

# US AIR FORCE EXPLANATION

## RAWIN RADAR REFLECTOR

My first item of research was to review the USAF record and explanation of their claims-that the debris was actually the remains of a crashed Project Mogul balloon. This proved interesting, but not surprising. Their records indicate that there is no Mogul balloon that could have been the source of the debris.

Further, an official drawing of a Rawin radar reflector indicated that the Rawin did not have any material that could be mistaken for a "chrome strip" or an "I" beam.

What did Bond unpack and strew over Gen Ramey's floor that fateful afternoon? We'll let you know as soon as we find some definitive answers. If you would like to contribute to the investigation, take a look at the scanned images.
