NEIL MORRIS:

I want to point out a feature which you may have already noticed in the Ramey Paper section of the main image, the problem is the large amount of damage this neg has sustained over the years and how that damage is reflected in the image itself as "white-outs". I think one of these "white-outs" is right over a letter on row 4, the "2" words before your "DISK" are I think just a single word saying SMiTHS. I think there are 2 "white-outs" in this image. The other, as luck would have it, is between lines 5 and 6. From this image I have to say my take on "DISK" on line 4 is *ELSE*

Signed, Neil Morris, University of Manchester, Department of Physics
