

Weird! continued

4) The truth can now be told about SETI
(Search for Extraterrestrial
Intelligence)[I CAN HARDLY WAIT.
TELL ME! TELL ME! TELL ME!

which changed it's name to High Resolution
Microwave Survey, [HRMS? OR DO
WE SUBSTITUE A LETTER HERE
OR THERE TO MATCH AN
ASTROLOGICAL SIGN?]

which is suppose to monitor millions of microwave channels through
radio-telescopes throughout the world. [SO?]

SETI or HRMS is really used to broadcast signals to alien crafts!
[INTERESTING! SHOW ME THE DATA!!]

At the National Radio Astronomy Observatory, is the Very Large Array
which consists of 27 huge 82 foot-wide "receiving" dish antennas on
support towers that move on railroad cars. Each is as tall as a 12-story
building and capable of being grouped into many different configurations.
These mammoth towers are used to broadcast signals, not pick them up.
Those NORA (National Radio Astronomy Observatory) dishes (all 27
of them) can be picked up transmitting at over 30 miles away on the FM
and CB channels.[GREAT!! SEND ME A RECORDING; ANY OLD
ONE WILL DO. I WOULD REALLY LIKE FOR YOU TO EXPLAIN
HOW AN FM OR CB RADIO CAN RECEIVE MICROWAVE
TRANSMISSIONS. REVOLUTIONARY! THIS SHOULD MAKE
YOU RICHER THAN ANY PERSON IN THE WORLD!!]

5) In 1993 the Russians offered to share with the United States their
advances in deployment of a plasmoid space weapon. A plasmoid is an
extremely high-energy concentrated force field that can tear anything
apart. [CAN IT TEAR APART EVEN THIS FAR-FETCHED SERIES
OF FICTIONAL ACCOUNTS YOU'RE PRESENTING?]

This incredible system directs two very powerful energy beams: one
consists of electromagnetic energy in the microwave range, the other
consists of intense laser energy. These beams converge in space at a
designated target (such as an Extraterrestrial craft) and can be
described as something like a miniature hydrogen bomb inside the
Superdome! [WHY THE NEED FOR AN EMP AND A LASER?
DO YOU HAVE ANY IDEA OF WHAT YOU ARE SO CRUELY
AND IGNORANTLY ATTEMPTING TO DESCRIBE?]

This one should give you goosebumps all over, knowing that your money has not been spent on helping mankind achieve some kind of lasting peace:

Hydrogen bombs have now been downsized to as small as a RV propane tank, which could easily fit inside a duffel bag. [NO, I GET GOOSEBUMPS FROM THE CERTAIN KNOWLEDGE THAT YOU ARE THE NET RESULT OF A "PUBLIC EDUCATION". GOD HELP US!]

As few as 50-hydrogen bomb explosions will create, what is called, "nuclear winter." [HECK, ONE COULD DO THAT IF IT WERE BIG ENOUGH!]

In this man-made "winter," very little sunlight will reach the surface of the planet, thus there will be no food production, eliminating 99.99% of the human race. And who would want to survive something like that anyway? [BEATS THE HECK OUT OF SPENDING A LONG WINTER LISTENING TO WEIRD SCIENCE!]

> WHERE THEY'RE GOING FROM HERE:

>

- > Perhaps the most extraordinary revelations of the May conference came
- > from Col. Gary Weber, the director of combat developments at the Army's
- > John F. Kennedy Special Warfare Center and School at Fort Bragg, North
- > Carolina. He listed the special operations and low-intensity conflict
- > future battlefield technologies under development and scheduled for
- > completion between now and the year 2020. And those weapon technologies include:
- >
- > 1) Synthetic telepathy [AS OPPOSED TO WHAT--ORGANIC TELEPATHY?]
- > 2) Multi-spectral invisibility [ALREADY HAVE THIS. WE CALL IT "DARK".]
- > 3) Directed energy weapons [A .45 WILL WORK.]
- > 4) Soft tissue regeneration [EVER CUT THE INSIDE OF YOUR MOUTH? REGENERATES WITHIN HOURS.]
- > 5) Soft-kill weapons [DROWNING]
- > 6) Robotic weapons and mine systems [ARTILLERY]
- > 7) Human sensory enhancement [EYEGLASSES]
- > 8) Directional explosive charge [SHAPED CHARGES]
- > 9) High energy electromagnetic launchers [RAIL GUNS]
- > 10) Unmanned aerial resupply [WHY SUPPLY AN "AERIAL", LET ALONE RESUPPLY ONE?]
- > 11) Small lightweight tactical colorax device [PLEASE, OH GREAT ONE, EXPLAIN THIS TO THIS MERE MORTAL.]
- > 12) Thermal imaging [INFRARED]
- > 13) Whole blood replacement [OH COME ON! WHO HASN'T

HEARD OF A TRANSFUSION?]

- > 14) Genetically-engineered biological electromagnet obscurant [SAY IT IN ENGLISH. I ONLY HAVE A MASTERS DEGREE]
- > 15) Hand-held laser radar to distinguish between men, women, and children. [GEE, I CAN DO THAT WITH SPECTACLES.]

- > 16) Powered exoskeleton fitted brace to enable a parachutist to jump with 100 pounds of gear and protect their lower extremities from injury [THOUSANDS DID THIS IN W.W.II]
- > 17) Chameleonic battle dress to reduce U.S. signature [I WEAR THESE--CALL'EM "CAMMOS"]
- > 18) Mechanical voice translator of other languages to English and vice versa [BUY THESE AT RADIO SHACK]
- > 19) Miniaturized tactical radios [DITTO, RADIO SHACK]
- > 20) High-altitude cornucopia [SAY WHAT!?!?]
- >

IS WHATEVER YOU ARE "ON" A LEGAL SUBSTANCE? IS A PRESCRIPTION REQUIRED, OR DO YOU PURCHASE THIS IN SMALL QUANTITIES FROM "GUIDO"? WHERE CAN I GET SOME?
