

TOP SECRET MILITARY DOCUMENTS: RECOVERY OF EXTRATERRESTRIAL VEHICLES AND BODIES

**TOP
SECRET**

DURING TRUMAN ADMINISTRATION

Leaked top secret documents concerning the **recovery of extraterrestrial spacecraft and occupants** in 1947 have been released. A book titled "The Truth", places documents and events in context and provides a summary of a two-year authentication effort.

The document authentication effort is being led by [Dr. Robert M. Wood, Ph.D.](#), a respected physicist and former senior engineering manager for McDonnell Douglas.

Among the more remarkable facts disclosed is the documents are the following:

1. - The spacecraft employ propellantless propulsion, clearly indicating some form of gravitational propulsion technology
2. - **Several life forms were recovered** among the debris, autopsies were conducted
3. - Dr. Vannevar Bush became Chairman of an operation called MAJESTIC TWELVE, charged with managing the recovery and ongoing analysis of the materials
4. - Raw technological material recovered was subsequently studied, some of which was "seeded" into private industry, yielding advances in now-common microcircuitry, fiber optics, materials sciences, and other applications
5. - Research programs were launched in rocketry, electronics, biological warfare, and advanced propulsion
6. - **A security infrastructure more impenetrable than any in world history was put in place, in part through the establishment of the National Security Act of 1947.** Through various intelligence vehicles, a [program for "control of the press"](#) was instituted ensuring that leaks were closed and any open scientific investigation discredited

Experts in the field have concluded that the bulk of the documentation is genuine.

"It is now absolutely clear that one or more crashed vehicles were recovered by the military of the United States Government in 1947. It is certain that these vehicles were not manufactured by any contemporaneous government. Scientists and the media who reject this claim, particularly in the face of this most recent evidence, are ignoring the single most important event to confront humanity in perhaps 2,000 years." - Joseph P. Firmage, International Space Sciences Organization

"The information contained in these documents is astounding," said Joseph P. Firmage, editor and co-author of the

book, and the founder and chairman of the International Space Sciences Organization, its sponsor. Mr. Firmage is a prominent technology executive in Silicon Valley, California.

Copies of the documents are being forwarded to major U.S. news media organizations during the week of November 30, 1998.

The book containing the released documents, called *The Truth*, places the phenomenon of extraterrestrial visitation in its appropriate historical context. "The plausibility of many seminal religious events recounted in world history is dramatically reaffirmed by the reality of this phenomenon. Based upon private information available to the authors but not yet in print, I stand firmly behind the essential structure of the astonishing hypothesis contained in this work," stated Mr. Firmage.

"I again call upon the President and Congress of the United States of America to waive oaths of secrecy for all civilian and military personnel concerning the historical events presented within documentary finds published for the first time in this book. This is the only way to finally bring an end to a fifty-year program of concealment. The truth must be told for the benefit of our children, before all remaining eyewitness testimony expires. In view of the implications of this hypothesis, I can well appreciate and understand the genuine motivations of those who contained the knowledge brought to light today. But for the first time in 50 years, society is now ready to hear the rest of the story, and the urgency of an organizing motive for the world has never been greater," continued Firmage.

"The Truth" is available at
www.TheWordIsTruth.org

and as a public service, related materials can be downloaded at no cost.

The International Space Sciences Organization can be reached at 1556 Halford Avenue, Suite 110 Santa Clara, CA 95051, PH: 408-395-4378.
