

1
00:00:00,000 --> 00:00:06,028
I like to thank thank you first of all

2
00:00:02,730 --> 00:00:09,830
to Pina and Fredrik who has invited me

3
00:00:06,028 --> 00:00:12,539
to this event as you can see from the

4
00:00:09,830 --> 00:00:14,460
presentation I am NOT an official

5
00:00:12,539 --> 00:00:17,788
representative of the Exopolitics

6
00:00:14,460 --> 00:00:21,830
movement my home base is the youthful

7
00:00:17,789 --> 00:00:24,840
research community and presently I am

8
00:00:21,829 --> 00:00:27,778
vice chairman for UEFA's weed and the

9
00:00:24,839 --> 00:00:30,268
National Organization in Sweden and I am

10
00:00:27,778 --> 00:00:33,149
also one of the founders of and

11
00:00:30,268 --> 00:00:36,269
presently director of archives for UFO

12
00:00:33,149 --> 00:00:40,469
research situated in norrköping

13
00:00:36,270 --> 00:00:43,859
in Sweden and as you can see in this

14
00:00:40,469 --> 00:00:46,980

picture here it is the largest UFO

15

00:00:43,859 --> 00:00:49,920

archive in the world you don't have to

16

00:00:46,979 --> 00:00:51,419

go to Paris or New York or Chicago to

17

00:00:49,920 --> 00:00:54,059

look at the largest art curve you have

18

00:00:51,420 --> 00:00:57,590

to come to north europe in sweden which

19

00:00:54,058 --> 00:01:03,269

many journalists find rather fantastic

20

00:00:57,590 --> 00:01:06,960

but why dedicate or why create the

21

00:01:03,270 --> 00:01:10,820

largest do for archive in the world why

22

00:01:06,959 --> 00:01:13,739

and why spent 40-plus years

23

00:01:10,819 --> 00:01:16,798

investigating something that mainstream

24

00:01:13,739 --> 00:01:22,408

science and many people regard a simple

25

00:01:16,799 --> 00:01:25,170

nonsense or fantasy well I don't regard

26

00:01:22,409 --> 00:01:28,409

these subjects as nonsense and fantasy

27

00:01:25,170 --> 00:01:32,189

I've been in it for as I said 40 plus

28

00:01:28,409 --> 00:01:34,920

years and I think this is a subject that

29

00:01:32,188 --> 00:01:38,188

will have tremendous implications in the

30

00:01:34,920 --> 00:01:41,490

future I would say that history is on

31

00:01:38,188 --> 00:01:44,398

our side who we will delve into this

32

00:01:41,489 --> 00:01:46,379

subject of course most scientists would

33

00:01:44,399 --> 00:01:50,040

not agree with me especially not in

34

00:01:46,379 --> 00:01:53,519

Sweden we have the Swedish kept achill

35

00:01:50,040 --> 00:01:56,340

movement they tell me you should close

36

00:01:53,519 --> 00:01:58,590

down the archive it's meaningless close

37

00:01:56,340 --> 00:02:00,659

down the archive and stop researching

38

00:01:58,590 --> 00:02:02,780

UEFA's and do something useful instead

39

00:02:00,659 --> 00:02:06,810

like bird-watching

40

00:02:02,780 --> 00:02:09,090

well I've done a lot of bird-watching in

41

00:02:06,810 --> 00:02:12,270

my life but it was other kind of birds

42
00:02:09,090 --> 00:02:14,450
of course there are many kinds of birds

43
00:02:12,270 --> 00:02:19,189
you know

44
00:02:14,449 --> 00:02:21,589
I will try to give you my perspective on

45
00:02:19,189 --> 00:02:24,739
the subject from<font
color="#E5E5E5"> a Swedish will point

46
00:02:21,590 --> 00:02:28,009
from a research viewpoint and my

47
00:02:24,739 --> 00:02:32,000
personal viewpoint after having studied

48
00:02:28,009 --> 00:02:34,548
this for so long for so many years<font
color="#E5E5E5"> and I

49
00:02:32,000 --> 00:02:38,360
will first show you some interesting

50
00:02:34,549 --> 00:02:42,739
cases just to show the complexity of

51
00:02:38,360 --> 00:02:45,349
this enigma the enormous complex enigma

52
00:02:42,739 --> 00:02:48,170
that this is and then I will also show

53
00:02:45,348 --> 00:02:55,339
how we have built<font
color="#E5E5E5"> this archive and how

54
00:02:48,169 --> 00:02:57,500
we are working in Sweden so let's start

55
00:02:55,340 --> 00:03:03,140

with some cases that I have investigate

56

00:02:57,500 --> 00:03:05,598

myself this observation was done in a

57

00:03:03,139 --> 00:03:10,128

little town called Bear Creek in

58

00:03:05,598 --> 00:03:11,048

September 1989 and it was a mother and

59

00:03:10,128 --> 00:03:14,030

her daughter

60

00:03:11,049 --> 00:03:18,680

Justine Johnson and Tina Johnson

61

00:03:14,030 --> 00:03:22,250

they were driving in a car on the way

62

00:03:18,680 --> 00:03:25,969

home in this little community and they

63

00:03:22,250 --> 00:03:29,979

saw from about how some hundred meters

64

00:03:25,969 --> 00:03:35,180

an object just above the treetops

65

00:03:29,979 --> 00:03:38,328

hovering and the mother sure Steen very

66

00:03:35,180 --> 00:03:42,549

slowly drove closer to this object

67

00:03:38,329 --> 00:03:46,189

hovering and she stopped and parked just

68

00:03:42,549 --> 00:03:49,579

as you can see here just below this

69

00:03:46,189 --> 00:03:51,680

object they had this thing so it could

70
00:03:49,579 --> 00:03:55,540
have been say twelve fifteen<font
color="#E5E5E5"> meters up

71
00:03:51,680 --> 00:03:59,769
in the sky and see see it very clearly

72
00:03:55,539 --> 00:04:05,090
it's a fist obviously physical craft

73
00:03:59,769 --> 00:04:11,000
metallic windows that there is a light

74
00:04:05,090 --> 00:04:13,609
coming from there is no sound and the

75
00:04:11,000 --> 00:04:17,959
mother who is I think<font
color="#CCCCCC"> very brave opened

76
00:04:13,609 --> 00:04:20,900
the door and tried to step out to see

77
00:04:17,959 --> 00:04:23,658
more of this object but her daughter who

78
00:04:20,899 --> 00:04:25,908
was 13 years at the time and said were

79
00:04:23,658 --> 00:04:26,870
in the back seat she became so

80
00:04:25,908 --> 00:04:29,029
frightened that his

81
00:04:26,870 --> 00:04:32,478
to cry and said mama I want to go home

82
00:04:29,029 --> 00:04:36,259
don't go out so she had to close the

83
00:04:32,478 --> 00:04:39,978

door again and when she did this she can

84

00:04:36,259 --> 00:04:41,810

see this craft tilting slightly and she

85

00:04:39,978 --> 00:04:45,620

saw that there works there were windows

86

00:04:41,810 --> 00:04:48,589

and then it just slightly goes away over

87

00:04:45,620 --> 00:04:50,240

the words and disappears and they go

88

00:04:48,589 --> 00:04:52,369

home and tell this to the rest of the

89

00:04:50,240 --> 00:04:54,860

family now the interesting thing with

90

00:04:52,370 --> 00:04:58,310

this case is that here we have two

91

00:04:54,860 --> 00:05:02,449

witnesses but I know that there were at

92

00:04:58,310 --> 00:05:05,120

least 17 witnesses who saw that this

93

00:05:02,449 --> 00:05:07,520

object at very close range but they do

94

00:05:05,120 --> 00:05:10,370

not dare to talk to us they don't even

95

00:05:07,519 --> 00:05:13,339

want to talk to us they have written a

96

00:05:10,370 --> 00:05:15,379

letter anonymously to me

97

00:05:13,339 --> 00:05:18,439

and telling what they saw they saw this

98

00:05:15,379 --> 00:05:23,538

object from another the same object
from

99

00:05:18,439 --> 00:05:25,459

over a lake at the same time but I<font
color="#E5E5E5"> think

100

00:05:23,538 --> 00:05:30,279

that is it the interesting<font
color="#E5E5E5"> thing is they

101

00:05:25,459 --> 00:05:32,329

don't even dare to<font
color="#E5E5E5"> talk to me about
it

102

00:05:30,279 --> 00:05:34,279

and this is a problem this

103

00:05:32,329 --> 00:05:38,800

self-censorship which comes up very

104

00:05:34,279 --> 00:05:43,189

often in in close encounter cases and

105

00:05:38,800 --> 00:05:47,680

tina and
sharon has told me also that if

106

00:05:43,189 --> 00:05:50,689

they knew how the press would have

107

00:05:47,680 --> 00:05:52,430

treated this subject how they were

108

00:05:50,689 --> 00:05:54,769

treated in the press they would never

109

00:05:52,430 --> 00:05:57,709

have talked about it and i think this<font

color="#E5E5E5"> is

110

00:05:54,769 --> 00:06:01,069

this is very sad
really and it's a it's

111

00:05:57,709 --> 00:06:03,019

a problem almost every time when I have

112

00:06:01,069 --> 00:06:05,629

a lecture somewhere in Sweden someone

113

00:06:03,019 --> 00:06:08,329

comes up afterwards and say I want to

114

00:06:05,629 --> 00:06:09,529

talk to you privately and they give me
 a

115

00:06:08,329 --> 00:06:12,649

very often a very interesting

116

00:06:09,529 --> 00:06:15,649

information interesting cases but they

117

00:06:12,649 --> 00:06:17,359

say don't mention my name and often I

118

00:06:15,649 --> 00:06:19,310

can't even get their phone numbers or

119

00:06:17,360 --> 00:06:21,410

their address they just tell me this if

120

00:06:19,310 --> 00:06:23,538

you I just tell me this this is the way

121

00:06:21,410 --> 00:06:25,939

it ways I don't want any more

122

00:06:23,538 --> 00:06:30,469

involvement in it this is a problem for

123

00:06:25,939 --> 00:06:32,629

us who are into research and here you

124

00:06:30,470 --> 00:06:34,780

have the witnesses pointing to the sky

125

00:06:32,629 --> 00:06:37,610

whether the craft was seen them

126

00:06:34,779 --> 00:06:40,069

classical close observations we have

127

00:06:37,610 --> 00:06:42,550

hundreds in Sweden and of course all

128

00:06:40,069 --> 00:06:42,550

over the world

129

00:06:45,449 --> 00:06:53,620

another case this was a military pilot

130

00:06:49,720 --> 00:06:55,530

his name was Sven Alomar song he was on

131

00:06:53,620 --> 00:07:03,490

a military exercise in the summer of

132

00:06:55,529 --> 00:07:06,849

1977 and ground radar got noticed an

133

00:07:03,490 --> 00:07:10,689

unidentified target outside the island

134

00:07:06,850 --> 00:07:13,090

of Ireland in the Baltic Sea and Sven

135

00:07:10,689 --> 00:07:18,069

was ordered to investigate this object

136

00:07:13,089 --> 00:07:22,750

so he changed this of course and tries

137
00:07:18,069 --> 00:07:24,550
to goes to a toasties object and when he

138
00:07:22,750 --> 00:07:28,300
comes closer he can also see it on his

139
00:07:24,550 --> 00:07:32,740
own radar and he goes full speed<font
color="#E5E5E5"> to try

140
00:07:28,300 --> 00:07:37,120
to come closer to this object but when

141
00:07:32,740 --> 00:07:39,550
he is closer suddenly it just sent still

142
00:07:37,120 --> 00:07:41,110
and suddenly just zoom straight up in

143
00:07:39,550 --> 00:07:45,129
the sky and disappears and he has no

144
00:07:41,110 --> 00:07:49,810
chance to follow it but the interesting

145
00:07:45,129 --> 00:07:54,189
thing in when he landed he said I didn't

146
00:07:49,810 --> 00:07:58,389
see anything he denied that and any
type

147
00:07:54,189 --> 00:08:02,050
of observation for his military jeeps so

148
00:07:58,389 --> 00:08:03,870
to say and when we<font
color="#CCCCCC"> interviewed him a

149
00:08:02,050 --> 00:08:06,728
couple of years off to this we have a

150

00:08:03,870 --> 00:08:09,449
taped interview we asked why didn't you

151
00:08:06,728 --> 00:08:12,129
why didn't you tell this to your boss

152
00:08:09,449 --> 00:08:14,050
well I didn't want to be confronted with

153
00:08:12,129 --> 00:08:16,750
the military psychiatrists was his

154
00:08:14,050 --> 00:08:20,168
answer now this is interesting the

155
00:08:16,750 --> 00:08:22,750
Swedish military pilot goes after an

156
00:08:20,168 --> 00:08:25,959
unidentified object and he doesn't want

157
00:08:22,750 --> 00:08:27,839
to talk to it even in his career so to

158
00:08:25,959 --> 00:08:30,159
speak but he talked he talked to us

159
00:08:27,839 --> 00:08:33,158
unfortunately he's he died a couple of

160
00:08:30,160 --> 00:08:36,250
years in a helicopter accident but his

161
00:08:33,158 --> 00:08:40,870
case is very interesting but here we

162
00:08:36,250 --> 00:08:43,418
have again this with self-censorship so

163
00:08:40,870 --> 00:08:46,149

many people who have close observations

164

00:08:43,418 --> 00:08:50,620

do not dare to talk about it because of

165

00:08:46,149 --> 00:08:52,419

fear this is only fear of course what

166

00:08:50,620 --> 00:08:53,840

will happen and I can understand it it's

167

00:08:52,419 --> 00:08:57,139

not easy to

168

00:08:53,840 --> 00:08:58,910

being made of fool in the press or

169

00:08:57,139 --> 00:09:00,590

something like this this is this is a

170

00:08:58,909 --> 00:09:02,509

problem this is the problem for us who

171

00:09:00,590 --> 00:09:05,810

are into this type of research

172

00:09:02,509 --> 00:09:09,799

many many observations and good close

173

00:09:05,809 --> 00:09:11,929

encounters just sort of go down a train

174

00:09:09,799 --> 00:09:14,799

because we can't we can't talk to them

175

00:09:11,929 --> 00:09:14,799

to witnesses

176

00:09:17,350 --> 00:09:23,899

I'll give you another case which is very

177

00:09:20,419 --> 00:09:26,299

special my I have concentrated on the

178

00:09:23,899 --> 00:09:30,338

most controversial aspect of this enigma

179

00:09:26,299 --> 00:09:34,359

and that is the close account cases and

180

00:09:30,339 --> 00:09:39,020

physical contact cases with alien beings

181

00:09:34,360 --> 00:09:40,669

who look like us almost like us and of

182

00:09:39,019 --> 00:09:44,809

course you can understand this is the

183

00:09:40,669 --> 00:09:49,939

most difficult thing to investigate with

184

00:09:44,809 --> 00:09:52,819

so many fantastic rumours and of course

185

00:09:49,940 --> 00:09:55,040

there are many people who are on drugs

186

00:09:52,820 --> 00:09:57,020

who tell these things there are people

187

00:09:55,039 --> 00:09:58,069

who are psychological problems there are

188

00:09:57,019 --> 00:10:00,319

people in it for money

189

00:09:58,070 --> 00:10:04,070

also of course and I've encountered all

190

00:10:00,320 --> 00:10:09,980

of these but I have also encountered or

191

00:10:04,070 --> 00:10:13,490

investigated say three four or five very

192

00:10:09,980 --> 00:10:16,250

very special physical contact cases

193

00:10:13,490 --> 00:10:16,909

which I find extremely puzzling and I

194

00:10:16,250 --> 00:10:18,679

can't

195

00:10:16,909 --> 00:10:21,860

I haven't found an explanation for them

196

00:10:18,679 --> 00:10:24,709

I can't say that they are evidence that

197

00:10:21,860 --> 00:10:28,129

we are visited by someone but they are

198

00:10:24,710 --> 00:10:35,480

truly for me very puzzling and I'll give

199

00:10:28,129 --> 00:10:38,539

you one example this case is a Swedish

200

00:10:35,480 --> 00:10:40,670

lady I call her Anna because she doesn't

201

00:10:38,539 --> 00:10:43,159

want her name to be published as long as

202

00:10:40,669 --> 00:10:46,579

she's alive she's 90 years old today

203

00:10:43,159 --> 00:10:49,338

living in Stockholm she has lived a very

204
00:10:46,580 --> 00:10:51,759
special life being all over the world I

205
00:10:49,339 --> 00:10:55,250
think you yes

206
00:10:51,759 --> 00:10:57,559
dine with diplomats she no film stars

207
00:10:55,250 --> 00:11:02,629
president Sosa Widow she has lived a

208
00:10:57,559 --> 00:11:06,799
sort of high society life and everything

209
00:11:02,629 --> 00:11:07,580
started in 1949 when she and some

210
00:11:06,799 --> 00:11:13,789
friends had a

211
00:11:07,580 --> 00:11:20,540
at cottage in wind in the Stockholm

212
00:11:13,789 --> 00:11:21,980
archipelago and Anna went out and she

213
00:11:20,539 --> 00:11:26,179
should fetch something for the dinner

214
00:11:21,980 --> 00:11:29,990
and she so a light coming torture from

215
00:11:26,179 --> 00:11:33,589
the sea and he stopped very close to the

216
00:11:29,990 --> 00:11:35,090
shore so she she called for everybody

217
00:11:33,590 --> 00:11:36,620
out there were twelve people there she

218
00:11:35,090 --> 00:11:38,360
called for them and everybody came out

219
00:11:36,620 --> 00:11:41,090
and they looked at this very strange

220
00:11:38,360 --> 00:11:43,850
light was just was just hovering near

221
00:11:41,090 --> 00:11:46,840
the shore they couldn't see any craft or

222
00:11:43,850 --> 00:11:49,700
something but just a strange line and

223
00:11:46,840 --> 00:11:52,129
they discussed what it could be and

224
00:11:49,700 --> 00:11:56,470
suddenly this light just goes straight

225
00:11:52,129 --> 00:11:56,470
up in the sky very fast and disappears

226
00:11:56,950 --> 00:12:03,650
and this force in
48 or 49 she's not

227
00:12:01,129 --> 00:12:11,269
absolutely sure that so we have to move

228
00:12:03,649 --> 00:12:14,840
ten years later
and she is now staying

229
00:12:11,269 --> 00:12:19,009
in Mexico with her new husband she

230

00:12:14,840 --> 00:12:25,250
married she remarried in 1958 with a man

231
00:12:19,009 --> 00:12:29,029
who was involved in a industrialist he

232
00:12:25,250 --> 00:12:34,399
was part of a large combustion

233
00:12:29,029 --> 00:12:38,299
engineering firm in Mexico and one day

234
00:12:34,399 --> 00:12:40,490
this man came home to to an and said I

235
00:12:38,299 --> 00:12:43,549
am at a very special man today at my

236
00:12:40,490 --> 00:12:45,529
work and he we should meet him it's a

237
00:12:43,549 --> 00:12:47,149
very special man he's super intelligent

238
00:12:45,529 --> 00:12:50,720
we should really have a nice dinner

239
00:12:47,149 --> 00:12:55,850
together and they this dinner is

240
00:12:50,720 --> 00:13:01,340
arranged and this man who is called Ben

241
00:12:55,850 --> 00:13:05,540
Austin he is living in Guatemala about

242
00:13:01,340 --> 00:13:09,170
two hours drive from Guatemala City so

243
00:13:05,539 --> 00:13:11,599
Anna and her husband goes to a hotel in

244
00:13:09,169 --> 00:13:15,289

Guatemala City where they are picked up

245

00:13:11,600 --> 00:13:18,590

by two servants from this man Austin and

246

00:13:15,289 --> 00:13:21,059

a drive out far out in the country to a

247

00:13:18,590 --> 00:13:26,460

small bungalow for a formal

248

00:13:21,059 --> 00:13:27,359

a formal dinner and it's a normal dinner

249

00:13:26,460 --> 00:13:31,200

nothing special

250

00:13:27,360 --> 00:13:32,789

after dinner this man says to the

251

00:13:31,200 --> 00:13:35,280

servants you can you can leave now

252

00:13:32,789 --> 00:13:41,069

it's okay and they start an after-dinner

253

00:13:35,279 --> 00:13:44,850

chat and suddenly he says to Anna you

254

00:13:41,070 --> 00:13:48,180

are interested in UFOs and she says no

255

00:13:44,850 --> 00:13:50,659

no I'm not because she has never told

256

00:13:48,179 --> 00:13:53,549

her new husband about you for experience

257

00:13:50,659 --> 00:13:55,919

he doesn't know anything about it but

258

00:13:53,549 --> 00:13:57,959

this man's who they who has invited
 them

259

00:13:55,919 --> 00:13:59,699

for dinner says yes you are you are

260

00:13:57,960 --> 00:14:07,050

interested in you first you have even

261

00:13:59,700 --> 00:14:09,690

seen a UFO you saw us when we came in at

262

00:14:07,049 --> 00:14:12,659

your bungalow in the<font
color="#E5E5E5"> Stockholm

263

00:14:09,690 --> 00:14:17,760

archipelago we came in from the east
and

264

00:14:12,659 --> 00:14:22,409

you observed us and he she says this he

265

00:14:17,759 --> 00:14:25,230

says this after the dinner and anna says

266

00:14:22,409 --> 00:14:27,120

i was completely shocked i didn't know

267

00:14:25,230 --> 00:14:30,180

what to say i was i was really scared

268

00:14:27,120 --> 00:14:32,159

she says how could this man know

269

00:14:30,179 --> 00:14:38,009

something that even my husband didn't

270

00:14:32,159 --> 00:14:41,429

know and they start talking about this

271

00:14:38,009 --> 00:14:44,939

and this man explains I'm not from here

272
00:14:41,429 --> 00:14:46,319
I am stationed here to sort of keep an

273
00:14:44,940 --> 00:14:47,940
eye on you what you're doing on this

274
00:14:46,320 --> 00:14:52,560
planet that you're not destroying it

275
00:14:47,940 --> 00:14:54,660
totally and of course Anna doesn't know

276
00:14:52,559 --> 00:14:58,019
what to think about this it's the total

277
00:14:54,659 --> 00:15:00,569
absurd situation she is used to meet

278
00:14:58,019 --> 00:15:02,340
people from all over the world in all

279
00:15:00,570 --> 00:15:05,820
walks of life and here we have a man who

280
00:15:02,340 --> 00:15:07,759
says I am NOT from here and who has told

281
00:15:05,820 --> 00:15:12,510
her about her observations with him

282
00:15:07,759 --> 00:15:15,000
it's very strange this man says yes I'm

283
00:15:12,509 --> 00:15:17,429
I'm not from here I have a<font
color="#E5E5E5"> Scottish

284
00:15:15,000 --> 00:15:19,110
passport but it because it's easiest the

285
00:15:17,429 --> 00:15:21,899
easiest way to get passports on your

286
00:15:19,110 --> 00:15:24,300
planet is through Scotland there are so

287
00:15:21,899 --> 00:15:31,379
many dialects that's that's his

288
00:15:24,299 --> 00:15:33,329
explanation and they he is about it's

289
00:15:31,379 --> 00:15:34,500
not very tall it's about a hundred fifty

290
00:15:33,330 --> 00:15:38,070
centimeters tall

291
00:15:34,500 --> 00:15:42,240
and he has a rather strange suntan it's

292
00:15:38,070 --> 00:15:46,530
not a normal suntan it's since but if he

293
00:15:42,240 --> 00:15:50,070
could be a no ordinary any anybody<font
color="#E5E5E5"> from

294
00:15:46,529 --> 00:15:54,319
Sweden or anybody yes dark hair no beard

295
00:15:50,070 --> 00:15:59,040
and his rather stocky is muscled ER and

296
00:15:54,320 --> 00:16:01,590
they keep on discussing talked about

297
00:15:59,039 --> 00:16:04,039
this for a while and then this man says

298
00:16:01,590 --> 00:16:08,940
suddenly would you like to take a trip

299
00:16:04,039 --> 00:16:11,939
in my saucer in our sorcerer and Anna

300
00:16:08,940 --> 00:16:13,830
says no no III got my children here I

301
00:16:11,940 --> 00:16:16,740
don't want to go anywhere but but her

302
00:16:13,830 --> 00:16:21,450
husband says who is an engineer yeah

303
00:16:16,740 --> 00:16:25,350
that would be really interesting and<font
color="#E5E5E5"> so

304
00:16:21,450 --> 00:16:29,759
it comes up that Anna goes back to the

305
00:16:25,350 --> 00:16:31,950
hotel in Guatemala City and they say we

306
00:16:29,759 --> 00:16:36,779
will deliver your husband at six o'clock

307
00:16:31,950 --> 00:16:40,620
tomorrow morning at the hotel<font
color="#E5E5E5"> so she

308
00:16:36,779 --> 00:16:42,360
goes goes and wait for her husband of

309
00:16:40,620 --> 00:16:45,899
course he can't sleep because this is a

310
00:16:42,360 --> 00:16:51,120
totally bizarre situation and he comes

311
00:16:45,899 --> 00:16:53,909
home at six o'clock and he is very upset

312
00:16:51,120 --> 00:16:57,210
very very obsessed white is his sheet

313
00:16:53,909 --> 00:16:59,459
very upset and it tries to explain what

314
00:16:57,210 --> 00:17:03,210
has happened he said it was incredible

315
00:16:59,460 --> 00:17:06,289
this was fantastic and he said they went

316
00:17:03,210 --> 00:17:09,720
behind this bungalow this man in him
 and

317
00:17:06,289 --> 00:17:12,740
there was a hidden a small craft a

318
00:17:09,720 --> 00:17:17,130
flying saucer on three legs tripod legs

319
00:17:12,740 --> 00:17:20,819
rather small they went under this on a

320
00:17:17,130 --> 00:17:24,090
stairs up in the craft<font
color="#E5E5E5"> he could take two

321
00:17:20,819 --> 00:17:26,700
or three people maximum and he said the

322
00:17:24,089 --> 00:17:28,199
start ending was very odd it was a very

323
00:17:26,700 --> 00:17:32,130
very small one it was like a small

324
00:17:28,200 --> 00:17:34,620
pyramid and when they used this one he

325
00:17:32,130 --> 00:17:39,200
had heard a small sound and then they

326
00:17:34,619 --> 00:17:42,029
went away up and there was no sound

327
00:17:39,200 --> 00:17:46,740

there were windows also in this craft he

328

00:17:42,029 --> 00:17:48,960

was an ordinary flying saucer type but

329

00:17:46,740 --> 00:17:50,670

then of course wanted to know more you

330

00:17:48,960 --> 00:17:52,620

must tell me what happened you do really

331

00:17:50,670 --> 00:17:55,650

flying the flying saucer she was

332

00:17:52,619 --> 00:17:57,839

skeptical I can't really did you really

333

00:17:55,650 --> 00:17:59,700

do that and then he became angry and

334

00:17:57,839 --> 00:18:04,500

said if you don't believe me I will

335

00:17:59,700 --> 00:18:07,590

never ever talk about this again and he

336

00:18:04,500 --> 00:18:10,890

didn't and something happened to this

337

00:18:07,589 --> 00:18:15,419

man because when he came home his eyes

338

00:18:10,890 --> 00:18:22,500

had changed from blue to black which was

339

00:18:15,420 --> 00:18:26,730

very strange and his manner changed he

340

00:18:22,500 --> 00:18:28,769

became very aggressive after this they

341
00:18:26,730 --> 00:18:30,808
lived together in about six years after

342
00:18:28,769 --> 00:18:33,690
this but he became very aggressive very

343
00:18:30,808 --> 00:18:35,910
brutal and he beat her up very badly so

344
00:18:33,690 --> 00:18:41,670
she had to flee with her children back

345
00:18:35,910 --> 00:18:45,779
to Sweden again in 1966 and they met
one

346
00:18:41,670 --> 00:18:49,740
time after this
in 1998 at the funeral

347
00:18:45,779 --> 00:18:51,869
of their son and then her former husband

348
00:18:49,740 --> 00:18:54,599
said I'm sorry for what happened that

349
00:18:51,869 --> 00:18:57,209
time but that experience destroyed my

350
00:18:54,599 --> 00:19:01,049
life I don't that's all I can say<font
color="#CCCCCC"> and

351
00:18:57,210 --> 00:19:03,480
when she looked at him then her his eyes

352
00:19:01,049 --> 00:19:08,960
were blue again they were not black as

353
00:19:03,480 --> 00:19:12,630
before that's the story and when you

354

00:19:08,960 --> 00:19:15,539

Anna says I this one thing I regret in

355

00:19:12,630 --> 00:19:17,190

my life why didn't I go back and take a

356

00:19:15,539 --> 00:19:19,139

look at the source of myself

357

00:19:17,190 --> 00:19:21,330

why didn't I why didn't I follow it I

358

00:19:19,140 --> 00:19:23,640

would have seen it would like to seen it

359

00:19:21,329 --> 00:19:25,529

she is still she said I don't know if if

360

00:19:23,640 --> 00:19:29,670

this man came from outer space or what

361

00:19:25,529 --> 00:19:34,079

this is this is what I experienced so

362

00:19:29,670 --> 00:19:37,080

there you have a contact case and you

363

00:19:34,079 --> 00:19:39,210

see when you have all these aspects of

364

00:19:37,079 --> 00:19:42,799

the you finding my you understand that

365

00:19:39,210 --> 00:19:46,350

this is not an easy thing to tell them -

366

00:19:42,799 --> 00:19:48,690

how are we going to work with this

367

00:19:46,349 --> 00:19:50,879

subject it's not just a scientific

368
00:19:48,690 --> 00:19:52,679
problem it's an intelligence problem

369
00:19:50,880 --> 00:19:54,720
it's a political
problem it's a

370
00:19:52,679 --> 00:19:58,050
religious problem it has enormous

371
00:19:54,720 --> 00:20:00,450
implications this is one of the<font
color="#E5E5E5"> cases I

372
00:19:58,049 --> 00:20:01,919
investigated physical contact

373
00:20:00,450 --> 00:20:04,380
there are others that I have written

374
00:20:01,920 --> 00:20:06,769
enough about in my books but I just give

375
00:20:04,380 --> 00:20:09,930
you an example of the problem you<font
color="#CCCCCC"> can

376
00:20:06,769 --> 00:20:14,160
encounter when you when you investigate

377
00:20:09,930 --> 00:20:16,620
these things so who shall do the

378
00:20:14,160 --> 00:20:18,000
youthful research then how shall we do

379
00:20:16,619 --> 00:20:18,779
this I think this is not an easy

380
00:20:18,000 --> 00:20:21,480
question

381

00:20:18,779 --> 00:20:23,940

there are several several agendas we can

382

00:20:21,480 --> 00:20:26,549

work several areas in between we can

383

00:20:23,940 --> 00:20:30,360

work in different ways with this first

384

00:20:26,549 --> 00:20:35,879

of all who should do this shall we the

385

00:20:30,359 --> 00:20:37,799

state the government well I I don't know

386

00:20:35,880 --> 00:20:41,010

how the government would treat a case

387

00:20:37,799 --> 00:20:45,599

like the last one I talked about the

388

00:20:41,009 --> 00:20:49,170

military well maybe and then we have

389

00:20:45,599 --> 00:20:51,719

private institutions like you for Sweden

390

00:20:49,170 --> 00:20:54,120

or Archives for you or for research who

391

00:20:51,720 --> 00:21:00,660

shall do the research but what is the

392

00:20:54,119 --> 00:21:03,719

best way to deal with this we have

393

00:21:00,660 --> 00:21:08,970

chosen private research in Sweden we

394

00:21:03,720 --> 00:21:11,700

have chosen to do this ourselves because

395

00:21:08,970 --> 00:21:14,120

this subject is so controversial it is

396

00:21:11,700 --> 00:21:17,700

scientifically controversial of course

397

00:21:14,119 --> 00:21:20,099

try to get a scientist in Sweden to to

398

00:21:17,700 --> 00:21:23,220

engage in this is very very difficult

399

00:21:20,099 --> 00:21:26,809

fear is the normal reaction then it's

400

00:21:23,220 --> 00:21:29,160

militarily controversial of course

401

00:21:26,809 --> 00:21:32,279

politically politically controversial

402

00:21:29,160 --> 00:21:34,590

yes I can't hardly imagine any

403

00:21:32,279 --> 00:21:36,720

politician in Sweden who would stand up

404

00:21:34,589 --> 00:21:37,279

and say I think this is an important

405

00:21:36,720 --> 00:21:41,309

subject

406

00:21:37,279 --> 00:21:45,660

let's do research on this he would get

407

00:21:41,309 --> 00:21:47,490

left out of his political career I think

408

00:21:45,660 --> 00:21:52,320

at least in Sweden I'm talking about

409
00:21:47,490 --> 00:21:54,870
Sweden there may be another situation in

410
00:21:52,319 --> 00:21:58,379
other places and it's religiously

411
00:21:54,869 --> 00:22:01,589
controversial even in the very secular

412
00:21:58,380 --> 00:22:05,900
state of Sweden and I noticed this a

413
00:22:01,589 --> 00:22:10,019
couple of years ago when I visit my

414
00:22:05,900 --> 00:22:12,690
physiotherapist I have a bad back and we

415
00:22:10,019 --> 00:22:16,170
used to talk about<font
color="#E5E5E5"> everything

416
00:22:12,690 --> 00:22:18,059
and one time he asked me Oh what what
do

417
00:22:16,170 --> 00:22:20,759
you do on your free time<font
color="#E5E5E5"> in your spare

418
00:22:18,059 --> 00:22:24,240
time and I said oh well I mean I'm doing

419
00:22:20,759 --> 00:22:27,539
UFO research and then he became very

420
00:22:24,240 --> 00:22:32,160
quiet and said you know you are working

421
00:22:27,539 --> 00:22:36,559
with demons and I didn't know what to

422

00:22:32,160 --> 00:22:38,640

say and he was engaged in his Swedish

423

00:22:36,559 --> 00:22:41,849

religious movement I think it was a

424

00:22:38,640 --> 00:22:45,960

Seventh day Adventists or something but

425

00:22:41,849 --> 00:22:47,909

but his his attitude was so clear you

426

00:22:45,960 --> 00:22:50,490

are you are working with demons and how

427

00:22:47,910 --> 00:22:56,430

conversation was not so easy after that

428

00:22:50,490 --> 00:23:00,089

I can say but these are the reasons that

429

00:22:56,430 --> 00:23:03,029

we try to do it ourselves we do the

430

00:23:00,089 --> 00:23:07,159

research ourselves that's that's the way

431

00:23:03,029 --> 00:23:11,970

we are trying to do it in Sweden so far

432

00:23:07,160 --> 00:23:14,279

and one thing maybe some of you know of

433

00:23:11,970 --> 00:23:19,860

the ghost Rockets oh I've heard of the

434

00:23:14,279 --> 00:23:22,250

ghost Rockets Sweden has a very special

435

00:23:19,859 --> 00:23:24,979

Sweden was the first country with a flat

436

00:23:22,250 --> 00:23:28,940

that you had many observations of

437

00:23:24,980 --> 00:23:31,710

strange craft in 1946 there was 1000

438

00:23:28,940 --> 00:23:35,789

documented observations of missile types

439

00:23:31,710 --> 00:23:41,279

like this over Sweden which often went

440

00:23:35,789 --> 00:23:43,200

on they crashed in lakes and the

441

00:23:41,279 --> 00:23:47,430

military looked for them but never found

442

00:23:43,200 --> 00:23:49,350

anything this happens even today there

443

00:23:47,430 --> 00:23:51,840

are the same type of cases happen in

444

00:23:49,349 --> 00:23:54,619

Sweden today and why just in Sweden we

445

00:23:51,839 --> 00:23:58,319

don't know but last week we did an

446

00:23:54,619 --> 00:24:00,869

expedition to Lake Namara in the north

447

00:23:58,319 --> 00:24:04,230

of Sweden with 15 people two

448

00:24:00,869 --> 00:24:07,729

professional divers to try to find one

449
00:24:04,230 --> 00:24:12,000
of these strange craft that landed on

450
00:24:07,730 --> 00:24:16,140
Lake Namara in 1980 it was this couple

451
00:24:12,000 --> 00:24:20,190
here who and leesburg who in July the

452
00:24:16,140 --> 00:24:23,580
31st of July 1918 so this type of

453
00:24:20,190 --> 00:24:25,620
missile or whatever it is come down over

454
00:24:23,579 --> 00:24:26,399
the lake and make a hundred and eighty

455
00:24:25,619 --> 00:24:30,029
degree

456
00:24:26,400 --> 00:24:34,290
turn and landed not crash-landed on the

457
00:24:30,029 --> 00:24:37,069
lake and sank to the bottom and we have

458
00:24:34,289 --> 00:24:42,839
we found this in the military archives

459
00:24:37,069 --> 00:24:45,960
first and so last week which we did an

460
00:24:42,839 --> 00:24:49,049
expedition to try to find it

461
00:24:45,960 --> 00:24:50,640
and here you have the Lake Lake<font
color="#E5E5E5"> Namara

462
00:24:49,049 --> 00:24:54,779
and how do you have the boats we use

463

00:24:50,640 --> 00:24:59,100

them because we will forth would like to

464

00:24:54,779 --> 00:25:01,769

try to find this and here you have the

465

00:24:59,099 --> 00:25:04,169

divers and already we didn't find

466

00:25:01,769 --> 00:25:06,150

anything because there was mud several

467

00:25:04,170 --> 00:25:08,820

meters of mud on the bottom and we will

468

00:25:06,150 --> 00:25:12,120

do another expedition when we have

469

00:25:08,819 --> 00:25:14,339

enough money to try to see if we can

470

00:25:12,119 --> 00:25:18,269

find anything in the on the bottom of

471

00:25:14,339 --> 00:25:20,159

this lake but this is a very very

472

00:25:18,269 --> 00:25:21,180

typical observation for Sweden and we

473

00:25:20,160 --> 00:25:24,420

don't know why

474

00:25:21,180 --> 00:25:29,519

just Sweden these rather small missile

475

00:25:24,420 --> 00:25:31,890

type of craft pass over Sweden and we

476

00:25:29,519 --> 00:25:34,349

had one on the 6th of July was the last

477

00:25:31,890 --> 00:25:35,730

we really don't know don't know what is

478

00:25:34,349 --> 00:25:38,609

this and the military don't know of

479

00:25:35,730 --> 00:25:48,539

course here you have one of the divers

480

00:25:38,609 --> 00:25:52,859

also them sorry run a small about 5

481

00:25:48,539 --> 00:25:55,920

meters or something yes sir but they

482

00:25:52,859 --> 00:25:59,879

have been observed in 1946 and that's

483

00:25:55,920 --> 00:26:02,060

the special the military thought in 1936

484

00:25:59,880 --> 00:26:06,210

that perhaps this was a Russian or

485

00:26:02,059 --> 00:26:13,289

something but nobody knows and we don't

486

00:26:06,210 --> 00:26:15,480

know ok our ideology or the way we think

487

00:26:13,289 --> 00:26:18,389

we call it Third Way ufology we are

488

00:26:15,480 --> 00:26:20,910

neither skeptic bility Barkers nor

489

00:26:18,390 --> 00:26:25,100

uncritical believers but we try to keep

490

00:26:20,910 --> 00:26:28,500
an open mind and investigate all cases

491
00:26:25,099 --> 00:26:30,629
we do feel investigation we try to have

492
00:26:28,500 --> 00:26:32,789
as good facts as possible and as much

493
00:26:30,630 --> 00:26:35,130
expert knowledge as possible and we try

494
00:26:32,789 --> 00:26:36,869
to do it ourselves that's<font
color="#E5E5E5"> our way in

495
00:26:35,130 --> 00:26:39,030
Sweden I wouldn't say that this is the

496
00:26:36,869 --> 00:26:41,359
absolute right way<font
color="#CCCCCC"> but it's the way we

497
00:26:39,029 --> 00:26:41,359
do it

498
00:26:42,679 --> 00:26:48,090
but of course it is a tricky problem I

499
00:26:46,288 --> 00:26:50,788
don't know how many of you have read

500
00:26:48,089 --> 00:26:54,740
Chuck Malaya you should if you haven't

501
00:26:50,788 --> 00:26:57,628
very interesting writer and he often

502
00:26:54,740 --> 00:26:59,308
talks about forbidden science that this

503
00:26:57,628 --> 00:27:02,038
subject is a
forbidden science and

504

00:26:59,308 --> 00:27:04,440

that's you can say the a sofa bed in

505

00:27:02,038 --> 00:27:07,528

science in many respects but Chuck

506

00:27:04,440 --> 00:27:10,470

Valley also points to shows that this is

507

00:27:07,528 --> 00:27:13,019

also an intelligence problem when you

508

00:27:10,470 --> 00:27:16,350

have these very special close up close

509

00:27:13,019 --> 00:27:20,399

encounter cases in contact cases if

510

00:27:16,349 --> 00:27:23,548

somebody else is around then science is

511

00:27:20,398 --> 00:27:24,538

not enough then you have to think in

512

00:27:23,548 --> 00:27:27,109

different ways

513

00:27:24,538 --> 00:27:30,419

almost like like the intelligence

514

00:27:27,109 --> 00:27:33,990

organizations work it is a tricky

515

00:27:30,419 --> 00:27:37,528

problem so I show how we did it in

516

00:27:33,990 --> 00:27:40,069

Sweden how we started and how we built

517

00:27:37,528 --> 00:27:43,048

up this the largest archive in the world

518
00:27:40,069 --> 00:27:46,878
well we started very young

519
00:27:43,048 --> 00:27:49,440
thanks we went through three young lads

520
00:27:46,878 --> 00:27:52,618
I'm to the left you in case you want to

521
00:27:49,440 --> 00:27:57,058
know and it's my partner Charlie own son

522
00:27:52,618 --> 00:28:00,480
and understand again here in 1973 we

523
00:27:57,058 --> 00:28:04,168
came together and said let's start let's

524
00:28:00,480 --> 00:28:06,950
try to build up the base for UFO

525
00:28:04,169 --> 00:28:10,499
research in Sweden so we started a

526
00:28:06,950 --> 00:28:11,610
informal group small informant group we

527
00:28:10,499 --> 00:28:14,600
call it working

528
00:28:11,609 --> 00:28:21,449
Arabic skin or anthropology or if a

529
00:28:14,599 --> 00:28:24,058
working group for ethology and we

530
00:28:21,450 --> 00:28:28,700
started small magazine published our

531

00:28:24,058 --> 00:28:35,999
cases so called it do you follow gist

532
00:28:28,700 --> 00:28:40,379
1974 here and we started in 1974 to

533
00:28:35,999 --> 00:28:42,298
build the archive my colleague here

534
00:28:40,378 --> 00:28:45,118
Shari Olson to the left

535
00:28:42,298 --> 00:28:47,579
he was like myself a librarian and we

536
00:28:45,118 --> 00:28:50,368
were bookish if you see that's the<font
color="#CCCCCC"> way

537
00:28:47,579 --> 00:28:53,278
look at it we started to collect books

538
00:28:50,368 --> 00:28:53,699
we thought we said if you're going to do

539
00:28:53,278 --> 00:28:56,038
you

540
00:28:53,700 --> 00:28:57,840
research on this you need material you

541
00:28:56,038 --> 00:29:01,079
need books you need magazines you need

542
00:28:57,839 --> 00:29:03,869
material organized structured so we

543
00:29:01,079 --> 00:29:07,470
started a small lending library in his

544
00:29:03,869 --> 00:29:09,898
one-room apartment - two bookshelves

545

00:29:07,470 --> 00:29:11,639

that was to start at the largest archive

546

00:29:09,898 --> 00:29:14,579

in the world I think that's rather

547

00:29:11,638 --> 00:29:19,579

fantastic we had 300 books from the

548

00:29:14,579 --> 00:29:22,319

beginning and it's me - the writer and

549

00:29:19,579 --> 00:29:24,720

this man here learn that you want some

550

00:29:22,319 --> 00:29:27,898

he was the first do nater - this archive

551

00:29:24,720 --> 00:29:35,009

he donated but 250 books to us and that

552

00:29:27,898 --> 00:29:39,538

started the archive I started a

553

00:29:35,009 --> 00:29:42,778

newsletter in 1975 and I wrote in the

554

00:29:39,538 --> 00:29:45,569

first newsletter I wrote like this that

555

00:29:42,778 --> 00:29:47,579

we are laying the foundation for what we

556

00:29:45,569 --> 00:29:49,740

hope will develop to a recognized

557

00:29:47,579 --> 00:29:54,449

special library for you for literature

558

00:29:49,740 --> 00:29:55,859

in Sweden that was their hope in 1975 of

559

00:29:54,450 --> 00:30:02,100
course we didn't know that we were going

560
00:29:55,859 --> 00:30:04,819
to be the largest in the world then we

561
00:30:02,099 --> 00:30:07,769
had a lot of discussions in the 1970s

562
00:30:04,819 --> 00:30:10,710
ideological discussions about this

563
00:30:07,769 --> 00:30:13,319
subject how what to think and how to

564
00:30:10,710 --> 00:30:15,329
work with this and we were influenced

565
00:30:13,319 --> 00:30:20,069
very much by Jacques Vallee and John

566
00:30:15,329 --> 00:30:24,148
keel - American authors which I guess

567
00:30:20,069 --> 00:30:28,288
many of you have read and they open new

568
00:30:24,148 --> 00:30:30,869
ways to think about this subject they

569
00:30:28,288 --> 00:30:35,028
were open to other theories besides the

570
00:30:30,869 --> 00:30:35,028
extra-terrestrial which was interesting

571
00:30:35,388 --> 00:30:43,589
they also looked at comparative studies

572
00:30:39,808 --> 00:30:44,298
how how in folklore comparing religious

573
00:30:43,589 --> 00:30:47,220

wishing's

574
00:30:44,298 --> 00:30:51,888
we heard about Fatima for a while ago

575
00:30:47,220 --> 00:30:51,889
and paranormal phenomena

576
00:30:53,920 --> 00:30:58,120
they also started an interest in the

577
00:30:56,349 --> 00:31:02,558
psychological sociological and political

578
00:30:58,119 --> 00:31:07,899
aspects of this because this is the way

579
00:31:02,558 --> 00:31:10,029
our subject is and this is important<font
color="#CCCCCC"> an

580
00:31:07,900 --> 00:31:13,059
open and unbiased investigation of

581
00:31:10,029 --> 00:31:15,670
contactee cases because from the

582
00:31:13,058 --> 00:31:18,910
beginning it was almost taboo to

583
00:31:15,670 --> 00:31:21,460
trustees physical contact cases the

584
00:31:18,910 --> 00:31:22,660
scientific ufologist didn't want to want

585
00:31:21,460 --> 00:31:26,650
anything to do with it

586
00:31:22,660 --> 00:31:28,660
only only abnormal observations but both

587
00:31:26,650 --> 00:31:31,269

Jacques Vallee and John Keeler this is

588

00:31:28,660 --> 00:31:33,970

sort of change that in many ways it's

589

00:31:31,269 --> 00:31:40,808

done so we started investigating even

590

00:31:33,970 --> 00:31:42,970

these type of cases and our first study

591

00:31:40,808 --> 00:31:46,779

was of the ghost drug is the first

592

00:31:42,970 --> 00:31:48,880

published study we did we collected

593

00:31:46,779 --> 00:31:51,298

articles from Swedish magazines about

594

00:31:48,880 --> 00:31:55,960

the ghost raucous ghost rocket wave of

595

00:31:51,298 --> 00:32:00,418

1946 and here you have a photograph it's

596

00:31:55,960 --> 00:32:04,660

one person from the military who is

597

00:32:00,419 --> 00:32:08,020

called Karl just a birth doll he is at a

598

00:32:04,660 --> 00:32:11,650

lake called Columbia and it's the 19th

599

00:32:08,019 --> 00:32:14,200

July 1946 several people saw one of

600

00:32:11,650 --> 00:32:15,610

these missiles crashed into this lake

601

00:32:14,200 --> 00:32:18,460

and the military were there looking

602
00:32:15,609 --> 00:32:19,869
didn't find anything as usual at least

603
00:32:18,460 --> 00:32:22,169
as far as we know they didn't find

604
00:32:19,869 --> 00:32:22,168
anything

605
00:32:24,240 --> 00:32:34,058
in 1977 we did our first disclosure you

606
00:32:30,730 --> 00:32:37,509
could say we got a written permission

607
00:32:34,058 --> 00:32:41,410
from the defense minister at<font
color="#CCCCCC"> that time

608
00:32:37,509 --> 00:32:44,710
eric kieron mark to examine formerly

609
00:32:41,410 --> 00:32:46,990
classified material in the military

610
00:32:44,710 --> 00:32:50,620
archives about the ghost flyers of the

611
00:32:46,990 --> 00:32:52,630
1930s that was another wave of air

612
00:32:50,619 --> 00:32:55,629
airplanes at least what looked like

613
00:32:52,630 --> 00:32:57,820
airplanes flying in very very hard

614
00:32:55,630 --> 00:33:00,309
conditions and nobody know where they

615
00:32:57,819 --> 00:33:02,799
came from and this was classified for

616

00:33:00,308 --> 00:33:06,418

many years but we were allowed to copy

617

00:33:02,799 --> 00:33:08,200

this and look at this material this was

618

00:33:06,419 --> 00:33:10,899

probably so

619

00:33:08,200 --> 00:33:14,950

form of espionage as we know now but

620

00:33:10,898 --> 00:33:18,509

then it was very very classified for

621

00:33:14,950 --> 00:33:23,080

many years this was our one of our first

622

00:33:18,509 --> 00:33:27,490

disclosures sort of here is just a a

623

00:33:23,079 --> 00:33:29,138

view or study in debates in the 1970s

624

00:33:27,490 --> 00:33:32,409

the man down there

625

00:33:29,138 --> 00:33:34,778

he called O'Keefe Francine I guess many

626

00:33:32,409 --> 00:33:37,870

of you who have heard of Mothman and

627

00:33:34,778 --> 00:33:42,220

seen a picture Mothman okay Francine was

628

00:33:37,869 --> 00:33:45,879

one was investigated this in the 1960s

629

00:33:42,220 --> 00:33:49,179

he met all of
the witnesses to this very

630
00:33:45,880 --> 00:33:51,278
strange being you know sort of a flying

631
00:33:49,179 --> 00:33:54,278
monster type I don't know if you have

632
00:33:51,278 --> 00:33:57,159
read about it he met all the witnesses

633
00:33:54,278 --> 00:33:59,589
and did a very good investigation and

634
00:33:57,159 --> 00:34:03,630
then he was part of our team at that

635
00:33:59,589 --> 00:34:03,629
time unfortunately <font
color="#CCCCCC"> he's he is dead today

636
00:34:04,048 --> 00:34:10,300
in the 1970s we started to get more
 and

637
00:34:07,630 --> 00:34:14,079
more donations quote your studyin was

638
00:34:10,300 --> 00:34:16,119
very or was a very famous author the

639
00:34:14,079 --> 00:34:18,550
grand old man of ufology in Sweden and

640
00:34:16,119 --> 00:34:21,399
he donated his books to us in 1978

641
00:34:18,550 --> 00:34:22,690
because of the eyesight he started to he

642
00:34:21,398 --> 00:34:25,029
couldn't read anymore

643
00:34:22,690 --> 00:34:27,909

unfortunate so we he donated his books

644

00:34:25,030 --> 00:34:30,879

to us which was very important for us he

645

00:34:27,909 --> 00:34:33,300

musta were presented for April Aryan

646

00:34:30,878 --> 00:34:41,588

phenomenal research organizations in the

647

00:34:33,300 --> 00:34:45,250

1950s and 60s for Sweden them in 1979 we

648

00:34:41,588 --> 00:34:48,519

changed our name to archives for UFO

649

00:34:45,250 --> 00:34:52,210

research and it was the same acronym or

650

00:34:48,519 --> 00:34:54,730

F ooh and we thought that was very good

651

00:34:52,210 --> 00:34:56,710

I keep it very fortunate in Swedish

652

00:34:54,730 --> 00:35:01,559

archives for you for research we thought

653

00:34:56,710 --> 00:35:05,230

that was a brilliant idea and of course

654

00:35:01,559 --> 00:35:08,019

here you have the found the board

655

00:35:05,230 --> 00:35:12,159

leaders at a time then it is honestly

656

00:35:08,019 --> 00:35:15,099

legal to left and okey francium here and

657

00:35:12,159 --> 00:35:18,818

you have spanoulis ransom and surely

658

00:35:15,099 --> 00:35:22,890

unsung and me of course then we were the

659

00:35:18,818 --> 00:35:22,889

board members at that time in 1980

660

00:35:24,500 --> 00:35:31,159

we couldn't keep the archive in a small

661

00:35:27,260 --> 00:35:33,830

one-room apartment my friend Channel he

662

00:35:31,159 --> 00:35:36,618

had books and magazines all over the

663

00:35:33,829 --> 00:35:39,279

place I think the only way only place he

664

00:35:36,619 --> 00:35:40,550

didn't have books in the end was the

665

00:35:39,280 --> 00:35:43,340

refrigerator

666

00:35:40,550 --> 00:35:46,550

it was books excellent everywhere so we

667

00:35:43,340 --> 00:35:51,140

had to move and we've gotten a small

668

00:35:46,550 --> 00:35:52,910

premise in norrköping in 1980 and that

669

00:35:51,139 --> 00:35:56,750

was very important to us this was our

670

00:35:52,909 --> 00:36:00,769

first premise to and moved there our

671
00:35:56,750 --> 00:36:04,219
collection today we have 10 premises I

672
00:36:00,769 --> 00:36:12,380
can say in norrköping 450 square meters

673
00:36:04,219 --> 00:36:13,309
of material we did and if you have a lot

674
00:36:12,380 --> 00:36:15,380
of books you have to have a

675
00:36:13,309 --> 00:36:18,320
classification system so we did our own

676
00:36:15,380 --> 00:36:20,329
classification systems we could you

677
00:36:18,320 --> 00:36:22,880
couldn't work with a live ordinary

678
00:36:20,329 --> 00:36:25,759
library in that way but we created

679
00:36:22,880 --> 00:36:27,680
something called you<font
color="#CCCCCC"> foo code which

680
00:36:25,760 --> 00:36:30,590
today we have changed two phenomena

681
00:36:27,679 --> 00:36:32,059
called femco because we are we have more

682
00:36:30,590 --> 00:36:34,519
than new four books today we have a lot

683
00:36:32,059 --> 00:36:38,239
of 14 books parent books and<font
color="#CCCCCC"> paranormal

684
00:36:34,519 --> 00:36:40,400
phenomenon so forth but we created our

685
00:36:38,239 --> 00:36:45,799
own classification systems and it's it

686
00:36:40,400 --> 00:36:48,260
worked pretty good this was a very

687
00:36:45,800 --> 00:36:51,560
important to nation I guess many of you

688
00:36:48,260 --> 00:36:55,340
have heard of Parton on the publishing

689
00:36:51,559 --> 00:37:02,779
company we started in 1957<font
color="#E5E5E5"> in Sweden and

690
00:36:55,340 --> 00:37:06,619
it was a Danish lady I forgot Edith

691
00:37:02,780 --> 00:37:09,950
Nicole Ison who started this she died in

692
00:37:06,619 --> 00:37:13,430
1986 and all this material that she had

693
00:37:09,949 --> 00:37:16,639
collected during these years do was

694
00:37:13,429 --> 00:37:18,669
donated to us and this is a remarkable

695
00:37:16,639 --> 00:37:21,259
collection because here our

696
00:37:18,670 --> 00:37:23,750
correspondence with all the people

697
00:37:21,260 --> 00:37:27,470
involved in ufology in the 1950s and 60s

698
00:37:23,750 --> 00:37:30,500
and all the contactees from the 1950s

699

00:37:27,469 --> 00:37:32,779

you have original content or espanha

700

00:37:30,500 --> 00:37:34,659

from Daniel Frye George Adamski or
 FeO

701

00:37:32,780 --> 00:37:37,180

Angelou Qi and all these<font
color="#E5E5E5"> people

702

00:37:34,659 --> 00:37:38,679

and they say I don't know if I don't

703

00:37:37,179 --> 00:37:40,629

even know if the Americans had lives

704

00:37:38,679 --> 00:37:44,169

because we get a lot of questions about

705

00:37:40,630 --> 00:37:48,309

this material very important to nation

706

00:37:44,170 --> 00:37:53,829

for us for research the man to the left

707

00:37:48,309 --> 00:37:57,640

here is call
Anton Madsen was was one of

708

00:37:53,829 --> 00:37:59,798

who helped us with this and you have of

709

00:37:57,639 --> 00:38:08,679

course the lady herself here

710

00:37:59,798 --> 00:38:10,509

edith nickel isin
in 1986 we joined the

711

00:38:08,679 --> 00:38:14,500

national organization you for sweden we

712
00:38:10,509 --> 00:38:18,190
have been on our own from the beginning

713
00:38:14,500 --> 00:38:21,670
and unfortunately in 1986 my friend and

714
00:38:18,190 --> 00:38:24,338
colleague shall human son died too much

715
00:38:21,670 --> 00:38:27,190
too early he was the one<font
color="#E5E5E5"> who started the

716
00:38:24,338 --> 00:38:31,298
library really and that was a sad thing

717
00:38:27,190 --> 00:38:34,500
for us but the work<font
color="#CCCCCC"> that he started

718
00:38:31,298 --> 00:38:34,500
continues today

719
00:38:35,400 --> 00:38:44,349
in 1987 here we have a picture from the

720
00:38:39,548 --> 00:38:46,659
library then st. olaf's when someone one

721
00:38:44,349 --> 00:38:49,509
of the ufologists in norrköping came up

722
00:38:46,659 --> 00:38:52,598
to us one day and said i have quitted my

723
00:38:49,509 --> 00:38:55,240
job and i will work full-time in your

724
00:38:52,599 --> 00:38:58,509
archive Wow

725
00:38:55,239 --> 00:39:01,838
when does that happen someone says

they

726

00:38:58,509 --> 00:39:05,528
quit their job to work free full time

727

00:39:01,838 --> 00:39:08,018
for us this is idealism enormous

728

00:39:05,528 --> 00:39:11,980
idealism he still works for us full time

729

00:39:08,018 --> 00:39:14,229
I mean this is a gift from heaven when

730

00:39:11,980 --> 00:39:16,179
when does that happen and that has

731

00:39:14,230 --> 00:39:18,630
helped us very very much very much

732

00:39:16,179 --> 00:39:18,629
indeed

733

00:39:18,730 --> 00:39:26,858
there are idealists today if we

734

00:39:23,980 --> 00:39:30,670
continued to look into the<font
color="#E5E5E5"> military

735

00:39:26,858 --> 00:39:31,900
archives as much as we could this is a

736

00:39:30,670 --> 00:39:35,170
picture from the Swedish defense

737

00:39:31,900 --> 00:39:38,259
Research agency and the you for archives

738

00:39:35,170 --> 00:39:40,750
from this agency and we were allowed to

739

00:39:38,259 --> 00:39:43,990

copy the entire military or UFO archive

740
00:39:40,750 --> 00:39:46,780
in 1987 and this archive is now in our

741
00:39:43,989 --> 00:39:50,259
field in norrköping

742
00:39:46,780 --> 00:39:53,140
of course there are cases we were not

743
00:39:50,260 --> 00:39:56,590
allowed of course but all the cases that

744
00:39:53,139 --> 00:39:58,299
were sort of Declassified we were

745
00:39:56,590 --> 00:40:00,039
allowed to copy and that was very very

746
00:39:58,300 --> 00:40:05,860
important for us this was telling in

747
00:40:00,039 --> 00:40:09,610
1987 the man here is our na yard man who

748
00:40:05,860 --> 00:40:11,079
was head of the sort of new food

749
00:40:09,610 --> 00:40:13,599
department in that time there had no

750
00:40:11,079 --> 00:40:20,349
money to do him you've investigating but

751
00:40:13,599 --> 00:40:22,809
but he received the reports passively so

752
00:40:20,349 --> 00:40:24,819
we then we could create a national

753

00:40:22,809 --> 00:40:27,869

report archive like the Blue Book

754

00:40:24,820 --> 00:40:30,269

archive in there you can see it by

755

00:40:27,869 --> 00:40:33,480

putting together both the private

756

00:40:30,269 --> 00:40:35,619

archives the private researchers

757

00:40:33,480 --> 00:40:39,010

investigation and the military records

758

00:40:35,619 --> 00:40:44,739

and make a large archive on this and it

759

00:40:39,010 --> 00:40:48,880

was very important in 1989 correos de

760

00:40:44,739 --> 00:40:51,089

rien the author died and he had promised

761

00:40:48,880 --> 00:40:53,619

us that we should get his correspondence

762

00:40:51,090 --> 00:40:57,390

when he died which was coursework
very

763

00:40:53,619 --> 00:41:01,989

valuable so my colleague and I underst

764

00:40:57,389 --> 00:41:05,500

to his small house and asked his

765

00:41:01,989 --> 00:41:09,429

daughter where do we are here to fetch

766

00:41:05,500 --> 00:41:13,150

his correspondence oh that she said I

767

00:41:09,429 --> 00:41:16,539

threw that away a week ago in the

768

00:41:13,150 --> 00:41:18,250

dustbin and we were stunned of course

769

00:41:16,539 --> 00:41:19,929

but you can take a look you go behind

770

00:41:18,250 --> 00:41:24,909

the house and see if it's still there

771

00:41:19,929 --> 00:41:29,109

and we did and there in in among a lot

772

00:41:24,909 --> 00:41:31,319

of old shirts and on things we found 32

773

00:41:29,110 --> 00:41:34,780

binders with the most fantastic

774

00:41:31,320 --> 00:41:38,380

correspondence with with people from all

775

00:41:34,780 --> 00:41:43,390

over the world researchers you name
 it

776

00:41:38,380 --> 00:41:46,110

an invaluable material which is now in

777

00:41:43,389 --> 00:41:50,190

archives for you for research we were

778

00:41:46,110 --> 00:41:50,190

really happy when we found it

779

00:41:50,340 --> 00:41:55,450

unfortunately we have not been so lucky

780

00:41:52,690 --> 00:41:57,789

all the time
sometimes when we have

781
00:41:55,449 --> 00:41:59,368
tried to say material they have said oh

782
00:41:57,789 --> 00:42:09,690
sorry I burn it a couple of

783
00:41:59,369 --> 00:42:14,608
ago in the 1990s we've tried to increase

784
00:42:09,690 --> 00:42:18,298
our archive by also developing personal

785
00:42:14,608 --> 00:42:22,108
files correspondence organizational

786
00:42:18,298 --> 00:42:25,559
files so in many ways you for group

787
00:42:22,108 --> 00:42:28,048
archives local publications because this

788
00:42:25,559 --> 00:42:30,690
is important for the sociological aspect

789
00:42:28,048 --> 00:42:33,150
of this enigma we have many students who

790
00:42:30,690 --> 00:42:34,829
come to us from all over Sweden who want

791
00:42:33,150 --> 00:42:38,430
to study this from some aspect

792
00:42:34,829 --> 00:42:40,318
historical or religious or something and

793
00:42:38,429 --> 00:42:45,509
then this material is of great interest

794
00:42:40,318 --> 00:42:48,380

to them in the 1990s before the first

795

00:42:45,509 --> 00:42:50,759

time had a full time staff because of an

796

00:42:48,380 --> 00:42:53,338

government fund and an unemployment

797

00:42:50,759 --> 00:42:56,068

program so we could hire some people to

798

00:42:53,338 --> 00:42:58,768

work in the archive which was very good

799

00:42:56,068 --> 00:43:02,038

for us they could help us with databases

800

00:42:58,768 --> 00:43:04,909

and do a lot of work and we had about 40

801

00:43:02,039 --> 00:43:11,759

people working for us at that time

802

00:43:04,909 --> 00:43:15,558

worked for four to six months then our

803

00:43:11,759 --> 00:43:19,199

Ark I grew of course and in 1993 we

804

00:43:15,559 --> 00:43:21,028

inaugurated our second premises and we

805

00:43:19,199 --> 00:43:23,038

had a little party than with Russian

806

00:43:21,028 --> 00:43:31,139

champagne and sandwich cake which was

807

00:43:23,039 --> 00:43:33,089

very nice and of course visitors from

808

00:43:31,139 --> 00:43:36,179

all over the world started coming in to

809
00:43:33,088 --> 00:43:39,420
see to look at this archives in 1996 we

810
00:43:36,179 --> 00:43:43,949
had Hillary elements which many of you

811
00:43:39,420 --> 00:43:47,789
know I hope I think visitors he died a

812
00:43:43,949 --> 00:43:51,659
couple of a year
ago unfortunately came

813
00:43:47,789 --> 00:43:53,278
at a good visit us in 1998 and he was so

814
00:43:51,659 --> 00:43:55,259
impressed so in he wrote a check

815
00:43:53,278 --> 00:43:58,349
immediately when he was there to
support

816
00:43:55,259 --> 00:44:00,599
the archive and we was very nice for us

817
00:43:58,349 --> 00:44:03,028
of course we have many visitors from all

818
00:44:00,599 --> 00:44:06,239
over the world simply because we have

819
00:44:03,028 --> 00:44:08,159
material that doesn't exist anywhere
 in

820
00:44:06,239 --> 00:44:09,769
the world even from the United<font
color="#CCCCCC"> States we

821
00:44:08,159 --> 00:44:12,509
get questions from the United States

822
00:44:09,768 --> 00:44:13,479
about material that they should have but

823
00:44:12,509 --> 00:44:19,840
the only place to

824
00:44:13,480 --> 00:44:24,849
find it is in offer in norrköping we did

825
00:44:19,840 --> 00:44:26,380
a check in 2000 we closed phone when my

826
00:44:24,849 --> 00:44:28,630
colleagues visited Center for you for

827
00:44:26,380 --> 00:44:32,769
studies in Chicago and he noticed that

828
00:44:28,630 --> 00:44:36,099
their archive our archive was larger so

829
00:44:32,769 --> 00:44:39,369
from 2000 we said okay we are probably

830
00:44:36,099 --> 00:44:41,829
the largest archive in the world as you

831
00:44:39,369 --> 00:44:45,100
know Center for you for studies have had

832
00:44:41,829 --> 00:44:47,049
to abandon their premises<font
color="#CCCCCC"> today they are

833
00:44:45,099 --> 00:44:51,940
they are having a lot of trouble

834
00:44:47,050 --> 00:44:56,170
unfortunately we are doing the opposite

835
00:44:51,940 --> 00:44:57,849
we are increasing a very important

836
00:44:56,170 --> 00:44:59,920
collection was this the Boris Leon Chris

837
00:44:57,849 --> 00:45:04,719
collection you see here how we can look

838
00:44:59,920 --> 00:45:07,300
in the archive when material comes was

839
00:45:04,719 --> 00:45:09,368
young Chris was a Swedish writer wrote I

840
00:45:07,300 --> 00:45:13,450
think four books on new force in the

841
00:45:09,369 --> 00:45:17,140
1970s and 80s and we bought a lot of his

842
00:45:13,449 --> 00:45:24,849
material so it's unsafe in the archive

843
00:45:17,139 --> 00:45:29,379
now well dr. David Clarke's had this to

844
00:45:24,849 --> 00:45:31,480
say when he visited us in 2006 and of

845
00:45:29,380 --> 00:45:34,809
course that's always very nice to hear

846
00:45:31,480 --> 00:45:37,480
that he is not aware of any comparable

847
00:45:34,809 --> 00:45:45,070
collection in any other country and I

848
00:45:37,480 --> 00:45:48,519
guess he should know in 2006

849
00:45:45,070 --> 00:45:51,369
something very unique happened we

850

00:45:48,519 --> 00:45:55,019
received a grant from the Swedish

851
00:45:51,369 --> 00:46:00,280
National Archives for 82,000 Swedish

852
00:45:55,019 --> 00:46:04,500
kronor 82,000 and we could buy these

853
00:46:00,280 --> 00:46:09,040
shelves then and for our magazines

854
00:46:04,500 --> 00:46:12,989
this was quite fantastic 80 mm that's a

855
00:46:09,039 --> 00:46:12,989
lot of money to receive

856
00:46:14,050 --> 00:46:20,019
in 2009 another important product

857
00:46:18,159 --> 00:46:21,789
started in in Sweden we have many

858
00:46:20,019 --> 00:46:25,090
unemployed as of course we have in many

859
00:46:21,789 --> 00:46:28,239
countries and the government<font
color="#E5E5E5"> has a

860
00:46:25,090 --> 00:46:31,269
program called forestry where we can

861
00:46:28,239 --> 00:46:35,169
hire unemployed people and we get paid

862
00:46:31,269 --> 00:46:37,210
by the government for doing that so now

863
00:46:35,170 --> 00:46:41,590
we have 10 people working for us

864

00:46:37,210 --> 00:46:44,530

that's fast to you and it gives us a lot

865

00:46:41,590 --> 00:46:46,840

of money shamefully a lot of money but

866

00:46:44,530 --> 00:46:51,460

we that's recorded this sort of

867

00:46:46,840 --> 00:46:53,920

government funding in a way but it means

868

00:46:51,460 --> 00:46:55,809

that we can do a lot of work many many

869

00:46:53,920 --> 00:46:59,590

are engaged in in the archive in

870

00:46:55,809 --> 00:47:01,090

different types of work and this is our

871

00:46:59,590 --> 00:47:07,630

first foster oaken landing in

872

00:47:01,090 --> 00:47:12,910

what's-his-name Hilary Evans died as I

873

00:47:07,630 --> 00:47:17,230

told you and he donated all his large

874

00:47:12,909 --> 00:47:19,420

collection to Haifa in 2010 this was the

875

00:47:17,230 --> 00:47:22,510

largest donation we have ever received

876

00:47:19,420 --> 00:47:24,820

it was a fantastic donation I think it

877

00:47:22,510 --> 00:47:26,560

was nine thousand books it was two

878

00:47:24,820 --> 00:47:31,150

hundred and thirty-five boxes of

879

00:47:26,559 --> 00:47:34,299

material a truck came loaded full of

880

00:47:31,150 --> 00:47:37,360

material it came just that we had a

881

00:47:34,300 --> 00:47:39,730

small party of course in our archive so

882

00:47:37,360 --> 00:47:42,250

we had to put on our clothes and carry

883

00:47:39,730 --> 00:47:45,119

these boxes here but we were close were

884

00:47:42,250 --> 00:47:48,309

very happy for this a very very fine

885

00:47:45,119 --> 00:47:50,349

collection Hilary Evans had collected

886

00:47:48,309 --> 00:47:53,849

material from all over the world not

887

00:47:50,349 --> 00:47:57,130

just UFO literature but about folklore

888

00:47:53,849 --> 00:47:59,679

paranormal research parapsychology

889

00:47:57,130 --> 00:48:03,640

anything so now we can say that our

890

00:47:59,679 --> 00:48:06,429

collection in many ways are somewhat

891

00:48:03,639 --> 00:48:13,599

better than the university libraries in

892

00:48:06,429 --> 00:48:15,909

Sweden in in some cases to honor

893

00:48:13,599 --> 00:48:19,869

Hilary Evans we made a special events

894

00:48:15,909 --> 00:48:22,299

library and you can see a picture of it

895

00:48:19,869 --> 00:48:25,809

here it is a fantastic collection of

896

00:48:22,300 --> 00:48:27,670

books from several several hundred years

897

00:48:25,809 --> 00:48:30,639

old mint condition

898

00:48:27,670 --> 00:48:33,730

privately bound he bought books from all

899

00:48:30,639 --> 00:48:38,500

over the world and we are very happy for

900

00:48:33,730 --> 00:48:40,750

this collection do like donations come

901

00:48:38,500 --> 00:48:43,780

in from all over the world so much that

902

00:48:40,750 --> 00:48:46,449

we really we often don't know how to

903

00:48:43,780 --> 00:48:48,790

handle it because it comes on almost on

904

00:48:46,449 --> 00:48:54,909

a daily basis a weekly basis it comes

905

00:48:48,789 --> 00:48:57,820

from Brazil Japan Russia Simba you name

906
00:48:54,909 --> 00:48:58,809
it very large collection because we are

907
00:48:57,820 --> 00:49:01,180
quite well-known

908
00:48:58,809 --> 00:49:08,289
we have worked since 1973 and many

909
00:49:01,179 --> 00:49:12,489
people know about us so how does it
 look

910
00:49:08,289 --> 00:49:15,159
today we have 10 premises 450 square

911
00:49:12,489 --> 00:49:18,779
meters you can see here about 20,000

912
00:49:15,159 --> 00:49:22,449
books thousands of magazines of course

913
00:49:18,780 --> 00:49:24,310
articles we collect everything when it

914
00:49:22,449 --> 00:49:28,089
comes to books we collect three copies

915
00:49:24,309 --> 00:49:31,469
of every book published in every country

916
00:49:28,090 --> 00:49:37,180
in every edition in every language

917
00:49:31,469 --> 00:49:40,689
so we there is a lot of books<font
color="#E5E5E5"> we have

918
00:49:37,179 --> 00:49:42,579
one person employed and then on this

919
00:49:40,690 --> 00:49:45,280
unemployment program and about six

920
00:49:42,579 --> 00:49:47,529
volunteers so daily you have about 15

921
00:49:45,280 --> 00:49:49,300
people working in this Orca you can come

922
00:49:47,530 --> 00:49:56,290
and visit us just like any other

923
00:49:49,300 --> 00:50:00,070
architect this is unique in the world so

924
00:49:56,289 --> 00:50:05,920
how much time do I have one minute oh

925
00:50:00,070 --> 00:50:09,809
shit okay some pictures here here you

926
00:50:05,920 --> 00:50:14,440
have one picture of the library I go to

927
00:50:09,809 --> 00:50:19,119
so this is the way it looks are working

928
00:50:14,440 --> 00:50:24,090
premises here our archivists idealists

929
00:50:19,119 --> 00:50:29,829
Venable Swenson our and the man employed

930
00:50:24,090 --> 00:50:31,570
doing scanning and digitizing my former

931
00:50:29,829 --> 00:50:33,389
colleague at norrköping Public Library

932
00:50:31,570 --> 00:50:36,280
who want to do something when she

933
00:50:33,389 --> 00:50:37,719

retired she's now working for us instead

934

00:50:36,280 --> 00:50:39,360

that's very good to have a professional

935

00:50:37,719 --> 00:50:44,109

librarian

936

00:50:39,360 --> 00:50:48,670

my colleague understand again and myself

937

00:50:44,110 --> 00:50:50,590

of course we do a lot of research and

938

00:50:48,670 --> 00:50:52,690

documentation publish it in books

939

00:50:50,590 --> 00:50:54,059

magazines I have written some books

940

00:50:52,690 --> 00:50:57,369

myself

941

00:50:54,059 --> 00:50:58,420

we have many university students who

942

00:50:57,369 --> 00:51:00,909

come to visit us

943

00:50:58,420 --> 00:51:03,880

this is Bettina Syrian from the

944

00:51:00,909 --> 00:51:06,940

University of Lynn chirping she found us

945

00:51:03,880 --> 00:51:10,320

and was shot it was fantastic that this

946

00:51:06,940 --> 00:51:13,179

archive was so close to her hometown

947
00:51:10,320 --> 00:51:16,960
this is a special some special pictures

948
00:51:13,179 --> 00:51:19,960
we talked about Fatima before a couple

949
00:51:16,960 --> 00:51:21,940
of weeks ago there were in a Swedish

950
00:51:19,960 --> 00:51:24,400
church the santa maria church outside of

951
00:51:21,940 --> 00:51:27,000
stockholm some people thought they saw

952
00:51:24,400 --> 00:51:29,980
the Virgin Mary

953
00:51:27,000 --> 00:51:33,099
outside his church and thousands of

954
00:51:29,980 --> 00:51:36,880
people came there and there was a sort

955
00:51:33,099 --> 00:51:38,949
of religious revival and this just

956
00:51:36,880 --> 00:51:40,599
because some they saw them yeah also a

957
00:51:38,949 --> 00:51:42,579
small figure in the in the window it was

958
00:51:40,599 --> 00:51:46,170
nothing special early I I thought it was

959
00:51:42,579 --> 00:51:50,349
nothing special but then I thought how

960
00:51:46,170 --> 00:51:53,860
will people react if something like a

961
00:51:50,349 --> 00:51:57,099
real disclosure will happen there are

962
00:51:53,860 --> 00:51:59,470
few people on this planet who can deal

963
00:51:57,099 --> 00:52:01,360
rationally with a thing like that I

964
00:51:59,469 --> 00:52:04,000
think many will go to the gods and

965
00:52:01,360 --> 00:52:07,329
demons stuff we will have a very

966
00:52:04,000 --> 00:52:09,280
problematic religious sprint as a

967
00:52:07,329 --> 00:52:11,739
situation I don't say it because I'm

968
00:52:09,280 --> 00:52:13,570
against disclosure of course not but I

969
00:52:11,739 --> 00:52:17,529
think there are many problems in it I

970
00:52:13,570 --> 00:52:19,420
noticed this here I'm three researching

971
00:52:17,530 --> 00:52:21,750
the contact enigma as I said here is one

972
00:52:19,420 --> 00:52:24,820
of two of my colleagues Timothy good

973
00:52:21,750 --> 00:52:27,369
England Tony Brown from New Zealand
to

974
00:52:24,820 --> 00:52:31,630
who investigate contact cases very good

975
00:52:27,369 --> 00:52:34,239
researches both of them there is my book

976
00:52:31,630 --> 00:52:36,670
I wrote aliens on earth for contacts in

977
00:52:34,239 --> 00:52:39,699
Sweden unfortunately only in Swedish

978
00:52:36,670 --> 00:52:41,650
then and you know there are so many

979
00:52:39,699 --> 00:52:46,119
conspiracy runs somewhat to talk about

980
00:52:41,650 --> 00:52:49,200
conspiracy today and there are many

981
00:52:46,119 --> 00:52:52,869
people think we work for this well

982
00:52:49,199 --> 00:52:53,099
NSA CIA or anything and I used to say no

983
00:52:52,869 --> 00:52:55,679
we

984
00:52:53,099 --> 00:53:01,289
don't work for the CIA we work for the H

985
00:52:55,679 --> 00:53:06,649
I a higher intelligence agency that

986
00:53:01,289 --> 00:53:09,360
could be something I have a hope that

987
00:53:06,650 --> 00:53:12,630
have you seen the movie the planet of

988
00:53:09,360 --> 00:53:15,840
apes with Charlton Heston one of my

989

00:53:12,630 --> 00:53:18,869

favorite movies you know when these you

990

00:53:15,840 --> 00:53:20,760

know three guys are going in the desert

991

00:53:18,869 --> 00:53:22,769

on an unknown planet and they start

992

00:53:20,760 --> 00:53:25,380

discussing life and why did you go on

993

00:53:22,769 --> 00:53:28,440

this trip they can't go back and they

994

00:53:25,380 --> 00:53:29,400

discuss what what sure what why did you

995

00:53:28,440 --> 00:53:34,260

go on this trip

996

00:53:29,400 --> 00:53:36,599

one is a well power type or he want to

997

00:53:34,260 --> 00:53:39,480

be the first the brave man he hopes

998

00:53:36,599 --> 00:53:42,449

there's a statue on earth from him the

999

00:53:39,480 --> 00:53:44,280

second man is a scientist he would go

1000

00:53:42,449 --> 00:53:47,219

down in a burning volcano if he could

1001

00:53:44,280 --> 00:53:48,810

got new data from it and then to say to

1002

00:53:47,219 --> 00:53:51,629

Charlton husband you are so negative

1003

00:53:48,809 --> 00:53:55,769

what what you you don't like this

1004

00:53:51,630 --> 00:54:07,349

our planet no I'm not really and he says

1005

00:53:55,769 --> 00:54:10,199

like this well I think so I I do hope so

1006

00:54:07,349 --> 00:54:12,839

some of my cases indicates this may be

1007

00:54:10,199 --> 00:54:16,519

the case and if that is a conspiracy I

1008

00:54:12,840 --> 00:54:16,519

like to join I'll do it thank you
