12:52,309 --> 00:13:01,639

which didn't turn so well for Native

170

00:12:55,279 --> 00:13:12,429

Americans whoa what kind of a student

171

00:13:01,639 --> 00:13:16,699

yes or harm so we are now January a 2011

172
00:13:12,429 --> 00:13:23,059
we are talking about the same the same

173
00:13:16,700 --> 00:13:28,879
issue hotel Paula and Ollie also and i'm

174
00:13:23,059 --> 00:13:37,369
interested in focused our attention no

175
00:13:28,879 --> 00:13:39,500
no not in the saudi arabia in step in

176
00:13:37,370 --> 00:13:42,490
the personalities and also the

177
00:13:39,500 --> 00:13:43,799
enterprise's investing and collaborating

178
00:13:42,490 --> 00:13:48,480
to do

179
00:13:43,799 --> 00:13:53,028
they cut this kind of event okay let me

180
00:13:48,480 --> 00:13:57,600
show you what do you think about it

181
00:13:53,028 --> 00:14:03,958
volkswagen Boing google Simmons the bin

182
00:13:57,600 --> 00:14:08,250
Laden group bin Laden group CNN national

183
00:14:03,958 --> 00:14:15,569
geographic okay well well Disney was on

184
00:14:08,250 --> 00:14:22,730
the first at first time I was that I saw

185
00:14:15,570 --> 00:14:28,290
the page but later it was wipe out of

186
00:14:22,730 --> 00:14:31,220
that patch okay but is really

187
00:14:28,289 --> 00:14:35,490
interesting what kind of enterprises are

188
00:14:31,220 --> 00:14:39,750
investing in that event okay and such

189
00:14:35,490 --> 00:14:50,539
kind of inter prices we're here they're

190
00:14:39,750 --> 00:14:50,539
sorry to to hear about it contact whoa

191
00:14:51,828 --> 00:15:01,669
then natural releasing information okay

192
00:14:55,970 --> 00:15:07,339
even know if you heard about the

193
00:15:01,669 --> 00:15:07,338
bacterial life found on earth december

194
00:15:07,490 --> 00:15:18,180
do you know about it yeah yeah i think

195
00:15:13,169 --> 00:15:21,000
that for sure that you didn't know the

196
00:15:18,179 --> 00:15:25,379
russian scientist said that the bacteria

197
00:15:21,000 --> 00:15:28,320
are not 18 and this kind of life is well

198
00:15:25,379 --> 00:15:31,850
known on earth for for many years okay

199
00:15:28,320 --> 00:15:36,240
and is for sure native of our planet so

200

00:15:31,850 --> 00:15:37,829
what the question is why when the world

201
00:15:36,240 --> 00:15:42,750
NASA's we'll listen this kind of

202
00:15:37,828 --> 00:15:46,078
information now at this time because

203
00:15:42,750 --> 00:15:50,039
this kind of information is so different

204
00:15:46,078 --> 00:15:53,709
of the normal politics of the American

205
00:15:50,039 --> 00:16:01,250
space agency so

206
00:15:53,710 --> 00:16:04,430
is so strange all together okay then the

207
00:16:01,250 --> 00:16:06,409
Royal Society the most ancient and

208
00:16:04,429 --> 00:16:11,079
prestigious scientific society talking

209
00:16:06,409 --> 00:16:13,490
about ET contact this is february 2011

210
00:16:11,080 --> 00:16:17,050
okay they are following the same lines

211
00:16:13,490 --> 00:16:21,889
of discussion like a Stephen Hawking why

212
00:16:17,049 --> 00:16:24,139
why now while writers of the articles I

213
00:16:21,889 --> 00:16:28,129
well known and famous scientists like

214
00:16:24,139 --> 00:16:31,840

Frank Drake of seti institute okay let's

215

00:16:28,129 --> 00:16:31,840

look some of the article titles

216

00:16:31,990 --> 00:16:39,590

implications of this of the discovery of

217

00:16:34,460 --> 00:16:41,660

a satirist alive for Elysium predicting

218

00:16:39,590 --> 00:16:45,460

what the extractor extraterrestrial will

219

00:16:41,659 --> 00:16:49,759

be like and preparing for the worst whoa

220

00:16:45,460 --> 00:16:52,400

whoa discovery of extraterrestrial life

221

00:16:49,759 --> 00:16:57,080

assessment by scales of its importance

222

00:16:52,399 --> 00:17:00,079

and associated risk the search for life

223

00:16:57,080 --> 00:17:06,199

in our solar system and implications for

224

00:17:00,080 --> 00:17:10,120

science society and so on but this is

225

00:17:06,199 --> 00:17:13,220

not the only the only issue here

226

00:17:10,119 --> 00:17:19,189

Hollywood is also doing is its own job

227

00:17:13,220 --> 00:17:22,900

now with it we talk about predictive

228

00:17:19,190 --> 00:17:29,360

programming in action same fiction as a

229
00:17:22,900 --> 00:17:32,690
way to set up a background for us to

230
00:17:29,359 --> 00:17:35,389
take in order to have a reference if the

231
00:17:32,690 --> 00:17:37,850
situation comes okay movies and TV

232
00:17:35,390 --> 00:17:41,180
series are showing it eighty contact as

233
00:17:37,849 --> 00:17:44,359
a conflict the regular argument is to

234
00:17:41,180 --> 00:17:46,990
wipe wipe out the human kind in order to

235
00:17:44,359 --> 00:17:49,969
take over the planet and it resources to

236
00:17:46,990 --> 00:17:54,289
this is the same argument that Stephen

237
00:17:49,970 --> 00:17:58,009
Hawking's see a set okay and the Royal

238
00:17:54,289 --> 00:18:00,440
Society now it's possible to watch

239
00:17:58,009 --> 00:18:05,559
movies on TV until serious like a

240
00:18:00,440 --> 00:18:07,440
skyline animation day event and so on

241
00:18:05,559 --> 00:18:16,288
the remake of

242
00:18:07,440 --> 00:18:19,110
of B so we are in very very interesting

243
00:18:16,288 --> 00:18:23,548
times because all this kind of

244
00:18:19,109 --> 00:18:27,359
information is coming out and this is an

245
00:18:23,548 --> 00:18:32,128
issue here because it seems to be like

246
00:18:27,359 --> 00:18:34,199
that certain kind of people and I'm not

247
00:18:32,128 --> 00:18:41,028
thinking that that is santaclaus

248
00:18:34,200 --> 00:18:44,308
preparing next Christmas okay certain

249
00:18:41,028 --> 00:18:48,179
kind of people and preparing a situation

250
00:18:44,308 --> 00:18:51,028
here with the people have the

251
00:18:48,179 --> 00:18:53,100
opportunity to decide which way we want

252
00:18:51,028 --> 00:18:55,589
to come out of this planet for the first

253
00:18:53,099 --> 00:18:59,219
time this is one of the issues if this

254
00:18:55,589 --> 00:19:02,720
information comes out fully disclosure

255
00:18:59,220 --> 00:19:06,120
not only the technological issue yeah

256
00:19:02,720 --> 00:19:10,429
this is this is also the spread of our

257

00:19:06,119 --> 00:19:13,408
humankind across the galaxy and beyond

258
00:19:10,429 --> 00:19:16,559
we can choose to be manipulated or to

259
00:19:13,409 --> 00:19:18,720
take an active role in history the

260
00:19:16,558 --> 00:19:21,388
starting point could be to find our own

261
00:19:18,720 --> 00:19:23,788
information like it once said before and

262
00:19:21,388 --> 00:19:26,369
not to expect into edit from the median

263
00:19:23,788 --> 00:19:30,480
because the media are the proper the

264
00:19:26,369 --> 00:19:33,839
property of someone who is ruling behind

265
00:19:30,480 --> 00:19:38,490
the scene Exopolitics also must play an

266
00:19:33,839 --> 00:19:40,740
active role in close x to come if we are

267
00:19:38,490 --> 00:19:45,628
to define a line of action to deal with

268
00:19:40,740 --> 00:19:49,079
this subject ok so my presentation is

269
00:19:45,628 --> 00:19:51,449
over thank you very much we are

270
00:19:49,079 --> 00:19:53,509
publicado abregado

271
00:19:51,450 --> 00:19:53,509

you
