

1
00:01:03,289 --> 00:01:17,489
mr. Jafari knew one of the few pilots

2
00:01:08,939 --> 00:01:22,679
who tried to shoot a UFO and can you

3
00:01:17,489 --> 00:01:26,519
tell us what happened when you are in

4
00:01:22,680 --> 00:01:31,219
the air and you have seen for the first

5
00:01:26,519 --> 00:01:40,049
time an object you could not explain how

6
00:01:31,219 --> 00:01:44,250
not like actually something around

7
00:01:40,049 --> 00:01:48,539
midnight some people saw it above the

8
00:01:44,250 --> 00:01:56,728
city and they reported to the control

9
00:01:48,540 --> 00:01:59,550
tower of the airport and after all they

10
00:01:56,728 --> 00:02:04,859
find out it's true then decide by

11
00:01:59,549 --> 00:02:08,939
dancing so they asked us to take off the

12
00:02:04,859 --> 00:02:12,539
first airplane took off and after 10

13
00:02:08,939 --> 00:02:16,469
minutes or so I took off the first plane

14
00:02:12,539 --> 00:02:20,549
followed it and when I took off he said

15
00:02:16,469 --> 00:02:26,489
we can't reach it you know the what a

16
00:02:20,550 --> 00:02:29,250
speed of fun and I told him to come back

17
00:02:26,489 --> 00:02:34,580
on the way back then he was coming in

18
00:02:29,250 --> 00:02:34,580
the side on the middle of both of us

19
00:02:36,150 --> 00:02:45,540
when I fight it wasn't the thing that I

20
00:02:41,620 --> 00:02:52,780
could see it was some light flashing

21
00:02:45,539 --> 00:03:02,669
green amber blue and red this one color

22
00:02:52,780 --> 00:03:05,560
was flashing from four sided object

23
00:03:02,669 --> 00:03:10,929
which could not be seen by itself

24
00:03:05,560 --> 00:03:14,259
however after a few minutes and I was

25
00:03:10,930 --> 00:03:19,060
looking straight ahead and going through

26
00:03:14,259 --> 00:03:23,310
it toward it all of a sudden jumped out

27
00:03:19,060 --> 00:03:27,489
about ten degrees to the right which I

28
00:03:23,310 --> 00:03:31,780
couldn't imagine how fast it was and I'm

29

00:03:27,489 --> 00:03:39,340
not thinking the acceleration of the

30
00:03:31,780 --> 00:03:44,979
movement and also the G was taking of

31
00:03:39,340 --> 00:03:47,530
that movement however each time I was

32
00:03:44,979 --> 00:03:52,389
pointing the nose of the aircraft or

33
00:03:47,530 --> 00:03:56,789
distinct after why would jump another

34
00:03:52,389 --> 00:04:01,298
ten degrees to my right until about

35
00:03:56,789 --> 00:04:04,479
seventy degrees 10 he had little by

36
00:04:01,299 --> 00:04:08,379
little turned to have it on the nose and

37
00:04:04,479 --> 00:04:16,149
also I was climbing and going forward to

38
00:04:08,379 --> 00:04:18,230
it I asked the radar I mean the control

39
00:04:16,149 --> 00:04:22,489
tower if the ground

40
00:04:18,230 --> 00:04:26,569
the airport's radar has it inside they

41
00:04:22,490 --> 00:04:27,769
said the radar is not operational at

42
00:04:26,569 --> 00:04:33,769
this moment

43
00:04:27,769 --> 00:04:40,209

so my backseater he told me that I

44

00:04:33,769 --> 00:04:40,209

locked on I told him to break lock and

45

00:04:41,079 --> 00:04:51,469

paint it very perfectly with the

46

00:04:46,639 --> 00:04:54,250

movement of the antenna upward so I

47

00:04:51,470 --> 00:04:58,040

found out that it is above the horizon

48

00:04:54,250 --> 00:05:00,920

so I was sure that it is the object not

49

00:04:58,040 --> 00:05:02,420

anything else on the ground probably so

50

00:05:00,920 --> 00:05:08,030

we locked on it honey

51

00:05:02,420 --> 00:05:10,640

it was now 26 miles away us and we

52

00:05:08,029 --> 00:05:18,049

figured out the calculate adult tube

53

00:05:10,639 --> 00:05:21,589

with 32,000 feet so I don't put up the

54

00:05:18,050 --> 00:05:25,759

nose too much to let the aircraft go

55

00:05:21,589 --> 00:05:31,899

forward also because I find out that I

56

00:05:25,759 --> 00:05:41,329

have hundreds 50 knots closure airspeed

57

00:05:31,899 --> 00:05:44,989

so after a while again I was looking at

58
00:05:41,329 --> 00:05:47,959
it and also inside the radar this time

59
00:05:44,990 --> 00:05:52,040
when I looked at the radar we were close

60
00:05:47,959 --> 00:05:55,549
to 25 miles which it means one wise we

61
00:05:52,040 --> 00:05:57,740
got closer and all of a sudden for your

62
00:05:55,550 --> 00:06:02,270
time by the chance of course I was

63
00:05:57,740 --> 00:06:05,960
looking at the radar I saw jumped back

64
00:06:02,269 --> 00:06:10,000
about two miles and went to the 27 mine

65
00:06:05,959 --> 00:06:17,478
and stopped it it was something unusual

66
00:06:10,000 --> 00:06:22,279
to have such a thing flying above that

67
00:06:17,478 --> 00:06:24,649
altitude and doing all these things so

68
00:06:22,279 --> 00:06:32,750
all of this between all of this

69
00:06:24,649 --> 00:06:36,969
wandering I saw a run-on thing which was

70
00:06:32,750 --> 00:06:44,300
bright but half of the size of the moon

71
00:06:36,970 --> 00:06:47,120
and moving downward came below the

72
00:06:44,300 --> 00:06:49,788
horizon and from the below the horizon

73
00:06:47,120 --> 00:06:55,788
start come toward me

74
00:06:49,788 --> 00:07:00,250
I was really scared at this time I

75
00:06:55,788 --> 00:07:04,069
talked to maybe this is going to be a

76
00:07:00,250 --> 00:07:07,129
missile or something that they launched

77
00:07:04,069 --> 00:07:11,439
toward me when the radar was locked on

78
00:07:07,129 --> 00:07:15,439
the main thing so it couldn't be used

79
00:07:11,439 --> 00:07:18,769
for this one because that could take a

80
00:07:15,439 --> 00:07:24,829
long time to break lot from death one to

81
00:07:18,769 --> 00:07:28,218
lock on this one and plastered if I

82
00:07:24,829 --> 00:07:32,079
think that it's a missile that was no

83
00:07:28,218 --> 00:07:36,110
useful so the only thing I thought I

84
00:07:32,079 --> 00:07:40,459
said maybe I use another kind of the

85
00:07:36,110 --> 00:07:43,430
missile to shoot it so when I selected

86

00:07:40,459 --> 00:07:45,680
them inside by the time it was coming

87
00:07:43,430 --> 00:07:48,250
from the globe right and toward me an

88
00:07:45,680 --> 00:07:48,250
awkward

89
00:07:50,100 --> 00:07:58,680
when I look to my missile panel to see

90
00:07:55,290 --> 00:08:02,310
if the missile is selected or not I saw

91
00:07:58,680 --> 00:08:07,620
all of the instruments are fluctuating

92
00:08:02,310 --> 00:08:13,560
and plus lots of statics in the radio

93
00:08:07,620 --> 00:08:18,569
hearing and there were no lights inside

94
00:08:13,560 --> 00:08:24,089
the inside panel so I knew there is no

95
00:08:18,569 --> 00:08:29,909
news for none of these things and to

96
00:08:24,089 --> 00:08:31,919
jump out in case of the collusion second

97
00:08:29,910 --> 00:08:34,979
thing which I would think that maybe

98
00:08:31,920 --> 00:08:37,830
it's an aside it was very dangerous

99
00:08:34,979 --> 00:08:43,440
because if I jump out in that direction

100
00:08:37,830 --> 00:08:47,970

I would be come down with the parachute

101

00:08:43,440 --> 00:08:53,210
right inside the blast but I made a left

102

00:08:47,970 --> 00:08:58,710
turn to get away from the direct

103

00:08:53,210 --> 00:09:02,009
collusion and just as much bank that I

104

00:08:58,710 --> 00:09:07,590
could see the thing from a canopy bow on

105

00:09:02,009 --> 00:09:09,830
my right side and the left and I left

106

00:09:07,590 --> 00:09:12,990
the power on the other person and

107

00:09:09,830 --> 00:09:16,620
tightened the version of and brought my

108

00:09:12,990 --> 00:09:20,419
left hand to the ejection handle between

109

00:09:16,620 --> 00:09:26,279
the legs here

110

00:09:20,419 --> 00:09:29,939
and it came forward and forward and I

111

00:09:26,279 --> 00:09:33,929
told if it comes somewhere around the

112

00:09:29,940 --> 00:09:40,520
closer than four or five miles there is

113

00:09:33,929 --> 00:09:44,609
no time to delay I have to jump out but

114

00:09:40,519 --> 00:09:47,579
someplace it stopped it stopped right

115
00:09:44,610 --> 00:09:55,440
there somewhere around 4 o'clock and

116
00:09:47,580 --> 00:09:58,650
right side by this time I took a look

117
00:09:55,440 --> 00:09:59,400
around to see if I jump out in which

118
00:09:58,649 --> 00:10:02,370
area

119
00:09:59,399 --> 00:10:04,949
coming down so I can recognize when I

120
00:10:02,370 --> 00:10:13,919
reach on the ground when I look back

121
00:10:04,950 --> 00:10:15,600
again it wasn't there and I sent them by

122
00:10:13,919 --> 00:10:19,829
myself what happened

123
00:10:15,600 --> 00:10:23,850
the bank sitter he said that it is on

124
00:10:19,830 --> 00:10:27,750
our 7 o'clock I look to my left side by

125
00:10:23,850 --> 00:10:32,700
side it is my left side now I saw a game

126
00:10:27,750 --> 00:10:38,389
the maintain somewhere around on 10 or

127
00:10:32,700 --> 00:10:43,640
11 o'clock on the other side by the time

128
00:10:38,389 --> 00:10:46,620
the things started to go around and make

129
00:10:43,639 --> 00:10:49,080
really a very nice join up underneath

130
00:10:46,620 --> 00:10:57,629
the main TV chief but still flashing

131
00:10:49,080 --> 00:11:00,180
that four lives maybe a human let him

132
00:10:57,629 --> 00:11:03,899
you know I mean a few seconds later

133
00:11:00,179 --> 00:11:08,549
another way another one came out the

134
00:11:03,899 --> 00:11:12,480
same thing wrong ha the converse the

135
00:11:08,549 --> 00:11:16,379
color was something like a moon but the

136
00:11:12,480 --> 00:11:21,570
moon is bright but it was a little the

137
00:11:16,379 --> 00:11:24,990
life of Lord and the moon and it came

138
00:11:21,570 --> 00:11:32,040
out and started to make her ever turn

139
00:11:24,990 --> 00:11:34,680
around of me by this time any time that

140
00:11:32,039 --> 00:11:38,849
these things would be close to me I

141
00:11:34,679 --> 00:11:45,120
would lose contact a radio lose a radio

142
00:11:38,850 --> 00:11:50,580
contact with the ground the tower so I

143

00:11:45,120 --> 00:11:53,789
asked a tower to let me to go back to

144
00:11:50,580 --> 00:11:55,560
the land because I do not recommend to

145
00:11:53,789 --> 00:11:59,159
father it anymore because it's very

146
00:11:55,559 --> 00:12:00,169
dangerous and we can't do anything about

147
00:11:59,159 --> 00:12:06,059
it

148
00:12:00,169 --> 00:12:07,379
so we've started to they let me to go

149
00:12:06,059 --> 00:12:13,449
down and

150
00:12:07,379 --> 00:12:17,500
for landing in Tehran Airport I started

151
00:12:13,450 --> 00:12:20,580
to go down and one thing one of those

152
00:12:17,500 --> 00:12:24,279
think the wrong thing was following me

153
00:12:20,580 --> 00:12:27,100
on the left side at about 8 o'clock

154
00:12:24,279 --> 00:12:30,279
maybe the summer of 20 miles or so

155
00:12:27,100 --> 00:12:33,670
behind of me was just coming down under

156
00:12:30,279 --> 00:12:41,860
the same of course I had forgotten this

157
00:12:33,669 --> 00:12:48,279

is part of flying after I landed but

158

00:12:41,860 --> 00:12:50,289

when I listened to the radio tape which

159

00:12:48,279 --> 00:12:53,500

they brought it from the tower

160

00:12:50,289 --> 00:12:56,019

I remembered a game that things that

161

00:12:53,500 --> 00:13:02,850

really did happen and it was following

162

00:12:56,019 --> 00:13:07,870

me for the landing configuration on the

163

00:13:02,850 --> 00:13:12,340

base leg before I make my final turn I

164

00:13:07,870 --> 00:13:16,870

saw something coming forward like a

165

00:13:12,340 --> 00:13:19,330

ruler on the opposite side I thought

166

00:13:16,870 --> 00:13:23,340

maybe there is an aircraft and it was a

167

00:13:19,330 --> 00:13:26,440

secret area that point of the city

168

00:13:23,340 --> 00:13:28,660

because it was close of the mountain but

169

00:13:26,440 --> 00:13:32,470

the gaze is driving on this thing

170

00:13:28,659 --> 00:13:35,350

I asked it all what is the same track is

171

00:13:32,470 --> 00:13:40,000

doing here and they said there's no

172
00:13:35,350 --> 00:13:46,389
aircraft and we had known having a drive

173
00:13:40,000 --> 00:13:49,960
up there on the left turn almost it came

174
00:13:46,389 --> 00:13:54,909
right over top of this and I could see a

175
00:13:49,960 --> 00:14:00,879
train jacket like a ruler and on the two

176
00:13:54,909 --> 00:14:10,659
side of it the two very small lights

177
00:14:00,879 --> 00:14:12,939
very it wasn't so bright it had it so I

178
00:14:10,659 --> 00:14:18,789
made a turn but my banks it have said

179
00:14:12,940 --> 00:14:21,520
that overhead ruler it was a bow like a

180
00:14:18,789 --> 00:14:25,349
canopy bow which was a little bright

181
00:14:21,519 --> 00:14:32,500
inside of it but it could not see any

182
00:14:25,350 --> 00:14:37,690
person in it we made the turn on the

183
00:14:32,500 --> 00:14:40,179
final when I look to my left side again

184
00:14:37,690 --> 00:14:43,330
I saw the main thing on the left side up

185
00:14:40,179 --> 00:14:49,529
there was flashing again all those

186
00:14:43,330 --> 00:14:53,440
lights it was not close to the city and

187
00:14:49,529 --> 00:14:58,839
again one of those wrong things started

188
00:14:53,440 --> 00:15:01,420
to come down very fast unbelievable and

189
00:14:58,840 --> 00:15:06,280
I thought maybe right now I will see a

190
00:15:01,419 --> 00:15:09,189
very very high explosion when it hits

191
00:15:06,279 --> 00:15:10,209
the ground but that happened that did

192
00:15:09,190 --> 00:15:13,030
not happen

193
00:15:10,210 --> 00:15:17,800
the only thing happened came over a

194
00:15:13,029 --> 00:15:20,709
ground and every place with bright I

195
00:15:17,799 --> 00:15:25,449
could see the ground and the sands on

196
00:15:20,710 --> 00:15:28,900
the ground and the main thing was out

197
00:15:25,450 --> 00:15:31,330
there and it was close to the ground or

198
00:15:28,899 --> 00:15:34,870
important this to the base and they sent

199
00:15:31,330 --> 00:15:43,139
to the tower and they said yes there

200

00:15:34,870 --> 00:15:49,600
seemed boasting also now by the time

201
00:15:43,139 --> 00:15:52,720
listen to go around and go to 15,000

202
00:15:49,600 --> 00:15:56,950
feet go again to the same place that

203
00:15:52,720 --> 00:16:03,639
that team landed and see recognize what

204
00:15:56,950 --> 00:16:08,879
it is I made my ground and when I was

205
00:16:03,639 --> 00:16:14,049
closer to death area again I had statics

206
00:16:08,879 --> 00:16:15,769
garden in the radio and the fluctuation

207
00:16:14,049 --> 00:16:20,659
in the

208
00:16:15,769 --> 00:16:25,360
so many panels so I made it hard left

209
00:16:20,659 --> 00:16:29,958
turn I gather the girl out of the net

210
00:16:25,360 --> 00:16:32,899
sigilyph area now I could hear the tower

211
00:16:29,958 --> 00:16:39,558
which was calling me and I said it is

212
00:16:32,899 --> 00:16:44,989
not good condition to go forward to it

213
00:16:39,558 --> 00:16:49,129
because everything goes up again and if

214
00:16:44,989 --> 00:16:51,439

it isn't really order I can go but I

215

00:16:49,129 --> 00:16:56,659

don't recommend to do it because their

216

00:16:51,438 --> 00:17:01,088

danger so we told me to go back and land

217

00:16:56,659 --> 00:17:01,088

and we landed our first unit the whole

218

00:17:01,239 --> 00:17:11,929

flight we could hear a siren which later

219

00:17:06,528 --> 00:17:17,808

on I looked at many other over fly

220

00:17:11,929 --> 00:17:22,699

pilots they had reported it also we

221

00:17:17,808 --> 00:17:26,599

could hear the siren also we landed and

222

00:17:22,699 --> 00:17:28,970

escaped of mainly the tower and the

223

00:17:26,599 --> 00:17:33,199

people inside the town they could see

224

00:17:28,970 --> 00:17:36,440

the thing both of them and when I after

225

00:17:33,200 --> 00:17:40,580

landing then I went to the tower it was

226

00:17:36,440 --> 00:17:45,019

gone they said all of a sudden two

227

00:17:40,579 --> 00:17:51,740

powerful to the sky disappear next

228

00:17:45,019 --> 00:17:54,829

morning with the helicopter we flew to

229
00:17:51,740 --> 00:17:57,859
the places to one place that it was

230
00:17:54,829 --> 00:18:03,138
landing and the final was coming from

231
00:17:57,859 --> 00:18:06,769
death area with the df' of the

232
00:18:03,138 --> 00:18:10,579
helicopter we went over the place which

233
00:18:06,769 --> 00:18:12,879
the silo was and it was exactly what we

234
00:18:10,579 --> 00:18:16,379
talked last night it landed there

235
00:18:12,880 --> 00:18:21,470
there was nothing it was

236
00:18:16,380 --> 00:18:26,910
free area to just different just sense

237
00:18:21,470 --> 00:18:29,970
no housing or garden nothing we were

238
00:18:26,910 --> 00:18:32,669
over it the needle was turning around is

239
00:18:29,970 --> 00:18:39,298
assuring that the siding is coming from

240
00:18:32,669 --> 00:18:42,690
this area but is nothing in there we

241
00:18:39,298 --> 00:18:45,720
landed there and we took a look closer

242
00:18:42,690 --> 00:18:48,929
and it was nothing

243
00:18:45,720 --> 00:18:55,700
the area was not burned and the color of

244
00:18:48,929 --> 00:18:55,700
the one was not change nothing

245
00:18:56,329 --> 00:19:03,658
if you travel away from this the mother

246
00:19:00,960 --> 00:19:07,140
housing area we ask the vendor and

247
00:19:03,659 --> 00:19:10,679
landing so the people when they heard a

248
00:19:07,140 --> 00:19:13,350
helicopter landed they came out and we

249
00:19:10,679 --> 00:19:17,030
asked them if they heard anything last

250
00:19:13,349 --> 00:19:20,730
night but he saw anything last night

251
00:19:17,029 --> 00:19:24,750
only one then he said that he heard the

252
00:19:20,730 --> 00:19:27,269
sound when he came out after a while of

253
00:19:24,750 --> 00:19:32,569
course he couldn't see anything in the

254
00:19:27,269 --> 00:19:37,379
character so that was the whole story

255
00:19:32,569 --> 00:19:40,200
that I was challenging for about an hour

256
00:19:37,380 --> 00:19:43,640
and 20 minutes and described it of

257

00:19:40,200 --> 00:19:43,640
course it was very short

258
00:19:44,900 --> 00:19:46,960
you
