

Weird science strikes again!

Where's Carl Sagan when we really need him?

Received from an update list, Regehr's comments are in CAPS.

Subject: **Pentagon ET Weapon Systems//Plasmoid and Micro-Wave Bombs Explained**

The following are developed weapons systems which are on line and are ready to be used against the extraterrestrials, as well as futuristic technology which can and should be implemented right now, for the benefit of all mankind: [WHICH IS WHICH? INTERESTING. IF PROVEN WRONG, IT'S "FUTURISTIC TECHNOLOGY"! AUTHOR CANNOT LOSE!!!

1) A miniaturized, self-sustaining nuclear fusion reactor controlled by a hyperstrong magnetic field. [LET'S EXAMINE THIS. IS IT REASONABLE THAT IN ORDER TO CONTAIN "x AMOUNT" OF ENERGY ONE NEEDS x^+ ? OTHERWISE THE ENERGY "CONTAINED" WOULD OVERWHELM THE CONTAINER (E.G. "HYPERSTRONG MAGNETIC FIELD"). WHERE DO THESE FOLK GET THE ENERGY FOR THE CONTAINER?

Lasers now produce fusion, which is an inexhaustible and compact energy source. [BIG F__KING DEAL. I WROTE THE PROPOSAL FOR SHIVA IN 1972! WE PRODUCED FUSION BY USING LASERS OVER A QUARTER OF A CENTURY AGO!]

The United States should, once and for all, shut down all nuclear and coal power plants and put the petro-chemical and the global-warming, ozone-depleting industries out of business.

[EVERY RATIONAL THINKING PERSON ON THE FACE OF THIS PLANET AGREES THAT NUKES ARE THE ONLY LONG-TERM METHOD OF PRODUCING THE ELECTRICAL POWER INDUSTRIALIZED NATIONS CURRENTLY NEED. TO CONCLUDE THAT THE PETRO GANG WOULD GO OUT OF BUSINESS SHOWS A DEGREE OF NAIVETE USUALLY

RESERVED FOR THOSE WHO ARE NOT ALLOWED TO WEAR LONG PANTS IN PUBLIC.]

Free-energy is not only feasible, but it is here right now. [RIGHT, AND THE CHECK IS IN THE MAIL.

The citizens of the World need to demand that this technology be put on line as soon as possible. [TRUER WORDS HAVE NEVER BEEN SPOKEN. QUIT THIS E-MAIL CRAP AND BUY STOCK IN THE COMPANY YOU "KNOW" IS WITHHOLDING ALL THIS "TRUTH". ONE SINGLE SHARE AND YOU CAN LET YOUR VOICE BE HEARD. PUT YOUR MONEY WHERE YOUR MOUTH IS OR SHUT UP!]

2) Besides nuclear, magnetic, laser and electromagnetic pulse, and particle beam weapons; Sandia Labs also have developed a solar device. [I HAVE A SOLAR POWERED CLOTHES DRYER AT MY HOME-- CALLED A CLOTHES LINE. EXPLAIN WHAT A "MAGNETIC"

WEAPON IS. I'M INTRIGUED!]

At the Solar Power Tower Laboratory, Sandia boasts a heliostat (a solar collector-concentrator device) that can burn through 1 inch thick metal plating in 26 seconds. [WOW. I'LL BET YOU MEANT TO SAY 1-INCH THICK METAL PLATE, DIDN'T YOU? AGAIN, I AM INTRIGUED. SEND ME THE DATA. I WANT TO SEE WHY IT TAKES SO LONG. THEY'RE DOING SOMETHING WRONG. I WAS PUNCHING HOLES IN PENNIES IN 1961 WITH A VERY SMALL, VERY CRUDE COLLECTOR. I HOPE LIKE H_LL THEY CAN DO BETTER 30+ YEARS LATER.]

3) Project ARIES - Advanced Research Electromagnetic Pulse Simulator.["P" = "I" ? WHY NOT AREPS?]

AIRES uses an advanced particle energy capability [WHAT IS IT?]

that can deliver a 100-trillion volt burst of ions using a lithium diode one inch thick. [OK, WHERE'S YOUR DATA? US MISSOURI BOYS QUESTION THIS.]

These fusion powered [IF FUSION, WHY THE DIODE?]

100-trillion bolt blasts can overpower even the most exotic extraterrestrial UFO technology. [GOOD, WHY HAVEN'T WE USED IT? IF WE HAVE, WHERE? WHEN?]

Leah Haley, author of the book, "Lost Was the Key," has been shot down by this beam weapon system while aboard an alien craft, and she also has taken pictures of this pulse-beam system.[DO YOU REALLY BELIEVE THIS?]

GPF...Get Pissed First

As my Aussie mate (friend) would say, get pissed (drunk) before you read weird science.
