

1  
00:00:00,030 --> 00:00:03,329  
all right I think we're going to get

2  
00:00:01,919 --> 00:00:06,209  
underway this press conference will not

3  
00:00:03,330 --> 00:00:08,160  
last a past 11 in fact it may end before

4  
00:00:06,209 --> 00:00:13,259  
11:00 all right we're gonna move very

5  
00:00:08,160 --> 00:00:15,990  
tightly first dr. Edgar Mitchell Apollo

6  
00:00:13,259 --> 00:00:18,420  
14 astronaut will speak to you for a few

7  
00:00:15,990 --> 00:00:23,368  
minutes and then immediately following

8  
00:00:18,420 --> 00:00:25,170  
that major Milton Torres US Air Force

9  
00:00:23,368 --> 00:00:27,629  
retired will speak to you for a few

10  
00:00:25,170 --> 00:00:30,920  
minutes and then you may ask questions

11  
00:00:27,629 --> 00:00:33,920  
of dr. Torres and dr. Mitchell after

12  
00:00:30,920 --> 00:00:38,160  
appropriate amount of questions then

13  
00:00:33,920 --> 00:00:40,710  
Nick Pope a former senior executive with

14  
00:00:38,159 --> 00:00:44,909  
the ministry of defense in the UK will

15  
00:00:40,710 --> 00:01:00,899  
speak to you for a few minutes and at

16  
00:00:44,909 --> 00:01:04,250  
one moment I had two extras someone who

17  
00:01:00,899 --> 00:01:04,250  
has that press release handed to Nick

18  
00:01:06,618 --> 00:01:13,650  
yes which someone give knit the press

19  
00:01:09,629 --> 00:01:15,829  
release play steady please please read

20  
00:01:13,650 --> 00:01:15,830  
that

21  
00:01:17,140 --> 00:01:22,210  
all right and thank you very good after

22  
00:01:20,890 --> 00:01:24,120  
Nick has taken some question then

23  
00:01:22,209 --> 00:01:26,439  
Richard Dolan will speak briefly about

24  
00:01:24,120 --> 00:01:28,210  
announcement about his second book very

25  
00:01:26,439 --> 00:01:30,219  
important book following up his first

26  
00:01:28,209 --> 00:01:32,739  
very important book and then Alfred

27  
00:01:30,219 --> 00:01:35,709  
Weber will speak briefly regarding a UN

28  
00:01:32,739 --> 00:01:39,669  
initiative that is making headway all

29

00:01:35,709 --> 00:01:41,949  
right and take two questions and then

30  
00:01:39,670 --> 00:01:43,920  
dr. Roger Leir will make a presentation

31  
00:01:41,950 --> 00:01:47,049  
regarding significant breakthrough and

32  
00:01:43,920 --> 00:01:50,200  
physical evidence research obviously

33  
00:01:47,049 --> 00:01:51,819  
related to this issue and then he will

34  
00:01:50,200 --> 00:01:54,070  
take questions and we will end we will

35  
00:01:51,819 --> 00:01:55,599  
not go past the 11:00 a.m. now the other

36  
00:01:54,069 --> 00:01:58,118  
thing I what excuse me would like to

37  
00:01:55,599 --> 00:02:00,069  
mention is that all of the speakers

38  
00:01:58,118 --> 00:02:02,859  
including dr. Mitchell dr. Torres Nick

39  
00:02:00,069 --> 00:02:04,959  
Pope and the others are definitely

40  
00:02:02,859 --> 00:02:07,359  
available for further interviews after

41  
00:02:04,959 --> 00:02:09,959  
the press conference is over I would be

42  
00:02:07,359 --> 00:02:14,169  
happy to talk with anybody at that time

43  
00:02:09,959 --> 00:02:30,780

so with that I'm going to move on one

44

00:02:14,169 --> 00:02:35,738

second I will now call to the podium a

45

00:02:30,780 --> 00:02:38,519

distinguished American a man who is in

46

00:02:35,739 --> 00:02:42,009

fact someone who has the right stuff

47

00:02:38,519 --> 00:02:44,879

which includes a doctorate in

48

00:02:42,009 --> 00:02:48,179

aeronautics and Astronautics from MIT

49

00:02:44,879 --> 00:02:51,310

selection to the NASA Apollo program

50

00:02:48,180 --> 00:02:54,310

selection to a NASA Apollo program moon

51

00:02:51,310 --> 00:02:57,640

mission selection to a NASA Apollo moon

52

00:02:54,310 --> 00:02:59,439

mission egress from the capsule on the

53

00:02:57,639 --> 00:03:03,159

moon

54

00:02:59,439 --> 00:03:05,829

returning to the to our world to write

55

00:03:03,159 --> 00:03:09,150

several books found the Institute of

56

00:03:05,829 --> 00:03:13,930

noetic Sciences develop a number of

57

00:03:09,150 --> 00:03:16,180

scientific exploration initiatives a man

58  
00:03:13,930 --> 00:03:18,519  
whose received far more Awards than I

59  
00:03:16,180 --> 00:03:20,769  
could possibly list here but which do

60  
00:03:18,519 --> 00:03:25,209  
include the Presidential Medal of

61  
00:03:20,769 --> 00:03:28,289  
Freedom nomination for the Nobel Peace

62  
00:03:25,209 --> 00:03:29,949  
Prize in a number of honorary doctorates

63  
00:03:28,289 --> 00:03:31,628  
and

64  
00:03:29,949 --> 00:03:33,280  
some things to say to you this morning I

65  
00:03:31,628 --> 00:03:45,189  
would like him to come forward now

66  
00:03:33,280 --> 00:03:46,318  
dr. Mitchell thank you very much for

67  
00:03:45,189 --> 00:03:49,989  
being here

68  
00:03:46,318 --> 00:03:54,429  
my story with regard to the disclosure

69  
00:03:49,989 --> 00:03:58,890  
process is very simple I grew up in

70  
00:03:54,430 --> 00:04:03,580  
Roswell New Mexico the site of the first

71  
00:03:58,889 --> 00:04:06,250  
UFO crash the alleged UFO crash and my

72  
00:04:03,580 --> 00:04:09,819  
story is as a result of growing up there

73  
00:04:06,250 --> 00:04:15,239  
I was a senior in high school just going

74  
00:04:09,818 --> 00:04:18,339  
into the my high my senior year in 1947

75  
00:04:15,239 --> 00:04:20,410  
when on one day the Raj will record

76  
00:04:18,339 --> 00:04:24,189  
announced that a alien craft had crashed

77  
00:04:20,410 --> 00:04:25,889  
and the next day changed that story and

78  
00:04:24,189 --> 00:04:30,790  
said no the Air Force said that was a

79  
00:04:25,889 --> 00:04:32,439  
weather balloon and since I was on my

80  
00:04:30,790 --> 00:04:34,000  
way to college and more incident know

81  
00:04:32,439 --> 00:04:39,360  
things I didn't pay much attention to it

82  
00:04:34,000 --> 00:04:42,100  
at that point in time however my family

83  
00:04:39,360 --> 00:04:46,449  
was in the agribusiness my grandfather

84  
00:04:42,100 --> 00:04:48,400  
was a cattle buyer and sold registered

85  
00:04:46,449 --> 00:04:51,819  
her proposed to the ranchers in the area

86

00:04:48,399 --> 00:04:56,009  
do everybody in the area and the Pecos

87  
00:04:51,819 --> 00:04:59,800  
Valley and beyond so cattle into Arizona

88  
00:04:56,009 --> 00:05:02,349  
Western Texas and was affectionately

89  
00:04:59,800 --> 00:05:07,389  
known as bull Mitchell in those parts

90  
00:05:02,350 --> 00:05:10,539  
and so it was not on surprising to me

91  
00:05:07,389 --> 00:05:16,629  
later on that the lore of the area of

92  
00:05:10,538 --> 00:05:18,538  
our friends and the people in Roswell

93  
00:05:16,629 --> 00:05:21,848  
just putting the Sheriff's Department

94  
00:05:18,538 --> 00:05:25,629  
any military friend of ours a major who

95  
00:05:21,848 --> 00:05:27,610  
was also turned out to be a friend of

96  
00:05:25,629 --> 00:05:31,870  
Jesse Marcel who was the first airforce

97  
00:05:27,610 --> 00:05:34,569  
officer on the site of the crash and

98  
00:05:31,870 --> 00:05:35,949  
this airforce officer was in

99  
00:05:34,569 --> 00:05:38,800  
administration he was not really

100  
00:05:35,949 --> 00:05:40,509

involved but he he eventually told me

101

00:05:38,800 --> 00:05:43,900

his story and that's how I became

102

00:05:40,509 --> 00:05:46,269

involved so after my Apollo

103

00:05:43,899 --> 00:05:49,448

I did very little I didn't knew nothing

104

00:05:46,269 --> 00:05:52,240

but the lore of the region up until that

105

00:05:49,449 --> 00:05:54,490

point but after my Apollo flight when I

106

00:05:52,240 --> 00:05:57,280

was back in the area and visiting

107

00:05:54,490 --> 00:06:01,269

relatives and friends some of the people

108

00:05:57,279 --> 00:06:04,059

in the area who had been involved what I

109

00:06:01,269 --> 00:06:09,189

call the old-timers who were involved in

110

00:06:04,060 --> 00:06:13,629

the 1940s 1947 and subsequent with the

111

00:06:09,189 --> 00:06:15,250

Roswell crash and people like in the

112

00:06:13,629 --> 00:06:19,110

Sheriff's Department who had been to the

113

00:06:15,250 --> 00:06:22,629

crash site and were supervising traffic

114

00:06:19,110 --> 00:06:26,439

my friends and friend of our family the

115  
00:06:22,629 --> 00:06:28,329  
major who was an office mate of in the

116  
00:06:26,439 --> 00:06:32,439  
administrative function at Walker Air

117  
00:06:28,329 --> 00:06:34,779  
Force Base these folks because they had

118  
00:06:32,439 --> 00:06:38,139  
been touched and told not to talk about

119  
00:06:34,779 --> 00:06:41,109  
their experience by military authority

120  
00:06:38,139 --> 00:06:46,060  
in those days and owned our consequence

121  
00:06:41,110 --> 00:06:49,930  
if they did felt that in here in the 70s

122  
00:06:46,060 --> 00:06:51,550  
many many years later that they didn't

123  
00:06:49,930 --> 00:06:53,379  
want to go to the grave with their story

124  
00:06:51,550 --> 00:06:56,590  
they wanted to tell somebody reliable

125  
00:06:53,379 --> 00:06:58,180  
and being a local boy and having been to

126  
00:06:56,589 --> 00:07:00,519  
the moon they considered me reliable

127  
00:06:58,180 --> 00:07:03,189  
enough to whisper in my ear their

128  
00:07:00,519 --> 00:07:06,329  
particular story and their association

129  
00:07:03,189 --> 00:07:09,129  
with the Roswell crash including the

130  
00:07:06,329 --> 00:07:13,569  
family of the Undertaker who provided

131  
00:07:09,129 --> 00:07:18,699  
coffins for the alleged alien victims

132  
00:07:13,569 --> 00:07:20,769  
and others on site who had been involved

133  
00:07:18,699 --> 00:07:22,930  
or knew the story and of course

134  
00:07:20,769 --> 00:07:27,788  
eventually and I ran into Jesse Marcel

135  
00:07:22,930 --> 00:07:29,978  
jr. the son of the Jesse Marcel who was

136  
00:07:27,788 --> 00:07:32,620  
the first military officer on the site

137  
00:07:29,978 --> 00:07:35,319  
and knew his story in a new history weld

138  
00:07:32,620 --> 00:07:39,280  
and we became friends in later years and

139  
00:07:35,319 --> 00:07:42,158  
this disclosure movement and at some

140  
00:07:39,279 --> 00:07:44,888  
point about ten years ago and I can't

141  
00:07:42,158 --> 00:07:47,810  
remember what date it was right now when

142  
00:07:44,889 --> 00:07:50,569  
the disclosure movement was under

143

00:07:47,810 --> 00:07:53,418  
going strongly I came here to Washington

144  
00:07:50,569 --> 00:07:58,099  
with a navy commander of the name of

145  
00:07:53,418 --> 00:07:59,689  
will Miller and dr. Steven Greer and we

146  
00:07:58,100 --> 00:08:02,750  
have were able to get an appointment at

147  
00:07:59,689 --> 00:08:04,699  
the Pentagon to talk about what we knew

148  
00:08:02,750 --> 00:08:07,009  
who are what we allegedly knew what we

149  
00:08:04,699 --> 00:08:11,870  
thought we knew and went and told our

150  
00:08:07,009 --> 00:08:15,500  
story and the powers would be at the

151  
00:08:11,870 --> 00:08:18,459  
Intelligence Committee of the Joint

152  
00:08:15,500 --> 00:08:23,660  
Chiefs of Staff listen to our story and

153  
00:08:18,459 --> 00:08:25,728  
said the Admiral said well I don't know

154  
00:08:23,660 --> 00:08:27,680  
that story I don't know that that's true

155  
00:08:25,728 --> 00:08:31,120  
but I will find out

156  
00:08:27,680 --> 00:08:35,719  
so we departed went on our way and

157  
00:08:31,120 --> 00:08:40,190

subsequently learned through dr. Greer

158

00:08:35,719 --> 00:08:43,849

and through will Miller and that those

159

00:08:40,190 --> 00:08:46,970

stories had been confirmed and that the

160

00:08:43,849 --> 00:08:50,600

Admiral had been denied access when he

161

00:08:46,970 --> 00:08:55,129

tried to get into the inner workings of

162

00:08:50,600 --> 00:08:58,040

that process and we had from

163

00:08:55,129 --> 00:09:00,799

confirmation of that although that

164

00:08:58,039 --> 00:09:04,969

Admiral now just denies the fact that

165

00:09:00,799 --> 00:09:08,809

this is the fact so my story is

166

00:09:04,970 --> 00:09:12,320

essentially that I do have no first-hand

167

00:09:08,809 --> 00:09:14,029

experience with the et effort except the

168

00:09:12,320 --> 00:09:15,980

fact that I know all of these research

169

00:09:14,029 --> 00:09:19,220

people that you'll hear from today and

170

00:09:15,980 --> 00:09:21,259

those some who are not here today who

171

00:09:19,220 --> 00:09:25,759

have spent a long amount of thier lives

172  
00:09:21,259 --> 00:09:29,210  
and time and doing research into the

173  
00:09:25,759 --> 00:09:32,990  
alien visitation UFO crashes and so

174  
00:09:29,210 --> 00:09:35,570  
forth and I urge that those who are

175  
00:09:32,990 --> 00:09:37,549  
doubtful read the books read the lore

176  
00:09:35,570 --> 00:09:39,890  
and start to understand what has really

177  
00:09:37,549 --> 00:09:43,338  
been going on because there is no doubt

178  
00:09:39,889 --> 00:09:45,458  
we are being visited and as a person who

179  
00:09:43,339 --> 00:09:48,740  
is a part of the first generation of

180  
00:09:45,458 --> 00:09:52,509  
being a space fair of our civilization

181  
00:09:48,740 --> 00:09:52,509  
and having gone to the moon and

182  
00:09:52,539 --> 00:09:58,189  
realizing that I do and many of us do

183  
00:09:55,549 --> 00:10:00,859  
now that are seeing the Hubble pictures

184  
00:09:58,190 --> 00:10:01,460  
from space the universe that we live in

185  
00:10:00,860 --> 00:10:04,039  
as much

186  
00:10:01,460 --> 00:10:06,889  
or wondrous exciting complex and

187  
00:10:04,039 --> 00:10:10,189  
far-reaching that we were ever able to

188  
00:10:06,889 --> 00:10:13,460  
know up to this point in time and the

189  
00:10:10,190 --> 00:10:16,070  
fact we have wondered were we alone in

190  
00:10:13,460 --> 00:10:18,709  
the universe forever only in our period

191  
00:10:16,070 --> 00:10:19,339  
do we really have evidence no we're not

192  
00:10:18,708 --> 00:10:21,979  
alone

193  
00:10:19,339 --> 00:10:25,250  
we're just one planet with intelligent

194  
00:10:21,980 --> 00:10:27,639  
life on it and probably it is time now

195  
00:10:25,250 --> 00:10:30,519  
that we are spacefarers on our planet

196  
00:10:27,639 --> 00:10:34,189  
that we get active because we're really

197  
00:10:30,519 --> 00:10:36,470  
universal beings and in the long stretch

198  
00:10:34,190 --> 00:10:39,620  
of things if we think about it in the

199  
00:10:36,470 --> 00:10:42,620  
longest possible range we've realized

200

00:10:39,620 --> 00:10:46,250  
and I realize this from my studies that

201  
00:10:42,620 --> 00:10:49,490  
astronomy and astrophysics our Sun will

202  
00:10:46,250 --> 00:10:51,320  
burn out in due course and we have to be

203  
00:10:49,490 --> 00:10:55,070  
off this planet if we're our species is

204  
00:10:51,320 --> 00:10:57,500  
to survive so anybody any species any

205  
00:10:55,070 --> 00:11:00,050  
planet that is on around the mainstream

206  
00:10:57,500 --> 00:11:02,839  
star like ours is only has a finite

207  
00:11:00,049 --> 00:11:03,588  
amount of time on that star before it

208  
00:11:02,839 --> 00:11:07,730  
burns out

209  
00:11:03,589 --> 00:11:09,890  
and so our destiny in my opinion and we

210  
00:11:07,730 --> 00:11:13,100  
might as well get started with it it's

211  
00:11:09,889 --> 00:11:17,449  
become a part of the planetary community

212  
00:11:13,100 --> 00:11:21,740  
of nation of planets just like when we

213  
00:11:17,450 --> 00:11:23,660  
were much newer on this planet and we

214  
00:11:21,740 --> 00:11:26,060

found tribes over the next Valley or

215

00:11:23,659 --> 00:11:28,759

across the next mountains and we started

216

00:11:26,059 --> 00:11:32,229

forming communities then and reaching

217

00:11:28,759 --> 00:11:35,990

out beyond ourselves at this point in

218

00:11:32,230 --> 00:11:39,050

human history on this planet we're now

219

00:11:35,990 --> 00:11:41,629

starting and ready should be to reach

220

00:11:39,049 --> 00:11:44,179

out beyond our planet and beyond our

221

00:11:41,629 --> 00:11:48,409

solar system to find out what is really

222

00:11:44,179 --> 00:11:51,889

going on out there and the 20th and 21st

223

00:11:48,409 --> 00:11:53,689

century that we now live in the

224

00:11:51,889 --> 00:11:55,610

beginning of the the Industrial

225

00:11:53,690 --> 00:11:58,310

Revolution really didn't take off until

226

00:11:55,610 --> 00:12:00,620

the 19th century and that tell the story

227

00:11:58,309 --> 00:12:03,169

just some of my younger audiences

228

00:12:00,620 --> 00:12:04,879

particularly in schools that my

229  
00:12:03,169 --> 00:12:06,559  
great-grandparents went across from

230  
00:12:04,879 --> 00:12:08,899  
South Georgia is a West Texas in a

231  
00:12:06,559 --> 00:12:14,199  
covered wagon at the end of the Civil

232  
00:12:08,899 --> 00:12:14,200  
War in the 1870s

233  
00:12:14,208 --> 00:12:19,768  
my family my father's generation was

234  
00:12:18,000 --> 00:12:22,318  
involved with going off the planet in

235  
00:12:19,769 --> 00:12:24,139  
aircraft in less than a hundred years

236  
00:12:22,318 --> 00:12:26,789  
later I went to the moon

237  
00:12:24,139 --> 00:12:29,818  
so some covered wagons are going to the

238  
00:12:26,789 --> 00:12:31,679  
moon in less than a hundred years is a

239  
00:12:29,818 --> 00:12:36,059  
history of the development of our

240  
00:12:31,679 --> 00:12:39,088  
civilization in not our lifetime but a

241  
00:12:36,059 --> 00:12:41,659  
couple of generations and so it's time

242  
00:12:39,089 --> 00:12:45,089  
to start thinking in those terms and

243  
00:12:41,659 --> 00:12:47,759  
particularly since now in the 20th and

244  
00:12:45,089 --> 00:12:51,269  
21st century we suddenly find that due

245  
00:12:47,759 --> 00:12:55,019  
to our expertise and our genius and

246  
00:12:51,269 --> 00:12:57,929  
science and technology we have exploded

247  
00:12:55,019 --> 00:12:59,818  
our population from under two billion at

248  
00:12:57,929 --> 00:13:01,378  
the beginning of the 20th century it

249  
00:12:59,818 --> 00:13:04,229  
over six and a half billion at this

250  
00:13:01,379 --> 00:13:06,990  
point and our consumption patterns are

251  
00:13:04,230 --> 00:13:10,199  
clearly indicating that we are utilizing

252  
00:13:06,990 --> 00:13:12,889  
our non-renewable resources at an

253  
00:13:10,198 --> 00:13:15,568  
unacceptable rate a non sustainable rate

254  
00:13:12,889 --> 00:13:17,009  
so we've got a lot of thinking to be

255  
00:13:15,568 --> 00:13:19,828  
about what being an advanced

256  
00:13:17,009 --> 00:13:21,629  
civilization really means but let's put

257

00:13:19,828 --> 00:13:24,239  
all that aside for a moment because here

258  
00:13:21,629 --> 00:13:27,680  
to talk about disclosure and what I am

259  
00:13:24,240 --> 00:13:35,730  
suggesting is it is now time to put away

260  
00:13:27,679 --> 00:13:38,159  
this embargo of truth about the alien

261  
00:13:35,730 --> 00:13:41,789  
presence and I call upon our government

262  
00:13:38,159 --> 00:13:42,929  
to open up like other governments have

263  
00:13:41,789 --> 00:13:43,349  
and you will hear about that this

264  
00:13:42,929 --> 00:13:45,539  
morning

265  
00:13:43,350 --> 00:13:48,389  
like the Belgians have the French have

266  
00:13:45,539 --> 00:13:50,308  
the Brazilians have the Argentine's the

267  
00:13:48,389 --> 00:13:53,039  
Mexicans have all released their files

268  
00:13:50,308 --> 00:13:55,679  
it's about time now that we do the same

269  
00:13:53,039 --> 00:13:59,849  
thing and become a part of this

270  
00:13:55,679 --> 00:14:03,269  
planetary community that is now trying

271  
00:13:59,850 --> 00:14:05,069

to take our proper role as spacefaring

272

00:14:03,269 --> 00:14:07,669

civilization thank you very much for

273

00:14:05,068 --> 00:14:07,669

your patience

274

00:14:10,999 --> 00:14:16,980

all right I would not like to bring like

275

00:14:14,399 --> 00:14:22,499

a bring forward Thank You comments dr.

276

00:14:16,980 --> 00:14:25,470

Milton Torres dr. Torres all right a

277

00:14:22,499 --> 00:14:26,850

little slow by the way dr. Torres and

278

00:14:25,470 --> 00:14:34,559

dr. Mitchell about a year and a half

279

00:14:26,850 --> 00:14:40,860

apart as a matter of fact we never met

280

00:14:34,558 --> 00:14:42,719

until today or this session when he

281

00:14:40,860 --> 00:14:44,459

launched I was there I was chief of

282

00:14:42,720 --> 00:14:46,470

arrange control of the time Cape Kennedy

283

00:14:44,458 --> 00:14:49,618

it's amazing how you work your way up

284

00:14:46,470 --> 00:14:53,670

and he went to the moon I just said

285

00:14:49,619 --> 00:14:55,829

there watched him I'm gonna make a real

286  
00:14:53,669 --> 00:14:57,539  
brief one on my biology and my

287  
00:14:55,828 --> 00:15:01,618  
biographer or whatever you want to call

288  
00:14:57,539 --> 00:15:05,669  
it my father was born in Key West in

289  
00:15:01,619 --> 00:15:08,548  
1888 he went north to New York to make

290  
00:15:05,669 --> 00:15:11,128  
his fortune whatever it was well he was

291  
00:15:08,548 --> 00:15:15,088  
getting kind of old and he sided well I

292  
00:15:11,129 --> 00:15:18,539  
want to go back home to Florida so he

293  
00:15:15,089 --> 00:15:22,350  
took him back in 1950 to Florida and

294  
00:15:18,539 --> 00:15:25,318  
there I stayed until the Korean War when

295  
00:15:22,350 --> 00:15:27,899  
the Korean broke War broke out I said

296  
00:15:25,318 --> 00:15:29,818  
geez I want to fly I don't want I don't

297  
00:15:27,899 --> 00:15:34,168  
want to go into the army I don't like

298  
00:15:29,818 --> 00:15:36,539  
laying in mud so so I went to the Air

299  
00:15:34,168 --> 00:15:40,379  
Force and it said sign me up and they

300  
00:15:36,539 --> 00:15:42,118  
did I didn't know that I was a luckiest

301  
00:15:40,379 --> 00:15:44,579  
guy in the world when I was in the Air

302  
00:15:42,119 --> 00:15:45,119  
Force they said would you like to be a

303  
00:15:44,578 --> 00:15:48,868  
pilot

304  
00:15:45,119 --> 00:15:52,860  
boy the greatest thing I had no college

305  
00:15:48,869 --> 00:15:55,350  
had nothing and I volunteered and lo and

306  
00:15:52,860 --> 00:15:57,808  
behold I was in the top of my class not

307  
00:15:55,350 --> 00:16:01,199  
the very topic you know right number 10

308  
00:15:57,808 --> 00:16:03,889  
or something like that but we would have

309  
00:16:01,198 --> 00:16:06,808  
our choice of airplanes when we

310  
00:16:03,889 --> 00:16:07,649  
graduated from flight training and I

311  
00:16:06,808 --> 00:16:11,100  
picked a fighter

312  
00:16:07,649 --> 00:16:13,558  
I wanted to f-86 F to go to Korea and

313  
00:16:11,100 --> 00:16:16,139  
shoot down some ace I mean that that's

314

00:16:13,558 --> 00:16:18,509  
the way it was in those days they

315  
00:16:16,139 --> 00:16:21,178  
disappointed me in one sense they gave

316  
00:16:18,509 --> 00:16:22,230  
me an f-86 but not enough I gave me the

317  
00:16:21,178 --> 00:16:24,870  
D model

318  
00:16:22,230 --> 00:16:27,500  
the D model was a new all-weather

319  
00:16:24,870 --> 00:16:33,659  
version so that we can have somebody

320  
00:16:27,500 --> 00:16:37,080  
launch an alert to go after the bad guys

321  
00:16:33,659 --> 00:16:40,139  
whoever they may be coming in they they

322  
00:16:37,080 --> 00:16:43,830  
they equipped us with nice radar set so

323  
00:16:40,139 --> 00:16:48,240  
we can tell everything from from on an

324  
00:16:43,830 --> 00:16:53,550  
interceptor and my first assignment out

325  
00:16:48,240 --> 00:16:56,250  
of f-86d school was RAF station Manston

326  
00:16:53,549 --> 00:17:00,329  
don't forget it's with oldest base in

327  
00:16:56,250 --> 00:17:06,809  
England and the RAF I carry it right

328  
00:17:00,330 --> 00:17:09,680

here bottom line we finally became

329

00:17:06,809 --> 00:17:13,559

combat ready we went down to Tripoli

330

00:17:09,680 --> 00:17:14,940

Willis f4 space fired rocketry so we got

331

00:17:13,559 --> 00:17:17,369

pretty damn good at shooting down

332

00:17:14,940 --> 00:17:22,049

whatever is this gonna come get us

333

00:17:17,369 --> 00:17:25,679

so they sent us back so he to England

334

00:17:22,049 --> 00:17:28,740

and we became combat ready which meant

335

00:17:25,680 --> 00:17:31,590

we have we were going to share with the

336

00:17:28,740 --> 00:17:34,170

RAF the defense of Britain during the

337

00:17:31,589 --> 00:17:37,289

Cold War years the reason they sent the

338

00:17:34,170 --> 00:17:39,539

f-86 over there because none of you had

339

00:17:37,289 --> 00:17:41,430

to fly weather like like they have in

340

00:17:39,539 --> 00:17:45,690

England but they have it from the ground

341

00:17:41,430 --> 00:17:47,880

up it's infinity and it's a solid it's

342

00:17:45,690 --> 00:17:50,250

like what they call a piece of fog

343  
00:17:47,880 --> 00:17:52,410  
I can't I couldn't I had a Buick at the

344  
00:17:50,250 --> 00:17:54,240  
time I couldn't see my hood ornament

345  
00:17:52,410 --> 00:17:58,080  
most of the time because it was just

346  
00:17:54,240 --> 00:18:02,220  
that bad anyway we they were selected us

347  
00:17:58,079 --> 00:18:04,220  
to sit alert and we sat alert we said

348  
00:18:02,220 --> 00:18:08,069  
we're sitting on the end of the runway

349  
00:18:04,220 --> 00:18:10,559  
and mind you the runway in advance and

350  
00:18:08,069 --> 00:18:13,319  
Manson was a recovery base for all the

351  
00:18:10,559 --> 00:18:15,419  
bombers in World War two when they got

352  
00:18:13,319 --> 00:18:17,369  
shot up and they got shot up they've

353  
00:18:15,420 --> 00:18:19,920  
brought up and Manson was the very first

354  
00:18:17,369 --> 00:18:22,079  
place they'd see in England because it's

355  
00:18:19,920 --> 00:18:25,380  
just north of Dover on the Thames

356  
00:18:22,079 --> 00:18:28,500  
Estuary and it's just huge runway which

357  
00:18:25,380 --> 00:18:32,400  
is 750 feet wide you don't find those

358  
00:18:28,500 --> 00:18:33,779  
anymore and that that was such a wide

359  
00:18:32,400 --> 00:18:34,380  
runway you could take a whole squadron

360  
00:18:33,779 --> 00:18:37,410  
off

361  
00:18:34,380 --> 00:18:39,540  
same time that for takeoff which we

362  
00:18:37,410 --> 00:18:42,930  
didn't do but we went off two at a time

363  
00:18:39,539 --> 00:18:45,839  
usually but the bottom line was we're

364  
00:18:42,930 --> 00:18:49,470  
sitting at large and sure enough the

365  
00:18:45,839 --> 00:18:51,779  
klaxon goes off and was scrambled and we

366  
00:18:49,470 --> 00:18:54,329  
had a kind of a deal monster fighter

367  
00:18:51,779 --> 00:18:57,569  
pilots the first one to the air the

368  
00:18:54,329 --> 00:19:00,059  
runway is the lead I he liked it to be

369  
00:18:57,569 --> 00:19:01,980  
the first and I got there anyway you got

370  
00:19:00,059 --> 00:19:04,589  
when I got there and took off they

371

00:19:01,980 --> 00:19:07,110  
scrambled it they said adding a zero to

372  
00:19:04,589 --> 00:19:10,199  
zero and they gave us the frequency of

373  
00:19:07,109 --> 00:19:13,799  
gzi and said contact UCI when you're

374  
00:19:10,200 --> 00:19:17,970  
airborne I did and when I did and mind

375  
00:19:13,799 --> 00:19:21,029  
you I was only 25 years old I was you

376  
00:19:17,970 --> 00:19:23,819  
know a kid so to speak when when they

377  
00:19:21,029 --> 00:19:24,809  
call or when I talked to the GC I we

378  
00:19:23,819 --> 00:19:28,230  
were gonna warn you

379  
00:19:24,809 --> 00:19:29,789  
we're going to have a hot mission you

380  
00:19:28,230 --> 00:19:32,099  
will have to fire all your rockets

381  
00:19:29,789 --> 00:19:36,539  
select 24 that's all that's all the

382  
00:19:32,099 --> 00:19:39,539  
Rockets we had 24 and I boy that that

383  
00:19:36,539 --> 00:19:42,059  
ever scared the hell out of me anyway I

384  
00:19:39,539 --> 00:19:44,220  
reached down selected the 24 rockets

385  
00:19:42,059 --> 00:19:47,700

like they said and then I said you know

386

00:19:44,220 --> 00:19:49,500

this is serious I'm going to go through

387

00:19:47,700 --> 00:19:52,170

the authentication procedure please give

388

00:19:49,500 --> 00:19:56,579

me the authentication code because when

389

00:19:52,170 --> 00:19:58,320

I was USAF on an RAF mission to shoot

390

00:19:56,579 --> 00:20:00,869

down whatever it was I was going to go

391

00:19:58,319 --> 00:20:03,569

after so they gave me the correct

392

00:20:00,869 --> 00:20:07,019

authentication which we had a top-secret

393

00:20:03,569 --> 00:20:10,049

piece of paper with a matrix on it so it

394

00:20:07,019 --> 00:20:13,259

would depending on the time and where

395

00:20:10,049 --> 00:20:16,919

you were you go down and he gets three

396

00:20:13,259 --> 00:20:19,079

letters and ABC and they come back X Y Z

397

00:20:16,920 --> 00:20:21,960

or whatever it was because I sure don't

398

00:20:19,079 --> 00:20:24,569

remember I was so spooked at a rate that

399

00:20:21,960 --> 00:20:27,779

meant it was for real I was in

400  
00:20:24,569 --> 00:20:30,569  
afterburner and I said I'd like to come

401  
00:20:27,779 --> 00:20:34,170  
out of afterburner it said no go gate

402  
00:20:30,569 --> 00:20:36,929  
stay gate that was the symbol for going

403  
00:20:34,170 --> 00:20:39,180  
after burner because we want you get

404  
00:20:36,930 --> 00:20:41,460  
this guy he's been orbiting if switch

405  
00:20:39,180 --> 00:20:44,640  
and he wasn't in that area and we're

406  
00:20:41,460 --> 00:20:46,240  
going to get you there it took us out

407  
00:20:44,640 --> 00:20:49,470  
over England

408  
00:20:46,240 --> 00:20:52,990  
over France I'm sorry and turn this back

409  
00:20:49,470 --> 00:20:55,420  
the firing heading was some around three

410  
00:20:52,990 --> 00:20:57,609  
five zero something like that but that's

411  
00:20:55,420 --> 00:20:59,620  
not important what's important is we

412  
00:20:57,609 --> 00:21:01,359  
were in the soup and I mean it was solid

413  
00:20:59,619 --> 00:21:03,879  
it was two thirty two thousand feet and

414  
00:21:01,359 --> 00:21:06,939  
we never saw each other I had my wingman

415  
00:21:03,880 --> 00:21:09,760  
with me until until we broke off and he

416  
00:21:06,940 --> 00:21:12,759  
went in trail with me and if you ask me

417  
00:21:09,759 --> 00:21:15,329  
who my wingman is I don't remember his

418  
00:21:12,759 --> 00:21:19,390  
name it was a new guy in the squadron

419  
00:21:15,329 --> 00:21:22,269  
that was the end of that but anyway on

420  
00:21:19,390 --> 00:21:24,280  
the way up we were they were positioning

421  
00:21:22,269 --> 00:21:28,359  
us to make this intercept on this

422  
00:21:24,279 --> 00:21:30,639  
orbiting vehicle apparently somebody

423  
00:21:28,359 --> 00:21:34,029  
made a decision to shoot him down before

424  
00:21:30,640 --> 00:21:35,740  
I was launched I didn't know that but he

425  
00:21:34,029 --> 00:21:37,720  
they finally here was our final vector

426  
00:21:35,740 --> 00:21:39,549  
we went in there and they said be

427  
00:21:37,720 --> 00:21:43,750  
advised you'll have a bogey in 32

428

00:21:39,549 --> 00:21:47,109  
degrees at 15 miles on the port side and

429  
00:21:43,750 --> 00:21:50,650  
sure enough when I started penny I got

430  
00:21:47,109 --> 00:21:52,269  
this blob I was not a blip as a blob it

431  
00:21:50,650 --> 00:21:55,120  
was about the size you get of an

432  
00:21:52,269 --> 00:21:57,549  
aircraft carrier in the North Sea when

433  
00:21:55,119 --> 00:21:58,329  
you when you was painted them this was

434  
00:21:57,549 --> 00:22:01,359  
humongous

435  
00:21:58,329 --> 00:22:02,799  
for me it was so strong that it

436  
00:22:01,359 --> 00:22:05,109  
literally I didn't have to do anything

437  
00:22:02,799 --> 00:22:08,019  
to lock-on except get the range gate

438  
00:22:05,109 --> 00:22:09,669  
marker near where the blip was and boy

439  
00:22:08,019 --> 00:22:11,920  
when it did it just automatically the

440  
00:22:09,670 --> 00:22:14,500  
lights went out everything you know and

441  
00:22:11,920 --> 00:22:17,100  
you had firing information already it

442  
00:22:14,500 --> 00:22:22,769

was one of those things that just was a

443

00:22:17,099 --> 00:22:27,099

storybook fight so I was going in and at

444

00:22:22,769 --> 00:22:30,279

20 seconds to go we on the lock-on we

445

00:22:27,099 --> 00:22:32,319

start our final penetrations of fire now

446

00:22:30,279 --> 00:22:35,500

the the information we get from the

447

00:22:32,319 --> 00:22:38,289

radar says this guy was going fast at

448

00:22:35,500 --> 00:22:40,539

this time he was going about maybe a

449

00:22:38,289 --> 00:22:43,659

hundred knots faster than I was and I

450

00:22:40,539 --> 00:22:46,058

was at Martin point 92 which was all the

451

00:22:43,660 --> 00:22:51,190

f-86d can do it's not like the modern

452

00:22:46,058 --> 00:22:53,710

Jets but anyway as I was going in and I

453

00:22:51,190 --> 00:22:57,100

had a strong good steering information I

454

00:22:53,710 --> 00:22:59,039

was expecting what we call the last

455

00:22:57,099 --> 00:23:01,679

phase the phase 3

456

00:22:59,039 --> 00:23:03,750

where you get a line all the circles

457  
00:23:01,680 --> 00:23:05,730  
disappear and use all you have to do is

458  
00:23:03,750 --> 00:23:07,890  
take a little dot and put it on that

459  
00:23:05,730 --> 00:23:10,380  
line and keep your finger on the trigger

460  
00:23:07,890 --> 00:23:12,960  
well sure enough I started getting down

461  
00:23:10,380 --> 00:23:14,970  
there ready to fire and I know the

462  
00:23:12,960 --> 00:23:18,289  
circle started coming down and the next

463  
00:23:14,970 --> 00:23:21,930  
thing I know the overtake went from

464  
00:23:18,289 --> 00:23:25,440  
whatever was my speed it was about a

465  
00:23:21,930 --> 00:23:30,560  
thousand nuts something like that so if

466  
00:23:25,440 --> 00:23:34,350  
he to off estimated about ten of Mach 10

467  
00:23:30,559 --> 00:23:36,149  
in an airplane instead you go Mach 10

468  
00:23:34,349 --> 00:23:39,359  
you know airplanes will go to mark 10

469  
00:23:36,150 --> 00:23:41,610  
not that I haven't be seen and this was

470  
00:23:39,359 --> 00:23:43,619  
never made up by a human being this was

471  
00:23:41,609 --> 00:23:45,599  
something that was totally different no

472  
00:23:43,619 --> 00:23:48,929  
I never said he could do things that I

473  
00:23:45,599 --> 00:23:50,429  
couldn't do he could stop and start and

474  
00:23:48,930 --> 00:23:52,590  
keep going in everything else but he

475  
00:23:50,430 --> 00:23:54,480  
took off and he took off and had two

476  
00:23:52,589 --> 00:23:56,939  
sweeps on the ground he was off their

477  
00:23:54,480 --> 00:23:59,490  
scope he was off my sculpt sooner than

478  
00:23:56,940 --> 00:24:01,680  
that but as soon as that that happened

479  
00:23:59,490 --> 00:24:07,079  
the mission was over and I couldn't fire

480  
00:24:01,680 --> 00:24:09,450  
so another way down the GC I controlled

481  
00:24:07,079 --> 00:24:10,949  
says contact us on the landline we have

482  
00:24:09,450 --> 00:24:13,590  
very important information for you I

483  
00:24:10,950 --> 00:24:16,230  
said you Roger and I did that I'm

484  
00:24:13,589 --> 00:24:19,889  
recovered at mansion the weather was so

485

00:24:16,230 --> 00:24:23,400  
bad it was still night and I had an

486  
00:24:19,890 --> 00:24:27,120  
entire mission with night weather which

487  
00:24:23,400 --> 00:24:30,120  
is Jul times on your under 405 anyway I

488  
00:24:27,119 --> 00:24:32,250  
got down right to the phone called a

489  
00:24:30,119 --> 00:24:35,939  
landline they said this is a top-secret

490  
00:24:32,250 --> 00:24:37,829  
mission I don't know why but that's what

491  
00:24:35,940 --> 00:24:39,240  
it was and it says you're not to talk

492  
00:24:37,829 --> 00:24:42,569  
about it we're gonna send someone down

493  
00:24:39,240 --> 00:24:44,309  
from London to talk to indeed brief you

494  
00:24:42,569 --> 00:24:49,019  
tomorrow I said yes sir

495  
00:24:44,309 --> 00:24:51,690  
thank you and sure enough the next day a

496  
00:24:49,019 --> 00:24:53,730  
spook you notice focus focus there's

497  
00:24:51,690 --> 00:24:55,350  
some guy from cloak-and-dagger but

498  
00:24:53,730 --> 00:24:57,450  
what's the debrief you on something I

499  
00:24:55,349 --> 00:25:00,539

don't know what the hell it was you know

500

00:24:57,450 --> 00:25:02,700

I gotta tell him so anyway he says I

501

00:25:00,539 --> 00:25:05,099

want you to know this is top secret

502

00:25:02,700 --> 00:25:06,610

mission you're not allowed to tell your

503

00:25:05,099 --> 00:25:10,209

commander or any

504

00:25:06,609 --> 00:25:12,250

one else anything about this or we will

505

00:25:10,210 --> 00:25:14,259

take your wings away you know when

506

00:25:12,250 --> 00:25:16,089

you're 25 years old and you want to

507

00:25:14,259 --> 00:25:18,700

start flying you don't want to hear that

508

00:25:16,089 --> 00:25:20,529

so I put a zipper on my mouth and that

509

00:25:18,700 --> 00:25:23,890

was the end of that I could never talk

510

00:25:20,529 --> 00:25:27,160

about it again until next Pope's people

511

00:25:23,890 --> 00:25:32,590

from the Ministry of Defense they call

512

00:25:27,160 --> 00:25:38,380

it mod mo d like our DoD were exposed

513

00:25:32,589 --> 00:25:40,659

all of their data on October 21st I

514  
00:25:38,380 --> 00:25:43,809  
remember because I got a warning from a

515  
00:25:40,660 --> 00:25:48,279  
friend of mine in England that I would

516  
00:25:43,808 --> 00:25:50,950  
be exposed on my mission on October 21st

517  
00:25:48,279 --> 00:25:54,099  
sure enough the phone started ringing it

518  
00:25:50,950 --> 00:25:57,640  
rang for four days non-stop this is the

519  
00:25:54,099 --> 00:26:01,329  
London Times this is so-and-so ABC NBC

520  
00:25:57,640 --> 00:26:04,660  
name it's this is CNN's on anyway make a

521  
00:26:01,329 --> 00:26:07,210  
long story short I mean now able to talk

522  
00:26:04,660 --> 00:26:09,610  
about my experience that I just told you

523  
00:26:07,210 --> 00:26:15,548  
about I know nothing about it

524  
00:26:09,609 --> 00:26:17,529  
I held that for my father who's a

525  
00:26:15,548 --> 00:26:19,929  
hundred twenty-one years old of you so

526  
00:26:17,529 --> 00:26:20,710  
live but I never could tell them about

527  
00:26:19,929 --> 00:26:26,950  
that

528  
00:26:20,710 --> 00:26:29,980  
anyway I'm sorry I'm just recollection

529  
00:26:26,950 --> 00:26:36,910  
it's such a relief to so let me know

530  
00:26:29,980 --> 00:26:39,429  
that I can talk about this no I'm all

531  
00:26:36,910 --> 00:26:44,940  
right I'm okay I just I just think my

532  
00:26:39,429 --> 00:26:48,100  
father anyway

533  
00:26:44,940 --> 00:26:50,320  
disclosure is what we need there are

534  
00:26:48,099 --> 00:26:52,298  
many more people like me that are

535  
00:26:50,319 --> 00:26:54,339  
running around with secrets they can't

536  
00:26:52,298 --> 00:26:56,619  
talk about because nobody will release

537  
00:26:54,339 --> 00:26:58,509  
it and I think we should get together

538  
00:26:56,619 --> 00:27:00,428  
even with the Russians because I sure

539  
00:26:58,509 --> 00:27:03,009  
they know a lot more about these aliens

540  
00:27:00,429 --> 00:27:05,769  
than we do but it's a really important

541  
00:27:03,009 --> 00:27:08,769  
thing for us to know about this thing so

542

00:27:05,769 --> 00:27:11,740  
we can go forward they have a technology

543  
00:27:08,769 --> 00:27:13,660  
that we haven't even dreamt of I'm sure

544  
00:27:11,740 --> 00:27:15,519  
their per person system was something

545  
00:27:13,660 --> 00:27:17,500  
like anti-gravity or something like that

546  
00:27:15,519 --> 00:27:19,000  
cause they could stop on a dime thing

547  
00:27:17,500 --> 00:27:21,430  
and take off at Mach 10

548  
00:27:19,000 --> 00:27:25,180  
greater it's unbelievable what they can

549  
00:27:21,430 --> 00:27:27,610  
do so we need to know these things so

550  
00:27:25,180 --> 00:27:28,360  
you know the only reason I'm here is to

551  
00:27:27,609 --> 00:27:30,639  
tell you

552  
00:27:28,359 --> 00:27:41,199  
let's disclose this whenever we can't

553  
00:27:30,640 --> 00:27:45,670  
please all right very good

554  
00:27:41,200 --> 00:27:48,090  
now I just taught obviously we have a

555  
00:27:45,670 --> 00:27:50,560  
lot of the public here today I never

556  
00:27:48,089 --> 00:27:52,869

enthusiastic about the issue we also

557

00:27:50,559 --> 00:27:54,849

have some very objective impartial and

558

00:27:52,869 --> 00:27:56,349

biased press here as well all right now

559

00:27:54,849 --> 00:27:58,419

do what any of the media like to ask

560

00:27:56,349 --> 00:28:11,889

either of these gentlemen a question at

561

00:27:58,420 --> 00:28:15,070

this point any of the reporters the

562

00:28:11,890 --> 00:28:19,180

essent was Sh was that the rodgero event

563

00:28:15,069 --> 00:28:21,819

was an alien craft that it was not of

564

00:28:19,180 --> 00:28:24,580

this planet that's the essence what they

565

00:28:21,819 --> 00:28:27,849

really told me was their particular each

566

00:28:24,579 --> 00:28:30,089

one of them had some particular part of

567

00:28:27,849 --> 00:28:32,889

it like a sheriff's deputy was

568

00:28:30,089 --> 00:28:36,240

controlling traffic but heard from what

569

00:28:32,890 --> 00:28:39,220

the other people what was going on the

570

00:28:36,240 --> 00:28:41,859

family of the Undertaker told about the

571  
00:28:39,220 --> 00:28:45,370  
small coffins that were created for the

572  
00:28:41,859 --> 00:28:47,919  
alien bodies and my Air Force family

573  
00:28:45,369 --> 00:28:54,489  
friend said yes he had heard the same

574  
00:28:47,920 --> 00:28:56,470  
thing from major Brazell and each one of

575  
00:28:54,490 --> 00:28:58,660  
them just told what their portion of the

576  
00:28:56,470 --> 00:29:01,360  
activity was all about so putting it all

577  
00:28:58,660 --> 00:29:06,370  
together the sum total was yes it was an

578  
00:29:01,359 --> 00:29:09,209  
alien spacecraft another question from

579  
00:29:06,369 --> 00:29:09,209  
the media at this time

580  
00:29:09,430 --> 00:29:14,259  
you happy right now obviously the these

581  
00:29:12,190 --> 00:29:15,640  
gentlemen are be available for further

582  
00:29:14,259 --> 00:29:29,950  
questions afterwards which I know is

583  
00:29:15,640 --> 00:29:32,590  
customarily what happens no I have

584  
00:29:29,950 --> 00:29:35,500  
talked to all of the astronauts up

585  
00:29:32,589 --> 00:29:37,750  
through the Apollo program and the only

586  
00:29:35,500 --> 00:29:40,089  
ones that have had UFO experience were

587  
00:29:37,750 --> 00:29:42,849  
in their Air Force careers where like

588  
00:29:40,089 --> 00:29:45,309  
this plane gentlemen were vectored to

589  
00:29:42,849 --> 00:29:47,169  
chase chase of UFO never quite made it

590  
00:29:45,309 --> 00:29:49,119  
couldn't quite get them in their sights

591  
00:29:47,170 --> 00:29:51,009  
or whatever and that was deke Slayton

592  
00:29:49,119 --> 00:29:53,319  
and Gordon Cooper had his experience

593  
00:29:51,009 --> 00:29:55,109  
that's been well recited about seeing

594  
00:29:53,319 --> 00:29:57,339  
one land at Edwards Air Force Base

595  
00:29:55,109 --> 00:30:00,099  
seeing the pictures of it suddenly the

596  
00:29:57,339 --> 00:30:02,459  
picture disappeared into the vaults of

597  
00:30:00,099 --> 00:30:06,849  
Washington and never returned but the

598  
00:30:02,460 --> 00:30:09,039  
people the military people that had UFO

599

00:30:06,849 --> 00:30:11,529  
experience where Miller in their

600  
00:30:09,039 --> 00:30:13,960  
airforce careers before the astronaut

601  
00:30:11,529 --> 00:30:16,269  
program and of course being a military

602  
00:30:13,960 --> 00:30:18,220  
and a Navy pilot myself the stories

603  
00:30:16,269 --> 00:30:20,079  
among airline pilots and other pilots

604  
00:30:18,220 --> 00:30:23,319  
this they're just all over the places

605  
00:30:20,079 --> 00:30:26,529  
and we're all told shut up about it I

606  
00:30:23,319 --> 00:30:28,990  
never had never chased one myself but

607  
00:30:26,529 --> 00:30:32,980  
all my friends that did where it was all

608  
00:30:28,990 --> 00:30:34,480  
the same thing don't talk about let me

609  
00:30:32,980 --> 00:30:35,890  
point out that I lied to you earlier

610  
00:30:34,480 --> 00:30:38,019  
when I said we would end no later than

611  
00:30:35,890 --> 00:30:39,340  
11:00 a.m. we will go past that because

612  
00:30:38,019 --> 00:30:40,690  
we didn't get started late and there's

613  
00:30:39,339 --> 00:30:43,209

so many people here

614

00:30:40,690 --> 00:30:46,299

sue me all right now I want to make a

615

00:30:43,210 --> 00:30:48,880

point both of the gentlemen I think the

616

00:30:46,299 --> 00:30:50,019

news here today is because this this

617

00:30:48,880 --> 00:30:51,760

gentleman was interviewed back in

618

00:30:50,019 --> 00:30:53,740

October that's not new so but the news

619

00:30:51,759 --> 00:30:56,349

today is both of these gentlemen are

620

00:30:53,740 --> 00:30:58,000

calling on the obviously since you want

621

00:30:56,349 --> 00:31:00,490

this done now they're calling on the

622

00:30:58,000 --> 00:31:03,160

current administration to do this bomb

623

00:31:00,490 --> 00:31:04,630

administration to exercise the

624

00:31:03,160 --> 00:31:06,880

disclosure event to bring the

625

00:31:04,630 --> 00:31:09,130

information out and perhaps confirm the

626

00:31:06,880 --> 00:31:11,980

extra-terrestrial presence but they're

627

00:31:09,130 --> 00:31:14,110

not alone in that if you do a cursory

628  
00:31:11,980 --> 00:31:16,599  
check on the internet you can easily

629  
00:31:14,109 --> 00:31:18,069  
find that the former head of the

630  
00:31:16,599 --> 00:31:19,929  
transition team for the current

631  
00:31:18,069 --> 00:31:21,399  
president the former chief of staff to

632  
00:31:19,930 --> 00:31:22,900  
President Clinton the former adviser to

633  
00:31:21,400 --> 00:31:23,230  
President Clinton John Podesta and now

634  
00:31:22,900 --> 00:31:25,210  
the

635  
00:31:23,230 --> 00:31:29,528  
founder and the CEO of the Center for

636  
00:31:25,210 --> 00:31:32,740  
American Progress has in this room 2003

637  
00:31:29,528 --> 00:31:34,359  
and in Alissa Gorham 2002 called for

638  
00:31:32,740 --> 00:31:36,159  
exactly the same thing the release of

639  
00:31:34,359 --> 00:31:38,709  
all UFO documents by the United States

640  
00:31:36,159 --> 00:31:41,350  
government pretty high-level person said

641  
00:31:38,710 --> 00:31:43,058  
that but there just wasn't enough press

642  
00:31:41,349 --> 00:31:44,888  
follow up on that what they didn't

643  
00:31:43,058 --> 00:31:48,759  
really query him they did not go deeper

644  
00:31:44,888 --> 00:31:51,028  
perhaps they will now then in 2004 a

645  
00:31:48,759 --> 00:31:53,888  
very fine gentleman who is currently the

646  
00:31:51,028 --> 00:31:56,888  
governor of New Mexico who ran for

647  
00:31:53,888 --> 00:31:59,788  
president was a high-level and possible

648  
00:31:56,888 --> 00:32:02,500  
vice presidential pick Bill Richardson

649  
00:31:59,788 --> 00:32:04,658  
wrote in a foreword to a book published

650  
00:32:02,500 --> 00:32:06,308  
that year in the summer that the

651  
00:32:04,659 --> 00:32:08,799  
Rossville explanation put forward by the

652  
00:32:06,308 --> 00:32:11,319  
government didn't add up that it didn't

653  
00:32:08,798 --> 00:32:14,048  
make sense and that we needed to know

654  
00:32:11,319 --> 00:32:16,178  
what happened and he called for the

655  
00:32:14,048 --> 00:32:18,730  
release of all the records on Roswell

656

00:32:16,179 --> 00:32:21,639  
pretty high-level person the press did

657  
00:32:18,730 --> 00:32:23,528  
not follow up there was a question asked

658  
00:32:21,638 --> 00:32:25,089  
of him by Chris Matthews after the

659  
00:32:23,528 --> 00:32:29,109  
philadelphia debate in the democratic

660  
00:32:25,089 --> 00:32:32,349  
debates last year and that was that well

661  
00:32:29,109 --> 00:32:36,609  
we're back and there will be others who

662  
00:32:32,349 --> 00:32:38,528  
will ask again will you release these

663  
00:32:36,609 --> 00:32:40,209  
records will you release all documents

664  
00:32:38,528 --> 00:32:44,169  
will in fact you get to the truth of

665  
00:32:40,210 --> 00:32:48,308  
this all right so if you would nope dr.

666  
00:32:44,169 --> 00:32:50,788  
Mitchell you would take your seats it's

667  
00:32:48,308 --> 00:32:50,788  
person

668  
00:32:54,200 --> 00:32:59,730  
all right the next person who come up

669  
00:32:57,058 --> 00:33:01,740  
will be Nick Pope for many years worked

670  
00:32:59,730 --> 00:33:03,870

for the Ministry of Defense in the

671

00:33:01,740 --> 00:33:06,329

United Kingdom he was a senior executive

672

00:33:03,869 --> 00:33:07,589

officer and for two years was

673

00:33:06,329 --> 00:33:10,859

specifically assigned to investigate

674

00:33:07,589 --> 00:33:12,928

UFOs for the Ministry of Defence I'm not

675

00:33:10,859 --> 00:33:15,028

sure that really anybody and has had

676

00:33:12,929 --> 00:33:16,230

that role here and certainly in the

677

00:33:15,028 --> 00:33:19,169

United States governments than nothing

678

00:33:16,230 --> 00:33:21,659

in that since 1968 when they said there

679

00:33:19,169 --> 00:33:23,009

was nothing to check anymore obviously

680

00:33:21,659 --> 00:33:24,419

he's done this quite more recently so

681

00:33:23,009 --> 00:33:27,599

apparently UK government seems to be a

682

00:33:24,419 --> 00:33:30,210

little more diligent about this and the

683

00:33:27,599 --> 00:33:32,009

reason he is here is because the UK

684

00:33:30,210 --> 00:33:33,630

government made a decision right after

685  
00:33:32,009 --> 00:33:37,919  
the French government started releasing

686  
00:33:33,630 --> 00:33:40,169  
all of their files to the Internet to

687  
00:33:37,919 --> 00:33:41,909  
start releasing the UK files and they've

688  
00:33:40,169 --> 00:33:43,679  
done it in a time-release fashion so

689  
00:33:41,909 --> 00:33:44,730  
they're releasing thousands of files and

690  
00:33:43,679 --> 00:33:46,230  
then they'll wait six months and

691  
00:33:44,730 --> 00:33:48,390  
thousands more and then each time they

692  
00:33:46,230 --> 00:33:50,220  
do that it generates a whole new cycle

693  
00:33:48,390 --> 00:33:52,169  
again as various reports come out

694  
00:33:50,220 --> 00:33:53,579  
alluding to events that happened in the

695  
00:33:52,169 --> 00:33:56,190  
news articles about these events all

696  
00:33:53,579 --> 00:33:58,379  
over the UK generating hundreds and

697  
00:33:56,190 --> 00:34:00,240  
hundreds of articles this has generated

698  
00:33:58,380 --> 00:34:02,429  
a lot of press in the UK a lot of

699  
00:34:00,240 --> 00:34:03,630  
activity there's a lot going on and this

700  
00:34:02,429 --> 00:34:06,210  
gentleman has been in the middle of it

701  
00:34:03,630 --> 00:34:08,309  
all and so we want him to brief you

702  
00:34:06,210 --> 00:34:10,820  
about that and so Nick will you come to

703  
00:34:08,309 --> 00:34:10,820  
the mic please

704  
00:34:14,789 --> 00:34:22,199  
thank you good morning I worked for the

705  
00:34:18,579 --> 00:34:27,639  
Ministry of Defence for 21 years and

706  
00:34:22,199 --> 00:34:30,069  
between 1991 and 1994 I was actually the

707  
00:34:27,639 --> 00:34:34,990  
person responsible for investigating UFO

708  
00:34:30,070 --> 00:34:37,599  
sightings 95% of them turned out after

709  
00:34:34,989 --> 00:34:39,908  
investigation to be misidentifications

710  
00:34:37,599 --> 00:34:43,690  
of fairly ordinary objects and phenomena

711  
00:34:39,909 --> 00:34:45,550  
but there were some interesting cases in

712  
00:34:43,690 --> 00:34:48,039  
there including sightings by police

713

00:34:45,550 --> 00:34:51,839  
officers pilots both commercial and

714  
00:34:48,039 --> 00:34:54,969  
military UFO sightings tracked on radar

715  
00:34:51,838 --> 00:34:57,699  
as Steve said the British government is

716  
00:34:54,969 --> 00:34:59,949  
in the process of releasing its entire

717  
00:34:57,699 --> 00:35:01,899  
archive of UFO FILES

718  
00:34:59,949 --> 00:35:04,299  
and one can now go to the Ministry of

719  
00:35:01,900 --> 00:35:07,030  
Defence website the National Archives

720  
00:35:04,300 --> 00:35:11,380  
website and see tens of thousands of

721  
00:35:07,030 --> 00:35:15,099  
pages of documentation most of the fight

722  
00:35:11,380 --> 00:35:18,250  
the files are sighting reports but there

723  
00:35:15,099 --> 00:35:21,160  
are also policy papers including some

724  
00:35:18,250 --> 00:35:24,400  
classified up to the level secret UK is

725  
00:35:21,159 --> 00:35:26,858  
only now Declassified of course there

726  
00:35:24,400 --> 00:35:31,030  
have been three batches of files

727  
00:35:26,858 --> 00:35:35,319

released to date and it was the last

728

00:35:31,030 --> 00:35:37,480

batch of files that died me the last but

729

00:35:35,320 --> 00:35:41,940

one batch of files that included the

730

00:35:37,480 --> 00:35:46,659

report of major Milton Torres's sighting

731

00:35:41,940 --> 00:35:48,490

UFO sightings in Britain continued there

732

00:35:46,659 --> 00:35:51,039

were twice as many reported to the

733

00:35:48,489 --> 00:35:55,269

Ministry of Defence in 2008 as opposed

734

00:35:51,039 --> 00:35:58,599

to 2007 cases included an interesting

735

00:35:55,269 --> 00:36:00,940

one on 2nd of May last year where a

736

00:35:58,599 --> 00:36:03,789

police helicopter had to take evasive

737

00:36:00,940 --> 00:36:06,849

action to avoid what the pilot described

738

00:36:03,789 --> 00:36:10,179

as a UFO and again this report can be

739

00:36:06,849 --> 00:36:14,109

read on the website of the air procs

740

00:36:10,179 --> 00:36:16,659

board err proxies air proximity and it's

741

00:36:14,108 --> 00:36:18,880

jointly sponsored by the Ministry of

742  
00:36:16,659 --> 00:36:23,219  
Defence and the Civil Aviation Authority

743  
00:36:18,880 --> 00:36:26,289  
which is the UK equivalent of your FAA

744  
00:36:23,219 --> 00:36:28,129  
bottom line from a personal point of

745  
00:36:26,289 --> 00:36:31,279  
view having worked on on

746  
00:36:28,130 --> 00:36:35,119  
files for three years I don't know what

747  
00:36:31,280 --> 00:36:38,750  
UFOs are but when one looks at cases

748  
00:36:35,119 --> 00:36:40,789  
such as that of major Torres and many

749  
00:36:38,750 --> 00:36:43,969  
others because there have been others

750  
00:36:40,789 --> 00:36:45,739  
when one looks at the police helicopter

751  
00:36:43,969 --> 00:36:48,019  
and the pilot having to take evasive

752  
00:36:45,739 --> 00:36:49,519  
action it's perfectly clear to me and

753  
00:36:48,019 --> 00:36:51,980  
was clear to a number of my other

754  
00:36:49,519 --> 00:36:55,750  
colleagues that whatever the true nature

755  
00:36:51,980 --> 00:36:59,300  
of the UFO phenomenon it raises

756  
00:36:55,750 --> 00:37:02,449  
important Defense national security and

757  
00:36:59,300 --> 00:37:04,390  
air safety issues and therefore needs to

758  
00:37:02,449 --> 00:37:06,799  
be something taken seriously and

759  
00:37:04,389 --> 00:37:14,179  
investigated in a proper scientific

760  
00:37:06,800 --> 00:37:17,150  
manner thank you at this time are there

761  
00:37:14,179 --> 00:37:19,909  
any any questions directed for Nick from

762  
00:37:17,150 --> 00:37:21,410  
the media do we have a question okay he

763  
00:37:19,909 --> 00:37:26,889  
will be available afterwards I do have a

764  
00:37:21,409 --> 00:37:26,889  
question myself Nick oh yes right there

765  
00:37:34,210 --> 00:37:40,369  
I'm not aware of that but one possible

766  
00:37:38,420 --> 00:37:43,519  
example we had a very convincing

767  
00:37:40,369 --> 00:37:45,259  
photograph sent to us which was actually

768  
00:37:43,519 --> 00:37:47,509  
on my office wall for a number of years

769  
00:37:45,260 --> 00:37:49,400  
and I remember going to discuss that

770

00:37:47,510 --> 00:37:52,390  
with my opposite number in the Defense

771  
00:37:49,400 --> 00:37:55,130  
Intelligence staff and whilst there was

772  
00:37:52,389 --> 00:37:58,309  
nothing to work with except the image

773  
00:37:55,130 --> 00:38:01,190  
obviously by looking by showing that

774  
00:37:58,309 --> 00:38:03,980  
image to the technical specialists at

775  
00:38:01,190 --> 00:38:06,200  
not who who were responsible for

776  
00:38:03,980 --> 00:38:08,240  
photographic interpretation there was a

777  
00:38:06,199 --> 00:38:10,789  
hope that we would at least be able to

778  
00:38:08,239 --> 00:38:13,039  
find out something about the

779  
00:38:10,789 --> 00:38:15,500  
aerodynamics and possibly the propulsion

780  
00:38:13,039 --> 00:38:30,289  
system of whatever this thing was and we

781  
00:38:15,500 --> 00:38:32,510  
didn't know I can't recall any other

782  
00:38:30,289 --> 00:38:34,369  
shoot-down orders of course there have

783  
00:38:32,510 --> 00:38:40,220  
been a couple of other very famous cases

784  
00:38:34,369 --> 00:38:42,259

from other countries Iran in 1976 Peru

785

00:38:40,219 --> 00:38:44,989  
in in 19

786

00:38:42,260 --> 00:38:48,590  
there have certainly been cases where

787

00:38:44,989 --> 00:38:52,159  
commercial airline pilots have had very

788

00:38:48,590 --> 00:38:55,579  
near misses with UFOs one of the reports

789

00:38:52,159 --> 00:38:59,210  
in in the second batch of material

790

00:38:55,579 --> 00:39:02,619  
involved an aircraft with 57 passengers

791

00:38:59,210 --> 00:39:05,960  
on board flying into London and

792

00:39:02,619 --> 00:39:09,319  
something flashed across at a height of

793

00:39:05,960 --> 00:39:11,570  
about 22,000 feet and the pilot simply

794

00:39:09,320 --> 00:39:13,280  
had time to say look out look out so

795

00:39:11,570 --> 00:39:15,440  
that there are a number of near misses

796

00:39:13,280 --> 00:39:18,410  
involving military aircraft and

797

00:39:15,440 --> 00:39:20,900  
commercial pilots I'm not aware of any

798

00:39:18,409 --> 00:39:22,909  
other shoot-down orders in the UK but

799  
00:39:20,900 --> 00:39:24,800  
there may well have been them there may

800  
00:39:22,909 --> 00:39:38,119  
have been some files that that I missed

801  
00:39:24,800 --> 00:39:41,269  
during my my tour of duty no I left the

802  
00:39:38,119 --> 00:39:43,489  
Ministry of Defence I resigned in 2006

803  
00:39:41,269 --> 00:39:46,190  
so I'm speaking entirely in a personal

804  
00:39:43,489 --> 00:39:49,189  
capacity that said of course I'm drawing

805  
00:39:46,190 --> 00:40:03,889  
on declassified material from the mo DS

806  
00:39:49,190 --> 00:40:07,400  
archives I do have a counterpart who's

807  
00:40:03,889 --> 00:40:09,289  
still there but any contact with the

808  
00:40:07,400 --> 00:40:12,130  
media would need to be through the mo DS

809  
00:40:09,289 --> 00:40:12,130  
press office

810  
00:40:23,239 --> 00:40:29,549  
no we didn't one of the first things

811  
00:40:26,579 --> 00:40:31,560  
that I did was trying to establish lines

812  
00:40:29,550 --> 00:40:34,410  
of communication with an opposite number

813  
00:40:31,559 --> 00:40:37,440  
in in the US but I was told after

814  
00:40:34,409 --> 00:40:40,920  
inquiries through the embassy that there

815  
00:40:37,440 --> 00:40:42,510  
was no official UFO project in in the US

816  
00:40:40,920 --> 00:40:44,700  
following the closure of Project Blue

817  
00:40:42,510 --> 00:40:47,849  
Book we did have one or two indications

818  
00:40:44,699 --> 00:40:50,399  
that notwithstanding the fact that there

819  
00:40:47,849 --> 00:40:53,280  
wasn't a formally constituted project

820  
00:40:50,400 --> 00:40:55,619  
that that people were at some level

821  
00:40:53,280 --> 00:40:58,170  
paying attention to this issue but that

822  
00:40:55,619 --> 00:41:00,930  
may have been on a case-by-case basis

823  
00:40:58,170 --> 00:41:03,769  
but of course I would find it personally

824  
00:41:00,929 --> 00:41:05,789  
very surprising particularly 9/11 if

825  
00:41:03,769 --> 00:41:07,559  
somebody somewhere in the US

826  
00:41:05,789 --> 00:41:09,568  
administration wasn't looking at the

827

00:41:07,559 --> 00:41:12,869  
more interesting cases that I I know you

828  
00:41:09,568 --> 00:41:30,480  
do have involving pilot sightings radar

829  
00:41:12,869 --> 00:41:32,480  
returns etc I think that my combination

830  
00:41:30,480 --> 00:41:35,190  
of security clearance and need-to-know

831  
00:41:32,480 --> 00:41:38,789  
during that time would have given me

832  
00:41:35,190 --> 00:41:43,079  
access had there been such a thing and I

833  
00:41:38,789 --> 00:41:44,940  
think even if in my dealings with the

834  
00:41:43,079 --> 00:41:47,579  
Defense Intelligence staff if there had

835  
00:41:44,940 --> 00:41:50,338  
been something like that I like to think

836  
00:41:47,579 --> 00:41:52,859  
that I would have got some hint but I I

837  
00:41:50,338 --> 00:41:54,838  
got absolutely no hint of course I can't

838  
00:41:52,858 --> 00:41:57,960  
I can't prove a negative but as far as

839  
00:41:54,838 --> 00:42:01,170  
I'm concerned my colleagues and I in the

840  
00:41:57,960 --> 00:42:03,119  
British government were not aware of the

841  
00:42:01,170 --> 00:42:04,800

nature of the UFO phenomenon we found it

842

00:42:03,119 --> 00:42:10,769

interesting but the bottom line was we

843

00:42:04,800 --> 00:42:12,539

didn't know what it was well classified

844

00:42:10,769 --> 00:42:15,030

it's not some of the more highly

845

00:42:12,539 --> 00:42:18,449

classified documents on UFOs of course

846

00:42:15,030 --> 00:42:19,670

relate not not to to extraterrestrial

847

00:42:18,449 --> 00:42:22,230

spacecraft but to for example

848

00:42:19,670 --> 00:42:24,869

information about the capability of

849

00:42:22,230 --> 00:42:29,369

military radar systems information that

850

00:42:24,869 --> 00:42:32,960

would if released show methods and

851

00:42:29,369 --> 00:42:32,960

sources of gathering intelligence

852

00:42:33,068 --> 00:42:41,108

about the boys cases the Bentwaters case

853

00:42:38,768 --> 00:42:45,008

from December 1980 yes I mean that's

854

00:42:41,108 --> 00:42:48,400

that's Britain's most compelling UFO

855

00:42:45,009 --> 00:42:50,858

incident the case file on that was the

856  
00:42:48,400 --> 00:42:54,219  
subject of a targeted foi in reliefs

857  
00:42:50,858 --> 00:42:56,949  
actually back in 2001 so the release of

858  
00:42:54,219 --> 00:42:59,380  
that file which is in now in the public

859  
00:42:56,949 --> 00:43:01,539  
domain actually predates the policy

860  
00:42:59,380 --> 00:43:08,199  
decision to open the archive in in the

861  
00:43:01,539 --> 00:43:11,160  
wider sense after four additional

862  
00:43:08,199 --> 00:43:11,159  
questions thank you very much

863  
00:43:12,880 --> 00:43:21,249  
it's it's clear that the pilot sightings

864  
00:43:19,509 --> 00:43:25,289  
are extremely important and I want to

865  
00:43:21,248 --> 00:43:27,418  
point out that Richard Haines was

866  
00:43:25,289 --> 00:43:30,160  
instrumental for many years in compiling

867  
00:43:27,418 --> 00:43:32,588  
the largest database of pilot sightings

868  
00:43:30,159 --> 00:43:35,018  
in the world at one point was at 3,500

869  
00:43:32,588 --> 00:43:36,578  
Lord knows where it is now he he worked

870  
00:43:35,018 --> 00:43:37,088  
for NASA for many years I believe he's

871  
00:43:36,579 --> 00:43:39,400  
retired

872  
00:43:37,088 --> 00:43:40,929  
I believe that database is now in the

873  
00:43:39,400 --> 00:43:43,239  
hands of night car it's a group that

874  
00:43:40,929 --> 00:43:45,429  
deals with the issue of this phenomena

875  
00:43:43,239 --> 00:43:48,400  
and aerial safety very professional

876  
00:43:45,429 --> 00:43:51,519  
operation how many they have now I do

877  
00:43:48,400 --> 00:43:53,229  
not know but I know that because dr.

878  
00:43:51,518 --> 00:43:55,958  
Haines was doing that many many many

879  
00:43:53,228 --> 00:43:59,348  
pilots who could not speak anywhere else

880  
00:43:55,958 --> 00:44:00,908  
would come and give them the report and

881  
00:43:59,349 --> 00:44:02,469  
they might very well be an anonymous in

882  
00:44:00,909 --> 00:44:04,599  
that but but they had a place to go and

883  
00:44:02,469 --> 00:44:07,329  
talk I don't think that dr. Torres knew

884

00:44:04,599 --> 00:44:10,390  
that and so that database is probably

885  
00:44:07,329 --> 00:44:14,439  
and I feel very likely the single most

886  
00:44:10,389 --> 00:44:15,908  
profound collection of data confirming

887  
00:44:14,438 --> 00:44:17,768  
the the the presence of

888  
00:44:15,909 --> 00:44:20,949  
extraterrestrials because these reports

889  
00:44:17,768 --> 00:44:23,828  
simply do not describe human-based craft

890  
00:44:20,949 --> 00:44:26,139  
in the collective but the press has been

891  
00:44:23,829 --> 00:44:27,849  
very reluctant to really go and look at

892  
00:44:26,139 --> 00:44:29,618  
that but it's there it's been there for

893  
00:44:27,849 --> 00:44:31,028  
many years you may want to do that all

894  
00:44:29,619 --> 00:44:33,219  
right now I'm going to bring to the

895  
00:44:31,028 --> 00:44:36,518  
stand a gentleman who is again one of

896  
00:44:33,219 --> 00:44:37,568  
the speakers at the X conference who has

897  
00:44:36,518 --> 00:44:41,068  
a new book coming out and wants to

898  
00:44:37,568 --> 00:44:41,068

mention that Richard Dolan

899

00:44:44,800 --> 00:44:49,580

Thank You Steven and good morning my

900

00:44:47,750 --> 00:44:52,699

name is Richard dole and I am the author

901

00:44:49,579 --> 00:44:55,610

of a study entitled UFOs in the national

902

00:44:52,699 --> 00:44:58,399

security state I'm happy to announce the

903

00:44:55,610 --> 00:45:00,680

publication of the second volume of this

904

00:44:58,400 --> 00:45:02,510

three-volume history which covers the

905

00:45:00,679 --> 00:45:05,869

UFO phenomenon from the Second World War

906

00:45:02,510 --> 00:45:08,870

to the present day this new study

907

00:45:05,869 --> 00:45:11,269

subtitled the cover-up exposed is due

908

00:45:08,869 --> 00:45:15,400

for release in the late spring of 2009

909

00:45:11,269 --> 00:45:18,559

it covers the years 1973 to 1991 a

910

00:45:15,400 --> 00:45:20,480

period of time spanning from the Nixon

911

00:45:18,559 --> 00:45:22,190

administration through the collapse of

912

00:45:20,480 --> 00:45:25,940

the Soviet Union and the end of the Cold

913  
00:45:22,190 --> 00:45:28,340  
War using archival sources from the

914  
00:45:25,940 --> 00:45:29,990  
United States and Canadian National

915  
00:45:28,340 --> 00:45:32,180  
Archives professional journals and

916  
00:45:29,989 --> 00:45:34,969  
direct investigations and personal

917  
00:45:32,179 --> 00:45:36,769  
interviews that I've conducted the 600

918  
00:45:34,969 --> 00:45:40,219  
page study provides a comprehensive

919  
00:45:36,769 --> 00:45:43,179  
analysis of the critical UFO encounters

920  
00:45:40,219 --> 00:45:45,829  
by military and civilians worldwide

921  
00:45:43,179 --> 00:45:48,639  
these encounters all thoroughly

922  
00:45:45,829 --> 00:45:51,440  
documented and equally baffling

923  
00:45:48,639 --> 00:45:55,250  
repeatedly demonstrate that the UFO

924  
00:45:51,440 --> 00:45:57,470  
phenomenon has been a global one and the

925  
00:45:55,250 --> 00:45:59,119  
result of highly advanced technology

926  
00:45:57,469 --> 00:46:02,409  
that has received no official

927  
00:45:59,119 --> 00:46:05,690  
recognition in many of these cases

928  
00:46:02,409 --> 00:46:08,000  
involved the violation of sensitive US

929  
00:46:05,690 --> 00:46:10,570  
military airspace as well as that of

930  
00:46:08,000 --> 00:46:13,550  
other nations some of these include the

931  
00:46:10,570 --> 00:46:17,600  
unexplained intrusions over American and

932  
00:46:13,550 --> 00:46:20,390  
Canadian air bases in late 1975 the

933  
00:46:17,599 --> 00:46:24,230  
spectacular interception attempts of a

934  
00:46:20,389 --> 00:46:26,960  
UFO over Tehran in Iran in 1976 an event

935  
00:46:24,230 --> 00:46:29,809  
tracked by American defense satellites

936  
00:46:26,960 --> 00:46:32,240  
incidentally the landing of an unknown

937  
00:46:29,809 --> 00:46:34,730  
object near two American operated air

938  
00:46:32,239 --> 00:46:37,879  
bases in Britain in 1980 the Bentwaters

939  
00:46:34,730 --> 00:46:40,610  
case just referred to the appearance of

940  
00:46:37,880 --> 00:46:44,720  
large boomerang shaped craft north of

941

00:46:40,610 --> 00:46:46,820  
New York City during the 1980s military

942  
00:46:44,719 --> 00:46:50,329  
records describing attempts to intercept

943  
00:46:46,820 --> 00:46:54,019  
UFOs by the nations of Europe South

944  
00:46:50,329 --> 00:46:57,009  
America Africa Australia and Asia

945  
00:46:54,019 --> 00:46:59,659  
the appearance of triangular craft

946  
00:46:57,010 --> 00:47:02,780  
throughout the United States Europe and

947  
00:46:59,659 --> 00:47:05,599  
the Soviet Union including the attempted

948  
00:47:02,780 --> 00:47:10,190  
interception of a triangular aircraft by

949  
00:47:05,599 --> 00:47:12,860  
Belgian f-16s in 1990 and numerous

950  
00:47:10,190 --> 00:47:16,610  
sightings of anomalous objects in Earth

951  
00:47:12,860 --> 00:47:17,990  
orbit by Soviet and American astronauts

952  
00:47:16,610 --> 00:47:21,530  
in particular those in the shuttle

953  
00:47:17,989 --> 00:47:24,799  
program this study also presents an

954  
00:47:21,530 --> 00:47:26,990  
analysis of UFO secrecy itself throwing

955  
00:47:24,800 --> 00:47:30,200

light on areas that have long operated

956

00:47:26,989 --> 00:47:31,699

in darkness I have tried to analyze the

957

00:47:30,199 --> 00:47:34,969

structure of power behind the scenes

958

00:47:31,699 --> 00:47:36,500

I've tried to describe black-budget and

959

00:47:34,969 --> 00:47:39,319

special access programs and how they

960

00:47:36,500 --> 00:47:41,150

factor into this studying the

961

00:47:39,320 --> 00:47:44,900

relationship of military versus

962

00:47:41,150 --> 00:47:47,750

corporate secrecy of the UFO phenomenon

963

00:47:44,900 --> 00:47:49,849

and I have attempted to provide a

964

00:47:47,750 --> 00:47:52,190

geopolitical analysis throughout to

965

00:47:49,849 --> 00:47:56,529

bring the topic of UFO secrecy into the

966

00:47:52,190 --> 00:48:02,329

main stream of historical understanding

967

00:47:56,530 --> 00:48:04,040

finally I am happy to mention that this

968

00:48:02,329 --> 00:48:06,380

study provides a first-ever

969

00:48:04,039 --> 00:48:09,710

analysis of the history of UFO research

970  
00:48:06,380 --> 00:48:13,000  
itself I've recreated the discussions

971  
00:48:09,710 --> 00:48:15,619  
and debates concerning the topics that

972  
00:48:13,000 --> 00:48:18,079  
polarized UFO research during those

973  
00:48:15,619 --> 00:48:20,630  
years such as alien abductions animal

974  
00:48:18,079 --> 00:48:24,019  
mutilations intelligence community

975  
00:48:20,630 --> 00:48:27,619  
infiltration into UFO research the

976  
00:48:24,019 --> 00:48:30,949  
controversial mj-12 documents the Gulf

977  
00:48:27,619 --> 00:48:33,410  
Breeze controversy claims about reverse

978  
00:48:30,949 --> 00:48:37,069  
engineering of alien technology crop

979  
00:48:33,409 --> 00:48:39,529  
circles and much more I've also studied

980  
00:48:37,070 --> 00:48:43,580  
the effect of new technologies such as

981  
00:48:39,530 --> 00:48:45,140  
the internet on UFO research I've

982  
00:48:43,579 --> 00:48:46,969  
attempted to provide a thorough and

983  
00:48:45,139 --> 00:48:50,420  
complete history of the phenomenon the

984  
00:48:46,969 --> 00:48:52,750  
secrecy and the response by researchers

985  
00:48:50,420 --> 00:48:55,909  
who sought to understand this mystery

986  
00:48:52,750 --> 00:48:57,829  
behind it all there's a backdrop of a

987  
00:48:55,909 --> 00:49:01,279  
world and technological economic and

988  
00:48:57,829 --> 00:49:02,960  
political transformation UFOs in the

989  
00:49:01,280 --> 00:49:06,410  
national security state the cover-up

990  
00:49:02,960 --> 00:49:07,309  
exposed is my attempt to take the reader

991  
00:49:06,409 --> 00:49:09,259  
through a

992  
00:49:07,309 --> 00:49:12,110  
fascinating turning point in the history

993  
00:49:09,260 --> 00:49:14,270  
of the UFO phenomenon as well as the

994  
00:49:12,110 --> 00:49:17,870  
history of the modern world the book is

995  
00:49:14,269 --> 00:49:18,889  
due for publication in June 2009 I would

996  
00:49:17,869 --> 00:49:21,429  
encourage you to visit my website

00:50:58,400 --> 00:51:04,039  
for action on the extra-terrestrial

1028  
00:50:59,989 --> 00:51:07,729  
presence what is needed is one

1029  
00:51:04,039 --> 00:51:11,420  
sponsoring UN member nation one out of

1030  
00:51:07,730 --> 00:51:14,900  
192 current members of the United

1031  
00:51:11,420 --> 00:51:17,059  
Nations General Assembly a senior

1032  
00:51:14,900 --> 00:51:19,720  
official in the office of the UN General

1033  
00:51:17,059 --> 00:51:23,289  
Assembly President began the Scott

1034  
00:51:19,719 --> 00:51:27,489

1038  
00:51:33,099 --> 00:51:39,309  
General Assembly his chief of cabinet

1039  
00:51:35,469 --> 00:51:40,779  
dr. Norman Miranda of Nicaragua with

1040  
00:51:39,309 --> 00:51:42,849  
whom I had the pleasure of speaking for

1041  
00:51:40,780 --> 00:51:44,980  
many hours has confirmed two

1042  
00:51:42,849 --> 00:51:47,349  
representatives of a citizen's

1043  
00:51:44,980 --> 00:51:49,929  
initiative that the president UN General

1044  
00:51:47,349 --> 00:51:51,970  
Assembly president's office is ready to

1045  
00:51:49,929 --> 00:51:55,629  
move forward in the General Assembly on

1046  
00:51:51,969 --> 00:51:59,289  
a resolution calling for implementation

1047  
00:51:55,630 --> 00:52:04,420  
of UN General Assembly decision 33 for

1048  
00:51:59,289 --> 00:52:07,329  
26 of 1978 this year marks the 30th

1049  
00:52:04,420 --> 00:52:10,300  
anniversary of the adoption of UN

1050  
00:52:07,329 --> 00:52:14,409  
General Assembly decision 33 for 26

1051  
00:52:10,300 --> 00:52:17,710  
which calls for quote and encoding from

1052  
00:52:14,409 --> 00:52:20,319  
the decision the establishment of an

1053  
00:52:17,710 --> 00:52:23,260  
agency or Department of the United

1054  
00:52:20,320 --> 00:52:25,559  
Nations for undertaking coordinating and

1055

00:52:23,260 --> 00:52:28,810  
disseminating the results of research

1056  
00:52:25,559 --> 00:52:32,130  
into unidentified flying objects UFOs

1057  
00:52:28,809 --> 00:52:36,159  
and related phenomena

1058  
00:52:32,130 --> 00:52:39,849  
likewise Juan Carlos Brandt the UN

1059  
00:52:36,159 --> 00:52:42,279  
Secretariat's UN chief of advocacy and

1060  
00:52:39,849 --> 00:52:45,150  
special events who coordinated the

1061  
00:52:42,280 --> 00:52:48,550  
recent United Nations panel on

1062  
00:52:45,150 --> 00:52:50,740  
Battlestar Galactica you may recall that

1063  
00:52:48,550 --> 00:52:55,060  
that was in the news has stated publicly

1064  
00:52:50,739 --> 00:52:56,439  
quote if there is one UN member state

1065  
00:52:55,059 --> 00:52:58,989  
that would ask for a meeting on

1066  
00:52:56,440 --> 00:53:00,429  
extraterrestrials it would take place

1067  
00:52:58,989 --> 00:53:03,368  
end of quote

1068  
00:53:00,429 --> 00:53:06,989  
what is missing so far is a UN member

1069  
00:53:03,369 --> 00:53:10,809

nation to introduce the implementing

1070

00:53:06,989 --> 00:53:13,598

resolution implementing the decision

1071

00:53:10,809 --> 00:53:16,259

taken 30 years ago to establish a UN

1072

00:53:13,599 --> 00:53:20,440

agency on extraterrestrial issues

1073

00:53:16,260 --> 00:53:22,990

Grenada and its forward-looking Prime

1074

00:53:20,440 --> 00:53:26,200

Minister Sir Eric gairy was instrumental

1075

00:53:22,989 --> 00:53:31,389

in sponsoring and ensuring the passage

1076

00:53:26,199 --> 00:53:32,500

of the 1978 decision 33 for 26 now in

1077

00:53:31,389 --> 00:53:34,449

recent year

1078

00:53:32,500 --> 00:53:37,119

UN member nations have begun to

1079

00:53:34,449 --> 00:53:39,939

unofficially release as has been stated

1080

00:53:37,119 --> 00:53:42,450

here some of the secret files related to

1081

00:53:39,940 --> 00:53:44,650

unidentified flying objects and

1082

00:53:42,449 --> 00:53:48,879

extraterrestrial civilizations

1083

00:53:44,650 --> 00:53:54,869

these include Mexico in 2004 Brazil in

1084  
00:53:48,880 --> 00:53:59,800  
2005 Canada from 2005 to 2007 France in

1085  
00:53:54,869 --> 00:54:04,480  
2007 the UK Ministry of Defence 2007 to

1086  
00:53:59,800 --> 00:54:07,470  
2009 and Denmark in 2009 so we are

1087  
00:54:04,480 --> 00:54:11,710  
officially putting forward a call today

1088  
00:54:07,469 --> 00:54:15,269  
for one or more of the 192 UN member

1089  
00:54:11,710 --> 00:54:18,130  
nations to come forward and to take up

1090  
00:54:15,269 --> 00:54:20,829  
the commitment of the UN General

1091  
00:54:18,130 --> 00:54:23,470  
Assembly president and senior officials

1092  
00:54:20,829 --> 00:54:30,940  
in the Secretariat it's to Shepherd

1093  
00:54:23,469 --> 00:54:32,739  
through the resolution thank you and of

1094  
00:54:30,940 --> 00:54:34,539  
course Alfred be available afterwards

1095  
00:54:32,739 --> 00:54:36,759  
for any questions the press release is

1096  
00:54:34,539 --> 00:54:38,800  
up here all right before we move to the

1097  
00:54:36,760 --> 00:54:41,050  
last segment of this press conference I

1098  
00:54:38,800 --> 00:54:46,000  
want to bring somebody forward Cheryl

1099  
00:54:41,050 --> 00:54:48,670  
would you please come up this press

1100  
00:54:46,000 --> 00:54:50,440  
conference is held after every X

1101  
00:54:48,670 --> 00:54:53,289  
conference which is we've had our fifth

1102  
00:54:50,440 --> 00:54:57,309  
one and I think it's important I wanted

1103  
00:54:53,289 --> 00:54:59,588  
to knowledge somebody the host of every

1104  
00:54:57,309 --> 00:55:01,869  
one of the X conferences is been miss

1105  
00:54:59,588 --> 00:55:04,440  
Cheryl Jones and the reason I brought

1106  
00:55:01,869 --> 00:55:07,119  
her up here is that Miss Jones

1107  
00:55:04,440 --> 00:55:11,079  
well it's the television journalist and

1108  
00:55:07,119 --> 00:55:16,269  
former CNN news anchor one of the early

1109  
00:55:11,079 --> 00:55:18,250  
pioneers of women news anchors and she

1110  
00:55:16,269 --> 00:55:21,099  
became interested and knowledgeable

1111  
00:55:18,250 --> 00:55:25,480  
about the issue and it hadn't and we had

1112

00:55:21,099 --> 00:55:27,970  
the courage to look into it and and and

1113  
00:55:25,480 --> 00:55:30,909  
and measure it and as a result became

1114  
00:55:27,969 --> 00:55:33,699  
involved and has lent her prestige and

1115  
00:55:30,909 --> 00:55:37,118  
her background to us for five years and

1116  
00:55:33,699 --> 00:55:41,009  
I hope will continue to do so but I

1117  
00:55:37,119 --> 00:55:41,010  
wanted you to know about Cheryl yet

1118  
00:55:41,489 --> 00:55:46,709  
thank you so much

1119  
00:55:44,070 --> 00:55:48,450  
for being here this morning and I just

1120  
00:55:46,710 --> 00:55:50,789  
want to say and reiterate something that

1121  
00:55:48,449 --> 00:55:55,319  
you have already heard this morning and

1122  
00:55:50,789 --> 00:55:57,570  
that is that this story is an absolutely

1123  
00:55:55,320 --> 00:55:59,670  
the most important story of our time and

1124  
00:55:57,570 --> 00:56:00,930  
we're it not for the courage of the

1125  
00:55:59,670 --> 00:56:04,170  
people that you've heard from this

1126  
00:56:00,929 --> 00:56:09,509

morning we wouldn't be here at this

1127

00:56:04,170 --> 00:56:15,170

stage we've been through times of the

1128

00:56:09,510 --> 00:56:18,090

seeing the story being ignored ridiculed

1129

00:56:15,170 --> 00:56:19,980

discredited the experiences that the

1130

00:56:18,090 --> 00:56:22,170

people that you've heard from have been

1131

00:56:19,980 --> 00:56:24,300

unbelievable you've just heard a bit of

1132

00:56:22,170 --> 00:56:27,619

it this morning but the courage the

1133

00:56:24,300 --> 00:56:30,330

people that you've you've heard speak

1134

00:56:27,619 --> 00:56:35,609

what brings them to this day those

1135

00:56:30,329 --> 00:56:37,409

stories are just unbelievable and we can

1136

00:56:35,610 --> 00:56:40,590

only imagine not having walked on the

1137

00:56:37,409 --> 00:56:43,440

moon myself and not having been through

1138

00:56:40,590 --> 00:56:46,829

the experiences of the people you've

1139

00:56:43,440 --> 00:56:50,970

heard from major Torrez I can't even

1140

00:56:46,829 --> 00:56:53,539

begin to even comprehend what what they

1141  
00:56:50,969 --> 00:56:55,649  
must have must have experienced but

1142  
00:56:53,539 --> 00:56:59,340  
having been in the television news

1143  
00:56:55,650 --> 00:57:01,110  
business myself I I think I know a

1144  
00:56:59,340 --> 00:57:03,120  
little bit about a good story and I know

1145  
00:57:01,110 --> 00:57:05,519  
from your presence here this morning you

1146  
00:57:03,119 --> 00:57:08,730  
do as well and let's hope from this day

1147  
00:57:05,519 --> 00:57:10,530  
forward we can put the way the story's

1148  
00:57:08,730 --> 00:57:13,190  
been treated in the past behind us

1149  
00:57:10,530 --> 00:57:17,100  
give it the proper respect and

1150  
00:57:13,190 --> 00:57:21,269  
importance that it deserves and heed

1151  
00:57:17,099 --> 00:57:25,559  
some of the advice of dr. Edgar Mitchell

1152  
00:57:21,269 --> 00:57:29,329  
and really look at it seriously study

1153  
00:57:25,559 --> 00:57:32,279  
the material and listen to what's being

1154  
00:57:29,329 --> 00:57:34,940  
made available to you and again thank

1155  
00:57:32,280 --> 00:57:34,940  
you this morning

1156  
00:57:38,670 --> 00:57:45,220  
very quick is Jeffrey Jenkins here

1157  
00:57:41,460 --> 00:57:49,240  
Jeffrey are you here okay

1158  
00:57:45,219 --> 00:57:51,519  
just want to remind Alfred and dr.

1159  
00:57:49,239 --> 00:57:52,868

00:57:51,519 --> 00:57:55,900  
and you'll be departing at 12:00 for the

1161  
00:57:52,869 --> 00:57:58,750  
airport I want to mention now before we

1162  
00:57:55,900 --> 00:58:00,190  
bring up the last person that one of the

1163  
00:57:58,750 --> 00:58:06,250  
things that paradigm Research Group does

1164  
00:58:00,190 --> 00:58:07,869  
is it publishes a news media archive or

1165  
00:58:06,250 --> 00:58:09,880  
news media watch of the mainstream

1166  
00:58:07,869 --> 00:58:12,760  
coverage of this issue and at the

1167  
00:58:09,880 --> 00:58:14,410  
paradigm research group org website you

1168  
00:58:12,760 --> 00:58:15,700  
can if you can plow through the vast

1169

00:58:14,409 --> 00:58:18,039  
amount of material there you will find

1170  
00:58:15,699 --> 00:58:22,329  
the news media archive link and you will

1171  
00:58:18,039 --> 00:58:23,759  
go there currently we have 2800 I've got

1172  
00:58:22,329 --> 00:58:26,259  
the twenty three thirty four hundred

1173  
00:58:23,760 --> 00:58:27,820  
mainstream non-paranormal non

1174  
00:58:26,260 --> 00:58:30,430  
alternative press English language

1175  
00:58:27,820 --> 00:58:32,650  
articles from around the world up there

1176  
00:58:30,429 --> 00:58:37,469  
going back to 1947 but what's notable is

1177  
00:58:32,650 --> 00:58:40,930  
that starting in nineteen six something

1178  
00:58:37,469 --> 00:58:43,209  
started 2006 I'm sorry something started

1179  
00:58:40,929 --> 00:58:44,559  
something happened and the number of

1180  
00:58:43,210 --> 00:58:47,139  
articles we logged in was about four

1181  
00:58:44,559 --> 00:58:50,469  
hundred seventy-six then using the same

1182  
00:58:47,139 --> 00:58:55,179  
resources the next year they jumped to I

1183  
00:58:50,469 --> 00:58:58,358

think I was 176 to 476 and then 2008 to

1184

00:58:55,179 --> 00:59:01,569

1200 and in 2009 we're on a pace for

1185

00:58:58,358 --> 00:59:04,150

2000 articles on a subject I've read

1186

00:59:01,570 --> 00:59:06,369

them all and approximately one in a

1187

00:59:04,150 --> 00:59:09,160

hundred is what I would call a hit piece

1188

00:59:06,369 --> 00:59:10,840

or a ridicule piece not that anything

1189

00:59:09,159 --> 00:59:13,449

can't be hit or ridicule of course it

1190

00:59:10,840 --> 00:59:15,090

can but one in a hundred is quite

1191

00:59:13,449 --> 00:59:17,679

extraordinary I can assure that

1192

00:59:15,090 --> 00:59:21,720

something has happened at the editorial

1193

00:59:17,679 --> 00:59:24,819

offices of newspapers and television

1194

00:59:21,719 --> 00:59:26,409

they have made decisions that yes we

1195

00:59:24,820 --> 00:59:27,730

will go here we will look at this we

1196

00:59:26,409 --> 00:59:29,649

will interview we will talk we will

1197

00:59:27,730 --> 00:59:32,710

cover everything books conferences

1198  
00:59:29,650 --> 00:59:35,108  
reports other developments it's

1199  
00:59:32,710 --> 00:59:37,570  
extremely important and very pleased to

1200  
00:59:35,108 --> 00:59:39,849  
see the great Fourth Estate coming

1201  
00:59:37,570 --> 00:59:41,170  
around and getting into this and doing

1202  
00:59:39,849 --> 00:59:44,108  
their job here I think they will be very

1203  
00:59:41,170 --> 00:59:49,119  
richly rewarded for doing that now our

1204  
00:59:44,108 --> 00:59:51,309  
last presenter is in the nuts and bolts

1205  
00:59:49,119 --> 00:59:53,820  
right you've had

1206  
00:59:51,309 --> 00:59:57,759  
is a dance stuff coming up folks you had

1207  
00:59:53,820 --> 01:00:00,910  
very basic but incredibly implicit of

1208  
00:59:57,760 --> 01:00:03,940  
information once you get into this

1209  
01:00:00,909 --> 01:00:06,309  
though you there is so much and one of

1210  
01:00:03,940 --> 01:00:09,909  
the areas is of course evidence tangible

1211  
01:00:06,309 --> 01:00:12,070  
evidence this gentleman dr. Roger Leir

1212  
01:00:09,909 --> 01:00:17,250  
is the leading researcher in the world

1213  
01:00:12,070 --> 01:00:20,830  
on the removal of alleged implants or

1214  
01:00:17,250 --> 01:00:23,949  
artifacts from individuals who believe

1215  
01:00:20,829 --> 01:00:27,190  
they have had contact the number of

1216  
01:00:23,949 --> 01:00:30,789  
reports of contact direct including

1217  
01:00:27,190 --> 01:00:32,650  
abductions are in the tens and tens of

1218  
01:00:30,789 --> 01:00:34,029  
thousands they are filling the filing

1219  
01:00:32,650 --> 01:00:37,180  
cabinets of researchers all over the

1220  
01:00:34,030 --> 01:00:39,700  
world and I that numbers could even be

1221  
01:00:37,179 --> 01:00:41,109  
at a hundred thousand many many hundreds

1222  
01:00:39,699 --> 01:00:43,239  
of these reports have been extensively

1223  
01:00:41,110 --> 01:00:45,910  
written up many thousands have been

1224  
01:00:43,239 --> 01:00:47,979  
investigated the material was out there

1225  
01:00:45,909 --> 01:00:50,379  
review at your leisure but one of the

1226

01:00:47,980 --> 01:00:54,250  
aspects that is reported all over the

1227  
01:00:50,380 --> 01:00:56,380  
world is this concept of implants dr.

1228  
01:00:54,250 --> 01:00:58,630  
Leir has removed a number of these with

1229  
01:00:56,380 --> 01:01:02,769  
limited resources he has analyzed them

1230  
01:00:58,630 --> 01:01:06,220  
to the best that he could however his

1231  
01:01:02,769 --> 01:01:09,940  
resources have improved and recently an

1232  
01:01:06,219 --> 01:01:12,039  
individual a working engineer who I have

1233  
01:01:09,940 --> 01:01:13,900  
met very fine individual who could not

1234  
01:01:12,039 --> 01:01:16,599  
be here because the stress of coming

1235  
01:01:13,900 --> 01:01:18,369  
public in a very public fashion was so

1236  
01:01:16,599 --> 01:01:20,019  
great that he became physically ill and

1237  
01:01:18,369 --> 01:01:21,880  
the stress included of course dissension

1238  
01:01:20,019 --> 01:01:24,789  
within the family which is of course a

1239  
01:01:21,880 --> 01:01:27,610  
result of the truth embargo but the

1240  
01:01:24,789 --> 01:01:31,659

doctor will be available later time and

1241

01:01:27,610 --> 01:01:33,579

one of the an analyst is here and an

1242

01:01:31,659 --> 01:01:36,849

implant was removed of extraordinary

1243

01:01:33,579 --> 01:01:38,699

nature a breakthrough really and dr.

1244

01:01:36,849 --> 01:01:42,339

Leir is here to tell you about it now

1245

01:01:38,699 --> 01:01:44,739

we're not as all of the other speakers

1246

01:01:42,340 --> 01:01:46,059

that you saw tonight presenters he spoke

1247

01:01:44,739 --> 01:01:49,599

at the X conference at length an hour

1248

01:01:46,059 --> 01:01:52,389

and a half there's a DVD that has been

1249

01:01:49,599 --> 01:01:53,679

made of that what he's trying to convey

1250

01:01:52,389 --> 01:01:57,129

is complex and difficult

1251

01:01:53,679 --> 01:01:58,569

there's no time here for a lecture so if

1252

01:01:57,130 --> 01:02:00,099

you want to we're going to get into this

1253

01:01:58,570 --> 01:02:01,740

you're going to have to get with him and

1254

01:02:00,099 --> 01:02:04,159

you're going to have to spend some time

1255  
01:02:01,739 --> 01:02:06,379  
but to the best that he can

1256  
01:02:04,159 --> 01:02:09,288  
he is going to present the essence of

1257  
01:02:06,380 --> 01:02:11,150  
this breakthrough to you today and then

1258  
01:02:09,289 --> 01:02:13,910  
it's up to you to decide whether you

1259  
01:02:11,150 --> 01:02:16,068  
think this is news I have a good hunch

1260  
01:02:13,909 --> 01:02:18,009  
you're gonna make the right decision dr.

1261  
01:02:16,068 --> 01:02:20,150  
Leir come up and it's anything you need

1262  
01:02:18,010 --> 01:02:22,789  
for me to help you in terms of setting

1263  
01:02:20,150 --> 01:02:25,460  
up the presentation and he will be

1264  
01:02:22,789 --> 01:02:29,299  
accompanied by Alex Moser one of a

1265  
01:02:25,460 --> 01:02:32,960  
number of analysts high level that have

1266  
01:02:29,298 --> 01:02:38,809  
examined this artifact and derived the

1267  
01:02:32,960 --> 01:02:43,369  
information yeah thank you Steve good

1268  
01:02:38,809 --> 01:02:44,359  
morning ladies and gentlemen as Steve

1269  
01:02:43,369 --> 01:02:46,818  
outlined

1270  
01:02:44,358 --> 01:02:49,250  
I'm involved in research in just a very

1271  
01:02:46,818 --> 01:02:52,699  
small portion of the field of ufology

1272  
01:02:49,250 --> 01:02:57,139  
and we've made some startling

1273  
01:02:52,699 --> 01:03:00,618  
discoveries in the subject of alien

1274  
01:02:57,139 --> 01:03:03,920  
abduction now let me preface my remarks

1275  
01:03:00,619 --> 01:03:06,588  
by saying if there was any one president

1276  
01:03:03,920 --> 01:03:09,318  
in this room or interested in reporting

1277  
01:03:06,588 --> 01:03:12,250  
this information to the public that

1278  
01:03:09,318 --> 01:03:16,278  
thinks that what I my remarks are funny

1279  
01:03:12,250 --> 01:03:19,099  
I think you're in the wrong place with

1280  
01:03:16,278 --> 01:03:21,920  
that being said i those of you that have

1281  
01:03:19,099 --> 01:03:25,970  
press packets i were a few of

1282  
01:03:21,920 --> 01:03:30,500  
refrigerators slide number one the Roper

1283

01:03:25,969 --> 01:03:32,808  
poll which was done in 2003 indicated

1284  
01:03:30,500 --> 01:03:35,750  
that there was approximately two percent

1285  
01:03:32,809 --> 01:03:39,440  
of the American population that was

1286  
01:03:35,750 --> 01:03:41,719  
involved in alien abduction we believe

1287  
01:03:39,440 --> 01:03:44,028  
that's a conservative figure and if you

1288  
01:03:41,719 --> 01:03:46,788  
multiply this by the population of the

1289  
01:03:44,028 --> 01:03:49,699  
world we're not talking about tens of

1290  
01:03:46,789 --> 01:03:53,859  
thousands but we're talking about multi

1291  
01:03:49,699 --> 01:03:57,500  
millions of individuals some of these

1292  
01:03:53,858 --> 01:04:02,469  
some of these individuals have like

1293  
01:03:57,500 --> 01:04:06,429  
memories what's been done on a craft the

1294  
01:04:02,469 --> 01:04:09,529  
the objectives of what they can remember

1295  
01:04:06,429 --> 01:04:13,789  
most of them do not have

1296  
01:04:09,530 --> 01:04:16,760  
remember memories that are very very

1297  
01:04:13,789 --> 01:04:20,059

explicit some need help with mem Lee

1298

01:04:16,760 --> 01:04:24,410

memory retrieval what we've done is to

1299

01:04:20,059 --> 01:04:28,670

set up a situation in which we don't

1300

01:04:24,409 --> 01:04:32,480

allow anyone to undergo a surgical

1301

01:04:28,670 --> 01:04:35,599

procedure that has had previous hypnosis

1302

01:04:32,480 --> 01:04:37,760

and that's just primarily from the fact

1303

01:04:35,599 --> 01:04:40,579

that we don't need the criticism and a

1304

01:04:37,760 --> 01:04:44,420

scientific study however if he infant

1305

01:04:40,579 --> 01:04:47,050

the information that is retrievable is

1306

01:04:44,420 --> 01:04:49,970

to be had we give that person the choice

1307

01:04:47,050 --> 01:04:52,910

following the surgery procedure and we

1308

01:04:49,969 --> 01:04:57,108

refer them to a qualified specialist in

1309

01:04:52,909 --> 01:05:00,649

that area slide 1a in the press packet

1310

01:04:57,108 --> 01:05:03,889

will show a picture of what one of these

1311

01:05:00,650 --> 01:05:07,039

objects looks like this is a t-shaped

1312  
01:05:03,889 --> 01:05:10,009  
object which is approximately a

1313  
01:05:07,039 --> 01:05:13,159  
sonometer in each direction covered with

1314  
01:05:10,010 --> 01:05:16,940  
a very strange biological coating a

1315  
01:05:13,159 --> 01:05:19,338  
coating that is so strong that when the

1316  
01:05:16,940 --> 01:05:24,769  
object is freshly removed you can't cut

1317  
01:05:19,338 --> 01:05:28,460  
through it with a surgical blade the

1318  
01:05:24,769 --> 01:05:30,469  
next slide is a slide 1 B shows another

1319  
01:05:28,460 --> 01:05:33,769  
kind of an object that we removed

1320  
01:05:30,469 --> 01:05:37,269  
another metallic rod which is also

1321  
01:05:33,769 --> 01:05:41,989  
covered with a like similar dark grey

1322  
01:05:37,269 --> 01:05:43,909  
impervious membrane and this material is

1323  
01:05:41,989 --> 01:05:46,338  
also very strong and you can't cut

1324  
01:05:43,909 --> 01:05:49,730  
through it with a surgical blade we have

1325  
01:05:46,338 --> 01:05:52,759  
at the present time with our 15

1326  
01:05:49,730 --> 01:05:56,389  
surgeries we have approximately seven of

1327  
01:05:52,760 --> 01:05:58,849  
these objects in which you could line

1328  
01:05:56,389 --> 01:06:01,879  
them up on a surgical drape you would

1329  
01:05:58,849 --> 01:06:06,859  
not be able to tell one from the other

1330  
01:06:01,880 --> 01:06:09,920  
next we'll refer you to slide two of the

1331  
01:06:06,858 --> 01:06:13,670  
15 surgeries that have been performed we

1332  
01:06:09,920 --> 01:06:16,519  
have submitted these not in totality but

1333  
01:06:13,670 --> 01:06:19,519  
in piece because we haven't had the the

1334  
01:06:16,519 --> 01:06:22,159  
funds to really go into this

1335  
01:06:19,519 --> 01:06:24,170  
a full-blown project fortunately

1336  
01:06:22,159 --> 01:06:26,269  
fortunately I was able to get the

1337  
01:06:24,170 --> 01:06:28,369  
assistance at one time through the

1338  
01:06:26,269 --> 01:06:31,190  
national institute for discovery science

1339  
01:06:28,369 --> 01:06:33,889  
and that was much appreciated that's a

1340

01:06:31,190 --> 01:06:38,110  
Bob Bigelow enterprise and I will always

1341  
01:06:33,889 --> 01:06:41,389  
be indebted to him for his help with us

1342  
01:06:38,110 --> 01:06:43,550  
now there are some biological aspects

1343  
01:06:41,389 --> 01:06:46,579  
which I have to ring or to mention at

1344  
01:06:43,550 --> 01:06:49,430  
this time if you get an object in you

1345  
01:06:46,579 --> 01:06:52,429  
you usually can see where it went in a

1346  
01:06:49,429 --> 01:06:56,480  
portal of entry something that's a

1347  
01:06:52,429 --> 01:06:59,929  
sonometer in various dimensions is a

1348  
01:06:56,480 --> 01:07:01,940  
pretty big sized piece to get inside you

1349  
01:06:59,929 --> 01:07:04,460  
usually should be able to see where this

1350  
01:07:01,940 --> 01:07:07,599  
went in in none of these cases has there

1351  
01:07:04,460 --> 01:07:13,250  
been a scar or an opening in the skin

1352  
01:07:07,599 --> 01:07:16,519  
all the individuals who allege have

1353  
01:07:13,250 --> 01:07:18,920  
implants are submitted to some rigorous

1354  
01:07:16,519 --> 01:07:21,739

examination before we have anything to

1355

01:07:18,920 --> 01:07:24,650

do with them they must produce they must

1356

01:07:21,739 --> 01:07:27,889

produce either on an x-ray or a cat scan

1357

01:07:24,650 --> 01:07:31,360

a viable object which is more radio

1358

01:07:27,889 --> 01:07:33,739

dense than the surrounding area we see

1359

01:07:31,360 --> 01:07:36,620

when these have been removed and we

1360

01:07:33,739 --> 01:07:38,899

examine the tissue pathologically goes

1361

01:07:36,619 --> 01:07:43,429

around the area there has been

1362

01:07:38,900 --> 01:07:47,690

absolutely no inflammatory or rejection

1363

01:07:43,429 --> 01:07:51,379

reaction this is within our technology

1364

01:07:47,690 --> 01:07:54,500

not possible the majority of these

1365

01:07:51,380 --> 01:07:57,890

objects as I described are these small

1366

01:07:54,500 --> 01:08:01,039

metallic rods covered with this very

1367

01:07:57,889 --> 01:08:04,369

strange biological coating and quite

1368

01:08:01,039 --> 01:08:06,679

recently we found out that I hope you're

1369  
01:08:04,369 --> 01:08:09,889  
all sitting down that this biological

1370  
01:08:06,679 --> 01:08:14,000  
coating seems to be growing from the

1371  
01:08:09,889 --> 01:08:17,180  
metallic structure within we believe

1372  
01:08:14,000 --> 01:08:20,750  
that this biological tissue serves as a

1373  
01:08:17,180 --> 01:08:23,750  
barrier so that the body does not reject

1374  
01:08:20,750 --> 01:08:26,449  
the object or cause inflammation to

1375  
01:08:23,750 --> 01:08:28,488  
occur and as you can see if we had the

1376  
01:08:26,449 --> 01:08:31,219  
funds to back engineer this

1377  
01:08:28,488 --> 01:08:34,099  
and find out how this works it would be

1378  
01:08:31,219 --> 01:08:37,279  
a tremendous boon to medical science as

1379  
01:08:34,100 --> 01:08:39,770  
we can wrap a transplant organ a pen a

1380  
01:08:37,279 --> 01:08:41,989  
screw or something that nature put it

1381  
01:08:39,770 --> 01:08:44,000  
into the body and the individual would

1382  
01:08:41,988 --> 01:08:48,488  
no longer have to take immunosuppressive

1383  
01:08:44,000 --> 01:08:48,488  
drugs for the rest of their lives I

1384  
01:08:48,698 --> 01:08:54,678  
refer you now to slide 3 and

1385  
01:08:51,969 --> 01:08:57,588  
unfortunately we can't do much with this

1386  
01:08:54,679 --> 01:09:00,500  
one because there is a small segment

1387  
01:08:57,588 --> 01:09:03,259  
about 30 seconds of one of the surgical

1388  
01:09:00,500 --> 01:09:04,399  
procedures that was performed we were

1389  
01:09:03,259 --> 01:09:07,039  
going to show that to you but

1390  
01:09:04,399 --> 01:09:09,079  
unfortunately we weren't able to get

1391  
01:09:07,039 --> 01:09:12,679  
that facility set up

1392  
01:09:09,079 --> 01:09:16,309  
so in conclusion in reference to the

1393  
01:09:12,679 --> 01:09:20,179  
biological data we have looked at this

1394  
01:09:16,310 --> 01:09:22,789  
in quite an exceptional manner using

1395  
01:09:20,179 --> 01:09:27,079  
every bit of science that's are at our

1396  
01:09:22,789 --> 01:09:31,060  
disposal a disposal and we see that this

1397

01:09:27,079 --> 01:09:35,448  
looks like it represents a science which

1398  
01:09:31,060 --> 01:09:37,819  
far exceeds the biological science that

1399  
01:09:35,448 --> 01:09:40,969  
we have on earth now when we get into

1400  
01:09:37,819 --> 01:09:46,130  
the metallic portion I don't feel

1401  
01:09:40,969 --> 01:09:49,579  
qualified I I had to learn the small

1402  
01:09:46,130 --> 01:09:51,500  
amount of metallurgy that I did in order

1403  
01:09:49,579 --> 01:09:53,988  
to continue the work but we're very

1404  
01:09:51,500 --> 01:09:56,719  
fortunate today ladies and gentlemen to

1405  
01:09:53,988 --> 01:09:59,479  
have one of the leading metallurgical

1406  
01:09:56,719 --> 01:10:00,079  
sciences with us that has worked on the

1407  
01:09:59,479 --> 01:10:04,879  
project

1408  
01:10:00,079 --> 01:10:06,559  
our chief metallurgical science dr. Alex

1409  
01:10:04,880 --> 01:10:10,480  
Moser if I can have you come up here

1410  
01:10:06,560 --> 01:10:10,480  
Alex and you can take it from here

1411  
01:10:15,670 --> 01:10:21,560

well my background first just to let you

1412

01:10:19,489 --> 01:10:24,849

know is I've got a PhD in physical

1413

01:10:21,560 --> 01:10:27,410

chemistry I've got a lot of strength in

1414

01:10:24,850 --> 01:10:29,510

analytical instrumentation analysis

1415

01:10:27,409 --> 01:10:33,199

materials analysis of designed and and

1416

01:10:29,510 --> 01:10:38,420

and built my own instruments from Ramon

1417

01:10:33,199 --> 01:10:42,760

to haze meters and and and the like and

1418

01:10:38,420 --> 01:10:48,140

so we had a number of analysis performed

1419

01:10:42,760 --> 01:10:50,570

both within while the sample was within

1420

01:10:48,140 --> 01:10:52,310

the body and also outside

1421

01:10:50,569 --> 01:10:55,880

now I'm gonna refer you to the

1422

01:10:52,310 --> 01:10:57,289

PowerPoint presentation that that well

1423

01:10:55,880 --> 01:11:00,739

kind of looks like this it's got I think

1424

01:10:57,289 --> 01:11:04,819

of this is black and white but it it has

1425

01:11:00,739 --> 01:11:06,829

a you know two PowerPoint slides per

1426  
01:11:04,819 --> 01:11:08,420  
page and we're starting off at slide

1427  
01:11:06,829 --> 01:11:10,909  
nine and that should be in the press kit

1428  
01:11:08,420 --> 01:11:13,100  
also let me apologize the press kit

1429  
01:11:10,909 --> 01:11:15,470  
produced I produce some really awful

1430  
01:11:13,100 --> 01:11:17,780  
images I printed them out on a

1431  
01:11:15,470 --> 01:11:19,369  
photographic printer and they didn't

1432  
01:11:17,779 --> 01:11:21,529  
seem to come out I think use of contrast

1433  
01:11:19,369 --> 01:11:24,349  
issues and I was planning to show them

1434  
01:11:21,529 --> 01:11:26,539  
with a projector so we'll be posting

1435  
01:11:24,350 --> 01:11:28,430  
that on a website if you're interested I

1436  
01:11:26,539 --> 01:11:29,269  
don't have that website just yet but

1437  
01:11:28,430 --> 01:11:33,490  
I'll let you know

1438  
01:11:29,270 --> 01:11:33,490  
afterwards closer to the minds but okay

1439  
01:11:41,170 --> 01:11:49,569  
oh I see the problem no problem okay so

1440  
01:11:46,328 --> 01:11:51,328  
if we refer to slide 10 we can see the

1441  
01:11:49,569 --> 01:11:54,578  
the summary of the analysis performed

1442  
01:11:51,328 --> 01:11:57,340  
first in in vivo that was a radio

1443  
01:11:54,578 --> 01:12:01,229  
frequency for determination of

1444  
01:11:57,340 --> 01:12:04,449  
electromagnetic emission x-ray for

1445  
01:12:01,229 --> 01:12:07,649  
object verification just as dr. Leir had

1446  
01:12:04,448 --> 01:12:11,859  
said and cat scan for object location

1447  
01:12:07,649 --> 01:12:13,750  
the in vitro essentially outside the

1448  
01:12:11,859 --> 01:12:17,558  
body in controlled conditions was

1449  
01:12:13,750 --> 01:12:19,238  
optical microscopy and that was just for

1450  
01:12:17,559 --> 01:12:21,760  
looking at microscopic appearance and

1451  
01:12:19,238 --> 01:12:25,419  
comparing it to other similar objects

1452  
01:12:21,760 --> 01:12:27,940  
and also SEM EDX which is scanning

1453  
01:12:25,420 --> 01:12:31,809  
electron microscopy so we can look at

1454

01:12:27,939 --> 01:12:34,868  
nanyem nanoscale structures and also

1455  
01:12:31,809 --> 01:12:37,690  
coupled with that is EDX which is energy

1456  
01:12:34,868 --> 01:12:40,089  
dispersive x-ray fluorescence

1457  
01:12:37,689 --> 01:12:43,299  
spectroscopy and that's just for

1458  
01:12:40,090 --> 01:12:46,630  
elemental analysis down to the sub

1459  
01:12:43,300 --> 01:12:49,270  
percent range we also did ramon which

1460  
01:12:46,630 --> 01:12:51,578  
kind of which looks at the vibrational

1461  
01:12:49,270 --> 01:12:54,070  
modes of either molecules or crystals

1462  
01:12:51,578 --> 01:12:58,840  
and that's for chemical determination

1463  
01:12:54,069 --> 01:13:01,658  
and also icp-ms which is inductively

1464  
01:12:58,840 --> 01:13:03,670  
coupled plasma mass spectrometry for

1465  
01:13:01,658 --> 01:13:05,979  
elemental and hopefully isotopic

1466  
01:13:03,670 --> 01:13:10,569  
analysis if we go to the next slide

1467  
01:13:05,979 --> 01:13:12,928  
slide 11 it just shows the the results

1468  
01:13:10,569 --> 01:13:17,618

for the electromagnetic analysis and

1469

01:13:12,929 --> 01:13:20,819

from a Gauss meter we saw that the

1470

01:13:17,618 --> 01:13:25,000

magnetic strength was between 5 and 10

1471

01:13:20,819 --> 01:13:27,219

milligauss and with a radio a few

1472

01:13:25,000 --> 01:13:28,630

different radio frequency analyzers we

1473

01:13:27,219 --> 01:13:31,779

could see that there there were radio

1474

01:13:28,630 --> 01:13:34,840

frequency emissions around the 14 point

1475

01:13:31,779 --> 01:13:37,179

7 megahertz range and also in the

1476

01:13:34,840 --> 01:13:41,828

gigahertz range at seventeen point six

1477

01:13:37,179 --> 01:13:43,750

gigahertz and and so this just show this

1478

01:13:41,828 --> 01:13:47,469

just shows that that there seems to be

1479

01:13:43,750 --> 01:13:50,408

some unusual and emission we would like

1480

01:13:47,469 --> 01:13:51,649

to have some more control tests but

1481

01:13:50,408 --> 01:13:53,119

initially this show

1482

01:13:51,649 --> 01:13:57,698

that there could be some unusual

1483  
01:13:53,119 --> 01:14:02,029  
behavior occurring if you go to slide 12

1484  
01:13:57,698 --> 01:14:04,250  
with the x-ray the image doesn't show up

1485  
01:14:02,029 --> 01:14:08,329  
the object doesn't show up very well on

1486  
01:14:04,250 --> 01:14:10,609  
these images and so again we'll post

1487  
01:14:08,329 --> 01:14:13,069  
these on our website but you can you can

1488  
01:14:10,609 --> 01:14:16,429  
clearly well if you look carefully you

1489  
01:14:13,069 --> 01:14:19,189  
can see that there's an object showing

1490  
01:14:16,429 --> 01:14:23,050  
right next to the bone but separated

1491  
01:14:19,189 --> 01:14:28,460  
from the bone in the in the subjects toe

1492  
01:14:23,050 --> 01:14:30,500  
and the optical microscopy there's

1493  
01:14:28,460 --> 01:14:34,789  
essentially three different columns in

1494  
01:14:30,500 --> 01:14:38,170  
the press pack and the first column

1495  
01:14:34,789 --> 01:14:40,729  
shows the object under low magnification

1496  
01:14:38,170 --> 01:14:42,380  
the second column shows the object under

1497  
01:14:40,729 --> 01:14:46,549  
higher magnification and the last column

1498  
01:14:42,380 --> 01:14:48,679  
just for comparison shows meteorite

1499  
01:14:46,550 --> 01:14:50,179  
fragments and you can see there's

1500  
01:14:48,679 --> 01:14:52,279  
similarities and there's also some

1501  
01:14:50,179 --> 01:14:55,730  
differences similarities that has the

1502  
01:14:52,279 --> 01:14:59,329  
same color tones it likely has similar

1503  
01:14:55,729 --> 01:15:01,519  
composition in oxides the difference the

1504  
01:14:59,329 --> 01:15:03,380  
biggest difference is that the object

1505  
01:15:01,520 --> 01:15:07,810  
taking out taken out of the subjects

1506  
01:15:03,380 --> 01:15:12,159  
body had some kind of a sheen to it

1507  
01:15:07,810 --> 01:15:14,810  
which possibly could be a silicon

1508  
01:15:12,158 --> 01:15:19,039  
material or some other hard material

1509  
01:15:14,810 --> 01:15:23,030  
hard shell and and then if you go to

1510  
01:15:19,039 --> 01:15:25,399  
slide 14 you can see the results at

1511

01:15:23,029 --> 01:15:28,539  
least for the scanning electron

1512  
01:15:25,399 --> 01:15:30,859  
microscopy and here again we've got

1513  
01:15:28,539 --> 01:15:33,050  
different columns with different sorts

1514  
01:15:30,859 --> 01:15:34,969  
of materials with the first column the

1515  
01:15:33,050 --> 01:15:37,699  
column on the left you can see there

1516  
01:15:34,969 --> 01:15:40,550  
there's this is actually from the object

1517  
01:15:37,698 --> 01:15:44,059  
itself and it shows some kind of nano

1518  
01:15:40,550 --> 01:15:47,270  
fibers and for comparison in the middle

1519  
01:15:44,060 --> 01:15:50,000  
column you can see that we've got a

1520  
01:15:47,270 --> 01:15:52,060  
standard image of carbon nanotubes

1521  
01:15:50,000 --> 01:15:55,069  
single-walled carbon nanotubes and

1522  
01:15:52,060 --> 01:15:59,780  
there's certainly similarity in in the

1523  
01:15:55,069 --> 01:16:03,079  
scales and blanks and then also an

1524  
01:15:59,779 --> 01:16:03,769  
interesting nano crystal showed up as

1525  
01:16:03,079 --> 01:16:04,448

well

1526

01:16:03,770 --> 01:16:07,329

we

1527

01:16:04,448 --> 01:16:10,868

turned out to be primarily sodium

1528

01:16:07,328 --> 01:16:12,399

chloride through EDX analysis but the

1529

01:16:10,868 --> 01:16:15,038

unusual thing is first of all these

1530

01:16:12,399 --> 01:16:16,689

things form sodium chloride should have

1531

01:16:15,038 --> 01:16:20,069

a certain type of type of crystal habit

1532

01:16:16,689 --> 01:16:22,988

a very cubic crystal habit sometimes

1533

01:16:20,069 --> 01:16:25,448

because of crystal growth reasons it

1534

01:16:22,988 --> 01:16:27,009

will be slightly off from that the

1535

01:16:25,448 --> 01:16:27,908

unusual thing about these crystals is

1536

01:16:27,010 --> 01:16:30,130

that they produced

1537

01:16:27,908 --> 01:16:31,538

an orthorhombic crystal habit what

1538

01:16:30,130 --> 01:16:33,248

appears to be an orthorhombic crystal

1539

01:16:31,538 --> 01:16:37,509

habit which is unusual for sodium

1540  
01:16:33,248 --> 01:16:40,708  
chloride so this speaks of possibly some

1541  
01:16:37,510 --> 01:16:45,099  
kind of advanced engineering of crystals

1542  
01:16:40,708 --> 01:16:47,380  
perhaps for the use of their harvesting

1543  
01:16:45,099 --> 01:16:53,288  
energy or creating some kind of

1544  
01:16:47,380 --> 01:16:55,538  
resonator and and then supporting that

1545  
01:16:53,288 --> 01:17:00,578  
we have Raman spectroscopy

1546  
01:16:55,538 --> 01:17:01,768  
which shows up on slide 15 and we have

1547  
01:17:00,578 --> 01:17:04,988  
two graphs here

1548  
01:17:01,769 --> 01:17:07,449  
Raman is is basically again for probing

1549  
01:17:04,988 --> 01:17:10,178  
vibrational modes and fingerprinting

1550  
01:17:07,448 --> 01:17:13,868  
what types of molecules or crystals you

1551  
01:17:10,179 --> 01:17:17,368  
might have in the object and we've got

1552  
01:17:13,868 --> 01:17:20,589  
the graph on the left-hand side is is

1553  
01:17:17,368 --> 01:17:23,109  
essentially looking at very low

1554  
01:17:20,590 --> 01:17:25,288  
vibrational very low energy modes and

1555  
01:17:23,109 --> 01:17:28,569  
the graph on the right hand side

1556  
01:17:25,288 --> 01:17:31,779  
actually looks like you probably can't

1557  
01:17:28,569 --> 01:17:35,698  
see that the graph on the right hand

1558  
01:17:31,779 --> 01:17:39,099  
side shows the higher energy modes

1559  
01:17:35,698 --> 01:17:42,428  
within this material and the interesting

1560  
01:17:39,099 --> 01:17:46,958  
thing is we compare it with a few

1561  
01:17:42,429 --> 01:17:48,940  
different known materials one the one

1562  
01:17:46,958 --> 01:17:52,389  
with the the strongest signal is just

1563  
01:17:48,939 --> 01:17:55,238  
pure single-walled carbon nanotubes it's

1564  
01:17:52,389 --> 01:18:00,069  
also compared the object is is compared

1565  
01:17:55,238 --> 01:18:02,708  
against a meteorite fragment and also

1566  
01:18:00,069 --> 01:18:05,109  
against silicon and you can see that

1567  
01:18:02,708 --> 01:18:06,849  
there's certain bands around a little

1568

01:18:05,109 --> 01:18:11,049  
little lower than 16-hundred wave

1569  
01:18:06,849 --> 01:18:12,670  
numbers and that that there's clearly a

1570  
01:18:11,050 --> 01:18:15,038  
band there for carbon nanotubes and

1571  
01:18:12,670 --> 01:18:17,309  
there's also a small band that shows up

1572  
01:18:15,038 --> 01:18:19,769  
in the object as well

1573  
01:18:17,309 --> 01:18:24,960  
and and that band doesn't appear in a

1574  
01:18:19,770 --> 01:18:28,079  
regular known media right now so so that

1575  
01:18:24,960 --> 01:18:30,800  
supports the previous slides the the

1576  
01:18:28,078 --> 01:18:36,269  
previous scanning electron micrographs

1577  
01:18:30,800 --> 01:18:39,989  
that those those nano fibers could be

1578  
01:18:36,270 --> 01:18:44,340  
carbon nanotubes the the correlation is

1579  
01:18:39,988 --> 01:18:48,209  
is is pretty stark actually and and so

1580  
01:18:44,340 --> 01:18:52,078  
again having something like carbon

1581  
01:18:48,210 --> 01:18:55,349  
nanotubes or nano fibers in this sort of

1582  
01:18:52,078 --> 01:18:59,880

object you don't find these things in

1583

01:18:55,349 --> 01:19:03,139

nature they have to be somehow processed

1584

01:18:59,880 --> 01:19:06,420

engineered and they're not easy to make

1585

01:19:03,139 --> 01:19:08,609

so and and of course the the field of

1586

01:19:06,420 --> 01:19:12,599

carbon nanotubes is is is getting to be

1587

01:19:08,609 --> 01:19:17,250

rather large now it's a it's an area of

1588

01:19:12,599 --> 01:19:18,960

exploration in the sciences and and so

1589

01:19:17,250 --> 01:19:21,979

we suspect that there's some kind of

1590

01:19:18,960 --> 01:19:25,920

Engineering occurring within this object

1591

01:19:21,979 --> 01:19:29,459

the ICP mass spect the mass spectrometry

1592

01:19:25,920 --> 01:19:32,190

which also gives some kind of elemental

1593

01:19:29,460 --> 01:19:36,599

analysis and and even can offer some

1594

01:19:32,189 --> 01:19:41,250

kind of isotopic ratio analysis also

1595

01:19:36,599 --> 01:19:44,639

showed some unusual data and essentially

1596

01:19:41,250 --> 01:19:48,779

and this is on slide 16 because of the

1597  
01:19:44,639 --> 01:19:52,500  
presence of gallium germanium platinum

1598  
01:19:48,779 --> 01:19:54,389  
ruthenium rhodium and iridium in the

1599  
01:19:52,500 --> 01:20:01,828  
combination in which he's elements show

1600  
01:19:54,389 --> 01:20:03,300  
up it's typical of a meteor example now

1601  
01:20:01,828 --> 01:20:06,359  
there are many different types of

1602  
01:20:03,300 --> 01:20:09,840  
meteors that have been analyzed but but

1603  
01:20:06,359 --> 01:20:11,308  
having that combination and the

1604  
01:20:09,840 --> 01:20:14,578  
concentration combinations of those

1605  
01:20:11,309 --> 01:20:18,900  
elements indicates that this might be a

1606  
01:20:14,578 --> 01:20:23,908  
meteoric sample or something along those

1607  
01:20:18,899 --> 01:20:25,969  
lines also there was a deviation of

1608  
01:20:23,908 --> 01:20:28,009  
nickel this is looking

1609  
01:20:25,969 --> 01:20:30,710  
yeah a deviation of nickel from

1610  
01:20:28,010 --> 01:20:35,150  
terrestrial isotopic ratios that the

1611  
01:20:30,710 --> 01:20:40,880  
analysis lab couldn't explain and it

1612  
01:20:35,149 --> 01:20:42,710  
requires further study and so the

1613  
01:20:40,880 --> 01:20:45,050  
combination of all these things if we go

1614  
01:20:42,710 --> 01:20:47,539  
to the conclusions the combination of

1615  
01:20:45,050 --> 01:20:52,460  
all this data indicates some kind of

1616  
01:20:47,539 --> 01:20:56,149  
unusually or unusual engineering within

1617  
01:20:52,460 --> 01:20:59,180  
this object and elemental analysis

1618  
01:20:56,149 --> 01:21:02,029  
indicates it's likely non terrestrial it

1619  
01:20:59,180 --> 01:21:02,750  
could be meteoric possibly it could be

1620  
01:21:02,029 --> 01:21:05,948  
something else

1621  
01:21:02,750 --> 01:21:09,170  
the SEM and Raman analysis indicate

1622  
01:21:05,948 --> 01:21:12,139  
carbon nanotubes in the object today

1623  
01:21:09,170 --> 01:21:13,190  
carbon nanotubes have not been found in

1624  
01:21:12,140 --> 01:21:15,469  
meteorites

1625

01:21:13,189 --> 01:21:19,609  
there's one meteorite that's been

1626  
01:21:15,469 --> 01:21:22,119  
analysed that showed some kind of carbon

1627  
01:21:19,609 --> 01:21:24,679  
onion structures or something resembling

1628  
01:21:22,119 --> 01:21:27,319  
buckyballs but nobody's ever found any

1629  
01:21:24,680 --> 01:21:30,500  
anything resembling carbon nano

1630  
01:21:27,319 --> 01:21:32,988  
structures or threads or fibers so this

1631  
01:21:30,500 --> 01:21:34,609  
is unusual in itself and of course the

1632  
01:21:32,988 --> 01:21:37,218  
electromagnetic emissions indicate

1633  
01:21:34,609 --> 01:21:40,369  
possibility of a functional device that

1634  
01:21:37,219 --> 01:21:42,920  
may serve to monitor or control now all

1635  
01:21:40,369 --> 01:21:45,439  
of this analysis that was performed was

1636  
01:21:42,920 --> 01:21:47,750  
performed on a relatively low budget and

1637  
01:21:45,439 --> 01:21:50,750  
you know to really do a very thorough

1638  
01:21:47,750 --> 01:21:53,479  
analysis we we need more money to do

1639  
01:21:50,750 --> 01:21:56,329

this work just to pay for the analysis

1640

01:21:53,479 --> 01:21:58,488

itself and there's many other analysis

1641

01:21:56,329 --> 01:22:00,979

that we could do that might show some

1642

01:21:58,488 --> 01:22:03,169

kind of a circuitry or some kind of

1643

01:22:00,979 --> 01:22:06,619

structure similar similar to some kind

1644

01:22:03,170 --> 01:22:08,420

of a operating circuit and and and so we

1645

01:22:06,619 --> 01:22:10,010

need to be able to perform those

1646

01:22:08,420 --> 01:22:14,300

analysis and pay for those analysis and

1647

01:22:10,010 --> 01:22:16,579

go through the whole entire analytical

1648

01:22:14,300 --> 01:22:23,000

process and in a much more thorough

1649

01:22:16,579 --> 01:22:25,670

manner stay right there

1650

01:22:23,000 --> 01:22:27,409

do we have any questions at this time

1651

01:22:25,670 --> 01:22:29,869

about this this is very sophisticated

1652

01:22:27,409 --> 01:22:31,828

stuff tom Valon is a very sophisticated

1653

01:22:29,869 --> 01:22:47,368

guy

1654  
01:22:31,828 --> 01:22:49,078  
the two emissions in the makers of it it

1655  
01:22:47,368 --> 01:22:50,969  
right yeah I mean we really don't know

1656  
01:22:49,078 --> 01:22:54,299  
it certainly could be and it would make

1657  
01:22:50,969 --> 01:22:55,828  
sense I mean to power device over the

1658  
01:22:54,300 --> 01:22:57,510  
long term requires some kind of an

1659  
01:22:55,828 --> 01:22:59,130  
energy harvesting and there's plenty of

1660  
01:22:57,510 --> 01:23:02,840  
energy sources within the body itself

1661  
01:22:59,130 --> 01:23:08,550  
either thermal vibrational

1662  
01:23:02,840 --> 01:23:11,699  
electromagnetic as well not not not in

1663  
01:23:08,550 --> 01:23:14,190  
not in an in a fashion that was

1664  
01:23:11,698 --> 01:23:15,928  
controlled to my liking I mean we have

1665  
01:23:14,189 --> 01:23:28,589  
to have it in within a Faraday cage and

1666  
01:23:15,929 --> 01:23:31,340  
make very careful measure of dr. a

1667  
01:23:28,590 --> 01:23:36,590  
circuit does your research show that

1668  
01:23:31,340 --> 01:23:39,300  
this was a non terrestrial and B

1669  
01:23:36,590 --> 01:23:45,470  
it it's very likely it is

1670  
01:23:39,300 --> 01:23:49,710  
non-terrestrial I'm let's say 95% sure

1671  
01:23:45,470 --> 01:23:51,710  
and whether it's a device or not I would

1672  
01:23:49,710 --> 01:23:54,569  
say the electromagnetic emissions

1673  
01:23:51,710 --> 01:23:57,359  
indicate that also there's about a 90%

1674  
01:23:54,569 --> 01:24:02,969  
chance that it's a functional device but

1675  
01:23:57,359 --> 01:24:15,079  
we really need to do a lot more work oh

1676  
01:24:02,970 --> 01:24:18,420  
yes yes absolutely yeah right question

1677  
01:24:15,079 --> 01:24:22,559  
does the device continue transmitting

1678  
01:24:18,420 --> 01:24:26,750  
once is in vitro sorry buddy no I don't

1679  
01:24:22,560 --> 01:24:26,750  
think so no no I don't think we had

1680  
01:24:28,250 --> 01:24:38,399  
about six weeks okay right it doesn't

1681  
01:24:36,689 --> 01:24:41,479  
seem to it to emit and anything else

1682

01:24:38,399 --> 01:24:41,479  
after that time yeah

1683  
01:24:52,569 --> 01:24:56,949  
well--there's yeah did you want to

1684  
01:24:55,060 --> 01:25:01,780  
answer that one because there's many

1685  
01:24:56,949 --> 01:25:05,979  
different answers the abduction

1686  
01:25:01,779 --> 01:25:09,099  
phenomena involves in linear time

1687  
01:25:05,979 --> 01:25:12,459  
varying amounts of time now I've studied

1688  
01:25:09,100 --> 01:25:15,100  
these cases over a period of number of

1689  
01:25:12,460 --> 01:25:18,670  
years and as you know the Travis Walton

1690  
01:25:15,100 --> 01:25:21,810  
case is the case in which the individual

1691  
01:25:18,670 --> 01:25:25,119  
was taken aboard a craft and it was days

1692  
01:25:21,810 --> 01:25:29,449  
later before he was returned in linear

1693  
01:25:25,119 --> 01:25:33,500  
time however many

1694  
01:25:29,448 --> 01:25:35,869  
Arthur is seemingly no time differential

1695  
01:25:33,500 --> 01:25:38,149  
between the time they are taken and the

1696  
01:25:35,869 --> 01:25:40,069

time they were returned there are other

1697

01:25:38,149 --> 01:25:44,649

things about the phenomenon which

1698

01:25:40,069 --> 01:25:47,079

require a lot more study and a better

1699

01:25:44,649 --> 01:25:50,929

understanding through earthly science

1700

01:25:47,079 --> 01:25:53,979

the reports by individuals who are on a

1701

01:25:50,929 --> 01:25:57,619

craft may see things that are

1702

01:25:53,979 --> 01:26:00,198

disproportionate to what we see as far

1703

01:25:57,619 --> 01:26:02,869

as even in linear measurement a craft

1704

01:26:00,198 --> 01:26:05,539

from the outside may look like it's one

1705

01:26:02,869 --> 01:26:07,969

dimension on the inside they can look

1706

01:26:05,539 --> 01:26:11,800

like it's a ten to fifteen times the

1707

01:26:07,969 --> 01:26:15,619

size so to get to answer your question

1708

01:26:11,800 --> 01:26:18,400

as in linear time that's the the best

1709

01:26:15,619 --> 01:26:21,500

example I can give it's either from zero

1710

01:26:18,399 --> 01:26:28,539

to the long longest known case is about

1711  
01:26:21,500 --> 01:26:28,539  
seven days yes

1712  
01:26:39,238 --> 01:26:44,229  
that's that's true because the average

1713  
01:26:42,039 --> 01:26:47,170  
abduction case that they are not gone

1714  
01:26:44,229 --> 01:26:49,718  
for seven days and the Travis Walton

1715  
01:26:47,170 --> 01:26:52,239  
case was a rather unusual case which I

1716  
01:26:49,719 --> 01:26:54,939  
won't go into but the family and the

1717  
01:26:52,238 --> 01:26:58,319  
police department of snowflake Arizona

1718  
01:26:54,939 --> 01:27:02,618  
we're looking for this man he was a

1719  
01:26:58,319 --> 01:27:05,380  
forester and he was with a crew and the

1720  
01:27:02,618 --> 01:27:08,889  
crew had been taken in and accused of

1721  
01:27:05,380 --> 01:27:12,310  
kidnapping and murder so this this is

1722  
01:27:08,889 --> 01:27:16,060  
not not typical of an ordinary abduction

1723  
01:27:12,310 --> 01:27:18,159  
cut short so we need more the abduction

1724  
01:27:16,060 --> 01:27:20,320  
phenomena of contactee phenomena is vast

1725  
01:27:18,158 --> 01:27:22,839  
the resources are enormous you can go

1726  
01:27:20,319 --> 01:27:25,029  
out and spend many weeks reading it yeah

1727  
01:27:22,840 --> 01:27:27,639  
if you got a question specific to this

1728  
01:27:25,029 --> 01:27:29,859  
implant extraordinary physics any

1729  
01:27:27,639 --> 01:27:31,270  
questions there any more okay would you

1730  
01:27:29,859 --> 01:27:33,839  
go ahead and sit down please thank you

1731  
01:27:31,270 --> 01:27:33,840  
so much gentlemen

1732  
01:27:37,229 --> 01:27:43,209  
but I will add this that tens of

1733  
01:27:41,770 --> 01:27:45,460  
thousands and thousands of reports are

1734  
01:27:43,210 --> 01:27:48,429  
coming out many of them involve implants

1735  
01:27:45,460 --> 01:27:50,349  
many of these have been analyzed they

1736  
01:27:48,429 --> 01:27:53,739  
come from in the navel cavities other

1737  
01:27:50,349 --> 01:27:55,449  
parts of the brain ear lobes arms and

1738  
01:27:53,738 --> 01:27:56,678  
what-have-you it's extraordinary

1739

01:27:55,448 --> 01:27:58,750  
physical evidence

1740  
01:27:56,679 --> 01:28:00,609  
I point this out not because I believe

1741  
01:27:58,750 --> 01:28:01,988  
it's necessary to confirm et presence

1742  
01:28:00,609 --> 01:28:04,299  
that's been proven many times over in

1743  
01:28:01,988 --> 01:28:07,209  
fact it was proven by 1952 but there are

1744  
01:28:04,300 --> 01:28:10,000  
people who like that physical stuff they

1745  
01:28:07,210 --> 01:28:11,289  
want to see that well there it is so one

1746  
01:28:10,000 --> 01:28:14,408  
can look into this at their at their

1747  
01:28:11,289 --> 01:28:16,238  
leisure dr. Leroy and and Alex will be

1748  
01:28:14,408 --> 01:28:18,279  
available afterwards all right and you

1749  
01:28:16,238 --> 01:28:19,718  
can question them then now I'm gonna

1750  
01:28:18,279 --> 01:28:23,769  
bring this down to a close some

1751  
01:28:19,719 --> 01:28:26,408  
housekeeping things very quickly Alfred

1752  
01:28:23,770 --> 01:28:28,480  
and dr. Alexander your ride will be

1753  
01:28:26,408 --> 01:28:29,859

waiting for you at 12 directly

1754

01:28:28,479 --> 01:28:31,779

downstairs you want to get downstairs

1755

01:28:29,859 --> 01:28:33,969

out the fourteenth Street entrance about

1756

01:28:31,779 --> 01:28:35,529

five of 12 and you'll be gone it's

1757

01:28:33,969 --> 01:28:40,618

Jeffrey Jenkins all right

1758

01:28:35,529 --> 01:28:44,729

secondly all speakers and activists

1759

01:28:40,618 --> 01:28:47,170

connected to PRG and special PRG guests

1760

01:28:44,729 --> 01:28:49,149

are to meet in the Fourth Estate

1761

01:28:47,170 --> 01:28:51,970

restaurant for a working lunch for the

1762

01:28:49,149 --> 01:28:53,529

next few hours you can go in really

1763

01:28:51,970 --> 01:28:57,909

anytime they're kind of set up but we'll

1764

01:28:53,529 --> 01:29:01,630

get underway around 12:00 again to

1765

01:28:57,909 --> 01:29:04,269

finish this is the paradigm research

1766

01:29:01,630 --> 01:29:06,609

group press conference after the X

1767

01:29:04,270 --> 01:29:08,850

conference 2009 held at the Hilton

1768  
01:29:06,609 --> 01:29:13,420  
Gaithersburg it will be held again in

1769  
01:29:08,850 --> 01:29:15,640  
April of 2010 I believe as I've said

1770  
01:29:13,420 --> 01:29:18,190  
publicly on many many radio and

1771  
01:29:15,640 --> 01:29:19,990  
television programs that the Obama

1772  
01:29:18,189 --> 01:29:21,069  
administration through the nature of who

1773  
01:29:19,989 --> 01:29:23,859  
they have appointed and other

1774  
01:29:21,069 --> 01:29:27,340  
indications and other information I'm

1775  
01:29:23,859 --> 01:29:30,670  
receiving has made a decision to

1776  
01:29:27,340 --> 01:29:32,110  
disclose the et presence but that is of

1777  
01:29:30,670 --> 01:29:35,619  
course an assessment they are certainly

1778  
01:29:32,109 --> 01:29:37,269  
not saying anything all right however

1779  
01:29:35,619 --> 01:29:40,300  
the window of opportunity is very very

1780  
01:29:37,270 --> 01:29:42,520  
wide we are encouraging the

1781  
01:29:40,300 --> 01:29:44,980  
administration which is dedicated itself

1782  
01:29:42,520 --> 01:29:46,930  
to open and transparent government to

1783  
01:29:44,979 --> 01:29:49,989  
commit the ultimate act of openness and

1784  
01:29:46,930 --> 01:29:52,360  
transparency and to do it immediately

1785  
01:29:49,989 --> 01:29:55,510  
before this truth embargo becomes it's

1786  
01:29:52,359 --> 01:29:58,630  
embargo and it has to explain its

1787  
01:29:55,510 --> 01:30:00,850  
reasons for delay at a critical time in

1788  
01:29:58,630 --> 01:30:05,230  
the human races how would you say

1789  
01:30:00,850 --> 01:30:09,610  
development on multiple fronts if it

1790  
01:30:05,229 --> 01:30:12,089  
does not disclose by the end of May this

1791  
01:30:09,609 --> 01:30:14,109  
is not a threat or anything

1792  
01:30:12,090 --> 01:30:16,770  
don't threaten the United States

1793  
01:30:14,109 --> 01:30:18,960  
government there have an arm

1794  
01:30:16,770 --> 01:30:21,060  
but the first hundred days plus 30

1795  
01:30:18,960 --> 01:30:24,210  
because I have to admit this gentleman

1796

01:30:21,060 --> 01:30:26,910  
came into a rather extensive array of

1797  
01:30:24,210 --> 01:30:28,980  
very profound problems so we're

1798  
01:30:26,909 --> 01:30:32,849  
providing an additional 30 days if

1799  
01:30:28,979 --> 01:30:35,819  
explosions not taking place PRG has

1800  
01:30:32,850 --> 01:30:39,200  
enormous it has a substantial network

1801  
01:30:35,819 --> 01:30:41,460  
and quite a bit of documentary evidence

1802  
01:30:39,199 --> 01:30:43,109  
connected to this particular politically

1803  
01:30:41,460 --> 01:30:44,430  
particularly to the Rockefeller

1804  
01:30:43,109 --> 01:30:46,380  
initiative the Clinton ministraton and

1805  
01:30:44,430 --> 01:30:49,140  
we are going to be extensively putting

1806  
01:30:46,380 --> 01:30:50,850  
that out to the media and we're just

1807  
01:30:49,140 --> 01:30:53,820  
going to make it as difficult on them as

1808  
01:30:50,850 --> 01:30:57,030  
possible we don't want to but sometimes

1809  
01:30:53,819 --> 01:31:00,000  
that's necessary and finally if they

1810  
01:30:57,029 --> 01:31:02,939

choose not to disclose by the end of May

1811

01:31:00,000 --> 01:31:05,460

and wait maybe they want June maybe July

1812

01:31:02,939 --> 01:31:07,259

or whenever it's convenient there is a

1813

01:31:05,460 --> 01:31:09,239

very real possibility I believe about

1814

01:31:07,260 --> 01:31:11,250

50/50 that another nation will in fact

1815

01:31:09,239 --> 01:31:13,469

act preemptively and preemptively

1816

01:31:11,250 --> 01:31:15,720

proactively on their own and disclose

1817

01:31:13,470 --> 01:31:17,070

the extra-terrestrial presence and they

1818

01:31:15,720 --> 01:31:18,630

will wake up and they will pick up the

1819

01:31:17,069 --> 01:31:21,299

Washington Post of The Washington Times

1820

01:31:18,630 --> 01:31:24,180

and the headline will read president

1821

01:31:21,300 --> 01:31:26,970

Sarkozy of France today will tell the

1822

01:31:24,180 --> 01:31:28,500

French people about the confirmation of

1823

01:31:26,970 --> 01:31:31,500

an extraterrestrial presence and provide

1824

01:31:28,500 --> 01:31:34,289

evidence from the French military files

1825  
01:31:31,500 --> 01:31:36,989  
and we will follow and they will lead

1826  
01:31:34,289 --> 01:31:38,909  
that's what's at issue today I think

1827  
01:31:36,989 --> 01:31:40,979  
it's a pretty big issue we're getting a

1828  
01:31:38,909 --> 01:31:44,609  
lot of calls for dr. Mitchell to appear

1829  
01:31:40,979 --> 01:31:46,019  
on some very fine shows that may not be

1830  
01:31:44,609 --> 01:31:48,509  
possible right away he has some

1831  
01:31:46,020 --> 01:31:50,430  
substantial demands on his time but

1832  
01:31:48,510 --> 01:31:52,710  
believe me he wants to do those shows

1833  
01:31:50,430 --> 01:31:55,470  
and we will do everything we can to

1834  
01:31:52,710 --> 01:31:57,420  
service those requests but I hope those

1835  
01:31:55,470 --> 01:31:59,670  
requests will keep coming in after this

1836  
01:31:57,420 --> 01:32:02,220  
is maybe faded just a touch out of the

1837  
01:31:59,670 --> 01:32:04,350  
out of the news cycle I thank you so

1838  
01:32:02,220 --> 01:32:06,630  
much for coming today we look forward to

1839

01:32:04,350 --> 01:32:10,980

perhaps another press conference maybe

1840

01:32:06,630 --> 01:32:13,159

after disclosure in April of 2010 thank

1841

01:32:10,979 --> 01:32:13,159

you
