

1
00:00:37,149 --> 00:00:41,049
matters the nice about

2
00:00:42,488 --> 00:00:58,808
cool for the speedy star that's already

3
00:01:02,729 --> 00:01:15,899
I was walking over this spot and it just

4
00:01:13,799 --> 00:01:19,079
like it felt really different so I

5
00:01:15,900 --> 00:01:21,450
stopped and I went back over it to see

6
00:01:19,079 --> 00:01:24,109
if if I was just imagining it or not but

7
00:01:21,450 --> 00:01:27,930
um definitely feels different right here

8
00:01:24,109 --> 00:01:31,439
it was like it felt like the energy

9
00:01:27,930 --> 00:01:33,650
traveled up like through my core of my

10
00:01:31,439 --> 00:01:36,209
spine and it kind of feels like cooling

11
00:01:33,650 --> 00:01:39,030
whereas the other one felt kind of warm

12
00:01:36,209 --> 00:01:41,250
in some spots this one feels like cooler

13
00:01:39,030 --> 00:01:42,930
why don't we walk around a little and

14
00:01:41,250 --> 00:01:50,728
see how the energy behaves what do you

15
00:01:42,930 --> 00:02:03,420
think yeah sure yeah okay cool that way

16
00:01:50,728 --> 00:02:07,228
yeah it sort of is like a tickling I

17
00:02:03,420 --> 00:02:09,000
don't know mmm feels good maybe we

18
00:02:07,228 --> 00:02:12,300
should we should walk along and see if

19
00:02:09,000 --> 00:02:16,039
we can find another energetic spot the

20
00:02:12,300 --> 00:02:16,040
g-spot of the crop circles
