

1
00:00:15,439 --> 00:00:22,829
good afternoon my name is Robert Jameson

2
00:00:20,028 --> 00:00:25,890
between january nineteen sixty-five in

3
00:00:22,829 --> 00:00:28,348
october of 1967 i was stationed at moms

4
00:00:25,890 --> 00:00:30,300
from air force base as a combat missile

5
00:00:28,349 --> 00:00:33,030
targeting team commander our main job

6
00:00:30,300 --> 00:00:35,370
was to point two missiles in the right

7
00:00:33,030 --> 00:00:37,980
direction also we may be dispatched from

8
00:00:35,369 --> 00:00:39,899
time to time to a restart in case any

9
00:00:37,979 --> 00:00:42,750
missile goes off alert we have to

10
00:00:39,899 --> 00:00:45,270
restart and verify the targeting data in

11
00:00:42,750 --> 00:00:48,539
march in 1967 i was on alert for

12
00:00:45,270 --> 00:00:50,579
dispatch that evening i got a call from

13
00:00:48,539 --> 00:00:53,698
job control st. and missile gone down in

14
00:00:50,579 --> 00:00:55,500
oscar flight go out and restarted which

15
00:00:53,698 --> 00:00:57,808
was nothing unusual up to this point i

16
00:00:55,500 --> 00:00:59,909
called my team then i went down into the

17
00:00:57,808 --> 00:01:01,968
to the hangar as soon as I got to the

18
00:00:59,909 --> 00:01:03,988
hangar some acquaintances of mine

19
00:01:01,969 --> 00:01:07,010
approached me says Bob you know what

20
00:01:03,988 --> 00:01:11,489
happened no I don't know what happened

21
00:01:07,010 --> 00:01:13,920
and he says well a missile a UFO was

22
00:01:11,489 --> 00:01:15,780
sighted over Lewistown Montana actually

23
00:01:13,920 --> 00:01:19,170
over Roy Montana Lewis Townsend nearest

24
00:01:15,780 --> 00:01:22,140
town of any significance but over the

25
00:01:19,170 --> 00:01:24,478
lowest Royd Montana which is the center

26
00:01:22,140 --> 00:01:26,879
of Oscar flight and when that UFO at the

27
00:01:24,478 --> 00:01:29,849
same time that UFO was over there all of

28
00:01:26,879 --> 00:01:33,060
Oscar flight went down well that was

29

00:01:29,849 --> 00:01:36,199
highly unusual I went to job control to

30
00:01:33,060 --> 00:01:39,118
verify it and yes they confirmed it and

31
00:01:36,200 --> 00:01:42,030
I was looking at the status board they

32
00:01:39,118 --> 00:01:45,060
have is where they have a map the whole

33
00:01:42,030 --> 00:01:47,280
wing I know so everything was Green all

34
00:01:45,060 --> 00:01:48,780
the lights have missed lights for the

35
00:01:47,280 --> 00:01:50,969
missile sites all the lights were green

36
00:01:48,780 --> 00:01:53,340
except one corner and the upper

37
00:01:50,969 --> 00:01:56,819
right-hand corner was all red all of

38
00:01:53,340 --> 00:02:00,270
Oscar flight was down i mentioned to

39
00:01:56,819 --> 00:02:01,648
them that doesn't happen he says well it

40
00:02:00,269 --> 00:02:05,548
happened once before about a week before

41
00:02:01,649 --> 00:02:07,049
a UFO was sighted over echo flight about

42
00:02:05,549 --> 00:02:09,689
the same time all missiles and echo

43
00:02:07,049 --> 00:02:11,290

flight went down he says other than that

44

00:02:09,689 --> 00:02:12,810
and this is it

45

00:02:11,289 --> 00:02:15,188
does never have happened before

46

00:02:12,810 --> 00:02:16,870
personally I'm never aware of any two

47

00:02:15,188 --> 00:02:22,078
missiles going down at the same time let

48

00:02:16,870 --> 00:02:24,370
alone 10 I also learnt you have other

49

00:02:22,079 --> 00:02:28,659
people and job control was telling me

50

00:02:24,370 --> 00:02:32,259
that earlier that day a UFO was sighted

51

00:02:28,658 --> 00:02:36,539
over belt Montana another town in

52

00:02:32,259 --> 00:02:41,138
Montana small town east of monstrum and

53

00:02:36,539 --> 00:02:43,959
it went into a canyon and immediately

54

00:02:41,139 --> 00:02:46,000
they won't notified the Air Force we

55

00:02:43,959 --> 00:02:47,799
sent a team out there to investigate it

56

00:02:46,000 --> 00:02:49,859
and sure enough there is a UFO

57

00:02:47,799 --> 00:02:52,329
apparently at the bottom of that Canyon

58
00:02:49,859 --> 00:02:54,459
job control to let me go over to the

59
00:02:52,329 --> 00:02:55,810
emergency command post they have set up

60
00:02:54,459 --> 00:02:58,120
in the Colonel's briefing room I had

61
00:02:55,810 --> 00:03:01,180
access to that location I went over

62
00:02:58,120 --> 00:03:03,250
there the room was too crowded to really

63
00:03:01,180 --> 00:03:05,769
gain anything I did hear radio contacts

64
00:03:03,250 --> 00:03:07,449
with a team out on the field mentioning

65
00:03:05,769 --> 00:03:10,000
lights at the bottom and everything but

66
00:03:07,449 --> 00:03:11,649
I didn't couldn't get too close to

67
00:03:10,000 --> 00:03:16,900
enough to really find out what was going

68
00:03:11,650 --> 00:03:18,519
going to happen I left the room and

69
00:03:16,900 --> 00:03:21,400
started wandering around getting my team

70
00:03:18,519 --> 00:03:23,500
ready went into debriefing we always go

71
00:03:21,400 --> 00:03:25,090
before the job we go to debriefing

72
00:03:23,500 --> 00:03:28,840
here's where they give us information

73
00:03:25,090 --> 00:03:30,908
such as road conditions and weather

74
00:03:28,840 --> 00:03:34,689
conditions things we might expect out in

75
00:03:30,908 --> 00:03:36,158
the field so I went over there and they

76
00:03:34,689 --> 00:03:38,228
went through the normal debriefing and

77
00:03:36,158 --> 00:03:40,298
then they said to me I want you to go to

78
00:03:38,229 --> 00:03:42,389
another table at the other end of the

79
00:03:40,299 --> 00:03:45,010
briefing room for a special briefing I

80
00:03:42,389 --> 00:03:48,909
went over there and another NCO

81
00:03:45,009 --> 00:03:50,709
approached me I knew him because he

82
00:03:48,908 --> 00:03:53,318
sometimes are it was our debrief roar

83
00:03:50,709 --> 00:03:55,900
briefer and he says look we have a

84
00:03:53,318 --> 00:03:57,310
problem we have UFOs in the area they've

85
00:03:55,900 --> 00:03:59,650
been messing with our missile sites

86

00:03:57,310 --> 00:04:01,719
there are certain procedures we want you

87
00:03:59,650 --> 00:04:04,090
to do if you should see one out in the

88
00:04:01,719 --> 00:04:06,459
field and he proceeded to tell me what

89
00:04:04,090 --> 00:04:09,280
to do if we're out on a road we still

90
00:04:06,459 --> 00:04:10,780
UFO we do not go to the launcher but

91
00:04:09,280 --> 00:04:12,878
instead to the nearest launch control

92
00:04:10,780 --> 00:04:15,009
facility also we call job control and

93
00:04:12,878 --> 00:04:17,649
let to know what we're doing if we're at

94
00:04:15,008 --> 00:04:19,658
a site and we're penetrating then we

95
00:04:17,649 --> 00:04:21,488
have to stop what we're doing remove

96
00:04:19,658 --> 00:04:23,649
ourselves from the site called job

97
00:04:21,488 --> 00:04:25,019
control we all have radio controls radio

98
00:04:23,649 --> 00:04:28,539
contact with all the

99
00:04:25,019 --> 00:04:29,949
called the job control and wait for

100
00:04:28,540 --> 00:04:31,750

further instructions now we're four at

101

00:04:29,949 --> 00:04:34,839

the site and we're doing our work I

102

00:04:31,750 --> 00:04:37,089

meant to take myself my team and the

103

00:04:34,839 --> 00:04:39,519

targeting tapes go into the launcher

104

00:04:37,089 --> 00:04:41,709

close a personnel hatch now all the

105

00:04:39,519 --> 00:04:43,449

teams before you go out to the field

106

00:04:41,709 --> 00:04:46,750

we'll take our take with us an armed

107

00:04:43,449 --> 00:04:49,810

guard that's just normal we have to

108

00:04:46,750 --> 00:04:52,149

leave the one guard armed guard on top

109

00:04:49,810 --> 00:04:54,160

all by himself and he's supposed to

110

00:04:52,149 --> 00:04:55,899

report to job control or the launch

111

00:04:54,160 --> 00:04:59,560

control facility or what he was seeing

112

00:04:55,899 --> 00:05:02,199

and then I says okay but then he says

113

00:04:59,560 --> 00:05:03,730

one other thing don't leave yet we're

114

00:05:02,199 --> 00:05:05,860

going to hold everybody back and to

115
00:05:03,730 --> 00:05:07,420
assure that all the activity out in the

116
00:05:05,860 --> 00:05:10,689
field has ceased at least for the time

117
00:05:07,420 --> 00:05:12,340
being so I waited around about an hour

118
00:05:10,689 --> 00:05:14,230
half is all ready to go then they

119
00:05:12,339 --> 00:05:17,889
contacted me and said okay you can go

120
00:05:14,230 --> 00:05:21,340
now so I went with my team we went out

121
00:05:17,889 --> 00:05:22,750
to the field we went restarted we had to

122
00:05:21,339 --> 00:05:25,419
go to Oscar flight that's not a very

123
00:05:22,750 --> 00:05:27,730
pleasant thing Oscar flies 120 miles for

124
00:05:25,420 --> 00:05:28,900
this flight from the base and in Air

125
00:05:27,730 --> 00:05:30,430
Force trucks that's not the most

126
00:05:28,899 --> 00:05:34,179
comfortable ride but nevertheless we

127
00:05:30,430 --> 00:05:35,860
went out to Oscar flight and we

128
00:05:34,180 --> 00:05:38,199
restarted i think is either three or

129
00:05:35,860 --> 00:05:40,780
four missiles this is where Bob was it

130
00:05:38,199 --> 00:05:43,418
at the time we started three or four

131
00:05:40,779 --> 00:05:46,359
their missiles the startups were

132
00:05:43,418 --> 00:05:49,149
successful and I saw no incidents in the

133
00:05:46,360 --> 00:05:50,740
field when I came back we have to go

134
00:05:49,149 --> 00:05:52,389
through debriefing first things i asked

135
00:05:50,740 --> 00:05:55,360
him upon return to the base what about

136
00:05:52,389 --> 00:05:57,099
this missile out and belt we said soon

137
00:05:55,360 --> 00:05:59,470
as light daylight came was going to send

138
00:05:57,100 --> 00:06:02,200
choppers over it was nighttime when he

139
00:05:59,470 --> 00:06:03,970
first saw it and it was going to snow

140
00:06:02,199 --> 00:06:06,490
was going to still have him scaled down

141
00:06:03,970 --> 00:06:07,780
the mountain at nighttime so they were

142
00:06:06,490 --> 00:06:09,579
going to send some choppers down and

143

00:06:07,779 --> 00:06:11,349
scale the mountain scale the canyon

144
00:06:09,579 --> 00:06:12,759
daylight dying but soon as daylight time

145
00:06:11,350 --> 00:06:15,040
came up this thing shot up right through

146
00:06:12,759 --> 00:06:23,740
the everything just disappeared more or

147
00:06:15,040 --> 00:06:27,879
less so that was that now also about a

148
00:06:23,740 --> 00:06:29,980
week later I also heard that a UFO was

149
00:06:27,879 --> 00:06:31,659
sighted over india flight and there's a

150
00:06:29,980 --> 00:06:33,939
partial shutdown i think four or five

151
00:06:31,660 --> 00:06:36,130
missiles went shut down at india flight

152
00:06:33,939 --> 00:06:38,689
with the UF overhead not the whole

153
00:06:36,129 --> 00:06:42,079
flight and i had to go out restart the

154
00:06:38,689 --> 00:06:43,819
to him and then rest might the time but

155
00:06:42,079 --> 00:06:46,838
Montana was involved in no more further

156
00:06:43,819 --> 00:06:51,968
UFO incidents nothing else happened and

157
00:06:46,838 --> 00:06:51,968

then I went on elsewhere thank you
