https://twitter.com/_/status/1545848558653431814

@ToddRaymondL @SicCoP1 @ReconStrange Largely it comes down to the amount of information. Most of the truly anomalous cases - military or otherwise - are lacking degrees of data. Some cases, also, are certainly suspect in credibility - especially those involving manipulative agendas.

@ToddRaymondL @SicCoP1 @ReconStrange UFOs as cover for Intel & Military operations, or as part of deliberate dis/misinformation for strategic or policy purposes, are certainly considerations in some cases/instances & have been part of speculative discussion since the Cold War Flying Saucer Age. And still are.

@EngagingThe @TUPACABRA2 @THP_22_22 The criticisms of non-Hynek Close Encounter designations beyond the Third Kind is that they focus more on interpretations & interaction (with a biasing), & tend to discard the proximity element constituting a Close Encounter.

@MindfulOfLight @moranlerner The phenomenon isnâ□□t interested? Itâ□□s just a mystery, not an invisible deity. Incommensurability is merely an obstacle to be overcome by method & technology, not attributes of a magical trickster. We are not at anythingâ□□s mercy, we just need critical thinking & proper science.

@thaxter @Go_Kick_Rocks88 The point is to recognize that some images are prosaic, some are hoaxes and some are anomalous - and be knowledgeable enough to know where such evidence correctly fits in these categories of explanation. And to, at least, call out that which is BS or not unexplained.

@thaxter @Go_Kick_Rocks88 Is there a proven â□□genuine flying saucer from outer spaceâ□□ to point to that demonstrates this? We have no confirmed images of vehicles from Another World.

Not all anomalous images are identifiable or hoaxes - some are simply anomalous (unexplained). This is a also a fact.

Two photos taken by a barber named Ralph Ditter, in Zanesville, Ohio on November 13, 1966. Ditter was leaving home with his camera when he chanced to look back and saw the UFO over his house. He took two exposures within a short period of time of the helmet-like craft, with an apparent "canon" on the underside of the craft. Ditter did not seek publicity but put them in his shop window to stimulate business. Eventually a news service bought them and they were widely published. The object is similar to the "Heflin UFO" and is said to be an original German design with a Panzer Tank canon mounted beneath it. Such a craft at such a late date would tend to indicate that this was not a captured test craft but rather a "renegade craft" possibly from South America as late as 1966.

I donâ□t think any of the speakers/writers at our upcoming conference here in the Midwest are involved in any investigative programs or governmental efforts. We will be conferring to discuss these very problems, topics and issues though.

@OliverWood2017 @droneologists @InvNightSchool @novicus @GarryPNolan @DrFunkySpoon Agreed. Open, long-term, non-manipulated, programmatic, instrumented field study at phenomenologically active localized hotspots of activity with published reporting and peer-review data is the way to go.

https://twitter.com/_/status/1543716930158215176

@EssentialBusin7 @OliverWood2017 @PostDisclosure Certainly. But who are you trying to persuade with the science? The popular public? UFO believers? It is establishment science & skeptical academia that need the CONVINCING programmatic evidence - sensationalized pseudoscience & biased/belief-system measures work against that.

2022-07-03T21:55:09+00:00

https://twitter.com/_/status/1543714991177715713

@OliverWood2017 @EssentialBusin7 @PostDisclosure There is clearly a mystery. There is also some legitimate inquiry being done. There is also delegitimizing pseudoscience for sensationalizing corporate TV being done that works to undermine any legitimate efforts - there and elsewhere.

2022-07-03T21:31:18+00:00

https://twitter.com/_/status/1543708989766213632

@EssentialBusin7 @PostDisclosure There is a fair measure of pseudoscience on that program: correlative supposition, ritualized experimentation, sensationalized inference & conclusions based upon biased belief interpretations, ready acceptance of anecdote, overtly

dramatic experimentation for the sake of TV.

2022-07-03T21:19:35+00:00

https://twitter.com/_/status/1543706041124364289

@PostDisclosure More than just optically annoying, but delegitimizing of the credibility of subject & field. Many in the field itself feel this way - & many outside of the field & subject undoubtedly would likewise contend that questionable reality show pseudoscience promotion harms legitimacy.

2022-07-03T21:08:48+00:00

https://twitter.com/_/status/1543703327296331777

@droneologists @OliverWood2017 @InvNightSchool @novicus @GarryPNolan @DrFunkySpoon Ditto. I am a witness & a researcher for 4.5 decades. I have worked to promote the legitimacy of this subject. And since I do want to see SERIOUS scientific study, I make it a point to challenge those who are working at manipulating, delegitimizing, & exploiting this field.

2022-07-03T18:24:18+00:00

https://twitter.com/_/status/1543661929880772609

@PostDisclosure People do hold a variety of views & beliefs on a variety of things: religion, morality, politics, science & even UFOs. Skeptics & believers & those in between - alike & likewise, annoying & concise - have different ideas on different things. Misrepresentation & bias also abounds.

2022-07-03T17:47:40+00:00

https://twitter.com/_/status/1543652708728578049

@PostDisclosure The verified, scientific discovery/acknowledgement of Bigfoot, the Loch Ness Monster, Dogman, the Supernatural Realm of Spirits, fire-breathing dragons or any other previously deemed mythological or fanciful unknown - yet claimed encountered - will do likewise to shift paradigms.

@MohaveRiddick @MiddleOfMayhem @LuAngeles Donâ□□t know. Most are misidentifications. Some hoaxes. Some secret craft. Some possibly unknown natural phenomena. Maybe some illusions. Maybe some are actually Alien Visitations.

Itâ□□s all a measure of sufficient evidence, credibilities, postulations, likelihoods and biases.

@MohaveRiddick @MiddleOfMayhem @LuAngeles You bet. Iâ□□m not a skeptic, btw. I am a life-long researcher and have had several encounters. I think that there are as many possible explanations as there are cases. Each case should be measured on its own merits. Many cases can be solved, but some mysteries remain mysteries.

@MohaveRiddick @MiddleOfMayhem @LuAngeles No. Some UFOs are real. MOST are explainable, however. Beings are a different matter - less suggestive evidence for Close Encounters of the Third Kind with Alien Beings. Some of these cases are certainly intriguing though & represent phenomena worthy of serious scientific study.

LEADING EXPERTS TELL YOU HOW TO

TALK WITH SPACE BEINGS

BE PART OF AN UNUSUAL EXPERIMENT

Millions of tax dollars are being spent to construct giant disc-shaped radio telescopes that span the sky in the unlikely hope of picking up random signals from star systems millions of light years away. At the same time, NASA proceeds with an out-moded space program, building rockets that are both expensive and which utilize a backward propulsion system which will never get us out into the cosmos.

Yet, actually, according to thousands of ordinary individuals living around the world, contact with other life forms is possible and at almost no cost, and can be accomplished by methods other than those devised by the established scientific community. UFO channels and flying saucer contactees maintain that they have established a communications link-up with extraterrestrial beings-human-like aliens from far more advanced worlds — who are hovering around our planet on a mission of peace and well being. It is claimed that these aliens, often referred to as our "SPACE BROTHERS," are here to help in individual spiritual development, and have much to offer our civilization in the way of technical advancements. These other-worldly beings will make themselves readily seen as soon as a larger percentage of the population lets them know they are welcome in love and understanding.

The "BOOK OF SPACE CONTACTS" offers several methods which might enable you to become a UFO contactee and actually communicate with the occupants of these silvery, disc-shaped objects. You will learn what "Talking Them Up," means; how PSYCHIC COMMUNICATION can bring you closer to them, and how a simple meditation can be successfully used to talk with friendly space beings. Furthermore, it is even possible to communicate with extraterrestrial masters by constructing a device which should cost only a few hundred dollars using simple electronical equipment that can be found in any stereo store.

Also, learn how to identify space aliens who are said to be walking amongst us right now and discover exactly what their purpose on earth is. WARNING! There are those aliens who mean harm. The "SERPENT RACE" is the "BEAST" of the Bible, and they should be avoided at all costs. Over sixty types of aliens are coming to earth and the "BOOK OF SPACE CONTACTS" contains a large section describing fascinating — and highly incredible — face-to-face confrontations with many of these strange beings from the far reaches of the universe.

The "BOOK OF SPACE CONTACTS" is totally unique. It is fully illustrated and is meant for the individual who is looking to expand his consciousness and "reach out" in an attempt to develop both psychically and spiritually.

@tasmedes @528vibes One of the best ways to determine if such objects are flares - besides color identification of composite chemicals - is to speed up any video to see if they fade out in the same linear order that they appear. This can similarly be done with sky lanterns.

huntington_strange_travels THE 1973 RICHARDS MOBILE HOME CE:2K UFO TRACE CASE - Columbia, Missouri. At around midnight, on June 28th, 1973, James Richards (41) - with daughter Vanea (16) and granddaughter Jamie (3) - heard a thrashing sound in the trees outside of their rural mobile home near Columbia, Missouri. Looking out of their kitchen window towards the direction of the sounds, the family observed “beams of light” emanating from the nearby tree-line. These beams then appeared to morph into a bright, silvery, “oval” object - about 15 feet across - which seemed to be hovering a few feet above the ground less than 50 feet away. Night became day as the object’s luminosity became blinding. The trees and the grass in proximity appeared to whip about (some branches breaking) as if in a storm gale. Richards retrieved his gun and then proceeded to call the police as the object slowly moved a hundred feet further away. Electrical interference seemed to affect the line, but the authorities were eventually summoned. The

Submarine Bobs Up In Mississippi River Saturday And Takes Aboard A Negro Farmer Before Disappearing

Jean Valjean is dead but his spirit apparently lives in the body of a Mississippi county Negro man, who farms a few miles north and east of Charleston on the river side of the levee.

Officers of this county are not easily aroused about any normal procedure—not after major floods, roadside demonstrations and such, but a rush call from an entirely reliable farmer regarding the appearance and then the disappearance of a submarine in the Mississippi river—well, that's enough to jar the eyeteeth out of most anyone.

The call came at noon Saturday. Officers of this county, augmented by members of the State Highway Patrol responded. The Negro man, who prefers to remain anonymous, was questioned at length. And this is his story:

He was plowing near the river bank Saturday morning about 10 o'clock. Without any previous warning a submarine poked its grey nose out of the murky depths of the Mississippi (which is about 40 feet deep at that particular place) and eased up on the sloping riprapped bank. A negro man on deck waved to our friend to come aboard. He went.

There he found one Negro man and five little brown men who escorted him through the ship, for tin fish, or submersible, or whatever it might have been.

Although questioned at length the Negro stuck to his story, describing the interior and mocking devices on the water tight door, the deck gun and a myriad of other things on the mysterious craft.

After a pleasant half hour or maybe longer on board, so goes the story, the Negro heard the automobile of his boss approaching and said he had to be going. "Well, we have to go too," replied his hosts, so he went ashore.

With a great churning of waters the grey craft slipped silently beneath the waves and disappeared.

So endeth this chapter.

\+ + +

The strange visit aboard an even stranger river craft was duly reported when the landlord visited the farm at noon Saturday. He in turn reported to Sheriff Scott. Other officers were assembled.

He could not be, and was not shaken in his story. Finally he was released, and a report of the matter was transmitted to FBI agents and to the Coast Guard, which, incidentally has charge of patrolling inland as well as coastal waters.

About 3 o'clock Sunday morning a telephone voice asked the landlord where the Negro might be found. Upshot of the conversation was that the Negro ended up in custody of Coast Guardsmen at the Mississippi-Illinois line. He disappeared.

The disappearance of the Negro informant was as complete as the evaporation of the alleged submarine. Not until Monday noon was the informant found—he had been taken to St. Louis for additional questioning by the FBI agents.

2022-06-27T03:12:25+00:00

@mb103001 @EssentialBusin7 @BrandonFugal I disagree. I consider all information, proffer my opinions and make valid critiques, and am skeptical of only unsupported/unsubstantiated claims - but not the legitimate phenomena worthy of serious consideration. I am a lifelong researcher of UFOs and anomalous phenomena.

2022-06-27T03:08:02+00:00

https://twitter.com/_/status/1541257017595142144

@valliant @MiddleOfMayhem @blaq_ty We can certainly speculate that what was claimed observed was advanced tech. If what was claimed on radar is true - as suggested - we can also speculate as to advanced tech. Absent any actual radar data, all speculations are based in anecdote & a singular questionable video.

2022-06-27T02:57:57+00:00

https://twitter.com/_/status/1541254479638585345

@valliant @MiddleOfMayhem @blaq_ty If the observations are correct, the key questions involve the perceived movements of the observed, as well as its unique appearance. Likelihoods of causation range from prosaic misidentification to observation of something non-prosaic - all of which still beg the question.

2022-06-27T02:52:22+00:00

https://twitter.com/_/status/1541253073066229761

@valliant @MiddleOfMayhem @blaq_ty Now we are asking the right questions! As we are dealing with a claimed (assumed) observed unknown (unverifiable) based largely on anecdote (from trained observers) we can conclude that it was likely a real event. But as an unknown, we can only speculate as to what it was.

2022-06-27T02:41:40+00:00

https://twitter.com/_/status/1541250379010154496

Conferring & debating all of the disparate views is what we should encourage of each other.

2022-06-27T02:36:45+00:00

https://twitter.com/_/status/1541249143481458691

@PostDisclosure @BrandonFugal Brandon & I have all kinds of respectful/cordial, yet challenging, conversations about these question-worthy subjects - some in the Twittersphere & some privately. 2022-06-27T02:27:07+00:00

@528vibes @EssentialBusin7 @BrandonFugal Voodoo correlation is not an insult, it is a precise descriptive. Psychology has studied such biased belief effects & their relationship to perceived causality. Influencing mythos certainly can effect biased perceptions of events &

their causal connections.

@PostDisclosure @BrandonFugal Our speakers are free to make their own suppositions as they wish. Brandon is also free to make any claims or contentions as he wishes. I too am able to proffer my opinions/takes, just as you are.

Anyway, the discussion here is the hitchhiker effect. Which is surely debatable.

https://twitter.com/_/status/1541168261039099911

@BrandonFugal What was documented were anomalous occurrences - not a unproven hitchhiker effect (mobile affective interactive causative phenomena). Concluding a perceived connectivity of events to a locality without any real determinate cause is simply a correlative bias.

@528vibes @EssentialBusin7 @BrandonFugal You were doing well until you got to the personal insult.

Iâ□□m open to any such theoretical effect being demonstrated beyond biased anecdote & voodoo correlation. Causative theories do no equate with demonstrated causal mechanisms. The effect itself is not even demonstrable.

@BrandonFugal Which hard data? Where is the hard data showing causation? The mechanisms of operation for the effect? The effect source?

What you have is anecdote alluding to a bias of connectivity. Correlative conclusions & perceived connections, but not anything demonstrably causative.

@EssentialBusin7 @BrandonFugal No. Just that they are making biased correlative connections of perceived negative or anomalous events to perceived anomalous localities without any causative-connective proofs demonstrating any such connection or relationship. Postulations very much debatable and arguable.

KENNETH ARNOLD'S STRANGE ENCOUNTER - Pilot Kenneth Arnold sees a formation of 9 Unknown "Crescent-Shaped" Objects flying around Mt. Rainier, Washington on June 24th, 1947. By observing their travel distance, Arnold calculates that the silvery craft were moving at an incredible 1700 mph. He reports the event to the public and the media soon after landing. Newspapers sensationally report on the incident and coin the term "flying saucers" from Arnold's descriptions of the objects' erratic motions. The Modern "Age of Flying Saucers" - and public captivation/interest in the UFO subject - begins. UAP is redundantly problematic as the U and P generally mean the same - Unknown. Pluralizing UAP as UAPs is just grammatically dumb.

@EdmondHWollmann @Akam1129 @TheUndeadGaucho An experience which suffices, perhaps, for you. Like a religious experience.

Convincing/converting others, however, requires demonstration, not anecdote - lest people choose to believe.

Subjective experience can also be illusory, therefore we need more than just an account.

@skinnyb0b @ReconStrange Systemic field science has largely not been engaged in the research community. Yakima, Project Identification, Hessdalen have been our limited efforts. Iâ□□m hopeful for Galileo, but the hooks may already be in that one by Intel. We need dozens of instrumented field array projects.

@EdmondHWollmann @Akam1129 @TheUndeadGaucho Demonstrating postulated causal mechanisms certainly requires evidentiary proofs. As does a full descriptive - and understanding - of an anomaly/phenomena requires as much evidentiary information/data for a full descriptive understanding that goes beyond a perceptive take.

@GhostyMarc Iâ□□m not against filming oneself or engaging in interviews. Itâ□□s necessary sometimes. When it happens in the field at a phenomenological location during an active investigation & anomalous data is lost due to theatrics, then itâ□□s proving that itâ□□s not

about the data but the drama.

Decoy spoofing drones in the 50s.

We had nuclear drone fleets in the 60s. Such as the DASH QH-50.

I donâ□□t think he will fare well at all under serious political and media scrutiny. And his wishy-washy, non-answers wonâ□□t cut it with Wyoming folks. His Guantanamo and Intel past will will be detriments - so will UFOs.

@fringequest @bpleasies @JasonColavito He could start to campaign next year if he were run next time around - but he will be running as a political noob against a sitting Congressman. The success of his book (or lack thereof) will determine this likelihood.

@bpleasies @JasonColavito @fringequest If he were to run for US Congress (WY) it would be announced sometime next year (too late for this year) and he would have to run against an incumbent. Not likely.

Unless he ran as a Democrat or Independent. Whereas, in Wyoming, he would likely lose.

@bpleasies @JasonColavito @fringequest Congressional races are very different animals. I have worked on several.

The issues they care about are regulations and taxes. An outsider, Intel Spy, UFO activist, TV celebrity would play better in Minnesota than in Wyoming.

@bpleasies @JasonColavito @fringequest How much are you willing to bet?

Being a UFO Spy wonâ□□t play as an appealing qualification to many there. And if he runs hard, gun-toting Republican - he is sure to sabotage much of his own UFO fan-base.

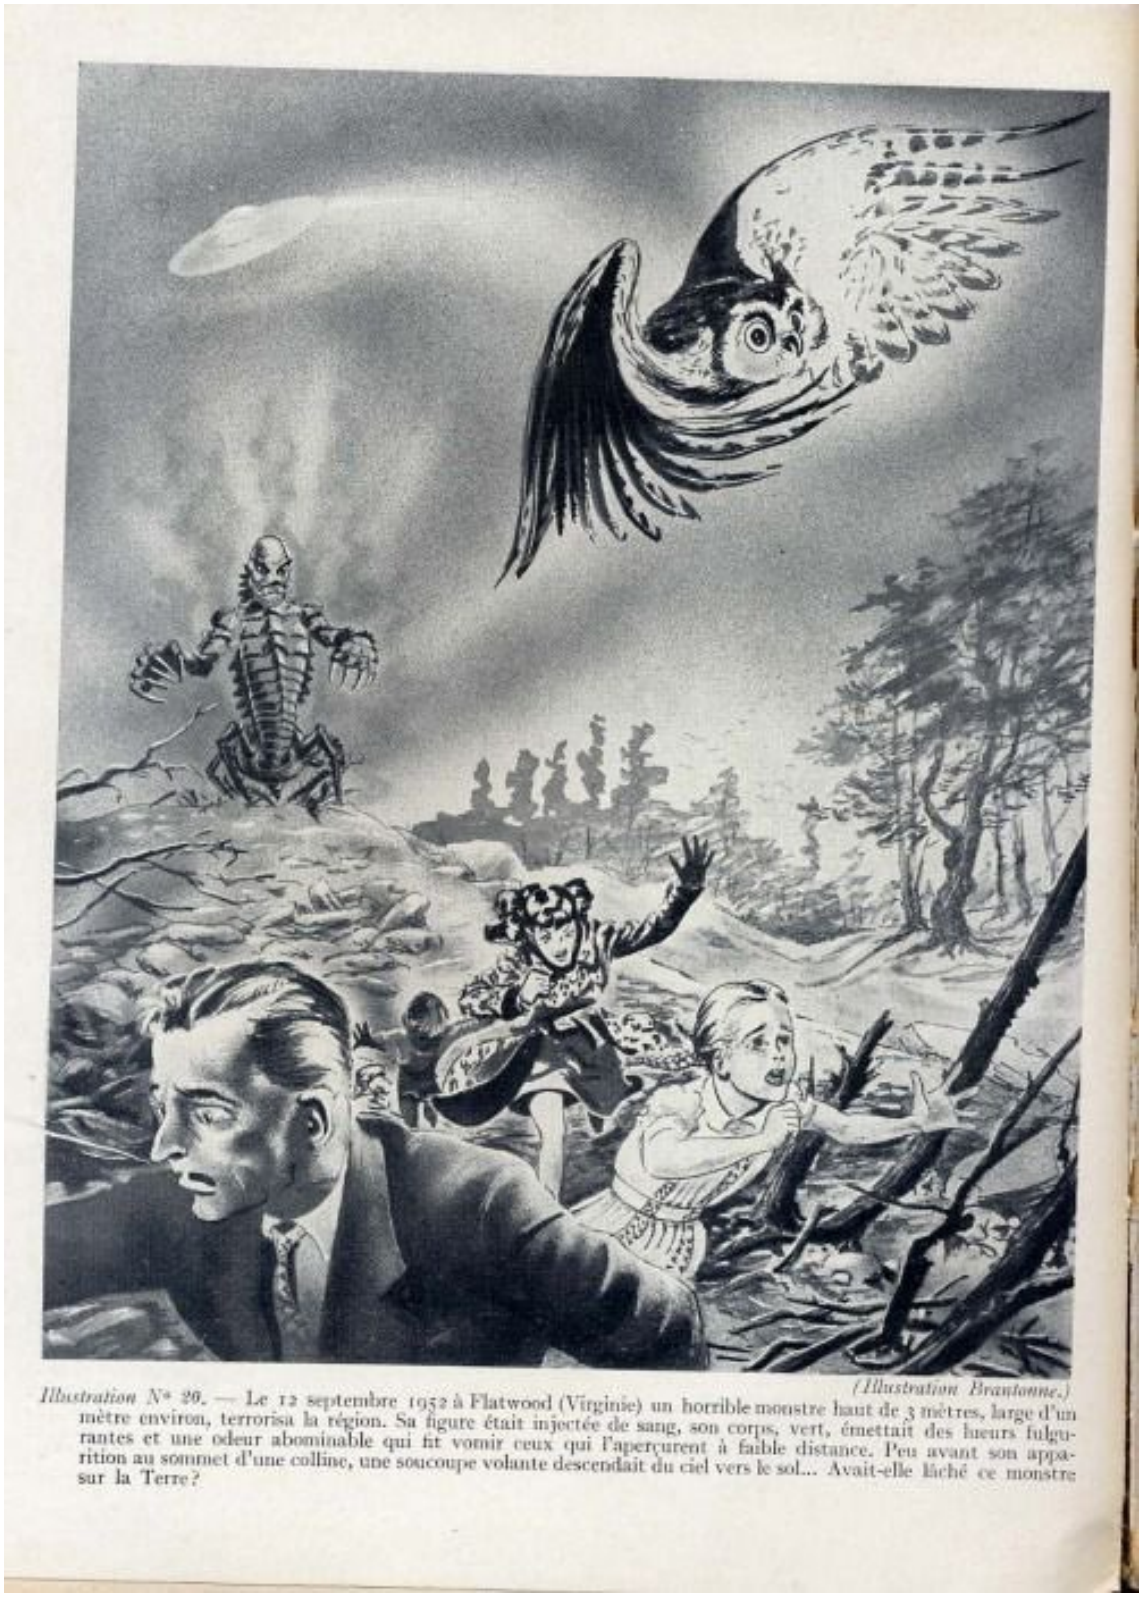
http://pbs.twimg.com/media/FVdEuHHWQAAq7VA.jpg



(*Illustration Brantonne.*)

Illustration N° 20. — Le 12 septembre 1952 à Flatwood (Virginie) un horrible monstre haut de 3 mètres, large d'un mètre environ, terrorisa la région. Sa figure était injectée de sang, son corps, vert, émettait des lueurs fulgurantes et une odeur abominable qui fit vomir ceux qui l'aperçurent à faible distance. Peu avant son apparition au sommet d'une colline, une soucoupe volante descendait du ciel vers le sol... Avait-elle lâché ce monstre sur la Terre?

@jason_jarnagin Sharing these images are valuable to those who take the subject seriously and

seek to know as much as they can about what is seen in the skies. Only staunch believers consider the sharing of such info be an assault on their biased interpretations of particular cases.

@jason_jarnagin I didnâ□□t mention the Nimitz Encounters at all - just shared images of actual tic-tac shaped balloons that exist and can serve to be misidentified. Someone seeing this floating/moving about in the air might consider it to be a Tic-Tac UFO when the reality is a mundane balloon.

@jason_jarnagin @markbruback Didnâ□□t say that it was, but pilots do engage in human error all the time - itâ□□s part of being human. I donâ□□t know what these pilots actually saw - we can only speculate. One should be open-minded and consider all likely possible interpretations.

@Ronswanson1A @JMuzc7 I did indeed answer your question. You want percentages now? Letâ□□s say enough to know that some mostly arenâ□□t observed much at all (hypersonic, invisibility, transmedium). Study a few thousand cases & you will see these patterns. Have you done much field investigation/research?

https://twitter.com/_/status/1537293695472611328

@Ronswanson1A @JMuzc7 Quite a bit over the past 45 years, yes. In detail.

Reporting data & published accounts are readily available. Statistical analyses as well. You should study these.

Many UFOs have been seen that donâ□□t demonstrate any of these - or but a few (1 & 2 more likely).

2022-06-16T04:32:41+00:00

https://twitter.com/_/status/1537292054115631107

@SKEPTICLBELIEVR @JMuzc7 Yes. Transmedium observation is exceedingly rare - making these observables being observed together even less of a likelihood.

3-5 are â□□rarely observablesâ□□ and not commonly found in the bulk of reported sightings.

2022-06-16T04:27:46+00:00

https://twitter.com/_/status/1537290814841401345

@SKEPTICLBELIEVR @JMuzc7 My point exactly. The first two have certainly. But these observables really donâ□□t mean much as there has been a myriad of observed actions. Floating away is common. Fading away as well. Sometimes winking out.

What really denotes a UFO is appearance & itâ□□s unknown factor.

2022-06-16T04:23:39+00:00

https://twitter.com/_/status/1537289780572180480

@SKEPTICLBELIEVR @JMuzc7 Show the cases where theyâ□□re all demonstrated together. Iâ□□ll wait. You may find a few.

Hovering & acceleration have been observed more often than other characteristics, but these do not denote anomalous behavior or an object. There has been a myriad of observed characteristics.

2022-06-16T04:08:40+00:00

https://twitter.com/_/status/1537286008156442624

@SKEPTICLBELIEVR @JMuzc7 Iâ□□m basing it on the fact that most cases do not demonstrate ALL of those â□□5 observableâ□□ characteristics (anti-gravity, sudden acceleration, hypersonic nil effect, cloaking, transmedium) together. Only a handful of cases may actually demonstrate all. Many cases wonâ□□t display any.

@JMuzc7 Most of those â□□5 observablesâ□□ arenâ□□t actually observed together, if ever. One can pick and choose which of those attributes denotes an anomalous object. One can also

characterize something as anomalous (UAP) without ANY being demonstrated. Unknown is simply unknown. #UFOTwitter

@528vibes @InvNightSchool Each case evaluated & judged on its own merits is the best way to go. Some cases are better than others - not all cases are valid or of equal measure. We have to wade through the bulk of weak cases to get to the truly anomalous ones of interest. We can learn from all, however.

ARKANSAS DEMOCRAT, Little Rock, AR - Jan. 19, 1979

UFOs harassed nuclear bases, U.S. reports say

By WARD SINCLAIR
and
ART HARRIS

Times-Post News Service
(Washington Post)

WASHINGTON — During two weeks in 1975, a string of the nation's supersensitive nuclear missile launch sites and bomber bases were visited by unidentified, low-flying and elusive objects, according to Defense Department reports.

The sightings, made visually and on radar by air and ground crews and sabotage-alert forces, occurred at installations in Montana, Michigan and Maine, and led to extensive but unsuccessful Air Force attempts to track and detain the objects.

Air Force and Defense Department records variously describe the objects as helicopters, aircraft, unknown entities and brightly lighted, fast-moving vehicles that hovered over nuclear weapons storage areas and evaded all pursuit efforts.

In several instances, after base security had been penetrated, the Air Force sent fighter planes and airborne command planes aloft to carry on the unsuccessful pursuit. The records do not indicate if the fighters fired on the intruders.

THE DOCUMENTS ALSO GIVE no indication that the airspace incursions provoked much more than local command concern.

But a Nov. 11, 1975, directive from the Office of the Secretary of the Air Force instructed public information staffers to avoid linking the scattered sightings unless specifically asked.

The Defense Department position, cited in that memo and reiterated Thursday by a departmental spokesman, is that formal investigation of unidentified flying objects (UFOs) ended in 1969 and that there were no plans for a renewed Air Force investigation.

Yet another Air Force intelligence report indicated extensive interest in a 1976 incident over Iran.

1975 and 1976 sightings — records from the Air Force and the North American Air Defense Command (NORAD) — was turned over to Ground Saucer Watch (GSW), a Phoenix-based organization that monitors UFO reports.

The Air Force and NORAD data provided detailed accounts of sightings of unexplained objects from Loring Air Force Base in Maine, Wurtsmith AFB in Michigan and Malmstrom AFB in Montana, all within a two-week period.

AT THOSE AND OTHER missile-launching sites in the northern tier of states, military personnel reported that the objects hovered over nuclear weapons storage areas, in some cases as low as 10 feet from the ground, and missile silos, before they departed.

The reports referred to the objects in some cases as "helicopters," although no witness made a positive identification. The sounds the objects emitted were described as being similar to helicopter noise.

In one such instance, on Nov. 7, 1975, at Malmstrom, Capt. Thomas W. O'Brien, who had just left duty as a missile launch officer, said an aircraft resembling a helicopter approached the silo area.

He and his deputy heard what they thought was a helicpter rotor over the building where they were resting. The unidentified deputy looked out the window and saw "the silhouette of a large aircraft hovering about 10 to 15 feet above the ground" and about 25 feet from the launch-area fence.

HE REPORTEDLY SAW TWO red and white lights on the front, a white light on the bottom and another on the rear. Darkness prevented him from seeing markings or personnel on the object. The object left after a minute or so of hovering, the report said.

Military crews at two other nearby launch facilities reported

@uapstuditaly @mattmonroe1980 @InvNightSchool @528vibes Not really though. Those solar peaks and troughs cycle through every ten years - there are ALWAYS UFO activity events occurring within a ten-year time period to point to. These also occur at peaks AND troughs AND everywhere in between. There is nothing usefully correlative here.

https://twitter.com/_/status/1536451528214601728

@InvNightSchool @mattmonroe1980 @528vibes Flaps are also different than wave periods in size, scope, duration and locality. A flap is a period of localized activity, while a wave is a larger period of activity and not generally localized. A flap can also be part of a larger wave. These often get mixed up.

@vanessaawolf Zoroastrians are not UFO researchers, or even enthusiasts.

People come and go from Ufology all of the time, but denotation of being part of the research community consists of a sustained, long-term commitment & activity of interest that goes beyond mere transient hobbyist.

2022-06-13T13:56:07+00:00

https://twitter.com/_/status/1536346682736095232

@vanessaawolf There are quite a few UFO believers, witnesses and hobbyists, but the actual â□□activeâ□□ UFO research/activist/witness community is extremely small. And Zoroastrianism, incidentally - while small in numbers - is anticipated to grow in size by four times this century.

@Wrenward77 @drmadef @PostDisclosure One does not have to agree with anotherâ□□s contention in order to have discourse. And if one is proffering a contention, then it is incumbent upon the claimant to provide proof of this claim, not for all to simply accept on faith. Shifts in established paradigms require evidence.

@UFOBreddit Too volumous for Twitter (about 8K locations in my database now). If you need the precise GPS of a particular anomalous location (UFOs, cryptids, haunted, paranormal, hotspots) I would be happy to help a fellow researcher. @OSIRIS_UAP That depends on how exploitative vs how informative the media project is. More media does not necessarily equate with better discourse. @SusanFensten Itâ□□s all competing interpretations and theorization, ultimately.

Not all interpretations are of equal merit - some are more likely than others. Probability statistics is of value.

Seeing is not believing.

@SusanFensten Not believing every claim, as not everything is true or legitimate.

Requiring sufficient evidence to support a claim is more reasonable than accepting claims on anecdote or faith.

Hoaxes, hoaxers & con artists exist.

MOST anomalous claims are misidentifications.

@HighStrangenes3 @wow36932525 @JeffRobertBlask Possible. Which is why we need location and date. If it is over one of those events, then that becomes the most likely interpretation and makes the imagery less anomalous. We can move on to consider better anomalous evidence.

@ParanormalcyUSA @richgel999 @mankrip Those are claims, not proofs. Iâ□□m open to these ideas - and have heard them all - but what we need to move beyond conjecture and belief in an account/story is legitimate proof. This is how we will arrive at truths that will shift paradigms.

@ParanormalcyUSA @richgel999 @mankrip We should be reminded that just because something can be imagined does not mean that it is true. A claim of truth requires convincing evidence supporting that contention. Alien/ET/Interdimensional Infiltration conspiracies need demonstrable proofs beyond fanciful conjecture.

@MossyMoose2 Of course, my interpretation could be wrong and it may just very well be a flying interdimensional sky creature releasing orbs into the atmosphere. :person_shrugging: But, most likely, it is simply just a jellyfish swimming in some water being sensationally misidentified and mischaracterized.

@JayFig78 Replace the â□□scienceâ□□ words in that statement with â□□ufologyâ□□ and that critique is just as valid. It comes down to the legitimacy of the field work and peer publishing - which is not really being attempted as most in the community focus on Ufotainment and Exo-politics.

2022-05-30T02:04:44+00:00

https://twitter.com/_/status/1531094225974087683

@JayFig78 @MickWest Most UFO encounters & evidence have been outright demonstrated as being mundane. This is a fact. So it does stand that most evidence can be interpreted as such. And ultimately, it all comes down to competing interpretations. Some cases being more valid than others.

@JayFig78 Proof is not necessary for your belief in the truth of your experience, perhaps. But if you are attempting to persuade others or change a paradigm, proof is undoubtedly necessary & required. Truths are not found by taking someoneâ□□s word for it (except, perhaps, in religion).

@DustinSamuelRea I donâ□□t even stop at accepting my own. I want to actually know beyond just mere belief or experience. I am full-time at investigating anomalies of all sorts. I experience things all the time. Experiences are just experiences, the true causal sources are what are sought.

@DustinSamuelRea There are most likely aliens. Probability dictates as such. Some UFOs may be alien craft, some are undoubtedly man-made. MOST UFOs are misidentifications. Some may be yet unknown natural phenomena. I consider anecdotes all the time, I just donâ□□t stop at accepting them.

@DustinSamuelRea I will answer this way: quite possible that Beings from Elsewhere (space, time, other realities) have visited & do visit here. Donâ□□t know. No CONCLUSIVE demonstrable evidence.

UFOs/UAP/Aerial Anomalies, however, are absolutely & demonstrably real & worthy of scientific inquiry.

https://twitter.com/_/status/1530675288689979392
@DustinSamuelRea We can start with logic. Then go to claim validity. Then determine if a claim follows its proofs. Then we can attribute truth values to proofs to further gauge validity &

cogency.

Invalid arguments can be dismissed. Invalid evidence can be dismissed. Falsehood IS determinable.

2022-05-28T22:07:55+00:00

https://twitter.com/_/status/1530672240773111808

@DustinSamuelRea Faith (in an experience) requires no proof for those that believe. Convincing others (and the consensus establishment), however, does require demonstrable proof beyond faith in someone elseâ□□s experience or claim. Science canâ□□t just take someoneâ□□s word for a claim or Truth.

2022-05-28T22:03:12+00:00

https://twitter.com/_/status/1530671053290319874

@DustinSamuelRea Unfortunately we live in a â□□demon-haunted worldâ□□ still, where people burn witches, cultist put on nikes & pop pills to catch rides on spaceships & con-artists thrive on exploiting lies for cash. We should challenge all, not embrace all. Truth is not derived from falsehood.

https://twitter.com/_/status/1530668596514390016

@DustinSamuelRea Thanks! Appreciate that. I am just an opinionated veteran researcher & experiencer who seeks real answers & the betterment of the research field. We should always continue to question, challenge & work towards finding evidence that can truly change our paradigms of understanding.

2022-05-28T21:40:39+00:00

https://twitter.com/_/status/1530665380162768898

@DustinSamuelRea You can certainly do that all day.

If my wife was, in actuality, curious as to how an SUV functions, I would suggest to her that she study automobiles & the SUV schematics. She could.

We can, indeed, go on existing & operating without understanding or knowledge. Birds do this.

2022-05-28T21:33:59+00:00

https://twitter.com/_/status/1530663702223065093

@DustinSamuelRea I am not a skeptic of UFOs. Ultimately, in order to change a consensus paradigm, we need more than just anecdote or belief - we need evidentiary proofs that goes beyond begging the question. Anecdotes are questions, not the answers in themselves.

2022-05-28T21:29:02+00:00

https://twitter.com/_/status/1530662455243902978

@DaYarbo 2/2 are logically more demonstrable because we can eliminate false assumptions to reduce competing contentions down to the most likely models/interpretations. We assume the

negative until demonstrated by positives - this stems from our persuasive need for logic & validity.

2022-05-28T21:23:43+00:00

https://twitter.com/_/status/1530661120029212676

@DaYarbo Iâ□□ve seen that one. And these are the questions that Philosophy of Science deals with relative to understanding. How do we know reality? How do we prove a contention/interpretation? Ultimately it comes down to sufficient proofs for claims to be persuasive. Negated claims are 1/2

2022-05-28T21:14:53+00:00

https://twitter.com/_/status/1530658893621350400

@Mr_BenPrime Iâ□□m open to TK (and other psi) being demonstrable/demonstrated scientifically. If it is real, then the physical mechanisms of operation should exist there to be measured and understood.

2022-05-28T21:10:15+00:00

https://twitter.com/_/status/1530657730528169986

@DustinSamuelRea Legitimate & informed accounts can be beneficial clues for enacting a research programme, no doubt - but relying heavily on anecdote as conclusive proofs of a postulation in themselves is weak & not persuasive scientifically. Contentions require proof beyond a mere proclamation.

@uapshawnf @GarryPNolan @TheUfoJoe Which is why understanding it & the MATERIAL processes/interactions is important & the task at hand. And â□□appearancesâ□□ may be just deceiving. Ultimately these will be understood after proper material science method/technique is developed in a way that seeks to understand the woo.

2022-05-28T16:09:08+00:00

https://twitter.com/_/status/1530581948619698176

@GarryPNolan @TheUfoJoe Good thing they didnâ□□t look beyond the material/material science (immaterial non-science?) in order to understand these & develop utilizable technology - they would never have got it. It only required better method/technique to understand the

material mechanisms at play.

https://twitter.com/_/status/1530577931298291714

@GarryPNolan @Go_Kick_Rocks88 @TheUfoJoe Thank you for your time. Appreciate your responses & cordial engagement.

We all seek true understanding of the anomalous, this is something that we all do share - regardless of interpretations or disparate viewpoints or campish alignments.

We should challenge each other.

2022-05-28T15:45:13+00:00

https://twitter.com/_/status/1530575931089330177

@GarryPNolan @TheUfoJoe Matter & energy exist materially. Radio is a mechanized technique of measurement/manipulation of matter & energy frequencies. We understand the processes/mechanisms & utilize them. They are manipulatable. We have come to understand/use these through the material realm we inhabit.

2022-05-28T15:34:10+00:00

https://twitter.com/_/status/1530573148902531073

@GarryPNolan @Go_Kick_Rocks88 @TheUfoJoe Why doesnâ□□t the material side of things appear to explain it? Does this imply non-material causes/mechanisms? How can these be SCIENTIFICALLY understood? What alternative causative explanations exist outside the material? Are you suggesting a metaphysical cause?

2022-05-28T15:25:48+00:00

https://twitter.com/_/status/1530571045819883520

@GarryPNolan @TheUfoJoe Understanding the material mechanisms is exactly my point. Ultimately it comes down to a need to understand these for the benefit of knowledge. There is nothing to look at beyond the material, scientifically. Technique & bias must be modified/addressed if reaching a dead end.

2022-05-28T15:13:28+00:00

https://twitter.com/_/status/1530567940881502213

@GarryPNolan @Go_Kick_Rocks88 @TheUfoJoe Unfair & unprofessional personal characterizations aside, where/how are you seeking explanations beyond the material scientific realm? Non-material, unscientific?

â□□Because the material side of things does not appear to explain it, you have to consider alternative explanations."

@TheUfoJoe @Go_Kick_Rocks88 @GarryPNolan @tyhenrymedium The â□□somethingâ□□ and the â□□mechanismâ□□ is what we are trying to understand. As we exist in a material reality, these are

the components that require objective understanding. Acceptance without attempting understanding of the causal physics is mere belief by faith - and a surrender.

Second: the hearings of the 60s were UFO hearings, not UAP.

@Harith_falahi @MiddleOfMayhem Not all UFOs move the same. Some objects - over the many decades - have undoubtedly been misidentified balloons and blimps and aerostats of many varieties. This very tethered balloon, viewed under the right circumstances, may very well be deemed an unidentified aerial object.

@markoconnell_1 @MusicAndTruth @TxUFOSightings @SilvaRecord Yet, undoubtedly an influence (via his books and the popular culture) as per the Vallee-inspired Lacombe character in the film - which Vallee certainly knew about and likely advised in some corresponding capacity through Truffaut.

@TxUFOSightings @de_varse @SilvaRecord I think most everyone here assumes UFOs are real. We do, however, have different views as to whether or not CE3K is a disclosure propaganda film or if it was influenced by governmental officials with UFO agendas. There is zero evidence of CE3K being part of a conspiracy theory.

2022-05-26T13:51:43+00:00
https://twitter.com/_/status/1529822593514999811
@TxUFOSightings @MusicAndTruth @de_varse @SilvaRecord I contend that Spielberg made the film that HE wanted to make & not one that a secret governmental entity wanted made for some UFO agenda. Advisers are largely just that - advisers. They provide details & nomenclature mostly. Hynek was simply an adviser not a manipulator.

2022-05-26T13:36:43+00:00
https://twitter.com/_/status/1529818819434360832
@TxUFOSightings @MusicAndTruth @SilvaRecord Military and government has influenced media over the course of history - no doubt. The task here is to demonstrate any influence over THIS particular film as part of a governmental cultural conditioning effort - it cannot be effectively proven as such beyond mere urban legend.

2022-05-26T13:33:37+00:00
https://twitter.com/_/status/1529818035867078661
@MusicAndTruth @TxUFOSightings @de_varse @SilvaRecord And Hynek never headed up Blue Book - Air Force officers/staffers ran that project. Hynek was a scientific adviser and consultant.

2022-05-26T13:29:56+00:00

https://twitter.com/_/status/1529817110075035649

@MusicAndTruth @TxUFOSightings @de_varse @SilvaRecord He was brought in late as an adviser due to the fact that he invented the term â□□CE3Kâ□□ the movie was named after (and could sue if he wanted) so Spielberg & he negotiated his participation & appearance. Spielberg knew quite a bit already about the subject & wrote the screenplay.

2022-05-26T13:24:35+00:00

https://twitter.com/_/status/1529815763212713984

@MusicAndTruth @TxUFOSightings @SilvaRecord Them who?

And Carterâ□□s sighting while running for governor of Georgia only proved to be a sideshow of interest, not a platform or even an issue. He had more trouble with rabbits than UFOs. Most everything about Carter and UFOs/Disclosure is mythology.

2022-05-26T13:21:00+00:00

https://twitter.com/_/status/1529814860925702144

@TxUFOSightings @de_varse @SilvaRecord That assumes a lot of things not proven: coverup conspiracies, alien realities, hidden cabals, disclosure agendas, disclosure conspiracies, media control. And a narrative befitting all of these.

The military can advise or not when it comes to filmmaking - itâ□□s as simple as that.

@TxUFOSightings @de_varse @SilvaRecord CE3K was a brilliant creative/artistic product that reflected the culture of its time - from the mind of a genius filmmaker.

It was not - in any demonstrable way - a political product deliberately & conspiratorially designed to manipulate/facilitate a political/cultural agenda.

@TxUFOSightings @de_varse @SilvaRecord As a student of Spielberg, I havenâ□□t seen anything suggesting that he was part of a Disclosure acclimatization conspiracy. He was a UFO geek, however, and knew a lot of the lore (plus he was advised by Hynek & Vallee). That CE3K was UFO propaganda has become urban legend itself.

I try, however, to keep my Aerial Anomaly research & theorizing separate from my personal religion & my spiritual viewpoints. Itâ□□s not about me or my personal spiritual development or consciousness.

I hope not.

@AVAZESA @RyanSprague51 @MicahHanks Please do! Want this first one to be out of the park so we can make it an annual conference for the Midwest.

With this we can influence these fields by having a dynamic event that seeks to improve the integrity of these research arenas. Building community beyond social media.

Cape Girardeau also has a great UFO history (have you heard about our 1941 flying saucer crash or Project Identification?). :flying_saucer::alien:

@MusicAndTruth @hackthesim @TheUfoJoe My initial claim in that post that an unvetted document not officially verified (based on UFO lore) was admitted into the record is being challenged despite my claim being factual - thus, my response. That a questionable UFO memo was placed into the official record is the issue.

It has not been officially validated. (Can you point to where it has?)

Wilson says it didnâ□□t happen. (Are you saying that he didnâ□□t?)

It is very much questionable. (Do you contend that all agree in its validity or that questions about it do not remain?)

2022-05-17T19:20:59+00:00

https://twitter.com/_/status/1526643962894864385

@Alderley @Deepfryguy76 Some interpretations negate others, so yes, all possible causative sources are not found under one singular cause. Competing counter-interpretations (demonstrable) as part of a singular are logically invalid. Most encounters are deemed prosaic - this negates a singular source.

So last night I was positive there was a ghost baby in the bed with my son. I was so freaked out, I barely slept. I even tried creeping in there with a flashlight while my son was sleeping. Well, this morning I go to investigate a bit further. It turns out my husband just forgot to put the mattress protector on when he changed the sheets 😂😂 I could kill him.

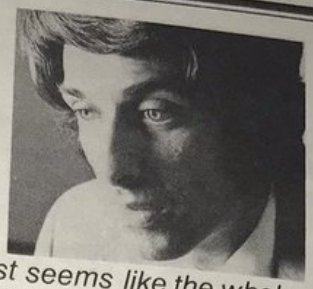
DR. JACQUES VALLEE

(Astrophysicist & Computer Scientist)



"Just too many sightings where a guy is driving along and there's a UFO right in front of him... it just seems like the whole thing is set up for that person to see."

Dr. Vallee was the model for the character 'Lacombe' in the film "Close Encounters of the Third Kind." He holds a Master's degree in astrophysics from a French university and a Ph.D. in computer science from Northwestern University. A Jules Verne Prize winner for his first science fiction novel in French, Dr. Vallee has published over 40 articles in scientific and popular journals. A major figure in UFOlogy, he is considered one of the field's most original thinkers. He has written five books on UFOs, the most recent of which is titled "Messengers of Deception—UFO Contacts and Cults" (Publisher, And/Or Press).

In his slide-illustrated presentation, Dr. Jacques Vallee goes beyond the "nuts and bolts" explanation of UFOs and examines the impact of the UFO phenomenon on personal and social consciousness. What happens to a witness during a UFO experience? What is the effect on society when these reports become public? Do UFOs constitute a "Modern Myth"? "Perhaps we're dealing with some kind of control system that is subtly manipulating human consciousness... perhaps it is human belief that is being conditioned." By whom? Toward what purpose? Jacques Vallee examines some of the answers to these questions and suggests a way in which science can progress towards solving the mystery.

The Hardy Life of a Roving Band of Hunters

Neanderthal peoples, some phases of whose lives are painted here by the Czech artist Z. Burian, first appeared in Europe about 110,000 years ago, shortly before the last ice age.

At right, a small group, typical of the bands that ranged throughout Europe and around the Mediterranean, sets out in the spring for new hunting grounds. They are taking all their possessions with them: hides, weapons and a few stone tools like the hand-axe carried by the man in the center. At left a man is carrying small game for provisions—a rabbit and a waterfowl—indicating that Neanderthalers hunted other creatures besides cave bears and woolly rhinoceroses. Each adult male is armed with a heavy club to protect the band from marauding animals. The women look out for the small children—in the right background one is nursing an infant—and carry bundles of skins that the group can use as blankets at night, or as makeshift tents.

Although this scene represents life during a relatively warm period before the glaciers advanced, the ice age at its coldest probably did not impose intolerable hardships on Neanderthalers. In fact, ice age life, while very cold, may even have been easier, since animals were more plentiful. Like the modern Eskimo and Laplander, Neanderthal man was a resourceful fellow who could make the best of any environment, no matter how severe.

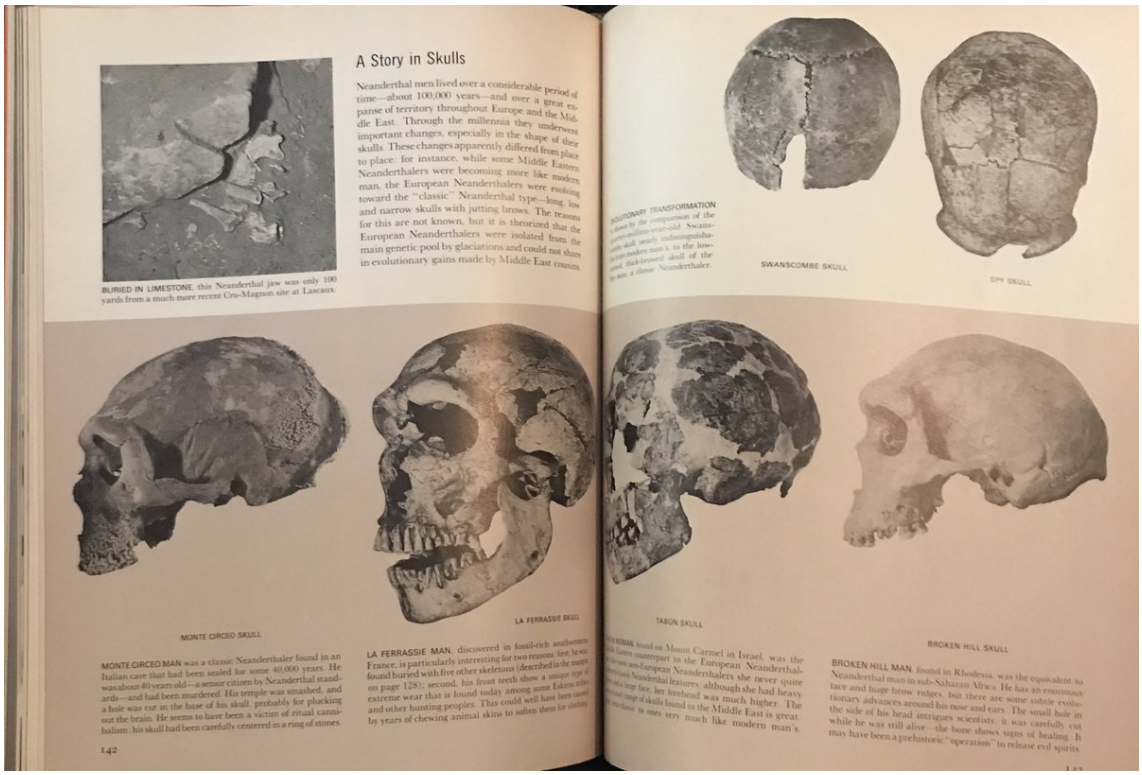
http://pbs.twimg.com/media/FSgdOFSX0AEgHeo.jpg



BURIED IN LIMESTONE, this Neanderthal jaw was only 100 yards from a much more recent Cro-Magnon site at Lascaux.

A Story in Skulls

Neanderthal men lived over a considerable period of time—about 100,000 years—and over a great expanse of territory throughout Europe and the Middle East. Through the millennia they underwent important changes, especially in the shape of their skulls. These changes apparently differed from place to place: for instance, while some Middle Eastern Neanderthalers were becoming more like modern man, the European Neanderthalers were evolving toward the "classic" Neanderthal type—long, low and narrow skulls with jutting brows. The reasons for this are not known, but it is theorized that the European Neanderthalers were isolated from the main genetic pool by glaciations and could not share in evolutionary gains made by Middle East cousins.

SPY SKULL

MONTE CIRCEO SKULL

LA FERRASSIE SKULL

BROKEN HILL SKULL

MONTE CIRCEO MAN was a classic Neanderthaler found in an Italian cave that had been sealed for some 40,000 years. He was about 40 years old—a senior citizen by Neanderthal standards—and had been murdered. His temple was smashed, and a hole was cut in the base of his skull, probably for plucking out the brain. He seems to have been a victim of ritual cannibalism; his skull had been carefully cemented in a ring of stones.

LA FERRASSIE MAN, discovered in fossil-rich southwestern France, is particularly interesting for two reasons: first, he was found buried with five other skeletons (described in the margin on page 128); second, his front teeth show a unique type of extreme wear that is found today among some Eskimo tribes and other hunting peoples. This could well have been caused by years of chewing animal skins to soften them for clothing.

BROKEN HILL MAN, found in Rhodesia, was the equivalent to Neanderthal man in sub-Saharan Africa. He has an enormous face and huge brow ridges, but there are some subtle evolutionary advances around his nose and ears. The small hole in the side of his head intrigues scientists; it was carefully cut while he was still alive—the bone shows signs of healing. It may have been a prehistoric "operation" to release evil spirits.

@BucFanInAUAP @PostDisclosure Just pointing out the zeitgeist. We are in the political UFO realm now. Hearings being political theater and all. But I get you, people are emotional and such all around the political stuff...which is interesting. Emotions and political theater together again.

@OakDraiocht @dwpasulka @fringequest Iâ□□m open to that, but you still need demonstrative mechanisms for true understanding. As a phenomenon is experienced in the material, then there is a cause & material mechanism. If consciousness influences material, we still need to understand the process.

Process = Progress.

Persuading others (to achieve consensus paradigm) requires evidentiary PROOFS. We canâ□□t take peopleâ□□s words (or claims at knowing) for it. Verifiability/falsifiability.

@OakDraiocht @dwpasulka @fringequest I respect Vallee. I am a researcher for 45 years. Seen anomalies. Incommensurability isnâ□□t a barrier, but an obstacle to be overcome by method. Understanding requires TESTABLE models - limited theoretics is limiting. Objective postulation PROOFS for phenomena is what we seek.

Alien Drawings by Sutton Family

THIS IS THE HOUSE near Kelly where little men from out in space were supposed to have been seen last night. With the gun is Lucky Sutton looking up at the porch roof where one of the invaders supposedly sat. In the doorway is Billy Ray Taylor, who says his hair was pulled by the man on the roof.

Story Of Space-Ship, 12 Little Men Probed Today

Kelly Farmhouse Scene Of Alleged Raid By Strange Crew Last Night; Reports Say Bullets Failed To Affect Visitors

All kinds of investigations were going on today in connection with the bizarre story of how a space-ship carrying 12 to 15 little men landed in the Kelly community early last night and battled occupants of a farmhouse.

Most official of the probes was

went out of the house to get a bucket of water. He saw what looked like a flying saucer come over the trees and land in a field at a point about a city block behind the house. There was no explosion, only a semi-hissing sound, and the watcher returned to the house with the bucket of

@MrInnesSmith Reading a book every other month. Watching all of the programs. Attending several conferences a year. Belonging to a research organization, perhaps.

And I do think that the field needs reform and has issues. Been I have been at it (and paranormal) for 45 years myself.

@ExogenesisHH Very awesome. UFO books & magazines really influenced me. TV & movies as well, of course. My Mom bought every tabloid throughout my childhood also. The Hill case and Travis Walton intrigued me when I was 7. I hung a picture of his encounter on my wall when I was 8. Hooked since.

https://twitter.com/_/status/1523486885401620481

@Openmindedskep8 @TheUFOTrail @saucerlife Locals, even non-witnesses, may know activity patterns if there is frequent nearby activity. There is always that one old guy that knows when the local come and go. Local airports can aid in this as well. Talk to civilian radar people.

@Openmindedskep8 @TheUFOTrail @saucerlife Check the nearest base. They will have a public affairs person. Maybe even FOIA liaison personnel. Then FOIA for the info if they cannot help out. Check with local papers. Local/state UFO groups could help - they may already have connections to/for info. Talk to people near area.

@fringequest @memizon @TheUFOTrail @PostDisclosure We need to, at least, move away from the celebrity culture classism found at so many gatherings. When you have Ancient Aliens celebs getting into limos after they have made their speaker and merch sales cash - then you are not actually having a conference of benefit. IMO.

2022-05-08T18:23:06+00:00

https://twitter.com/_/status/1523367907887038465

@fringequest @memizon @TheUFOTrail @PostDisclosure I want reform, not the destruction of the field as some. We need to get back to actual CONFERENCES that arenâ□□t performances or promotions for corporate endeavors. It can be done.

2022-05-08T18:19:27+00:00

https://twitter.com/_/status/1523366988331900928

@memizon @fringequest @TheUFOTrail @PostDisclosure Meeting people face to face is also of advantage. The social component and the influencing aspects cannot be underestimated, nor should they be diminished. Conferring is a great way to exchange ideas. There is also a traditional communal aspect for these in the subjectâ□□s history.

2022-05-08T18:14:55+00:00

https://twitter.com/_/status/1523365848718581760

@TheUFOTrail @fringequest @PostDisclosure @memizon We will work to improve our conference each year - working to establish professional standards and promoting collegial discourse. I miss the good old days where researchers presented papers and debated the merits - it is so much celebrity commercialism and cultism these days.

2022-05-08T18:11:17+00:00

https://twitter.com/_/status/1523364933773103105

@TheUFOTrail @fringequest @PostDisclosure @memizon Indeed. I have created a Conference myself recently & money is a consideration. But we should at least work towards a balance & begin to move towards a less exploitative field where we can promote the science & not just the entertaining folklore. Folks are also tired of BS.

@TheUFOTrail @fringequest @PostDisclosure @memizon Absolutely. Conferences need to start focusing on needed reform measures if it wants to be viable & taken seriously as a legitimate field of inquiry. We need to work on improving the field/standards instead of mostly promoting Ufotainment celebrity narratives & exploitation.

2022-05-08T17:48:41+00:00

https://twitter.com/_/status/1523359246774980608

@etroll451 @PostDisclosure @memizon Politicians do wield power, no doubt. But it is important not to inflate a few warriors for a cause into an army that doesnâ□□t exist.

2022-05-08T17:39:57+00:00

https://twitter.com/_/status/1523357048443912193

2022-05-08T17:36:14+00:00

https://twitter.com/_/status/1523356114523660288

@fringequest @PostDisclosure @memizon Largely true. The field is very much in need of some reform, standards, training, accreditation, etc. Scientific training and understanding is very much lacking. Ufotainment and the social group dynamic aspect dominates. More scientific standards/study promotion is sorely needed.

2022-05-08T17:27:31+00:00

https://twitter.com/_/status/1523353917559517184

@MossyMoose2 @PostDisclosure @memizon Truth over hype is important for this subject and its legitimacy, no matter our differing views on interpretations and strategies for mainstream promotion of the subject.

2022-05-08T17:23:58+00:00

https://twitter.com/_/status/1523353026563477506

@fringequest @PostDisclosure @memizon I think it is larger, but still in the thousands. MUFON membership and Conference attendance data are key metrics for this. Millions are intrigued by the subject and consume Ufotainment, but the UFO research/activist community is small.

2022-05-08T17:18:39+00:00

https://twitter.com/_/status/1523351688337260544

@MossyMoose2 @PostDisclosure @memizon I believe in UFOs. Seen them and have investigated them for decades. I am a full-on UFO Junkie. Just keeping it real.

2022-05-08T17:14:59+00:00

https://twitter.com/_/status/1523350763312803840

@fringequest @PostDisclosure @memizon Then there are the few thousands that make up the involved and committed UFO research community.

2022-05-08T17:12:14+00:00

https://twitter.com/_/status/1523350073056194560

@MossyMoose2 @PostDisclosure @memizon I would contend that EVERY single member & their staff has heard about UFOs. This doesnâ□□t equate in any demonstrable measure, however, that not only but a few consider this an issue of significant importance. Authorization did pass, but it was very much a narrow interest plank.

2022-05-08T16:42:57+00:00

https://twitter.com/_/status/1523342701839544325

@PostDisclosure @memizon So it is just a handful of members & not the Congress as a body recognizing this then as you were hyperbolically implying. Respectfully. Not trying to burst your bubble - itâ□□s just that realpolitik is important with this issue. Realistically, less than 2% of members.

2022-05-08T16:25:35+00:00

https://twitter.com/_/status/1523338331400114179

@PostDisclosure Curious: Do you mean to say the whole of Congress as a body? All 535 members (Congressmen and Senators) recognize this as a truism? How would you know this? Or is it, perhaps, more like a handful of members (less than 10) that give this issue any serious consideration at all? :person_shrugging:

@Robin081564 @maetaphysika There may be for some cases. We can certainly understand some things better when we weigh the merits of cases when we do so case-by-case. Anomalous claims should be considered with each claim on its own. Scientific field work is very important for this.

2022-05-06T16:35:30+00:00
https://twitter.com/_/status/1522616051552473090
@red_pill_junkie @sSamsquantch Exactly. Political validation of interpretations of a scientific issue is a distraction to the actual science that is needed. The answers are to be found by engaging the anomalies (personally or scientifically), not via manipulative politicians & spies (clues, perhaps).

2022-05-06T16:29:59+00:00
https://twitter.com/_/status/1522614664479322118
@Robin081564 @maetaphysika Perhaps as many causative sources as there are anomalous cases? Some, most likely, prosaic? Some, likely, unknown natural phenomena? Some, undoubtedly, clandestine aircraft? Some, absolutely, just bullshit? Maybe, some, from Other Worlds? This all begs all the questions.

2022-05-06T16:26:36+00:00
https://twitter.com/_/status/1522613811760570370
@sSamsquantch @red_pill_junkie That thereâ□□s a singular â□□The Phenomenonâ□□ imbued with intent is biased interpretation which can be demonstrated to be false: there is no singular proven phenomenon for ALL anomalous instances everywhere, everywhen. Imagining the intent of an invisible intelligence is deification.

2022-05-06T16:21:08+00:00

https://twitter.com/_/status/1522612436376985601

@ThanosAlpha @BucFanInAUAP Some times the truth may not sit well with others. But only by pursuing it can we better understand our world better. Cynicism is often warranted in a subject that is long-manipulated. Truthful cynicism can be considered a form of enlightenment. Nihilism isnâ□□t required.

2022-05-06T16:10:51+00:00

https://twitter.com/_/status/1522609850487816197

@sSamsquantch @red_pill_junkie Indeed. But we are trying to figure this out with other humans as well - and/or we are trying to influence their interpretations or promote our own. Some want confirmation of their beliefs. People are free to believe as they wish - but others are also free to challenge any claim.

https://twitter.com/_/status/1522608244623122432

@red_pill_junkie @sSamsquantch One can certainly achieve different mind states with chemicals (or other influences). Whether it is perceptive or objective is where debate occurs.

@quantum_wytch Demonstrably true as all UFO cases from across all of history are not derivable from a singular source. Doesnâ□□t stop some, though, from anthropomorphizing a singular, deified, mind-trickster intelligence from the Id Universe - ala Vallee - as being behind ALL UFOs/UAP/Unknowns.

@528vibes @quantum_wytch A fascinating physical mystery worthy of exploration. Perception, biases, methodology, and quantum entanglement issues are under consideration here - all of which require demonstrable measurement/proof, whatever the interpretation. In any case, requiring of an observer.

2022-05-06T15:25:40+00:00

https://twitter.com/_/status/1522598480597897216

@quantum_wytch I am open to new theoretical concepts - and to them being demonstrated. But just because past scientific innovations proved correct does not mean that all current or future concepts are valid or have merit (or are true). If a contention has merit it can be proven.

@Robin081564 @maetaphysika How are they experienced? Through the physical senses? While perhaps imaginary or illusionary (or even metaphysically transient, yet objectively real), they are perceived experientially in the physical universe via our senses. A physical experience denotes a physical component.

2022-05-06T15:10:06+00:00

https://twitter.com/_/status/1522594559343091712

@quantum_wytch Iâ□□m open to these interpretations. They still need to be demonstrably proven beyond just conjecture. IF perception is being influenced, then the mechanisms of this influence CAN be understood. Consciousness, which may have no objective relevance, is a human brain state/activity.

@maetaphysika Iâ□□m not trying to defeat him, I want to know his reasoning. I want him to consider the physical issues at play. Aerial Anomalies are experienced physically - this cannot be ignored. And to understand them we need proper method - not anti-science or pseudoscience.

@quantum_wytch Consciousness is certainly connected to the physical human brain & perception interpretations. Can you demonstrate a consciousness that isnâ□□t? (And such a demonstration is constituted a proof, btw - a self-referencing support required to establish a truthful contention.)

@red_pill_junkie Correct. Iâ□□m open to metaphysical & ultraphysical interpretations about unknown phenomena. But how can these be demonstrated convincingly in a way that supports the non-physicalist view? And what do we do with our physical universe? Do we ignore the necessary physical mechanics?

@528vibes @SnakePo9 Methodology & demarcation (pseudoscience demarcation) in Philosophy of Science are important areas for people to study. We need more reflection on what constitutes sufficient evidence & required proof for claims - and what is required for persuasive consensus paradigm change.

2022-05-06T13:15:11+00:00

https://twitter.com/_/status/1522656643069005824

@528vibes @SnakePo9 Belief does not equate with Truth, btw. Beliefs can be, and are often, demonstrated wrong. What WE want is to know â□□what is actually trueâ□□ by means of reason and critical thought, not a personal belief bias.

2022-05-06T13:11:03+00:00

https://twitter.com/_/status/1522564601342214144

@528vibes @SnakePo9 People can believe what they want. An experience does not need evidence - the experience can suffice. If we are talking about establishing a truth or a fact for ALL, however, this must be weighed by its merits - and contentions with proofs have a greater weight for consensus.

https://twitter.com/_/status/1522560223386423296

@528vibes @SnakePo9 There is likely, and then there is unlikely. Certainty in the positive, and the negative. ET claims are in the unlikely category because the primary supposition - that aliens exists - has not been established.

@528vibes @SnakePo9 Incommensurability is an obstacle, not a barrier. Itâ□□s also an unfalsifiability cop-out. Your conjecture - that these are alien craft - in the end, also requires evidential support for that claim. ALL claims require proofs no matter where they are derived or what they surmise.

https://twitter.com/_/status/1522556984121348097

@528vibes @SnakePo9 We know that natural buoyant plasmas and earth light phenomena exist - we have no conclusive scientific evidence of an advanced alien civilization visiting us. (Unless one thinks that conspiracy coverups are true as an explanation for a lack of evidence.)

https://twitter.com/_/status/1522556294065971201

@528vibes @SnakePo9 It is possible, but less likely as we would need to prove a long series of conjectures prior to establishing this as a determination: prosaic explanations eliminated, that extraterrestrial life exists, that they have this technology, that this is their technology, etc.

@Matthew82571642 @TLDR_toYrLeader One is, of course, free to believe in whatever they want - including Hollywood science fiction narratives if they so choose. I think knowing is far better than just believing, though. Ultimately, we seek knowledge beyond belief. This requires programmatic evidence.

@dsmethurst66 @528vibes @LuAngeles @BryanDBender @DeptofDefense Whoâ□□s arguing against it? Iâ□□m just cynical as to the likelihood of â□□disclosureâ□□ considering the history of the subject. Document Name: RED ORB IMPACTED PICKUP TRUCK WINDSHIELD

Date: March 3, 2010

To: Robert Bigelow
Las Vegas, NV

According to the North Carolina Highway Patrol report, a "small red object" struck Mrs. Tommie Ballard's windshield and shattered it. The incident occurred near Stanley, NC in August 1981. The impact scared her and she stopped her pickup truck to look for the cause. She found nothing and no one else saw the object.

The investigation from that point forward was poorly done. Everyone assumed there was a prosaic explanation for the red object. Some suggested it was a fragment from the Perseid meteor shower, but that idea was rejected by experts at the Morehead Planetarium in Chapel Hill.

No one bothered to take the damaged windshield into the laboratory and examine the fractures for traces of material from the object.

This would have been an opportunity to gain substantial new information about the red orbs that are (and were then) sighted.

Best regards,

@gornalalbion @MrHustleMCR Anomalies and their understanding are certainly a part of the whole of the subject, no doubt. There are a myriad of possible phenomena that may account for some of the encounter claims. And considerations of best methodologies and sufficient evidence are always of concern.

UNCLASSIFIED

03, May 2021

Mr. Luis D. Elizondo
[redacted]

United States Department of Defense
Office of The Inspector General
Washington, D.C. 20301-1900

ATTN: Inspector General Investigative Personnel

My name is Luis D. Elizondo, and the purpose of this letter is to request an official U.S. Department of Defense (DoD), Inspector General (IG) inquiry/investigation into malicious activities, coordinated disinformation, professional misconduct, whistleblower reprisal and explicit threats perpetrated by certain senior-level Pentagon officials, including [redacted] and any other officials who were complicit in these acts.

Enclosed with this letter are details of this complaint for your review. The first portion is a comprehensive, chronological listing of events that substantiate my involvement in the Advanced Aerospace Threat Identification Program (AATIP). The second portion is a detailed listing of events and actions to substantiate this complaint along with evidence which suggests a coordinated effort to obfuscate the truth from the American people while impugning my reputation as a former intelligence officer at the Pentagon. These negative actions against me have resulted in great personal and professional challenges to me and my family.

Over the last three years, attempts to clear the record by some senior officials, serving as witnesses to this abuse, have been ignored by certain elements within the Office of the Secretary of Defense (OSD) Staff, namely within the Office of the Undersecretary of Defense for Intelligence (OUSD(I)). Furthermore, evidence exists that substantiates my claim that there may be a deeper conspiracy within the OSD staff to circumvent DoD policy, rules, and regulations, and perhaps even law.

At a very minimum, actions have been taken against me that directly erode the very foundation of our National Security ethos, and the public trust instilled by the American people. I am fully aware of the magnitude of my allegation against certain individuals in the Department, and I am able to substantiate these claims.

As reprisals continue to be levied towards me, I respectfully request DoD IG conduct a comprehensive review of all related activities against me over the last three years and correct the record of my involvement in the Advanced Aerospace Threat Identification Program.

Sincerest Regards/Very Respectfully,

Luis D. Elizondo

Enclosures: See Attached.

@UFO_Rabbit_Hole I want actual verifiable and testable evidence which was gathered in a vetted, legitimate and programmatic fashion. Even then, such evidence will not be a conclusion in itself, but only serve as a demonstrable proof for a contention of origin meant to change a consensus paradigm.

@UAPorSAP @alejandrotrojas @ToddRaymondL @LuAngeles @BryanDBender @disario Advocating for more openness and transparency - and not providing it as regards to yourself and your secrets - can be problematic. And seemingly manipulative. Do we not know the history of this subjectâ□□s manipulation by Defense Intel? Hard to trust folks when it looks like an op.

https://twitter.com/_/status/1519394518784749570
@LuAngeles @alejandrotrojas @BryanDBender Money is just one way to exploit a subject. Just a few million in this instance. The case/topic was exploited (promotion utilization for advantage) to full effect: media PR, authority/celebrity reinforcement, motivational driving, cultural spotlighting, political lobbying.

https://twitter.com/_/status/1519389555933302788
@alejandrotrojas @LuAngeles @BryanDBender And manipulation of the subject (and case evidence) by Intel folks as part of an orchestrated media PR roll-out for a media company looking to sell stock options for the glorious Disclosure Cause. They, indeed, co-opted the Nimitz case for exploitation purposes, lest we forget.

The Lonnie Zamora Incident.

In 1964 Officer Lonnie Zamora of Socorro, New Mexico followed a speeding car into the desert, only to find some sort of unidentified space vehicle along with its inhabitants. He saw a white crescent shaped vehicle and figures standing around it. Suddenly the figures disappeared and the vehicle lifted up from the ground, leaving a mysterious burn in the ground.

3 mins ·

"Saucer Sam" was the nickname given to British RAF Flight Seargent Roland Hughes, 23, (piloting a De Havilland Vampire) who allegedly observed a UFO over Oldenburg, West Germany in 1952. This impossible-speeds aircraft was also said to have been caught on radar. Described as a 100 foot-across, gleaming, metallic DISC - shiny, like smooth foil. Hughes stood by his account throughout all official inquiries. What was allegedly observed is still unknown.

understand it well. And the point is proof, that is my point. How do we overcome the incommensurability issue and acquire it? A good method must be devised to quantify and understand transient phenomena. The mechanisms must be understood beyond just anomaly recognition.

@OldVetSymposium @MusicAndTruth @TxUFOSightings @528vibes @JennyPhoton To note: I am not some arch-skeptic. I have seen UFOs & believe in the validity of researching them

scientifically. I want to KNOW beyond just belief. If we are to push the paradigm & convince the mainstream, then we are going to have to be CONVINCING in doing so. Valid proof.

@MusicAndTruth @OldVetSymposium @TxUFOSightings @528vibes @JennyPhoton Thatâ□□s why it is called a Magic Blanket. Unfalsifiable and undefeatable to the end. And ANY interpretation/theory can make it. Ex: â□□The Earth is flat and you donâ□□t realize this because NASA is covering it up. Your counter-evidence is part of the conspiracy. You are as well.â□□ :face_with_monocle:

@MusicAndTruth @OldVetSymposium @TxUFOSightings @528vibes @JennyPhoton Likelihood (probability theorems) based upon review of available data can be derived in many anomalous cases. Biased listings can be contrived & unbiased likelihood ratings denoted - from least likely to most likely (or even confirmed/unconfirmed) - in cases with sufficient data.

@MusicAndTruth @OldVetSymposium @TxUFOSightings @528vibes @JennyPhoton And in this we can ALWAYS â□□save the phenomenonâ□□ (aka Feyerabend) and never have to consider sufficiency of evidence or deal with pesky negating/falsifying evidence. The conspiracy claim itself - beyond just some evidence interpretation - requires its own proof.

2022-04-21T16:37:07+00:00

https://twitter.com/_/status/1517180640524910595

@MusicAndTruth @OldVetSymposium @TxUFOSightings @528vibes @JennyPhoton It can be ruled likely or unlikely based upon the quality of the evidence presented & the validity of the case made. This is true of all interpretations. Giving conspiracy interpretations â□□a passâ□□ because â□□conspiracyâ□□ does not prove or validate the claim/interpretation/narrative.

@TxUFOSightings @528vibes @JennyPhoton There are cases where authorities have manipulated interpretations of the case, no doubt. This does not mean that all cases have been or that all cases are thus valid due to past interference. Coverup claims and manipulation claims for a particular case need to be demonstrated.

2022-04-21T15:16:48+00:00

https://twitter.com/_/status/1517160429461684224

@OldVetSymposium @TxUFOSightings @528vibes @JennyPhoton Coverups and conspiracies have certainly happened over the course of history. This does not mean that all conspiracies and coverups are true. The coverup needs to be demonstrated just as any claim does.

2022-04-21T14:45:16+00:00

https://twitter.com/_/status/1517152494501064707

@TxUFOSightings @528vibes @JennyPhoton â□□Real onesâ□□ evidence denotation requires non-subjective definition - and a claimed coverup requires proof as a claim that goes beyond just mere suspicion or belief that it actually exists in any considerable or organized fashion relative to most incidents.

2022-04-21T14:39:57+00:00

https://twitter.com/_/status/1517151155536621569

@TxUFOSightings @528vibes @JennyPhoton Perhaps, but demonstrating a coverup is a claim requiring proof in itself. And ultimately, in order to maintain the interpreted phenomenological/anomalous state of a piece of evidence, we must rule-out hoaxing as an interpretation. Evidence that withstands this is more valid.

@valliant @PostDisclosure Some use that terminology when critical. But, thatâ□□s exactly why those of the time period (the 60s) went with the less-correct ufology. But itâ□□s still acceptable as the prefix ends with â□□oâ□□ & it is recognized/traditional after 60 years. Uapology & CriticFology arenâ□□t really real.

@DeepSpace41 Great question. We should all consider the necessary proofs and what constitutes them as sufficient. The influence of the culture and media are also considerations for this topic.

@TheUFOTrail @fringequest Ufology isnâ□□t just about FINDING ALIENS (although that is an aspect), it is the whole of the field of study & EVERYTHING in it. Contemporary Disclosure/Confirmation activists crying for the destruction of Ufology often donâ□□t recognize this as they view the field in narrow terms.

2022-04-19T15:18:47+00:00

https://twitter.com/_/status/1516436153255305220

@TheUFOTrail @fringequest Ufology is the study of UFOs - the history, the cases, aerial anomalies, the sub-culture. It is a multidisciplinary field of study (that touches all disciplines) with a history, personalities, movements, cultural influences, philosophical issues and a vast literature.

@thepostmaterial @wookiepastimes If they enter our physical universe at some point and are observable, then they are quantifiable and understandable.

2022-04-17T15:26:56+00:00

https://twitter.com/_/status/1515713427930554383

@thepostmaterial @wookiepastimes UFOs are physical mysteries to be understood, itâ□□s not about you or me. Itâ□□s not about HUNAN spiritual development or HUMAN consciousness or HUMAN ego. The universe humbles us by reminding us that we are not itâ□□s center or its God.

2022-04-17T15:23:36+00:00

https://twitter.com/_/status/1515712590307069953

@thepostmaterial @wookiepastimes And I am saying that there is no demonstrable connection to UFOs except through perception. Our brain does not send out consciousness waves that magically manifest flying saucers or alien beings - and this has never been scientifically demonstrated as being the case.

2022-04-17T15:19:23+00:00

https://twitter.com/_/status/1515711528569380875

@thepostmaterial @wookiepastimes I also canâ□□t disprove that a faerie may exist behind a hidden rock (he may be hiding elsewhere as I look). What I can do, though, it measure it when observed or stake out the rock. Ultimately, his existence, though, will not be dependent upon me - we are conduits for discovery.

2022-04-17T15:13:57+00:00

https://twitter.com/_/status/1515710159644991492

@thepostmaterial @wookiepastimes I donâ□□t require proof of my awareness. And my religious views are my own concern. But as to Aerial Anomalies, we all require physical and extrapolated evidence in order to quantify THAT phenomena - one that is not connectable to consciousness except through a limited perception.

2022-04-17T15:10:51+00:00

https://twitter.com/_/status/1515709378506149892

@thepostmaterial @wookiepastimes Yes, we come and go. We experience, then cease to be. Transient. Maybe a Plutonic consciousness exists is some metamaterial realm? We can hope. But in the meantime, we exist materially and our consciousness is a function dependent upon our brain. We are brains.

2022-04-17T15:07:03+00:00

https://twitter.com/_/status/1515708422334914566

@thepostmaterial @wookiepastimes Absent tree falling in the woods trickery, one can measure lightning in many different material ways.

2022-04-17T15:05:27+00:00

https://twitter.com/_/status/1515708023641104384

@thepostmaterial @wookiepastimes As a material anomaly researcher, however, I require a physical mechanism for that which is being perceived materially. I am open to the existence of consciousness-based models, but they have have to be demonstrable - not just believed.

2022-04-17T15:03:09+00:00

https://twitter.com/_/status/1515707444537737219

@thepostmaterial @wookiepastimes But we have shown that a damaged brainâ□□s awareness is less functional. And we have not demonstrated that a human consciousness exist outside of a function brain. As a student of philosophy and a practicing Buddhist, I am open to pondering metaphysical conscious questions.

2022-04-17T14:56:19+00:00

https://twitter.com/_/status/1515705724634079240

@thepostmaterial @wookiepastimes A lightning bolt striking at a distance (or an observed anomaly) exists independent of your frontal lobe arrangement except as an environmental object to be perceived.

2022-04-17T14:52:09+00:00

https://twitter.com/_/status/1515704674355224592

@thepostmaterial @wookiepastimes Consciousness (self-awareness, environmental awareness, problem solving) is a phenomenological state of activity connected to a human brain developed as a frontal lobe functional aspect via evolution.

2022-04-17T14:47:14+00:00

https://twitter.com/_/status/1515703438818086912

@thepostmaterial @wookiepastimes The notion that nothing can exist outside of an unobserved universe absent an observer is a logic trick that begs the question itself: how can the Universe exist to be understood without someone to understand it? Spooky action observation is an interesting material problem.

2022-04-17T14:40:19+00:00

https://twitter.com/_/status/1515701697334685701

@thepostmaterial @wookiepastimes Changes of state observation functions are certainly interesting, but separate from the notion of material not existing separate from an observer. The mere entropic states of matter demonstrate that it exists and changes over time absent observation.

2022-04-17T14:30:38+00:00

@wookiepastimes Science will most likely advance. Absolutely. But this does not mean that any current biased interpretations towards â□□consciousnessâ□□ views will be validated or should currently be validated due to some future progress. Psychic interpretations may prove to be the archaic ones.

@wookiepastimes Anomalies can be objectively understood with better scientific methodologies

and techniques. Psychic belief systems and prayer cannot provide us with this objective understanding - if it somehow can, then it still needs to be demonstrated mechanistically.

@DaYarbo @TheProjectUnity No. Not at all. I am interested in scientifically studying aerial anomalies so as to understand their natural nature. Psychic interpretations and techniques are not scientifically valid or proven.

@wookiepastimes One can speculate, but if it is a physical phenomenon, then it exists by physical means and operates by physical mechanisms. These need to be demonstrated, not just believed.

@DaYarbo @wookiepastimes Depends on the case, the evidence and the particular likely phenomenon. I think when most see an unidentified object in the sky, it is just that and not demonstrably connected to â□□consciousnessâ□□ in any way (perception, perhaps).

@OSIRIS_UAP @ThanosAlpha @chillangelino @RyanSprague51 @OMniumUniverse @chrissynewton @MiddleOfMayhem @GaryVoorhis @drknuth @UAPx2 Nope. But itâ□□s also not a programmatic field study with parameters - which is better than random anomaly captures.

2022-04-13T02:44:45+00:00

https://twitter.com/_/status/1514072065367810051

@ThanosAlpha We need to develop next level research programs with/within strict study parameters/methods, not JUST as a means to collect random anomalies. We need more Hessdalens, not UFO versions of Ghost Adventures. A legitimate field study, not a reactive Skywatch. My opinion.

2022-04-13T02:36:55+00:00

https://twitter.com/_/status/1514070097081602054

@ThanosAlpha Thatâ□□s a due-diligent consideration when the evidence is analyzed. But it doesnâ□□t necessarily negate the evidence outright. Determinant causal conclusions, however, will be highly limiting if the environment, method and biases are not considered in the program regimen.

Indeed, making sure the integrity of a research programme is not influenced by corporate entertainment production concerns is paramount. Unfortunately, Ufotainment has not been great in this regard. Delegitimizing gimmickry and sensation abounds in UFO media.

@jvgc137 For me it is all about number 5. Quantifying the processes and mechanisms is what is chiefly required for a full theoretical postulation relative to unknowns. HOW is more important, imo, than an IF. Even if an IF is demonstrable, we still need the HOW for full understanding.

HUNDREDS of efforts like this to look at anomalies! We also need to PUSH the bar & better the efforts! Know your Pseudoscience! #UFOTwitter #UAPTwitter #ParanormalTwitter #CryptidTwitter #Pseudoscience #NotScience #Demarcation

http://pbs.twimg.com/media/FQKfUSYXwAYD-tn.jpg

Characteristics of Pseudoscience

1. Is **UNFALSIFIABLE** (can't be proven wrong): Makes vague or unobservable claims
2. Relies heavily on **ANECDOTES**, personal experiences, and testimonials
3. **CHERRY PICKS** confirming evidence while ignoring/minimizing disconfirming evidence
4. Uses **TECHNOBABBLE**: Words that sound scientific but don't make sense
5. Lacks **PLAUSIBLE MECHANISM**: No way to explain it based on existing knowledge
6. Is **UNCHANGING**: Doesn't self-correct or progress
7. Makes **EXTRAORDINARY/EXAGGERATED CLAIMS** with insufficient evidence
8. Professes **CERTAINTY**: Talks of "proof," with great confidence
9. Commits **LOGICAL FALLACIES**: Arguments contain errors in reasoning
10. Lacks **PEER REVIEW**: Goes directly to the public, avoiding scientific scrutiny
11. Claims there's a **CONSPIRACY** to suppress their ideas

@fringequest What Ufology needs is correct focus on what needs to be focused on: actual UFOs. IMO. Or at least a better balance - not all of Ufology is about political Disclosurism & itâ□□s highly doubtful all the answers are to be found in government files or via political programs.

@tedroephotograp @InvNightSchool @SicCoP1 The stigma mentioned in this thread, however, is not speaking to the matter of UFO discrimination or reporting in the aviation profession, but the negative stigma being promoted by some within the field against fellow researchers with critical/skeptical interpretations/opinions.

@tedroephotograp @InvNightSchool @SicCoP1 A range of divergent views, belief-systems, activities, behaviors & lifestyles can affect a stature-oriented promotional career path or can self-limit the sharing of these within a chosen professional sphere. @InvNightSchool Stigma is also not just a UFO discrimination (I lost my pilot job because of UFOs) term - it is a general social/cultural construct that negates/limits (shuns) behavior/views/people. There are many, many kinds of cultural/social stigmas - even within the UFO research community.

2022-04-11T14:50:32+00:00

https://twitter.com/_/status/1513529941756977158

@InvNightSchool I think many donâ□□t know what it actually means or how it has manifested/changed in the subject/field over the decades. I use it here to catch the eye & counter-critique abject anti-skepticism - interpreted as being form of deliberate group denigration & unfair discrimination.

@PostDisclosure There's asking fair questions and being a believer and then there's demonizing someone, intentionally interpreting everything they do or "do" to put them in worst light possible and being intentionally uncharitable to them.

There is a difference. Hopefully history sorts it out.

2022-03-28T13:29:22+00:00

https://twitter.com/_/status/1508436084295938053

@528vibes @InvNightSchool There are also motivating factors to consider with approaches. Mick is largely altruistic in his involvement in the subject, while Greer profits heavily & has a believes system narrative he is supporting & is invested in. Greer has a â□□cultishâ□□ reputation now.

2022-03-28T13:24:51+00:00

https://twitter.com/_/status/1508434945471131653

@528vibes @InvNightSchool You bet. But there are levels of validity & sufficiency of supporting evidence to consider. Greer makes a lot of claims without evidence which are subjective, not objective. Mick provides objective analysis, while Greer offers subjective opinion based upon experience/belief.

@blackvaultcom And when folks say â□□UAPsâ□□ or â□□the UAP Phenomenonâ□□ it really just sounds dumb.

I like UFOs, and have no problem using it, especially in a traditional sense, but I will often just use the simple: Aerial Anomalies.

UFO DISCLOSURE Symposium

MAY 27-29, 2022
VERNAL, UTAH

brought to you by: UFO MEGA CONFERENCE

GLOBAL UFO/UAP BREAKING NEWS

Be a part of the Global Reveal of NEW UNSEEN UAP Footage!

TRUTH REVEALED: For the People, By the People!

In 2017 when the explosive story of the ***USS Nimitz, 'tic tac video' was released, it absolutely rocked the world.*** *Not even a year later, on the east coast, involving another navy pilot, the famous thimble incident & photo was released.* ***Pilot Graves reported witnessing a cube within a sphere only 150 feet off the wing of his aircraft.*** *Several pilots witnessed these objects multiple times over the span of a month. Both videos/pics were captured on infrared military grade equipment. The best technology the US government has to offer.*

Shockingly, the US Navy, for the first time, acknowledged the anomalous objects. *Although, shortly after included in a Congressional report, a US Intelligence Official reportedly "found no evidence" the UFO/UAP observed by the Navy aviators were Alien Spacecraft.*

All three military videos were leaked to mainstream media, ***leaving the world in limbo until*** *the next credible military video is leaked OR the US Government is willing to disclose what they already know.*

UNTIL NOW!
The founders of the UFO Mega Conference decided they're not willing to wait.

Join the Scientists, PHDs and Experts at the "The UFO Disclosure Symposium"

TOGETHER we will view and discuss the ground-breaking footage filmed by highly trained technicians w/FLIR-Infrared equipment of 4 separate UFO encounters. All 4 videos have been vetted & assessed by multiple 3rd party analysts who's findings are ANOMALOUS AND UNIDENTIFIABLE.

@steven_nikolic @PostDisclosure Until there is adequate science produced. Most of the field, comprised of amateurs, is fixated on the celebrity entertainment aspect, however. Very little long-term anomaly science is being conducted to move the paradigm. Standards, accreditation & programmatic science is needed.

2022-03-23T00:10:09+00:00

https://twitter.com/_/status/1506423014631653382

@steven_nikolic @PostDisclosure There is enough history and literature and cultural influence for a multidisciplinary field of study. Anomalies, and their ramifications, are a scientific/philosophical issue/problem that represent a part of the field.

@steven_nikolic @PostDisclosure Yes, if it doesnâ□□t work out for those attempting to shift the paradigm/engage a scientific revolution - they become footnotes. If the paradigm is changed, they become the topic of celebration and the previous paradigm is ascribed/relegated to its age. My analogy is correct.

https://twitter.com/_/status/1506407794404208654

@PostDisclosure In fact, if all of this Disclosure Activism proves to be a paradigm changing event (like Galileo or Copernicus), then the players and activists actions will be scrutinized and studied, as if under a microscope, by future historians of scientific movements.

SECRETARY OF THE AIR FORCE
WASHINGTON

MAY 19 1994

Dear

As you may know, the General Accounting Office (GAO) has instituted an audit that, among other things, seeks to fully explain the claims that the US Government recovered an alien spacecraft near Roswell, NM, in July 1947 and since that time, has covered up that fact. In an effort to assist the GAO, the Air Force initiated a detailed independent review of our records pertaining to this claim. Your name has been prominently mentioned in regard to this matter.

The bearer of this letter, Colonel Richard L. Weaver, Director, Security and Special Program Oversight is heading this review on my behalf. Colonel Weaver has a TOP SECRET security clearance and is authorized access to all Air Force special access programs. If you have information that you feel may be classified you may share it with Colonel Weaver for this official Air Force purpose, without violating any security agreement you previously made. Clearance information or questions should be addressed to Colonel Tim Kinnan, my Military Assistant, at (703) 697-7378.

I encourage your full cooperation to help the Air Force officially resolve this controversial matter. I appreciate your continued service to the Air Force and thank you in advance for your help.

Sincerely

Sheila E. Widnall

@SicCoP1 @LuAngeles @LueElizondo I donâ□□t think so. Iâ□□m not calling for Ufology to be smashed into a billion pieces - I seek reform. And I havenâ□□t appeared on any History Channel shows that exploit the subject, nor am I a celebrity. Iâ□□m also not hateful, you should not equate difference of opinion with hate.

@MusicAndTruth @SKEPTICLBELIEVR @FatherTerra @LuAngeles @LueElizondo Reform takes efforts and challenges. Critical debate and questioning is vital for discourse. Lue and other disclosure activists are not above being challenged, questioned or debated - nor should they be.

@MusicAndTruth @SKEPTICLBELIEVR @FatherTerra @LuAngeles @LueElizondo Oh they are, but not the whole of it & still open to critique. Did you think that I had the power to shut them down? Or Ancient Aliens? Or MUFON? As a member of the community I can challenge, critique, share ideas, engage my own projects & influence colleagues - which I do.

@MusicAndTruth @SKEPTICLBELIEVR @FatherTerra @LuAngeles @LueElizondo Now you are getting it. You canâ□□t. But we can make efforts to reform the subject/field/culture to make it more scientific, more legitimate, more cooperative, more inclusive, less celebrity oriented, less exploitative, less cultish, less paranoid, & less pseudo/anti-scientific.

2022-03-21T05:55:36+00:00

https://twitter.com/_/status/1505785172976877568

@SKEPTICLBELIEVR @MusicAndTruth @FatherTerra @LuAngeles @LueElizondo You seem to be missing the point entirely. Not all of these are legit, but who gets to decide which & by what standards? And if all are to be leveled, then shouldnâ□□t these all be leveled? Or maybe we should encourage/nudge/challenge reform measures instead of controlling purges?

2022-03-21T05:50:46+00:00

https://twitter.com/_/status/1505783960235819016

@SKEPTICLBELIEVR @MusicAndTruth @FatherTerra @LuAngeles @LueElizondo I think better standards & movements towards reform are whatâ□□s needed. Because itâ□□s ALL Ufology. INCLUDING UCR & Disclosure Activists. But itâ□□s not just ALL about the Disclosure Cause or PR for UAPs - itâ□□s about ALL of it, setting goals & REFORMING to make the WHOLE field better.

@SKEPTICLBELIEVR @MusicAndTruth @FatherTerra @LuAngeles @LueElizondo I measure everything by its own merits. Cases, causes, personalities, theories, movements, groups, evidence, etc.

https://twitter.com/_/status/1505773433505861635

@SKEPTICLBELIEVR @MusicAndTruth @FatherTerra @LuAngeles @LueElizondo No, I view Ufology as a multidisciplinary FIELD of STUDY (history, scientific inquiry, cultural influence, social subculture) seeking validation & legitimacy (which itâ□□s already worthy of) - the opposite of wanting its destruction. The RESEARCH needs reform, but itâ□□s ALL Ufology.

2022-03-21T04:57:09+00:00

https://twitter.com/_/status/1505770465989693440

@SKEPTICLBELIEVR @MusicAndTruth @FatherTerra @LuAngeles @LueElizondo I view the subject as a viable multidisciplinary field of study seeking academic legitimization, not an activists cause looking to gain converts and a validation of belief systems.

@SKEPTICLBELIEVR @MusicAndTruth @FatherTerra @LuAngeles @LueElizondo You donâ□□t know what my ideas & beliefs are. And I am pretty rational when it comes to this subject. Even majored in Philosophy of Science (pseudoscientific demarcation) in college. Rationality & legitimacy are what I strive for in this subject - the truth, whatever that means.

@SKEPTICLBELIEVR @MusicAndTruth @FatherTerra @LuAngeles @LueElizondo Iâ□□ve considered the subject for decades. The whole of the subject & all of its parts. Government & Disclosure (stories & narratives) is but an aspect. A group of narrow-focused Disclosurists focused solely on their activist cause does not the entirety of Ufology make. My point.

@The1Revolution @a01744 @LuAngeles @LueElizondo No, but it may certainly be a means to redefine the topic & further gain control of the field/narratives. If you are calling for something to be DESTROYED, you may then create anew in the design of your choosing - eliminating those not with the program. Revolutionary chatter.

@blackvaultcom @DiscoVolante8 @LuAngeles @ThanosAlpha @LueElizondo I think weâ□□re on same page - clarifying as well. People have different definitions & ideas of words/concepts in this subject - this being one. There are many aspects/groups the subject, some good & some, indeed, in need of reform. @MusicAndTruth @FatherTerra @LuAngeles @LueElizondo You seem to have a stigma against UFO & Ufology is all. These are the words weâ□□re talking about. I donâ□□t have issue with UAP (except being used politically for the disclosure narrative). I actually prefer Aerial Anomalies as a precise monicker, but ultimately we are taking UFOs.

@The1Revolution @LuAngeles @a01744 @LueElizondo The field is filled w thousands whoâ□□ve been at it for many years & hold a wealth of information/experience. UFOTwitter, contrary to opinion, is NOT the Ufology community. MOST are not in the Twitterverse. They hear the echoes, though, & troubling calls for Ufologyâ□□s destruction.

@The1Revolution @LuAngeles @a01744 @LueElizondo I am a UFO Reformer (#UFOREFORM) and have been for DECADES. @JohanneSimard9 @LuAngeles @LueElizondo Folks can certainly fill in the blanks and assume who he is not challenging or what he is promoting. He should call out such challenges deliberately if he thinks he has that voice, instead of making wet blanket statements across the whole research fieldâ□□s bow. IMO.

2022-03-21T00:08:53+00:00

https://twitter.com/_/status/1505697922385649667

@The1Revolution @LuAngeles @a01744 @LueElizondo I do not get to decide, but I can offer my take and my opinions - just as much as anyone. Lue is not the arbiter of the subject either. My point exactly.

2022-03-20T23:56:40+00:00

https://twitter.com/_/status/1505694844806696962

@FatherTerra @LuAngeles @LueElizondo I agree with reform of the field. But he is not calling for specific goals/reforms, he is - in a lambasting fashion - calling for the end of Ufology (a field of study, a history, cases, personalities, movements, a cultural influence, a subculture, a field of scientific endeavor).

2022-03-20T23:30:36+00:00

https://twitter.com/_/status/1505688285263314947

@LuAngeles @a01744 @LueElizondo Giving Elizondo a platform to stamp the whole of the field of research with caesar-like thumbs-up/thumbs-downs (or whatever that placating game was) shows the level of personality cultism this has reached & what is to replace studied Ufology consisting of critical discourse.

@ThanosAlpha @LuAngeles @LueElizondo I drink Guinness & partake with frequency. My views are not a personality defect or flaw - they are differing opinions. Calls to end Ufology (the study of UFOs) is simply asinine postering. I actually care for the field & this subject beyond the posturing of temporary activists.

2022-03-20T22:29:58+00:00

https://twitter.com/_/status/1505673027471749120

@wiel_jade @LuAngeles @LueElizondo I will continue to challenge those that call for the end of the study of UFOs because they seek to rewrite the history as a control mechanism. We needs better standards & scientific reform, but calling for purges or the END of the research

community will ONLY breed division.

2022-03-20T22:20:58+00:00

@LuAngeles @LueElizondo An Intel person (with the sycophant followers) calling for the end of Ufology demonstrate how out of touch and oblivious they are to decades of Intel intervention/manipulation of the subject and research community.

@LuAngeles @LueElizondo Iâ□□m not yelling at all. But I do challenge those that call for an end to the research field - especially those following Intel folks doing likewise - who demonstrate that they out of touch with the actual research community that they havenâ□□t been a part of.

MANNOR - ANN ARBOR

MAR. 20, 1966

On March 20, 1966 the Mannor family was sitting at the supper table when their dogs began howling. Frank Mannor went outside to quiet the dogs when he saw what he first thought to be a shooting star until it stopped over some trees over a swamp; then it came down with a red glow showing where it landed. The rest of the family joined Frank. Ronnie and Frank started toward where the object came down. At eye-level, 500 yards in front of them, a football shaped object about eight feet above the swamp was seen. In the center of the object there was a light that shone from red to white, then to red again. Each end of the object also had weird lights. The object looked metallic and was quilted like a hand grenade.

Then Ronnie shouted "look at that horrible thing!" The object suddenly turned bloody red then all the lights went out. As Frank and his son ran to where the object was last seen, it disappeared without any sound or trace.

@Othrwrldlee @PostDisclosure Iâ□□m encouraged to see that many now agree, that talk of destroying/killing/dead Ufology (the study of UFOs) is a non-sensical take & that reformative change towards legitimization, professionalism & scientific inquiry is what is needed & required in the field. Hopeful.

https://twitter.com/_/status/1505336328396939264

@The5DRaver @PostDisclosure Because the field isnâ□□t presenting academic papers/producing legitimate scientific field studies - itâ□□s been focused on media/entertainment exploitation & UFO celebrity culture. Conferences have become corporate infomercials. We havenâ□□t been doing much academic. Thatâ□□s on us.

2022-03-19T23:41:23+00:00

https://twitter.com/_/status/1505328612391768068

@PostDisclosure Less Ancient Aliens, more SCU. More books, less TV. More academic exhalation, less UFO celebrity guruism. More scientific conferences, less Ufotainment exploitation. More collegial dialogue & professional discourse, less camp group social media attack doxxing. Less manipulation.

2022-03-19T23:35:17+00:00

https://twitter.com/_/status/1505327076177592321

@PostDisclosure Ultimately, REFORM is required before moves towards legitimacy, as this canâ□□t come about externally. And, again, this is not just about research projects or â□□mainstreamâ□□ taking temporary, faddish interest - legitimacy comes from the field professionally legitimizing & producing.

2022-03-19T23:23:20+00:00

https://twitter.com/_/status/1505324069218045959

@PostDisclosure I envision a day when Ufology will be accredited as a multi-disciplinary subject. The subject is broad & has a history/literature - itâ□□s not just about investigative effort (as anomalies do demand serious inquiry). Ufology will gain legitimacy with reform & deliberate effort.

2022-03-19T23:13:22+00:00

https://twitter.com/_/status/1505321559975673857

@PostDisclosure The research field is in need of REFORM, & has always been, no doubt. Professional standards, development of scientific field projects & lessening corrupting

Ufotainment exploitation are needed to legitimize the field. Ufology needs REFORM, not juvenile calls for its destruction.

@PostDisclosure @RealCSharp Congressional committees can hold closed committee hearings and compel testimony at any time - and already do. I challenge the notion put forth by @LueElizondo & @mintyhyperspace that the scientific problem of UFOs/UAP requires that researcher have specific family relationships in order for the subject to be studied critically. Anomalies only require programmatic scientific study, period.

@MusicAndTruth @InvNightSchool @mintyhyperspace All media & political machinations that have little to do with actual UFOs at all. A lot of theatrics & gamesmanship. UFO researchers should spend more time actually investigating UFOs. The answers are found by studying the subject, not by political decree or a file release. IMO.

2022-03-18T17:16:44+00:00

https://twitter.com/_/status/1504869423924006921

@Go_Kick_Rocks88 @mintyhyperspace Mostly overblown anyway and I doubt too many folks, if any at all, are losing jobs over UFOs.

2022-03-18T17:10:45+00:00

https://twitter.com/_/status/1504867917636243494

@MusicAndTruth @InvNightSchool @mintyhyperspace There are certainly differing interpretations to have in the subject, but the notion that it is a professional third rail is largely myth - of course, this depends on the position and the level of topical strangeness.

2022-03-18T17:07:57+00:00

https://twitter.com/_/status/1504867214943531009

@MusicAndTruth @InvNightSchool @mintyhyperspace Or activists can perpetually manufacture/manipulate hype to drive the narrative in the public/media as a PR means with eventual public policy goals in mind? Sounds familiar. Yeah, this can be done for awhile. But there is always that threshold that requires more than hype.

2022-03-18T16:55:02+00:00

https://twitter.com/_/status/1504863963074473984

@MusicAndTruth @InvNightSchool @mintyhyperspace Editorial choices & feelings can/do change. But, these are choices. Cronkite had no problems & suffered no repercussion talking about UFOs on the news. Media interest comes & goes. More media, more competition, more interest, more media - until it gets old. Repeat every decade.

2022-03-18T16:50:54+00:00

https://twitter.com/_/status/1504862921637220354

@MusicAndTruth @InvNightSchool @mintyhyperspace Itâ□□s certainly debatable. I think there was a greater ridicule factor 60+ yrs ago, but the culture began to change in the 70s. I think that UFO stigma as a dominant problem is largely mythology - mostly self-imposed, if at all. The issue is one of validity/evidence consideration.

2022-03-18T16:39:14+00:00

https://twitter.com/_/status/1504859988388417543

@MusicAndTruth @InvNightSchool @mintyhyperspace Any actual data that demonstrates this? :person_shrugging: Any opinion polls and such? Or is this a feeling/perception that you have and believe? How are UFOs actually perceived differently in LA and Birmingham?

2022-03-18T16:35:35+00:00

https://twitter.com/_/status/1504859069332529153

@InvNightSchool @mintyhyperspace If stigma means self/external distancing, ridicule & limiting professional advancement - then I can say that (after 45 yrs openly in the subject) I have NEVER experienced it personally. But, judging by the number of UFO activists who hide behind aliases, Iâ□□m sure it does exists.

2022-03-18T15:29:16+00:00

https://twitter.com/_/status/1504842380738023426

@mintyhyperspace Or: Thereâ□□s been/always will be UFO news. Thereâ□□s been media/cultural interest for 75 yrs. Bigelow & Friends have worked/PR pushed the topic for 30+ years. Thereâ□□ve been several Military/Intel studies since â□□47. Pols/MSM take an interest at times. Still stigma. Still enigma.:comet::flying_saucer:

https://twitter.com/_/status/1504836406849454087

@ddeanjohnson @_Desmoden @SicCoP1 @PostDisclosure The UAP provisions are a small section of internal defense policy mandates (calling for coalesced internal reports) included in a large (massive) authorization. I doubt that a fair portion of members even know it is in there - or consider it a seriously concerning issue.

2022-03-18T15:00:18+00:00

https://twitter.com/_/status/1504835088772739073

@ddeanjohnson @_Desmoden @SicCoP1 @PostDisclosure There is no single subject rule, but Congress does have, and has had, narrow, single subject legislation. Absolutely. And yes, as a security issue, UAP is proper in its place as a part of a massive defense authorization, but this is, by no means a UAP act as some want to make it.

2022-03-18T13:37:23+00:00

https://twitter.com/_/status/1504814223284707354

@ddeanjohnson @_Desmoden @SicCoP1 @PostDisclosure â□□In legislative procedure, a rider is

an additional provision added to a bill or other measure under the consideration by a legislature, (often) having little connection with the subject matter of the bill. Some scholars identify riders as a specific form of logrollingâ□□

2022-03-18T13:34:02+00:00

https://twitter.com/_/status/1504813381034852354

@ddeanjohnson @_Desmoden @SicCoP1 @PostDisclosure Rider can also be used in a non-formal, looser sense as legislation that is not voted on as its own but added onto other legislation & rides to passage. I am using it in this sense here for the uninitiated. The NDAA was not a UAP bill, but had a UAP portion that was included.

2022-03-18T13:25:42+00:00

https://twitter.com/_/status/1504811281487994881

@ddeanjohnson @_Desmoden @SicCoP1 @PostDisclosure Agreed. I think, just from generational/cultural influences, a larger percentage is, indeed, intrigued by the subject. Politicians are still leery of addressing the subject, though, & certainly donâ□□t want to waste political capital. Presented as security/safety provides an out.

2022-03-18T13:19:26+00:00

https://twitter.com/_/status/1504809704198922245

2022-03-18T13:10:57+00:00

https://twitter.com/_/status/1504807571756101636

@_Desmoden @ddeanjohnson @SicCoP1 @PostDisclosure So somewhere between 1% and 3% of the whole of the body championing the UAP cause & promoting it as an issue in public? Certainly a narrow interest. The UAP rider passed, but it is of interest to a very narrow group, & not a major concern of the whole of Congress. My point.

2022-03-18T12:49:56+00:00

https://twitter.com/_/status/1504802283313410048

@_Desmoden @ddeanjohnson @SicCoP1 @PostDisclosure How many members of Congress have championed or addressed this issue in a public way in the last 3 or so years? More than 10? Less than 10?

2022-03-18T12:45:44+00:00

https://twitter.com/_/status/1504801225799311385

@_Desmoden @ddeanjohnson @SicCoP1 @PostDisclosure Let me ask you this: Are UFOs/UAP a Republican or a Democrat issue?

2022-03-18T12:38:15+00:00

https://twitter.com/_/status/1504799342175137792

@InvNightSchool I studied Philosophy of Science in college focusing on demarcation. I really like the term anomaly/anomalies. Works for the variety of ancillary mysteries. Anomalies are simply out of place things that need an intellectual wacking.

@InvNightSchool Canâ□□t tell you that one, but Iâ□□ve been using it for many years. I think it fits best. Itâ□□s a more accurate derivation, I think, of Aerial Phenomena which goes back to the 50s. Phenomena & Anomalies are similar, but folks get confused by the pluralizing/biasing of Phenomena(non).

@InvNightSchool An origin to which term? UFO? UAP? They were both derived by the military as far back as the early 50s I do believe. UAP was used on Blue Book report sheets. UFO was preceded by UFOB if I am correct. I think Ruppelt might have written on the origins - check his materials.

@sunspotmike Some small venues certainly do just eek by due to increasing costs. This is largely because the circuit has become professionally celebritized & appearance performance has come to dominate instead of academic lecturing. Large commercial events CAN afford to fund science & should.

@PostDisclosure I donâ□□t think the whole of Congress (535 members) is preoccupied with UAP in the least. A number may be as members of a few select committees, but there is by no means a â□□UAP Caucusâ□□ of considerable measure in the dual body. The oversight rider passed, but the interest is narrow.

@IstriaLuigi @thoreauawhelan Photographic visual evidence is also instrumented secondary data of a soft sort. You can derive workable data evidence to consider/utilize, but its subject to those limits & open to interpretation. Physical evidence is best, as it can be analyzed independently by many methods.

@Ted_Roe The Aerial Anomalies research field needs serious reform towards better methodologies & more professional efforts. Serious consideration by Mainstream Science will only occur if serious programmatic investigations are promoted & engaged & presented - no matter who is doing it.

@caseforinfinity @LueElizondo has done his share of name-calling on several shows and online. He should be called out on it just as everyone else is. It is unprofessional. The divisive toxicity needs to stop from the top to the bottom. We deserve better discourse.

@caseforinfinity @droneologists It does. And it does it to itself as well as via external influences. Competing ideas and competing camps. Everyone trying to exert influence. Disagreement is always warranted when ideas compete - juvenile bullying, though, should have no place if we seek professional legitimacy.

@droneologists Been in the field for 45 years. Yes, there has always been camps, cliques, & controversies. Iâ□□m referring to improving the declining DISCOURSE - which is rampant on social media. We CAN be respectfully cordial & professional with those we disagree - IF we make the EFFORT.

https://twitter.com/_/status/1497386684471783425

@Go_Kick_Rocks88 @Jtooshygrimsley @positive4sure @TheProjectUnity Itâ□□s non-repeatable because CE5 event organizers donâ□□t allow it to be repeated under scientific conditions. Thus, non-repeatable as an unconditional observed technique. There is also no observable connective causality mechanism, which can be repeated, besides subjective ritual.

2022-02-26T00:44:27+00:00

https://twitter.com/_/status/1497371952473853958

@Jtooshygrimsley @Go_Kick_Rocks88 @positive4sure @TheProjectUnity Lack of method. Unfalsifiability. Weak subjective anecdotal & photographic evidence. Controlled exploitative environment. Control of documentary data. Biased ritualized consciousness-based pseudo-religious pseudo-technique led by guru. Non-repeatability. Total pseudoscience.

2022-02-26T00:19:41+00:00

https://twitter.com/_/status/1497365718106624001

@Jtooshygrimsley @Go_Kick_Rocks88 @positive4sure @TheProjectUnity Anomalies are not proofs of themselves. And this evidence is not proof either. This is actually weak evidence of a pseudoscientific nature. Demonstrable repeatability is required. This doesnâ□□t prove any CE5 success in the least or provide a mechanism of causality.

@Go_Kick_Rocks88 @positive4sure CE5 pseudo-religious ritual. Many aspects of which are exploitative and cultish. Pseudoscience/anti-science meets New Ageism in a wholly unscientific ritual that is absent method, evidence or substantive proof of any kind.

2022-02-25T22:46:37+00:00

https://twitter.com/_/status/1497342298157457413

@Go_Kick_Rocks88 @positive4sure You may interpret/believe it as such, but one will NEVER be able to conclusively demonstrate that Ezekiel saw Aliens/Interdimensional Beings. This is true of all Ancient Alien pseudo-religious misinterpretations of history & archaeology. This is a speculative Ufological dead end.

2022-02-25T22:40:44+00:00

https://twitter.com/_/status/1497340817496625153

@RagnarSpock @Go_Kick_Rocks88 One can collect accounts & conduct surveys of witnesses/believers. Secondary evidence (pics) may be gathered. But whatâ□□s needed, ultimately, is material objectification w demonstrative physical proof that is conclusive. Santaâ□□s sled or a dead Tooth Faerie for science to study. :face_without_mouth:

@positive4sure @Go_Kick_Rocks88 There is undoubtedly a variety of causes at play. Those based on belief systems are based on belief systems & donâ□□t go beyond that. Faith is enough. We can believe anything or any interpretation absent proof. Iâ□□m interested in the actual objective causative truth/reality.

@Go_Kick_Rocks88 I disagree. Respectfully. Ultimately it is a scientific problem. If it leads you to religion (or your own spiritualism) you are doing it wrong, imo. Both do have a basis in philosophy, however. But religion & Philosohy of Science (Demarcation/Method) are entirely different foci.

@red_pill_junkie @Akam1129 Each case is its own case with its own level of validity & subjective absurdity. Not all cases are equal or likely derived from a singular source. Most cases, in fact, are outright misidentifications or bunk. The only prime characterization is the denotation as otherworldly.

★ WANDL, THE INVADER ★

By Ray Cummings

Out of distant space came the robber-planet Wandl, seeking new worlds to conquer and steal away from their mother sun. And strange were the ways of the invader, whose creatures paid little attention to the peoples of the three worlds — Earth, Venus, and Mars. But the menace was none the less real and Gregg Haljan, Snap Dean, Anita, and Venza found themselves again united in deadly peril — the lone vanguard of the three worlds' defense against eerie, overwhelming weapons! Here is a classic of science fiction!

Here is another great science fiction novel — a sequel to the popular "Brigands of the Moon"—reprinted by your request.

@Jtooshygrimsley @TxUFOSightings @blackvaultcom I think the biggest thing to consider with

these images is the fact that they were not taken during the events of 1952. But again, people may dismiss rational, prosaic information if they so choose. Some will ignore falsifying evidence, no matter what.

@UFOBreddit The more extraordinary the claim, the more evidence along the steps towards convincing a consensus is required. Science cannot make assumptions with claims, it needs demonstrative evidence. Anecdotal/expert testimony is acceptable in courts, but is considered weak in Science.

@UFOBreddit Different standards of evidence & different bodies of consensus. Courts consider preponderance of reasonable/likelihood evidence, weighed by uninitiated or a judge. Science requires evidence that is testable, repeatable & peer-viewable which is able convince expert consensus.

@Peloquin1977 Incommensurability is an obstacle, not a barrier to understanding. If a program is lacking, then one must develop a new method to gather data. Anomalies have a causative

component or are a misinterpretation - if not, then their reality is questionable. Material is quantifiable.

@retromastertoys @GarryPNolan @UAPmike @bradjohansson21 @DreamsEnd3 @Shagenlo1 @tinyklaus The history of Ufology is also filled with many who have projected those shadow narratives upon the walls to control, manipulate or exploit. @GarryPNolan @DreamsEnd3 @TheWooIsReal @bradjohansson21 @Shagenlo1 @tinyklaus We should absolutely investigate anomalies scientifically. Itâ□□s the speculations that are equated with conclusions which we should avoid in this field. Interdimensional shapeshifters that

@trelayne @DreamsEnd3 @GarryPNolan @bradjohansson21 @Shagenlo1 @tinyklaus The History of Science is replete with people (scientists) that were wrong. My point exactly. And them being wrong in the 1800s doesnâ□□t mean that every theory postulated by a scientist today is correct. A theory must stand on its own validity, merits and evidentiary proofs.

@trelayne @GarryPNolan @bradjohansson21 @DreamsEnd3 @Shagenlo1 @tinyklaus At some point a contention needs to be proven though programmatic evidence, right? @GarryPNolan @DreamsEnd3 @Shagenlo1 @tinyklaus How can you prove this speculation? Science also requires conclusive evidence in order to prove a postulation. And how can we be sure that this idea is not simply a false interpretation due to incommensurability & a bias to unify anomalies under one causative explanation?

@MusicAndTruth @LymburnerTodd @AZColt @TheUfoJoe And just because we CAN imagine it doesnâ□□t mean that it is there. In science we assume a negative until it is proven a positive beyond the theoretical. @RadicalSalsa @MikeColangelo @UAPx2 They certainly did capitalize on the Nimitz narrative & folklore in their media marketing.

The alleged Nimitz encounter took place off Baja far further south of the Hollywood resort island of Catalina. That they captured the same object seen nearly 2 decades ago is subjective.

@MikeColangelo One can assume. Maybe there is actually no Tic-Tac at all? :person_shrugging:

And you can bet your money without worry as there is no way to actually verify the existence of any imagined â□□Tic-Tac Fleetâ□□ in a speculative wager.

2022-09-21T00:29:25+00:00

https://twitter.com/_/status/1572382456757583873

@MikeColangelo I know of no other actual Tic-Tac observations beyond the alleged singular military encounters from 2004.

Some have tried characterizing some historical cases as being the same object, but these are subjective stretches.

2022-09-21T00:26:08+00:00
https://twitter.com/_/status/1572381631117238272
@MikeColangelo Objects were, indeed, allegedly tracked on radar in the op area in 2004. What they visually looked like are not known.

The Tic-Tac is a specific object with particular attributes (40 feet, windowless, white, appendages) - not a shape, really, or frequently observed type.

2022-09-20T23:58:40+00:00
https://twitter.com/_/status/1572374718686150656
@MikeColangelo Those that claim to know should be suspect, btw. And those that claim as such have the imperative of proving their contentions with factual data that goes beyond overblown speculation.

2022-09-20T23:54:05+00:00
https://twitter.com/_/status/1572373562035421190
@MikeColangelo Are we even sure that there are multiple Tic-Tacs? :person_shrugging:

While there may have been cigar & capsule-shaped objects seen across the decades, the particular object from the naval encounter of 18 years ago seems to be from a singular event with just one sole object visually observed.

The question here is whether there is an â□□emotional (fear) energyâ□□ that is emanated by the body via an emotional state which is then consumable by an unseen entity. @jackc476 @Graybea37504192 @Go_Kick_Rocks88 As a Buddhist I try to keep my spiritual development separate from material scientific problems that need to be solved through critical inquiry/discovery. Discovering the truths behind the mysteries of the universe doesnâ□□t require us to be in a particular spiritual state.

@jackc476 @Graybea37504192 @Go_Kick_Rocks88 There is space, energy and matter. Matter and energy are mutable, but this occurs via a process. We still need to understand these processes, if they are occurring with this phenomenological issue in question, for us to have true understanding.

@LipmanTroy @Go_Kick_Rocks88 Incommensurability in the study of anomalies is not a barrier to programmatic understanding as some contend, but simply an obstacle which challenges us to devise better methodologies by which we can acquire evidence/data that provide real answers. #UFOTwitter #ParanormalTwitter

@Go_Kick_Rocks88 Being open to it still requires us to seek the answer to: HOW. Iâ□□m open to this and hitchhiker - I want to know HOW it physically works and HOW we can demonstrate this with objective evidence. Similarly, Iâ□□m open to ghosts as well - but going beyond mere belief: How does it work?

@LipmanTroy @Go_Kick_Rocks88 Emotion can be measured through bodily reactions, no doubt. What we are considering here, however, is a theoretical â□□emotional energyâ□□ that emanates and can be absorbed by an as-yet proven entity that utilizes this energy for some form of nourishment. How does one measure these?

@Graybea37504192 @Go_Kick_Rocks88 I want to know how the mechanism/process operates objectively. We need material science to do this. We canâ□□t just believe without the necessary understanding. That would be, not just pseudoscientific, but a pseudo-religious belief-system based on faith and not objective fact.

@gornalalbion @UFOrealitycheck My UFOs remain unidentified. I donâ□□t know what they were. Any hypothetical interpretation may be just as valid as another - but we measure in terms of what is likely. Prosaic explanations dominate because they are MOST likely causative. We have no causative evidence for aliens.

@Graybea37504192 @Go_Kick_Rocks88 Iâ□□m open to this. Now I ask you: How does this energy emanate from the body? In what form? Waves? From what source? Can this be measured? How can a being absorb this energy? By what physical mechanism/process? How is this energy utilized? How can you prove this postulation?

@SFsomaGirl @SomewhereSkies If an alien explanation is possible, then a misidentification is

also possible. Plumes are certainly seen in cities - sometimes far away from the source. A lot of launches - military and commercial - are conducted in California, for instance, & are easily visible in urban areas.

Pixilated PLATTER

You wanted a smaller "Sassy Saucer" for A/2 engines? Watch the eyeballs pop!

■ After Air Trails ran the "Sassy Saucer" flying control line whizzeroo, we had such a tremendous amount of interest in the model—the next natural step seemed to be a Half-A size saucer. Here 'tis, simplified to the *nth* degree.

This simple little job you can easily knock out in an evening and set the neighborhood on its collective ear the following day!

You'll get top performance by keeping the platter as light as possible; go very light on the colored dope. Maybe colored paper would be the best bet if you wish to trim up your contraption.

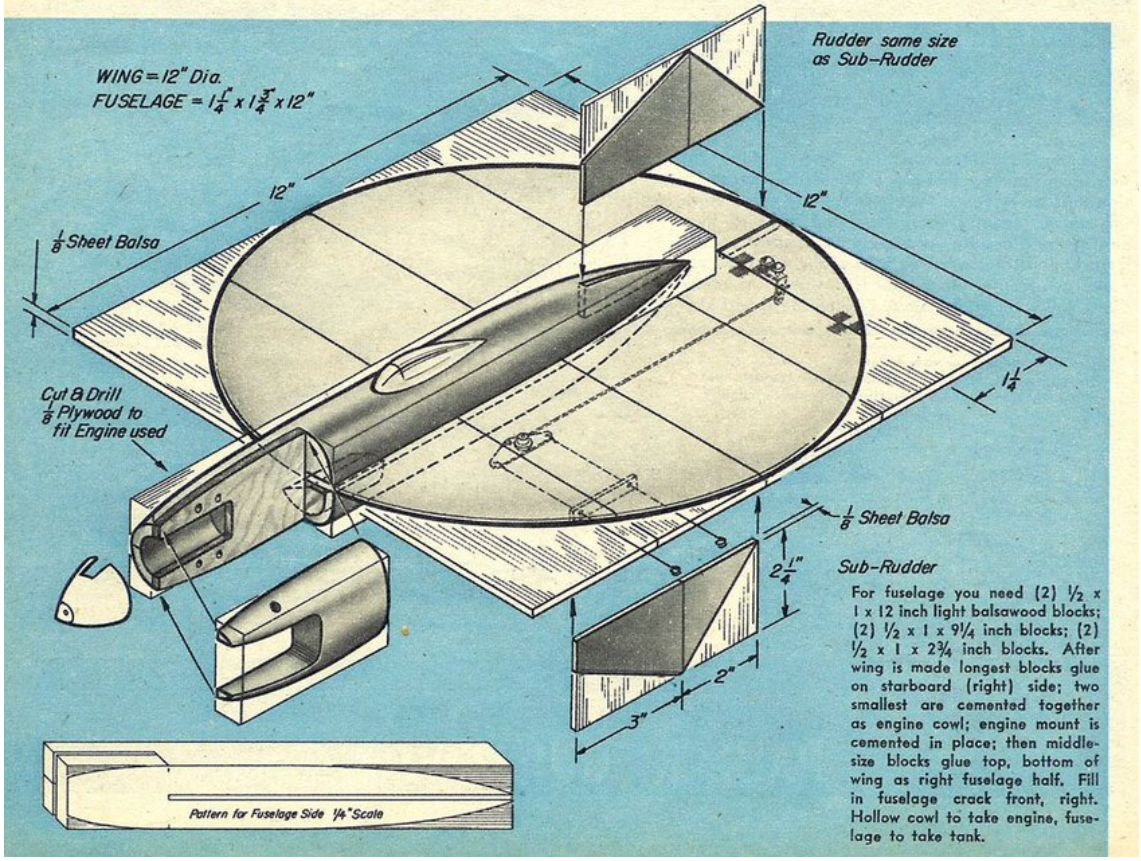
Herkimer's .049 Cub Diesel was installed with success here; we wanted to stay away from the fuel proofing problem. While sizes are only approximate, you should stick fairly close to the suggested dimensions to come up with the proper center of gravity location—right on the forward control line. As the C.G. position moves rearward the platter becomes more maneuverable but also more difficult to fly. Let the novice model pilot, then, maintain the C.G. along the leading control line; only the experienced flyer should experiment with a more rearward location.

As for different powerplants, you must use ultra-light wood to operate with a .035 engine; any healthy .049 should be fine; an .074 will be fast; and with an .09—brother, you've got a bomb on your hands.

Launching is done by your assistant holding the right wing and slinging the plane out at a good clip. This will keep the platter on the end of the lines; just tell him to "scale it foward."

Do we have to go into construction? Building up of the fuselage is covered in the caption on the "plan." Everything is solid except for the fuselage cut-out to accommodate whatever tank you use and the cowl cut-out to take the engine.

After you've completed and test-hopped your Pixilated Platter, try for some good flight shots (no blurs, please). For those we run, Air Trails HOBBIES For Young Men comes up with $10! Now that bit of news should certainly spur you on with the camera—no?



Sub-Rudder

For fuselage you need (2) 1/2 x 1 x 12 inch light balsawood blocks; (2) 1/2 x 1 x 9 1/4 inch blocks; (2) 1/2 x 1 x 2 3/4 inch blocks. After wing is made longest blocks glue on starboard (right) side; two smallest are cemented together as engine cowl; engine mount is cemented in place; then middle-size blocks glue top, bottom of wing as right fuselage half. Fill in fuselage crack front, right. Hollow cowl to take engine, fuselage to take tank.

@buffcommacu @GalileoProject1 You might want to look into how much was raised from investors. The SEC may be able to help you. TTSA did indeed raise millions from individual investors. They also accrued multiple millions in debt (nearly 40 million) that Tom financed. Investors have not seen any returns.

@buffcommacu @SnakePo9 @InvNightSchool @BucFanInAUAP Anecdote is the beginning of anomalous inquiry, not the end itself. Absolutely. The mystery to be solved needs to be solved with evidence, not the mystery itself as self-evidence of itself.

@SnakePo9 @buffcommacu @InvNightSchool @BucFanInAUAP I have read Nolanâ□□s presentation. It does have issues, but is a step in the right direction. We need more, & better, peer papers presenting this topic to mainstream science. This is how paradigms will shift - not via Ancient Aliens TV, UFO podcasts or political appeals/theatrics.

@SnakePo9 @InvNightSchool @BucFanInAUAP Everyone can have opinions & certainly do. The discussion here, as always, is evidence sufficiency. For Science, anecdotal evidence is weak & largely begs the question. We need evidence, not belief-based stories. We need it gathered programmatically & presented professionally.

2022-01-19T18:19:58+00:00

https://twitter.com/_/status/1483866842162769920

@SnakePo9 @InvNightSchool @BucFanInAUAP Congressional hearings would be a sensationalized joke and the least scientific effort to â□□persuadeâ□□ or whatever it is meant to do. Political hearings are largely political theater and have very little to do with any scientific search for truth. UFO stories for politicians & TV.

2022-01-19T17:55:29+00:00

https://twitter.com/_/status/1483860680675672070

@SnakePo9 @BucFanInAUAP @InvNightSchool My point is that there is no courtroom or a jury to convince. The scientific peer establishment is who needs to be convince with the weight of programmatic evidence in order to prove a theory or change a paradigm. Science requires more than just anecdotal trust as evidence.

2022-01-19T17:24:10+00:00

https://twitter.com/_/status/1483852799041585155

@BucFanInAUAP @InvNightSchool @SnakePo9 Anecdotal accounts, in themselves, are the weakest form of evidence - and the beginning of inquiry, not a proof itself. And, contrary to popular opinion, scientific determination of causation of UFOs is not a matter of popular/group reason persuasion as with a civil jury.

@RyanSprague51 Agreed! (Except for the singular anthropomorphized â□□The Phenomenonâ□□ part

- there is no singular causative source for all claimed encounters across history.) But yes, UFOs should be fun - even though the field is a bummer most of the time.

@SomewhereSkies There wasnâ□□t much of an internet in the early 90s for UFO chat, except through BBS. It was mid to late decade when chat rooms & forums took off for Ufology (the most searched topic next to porn for a time). Infiltrating agents were avoided by the community then - unlike today.

@Fortean777 After four and a half decades of research one can reach a few conclusions. Most serious researchers will agree that MOST reported anomalies are misidentifications. This alone demonstrates the fact that not ALL reported encounters derive from a singular cause.

@Fortean777 I donâ□□t think that there is a singular Phenomenon for one. We must judge each & every case as their own mystery & on their own merits. There is a likely variety of causes for the divergent variety of Aerial Anomalies encountered. Most are mundane. A small few are of interest.

@Fortean777 Nope. Itâ□□s a voluntary survey of believers conducted by believers, not a real independent study. There are no control groupings or an avoidance of bias in intent & phraseology. Itâ□□s equivalent to Flat Earthers asking Flat Earthers their opinions about Flat Earth. Pseudoscience.

@55404elf Iâ□□m waiting for some decent encounter cases. Everyone is too busy with Disclosure hype and Ufotainment careers to pay attention to those these days. Most UFO news is now self-generating and largely not about actual UFOs - mostly punditry.

@Robin081564 MOST UFOs are likely many of these, but remain yet unidentified. Each of these account for some UFOs, no doubt. Some misidentified UFOs, for instance, are indeed balloons or drones - we know this because people have misidentified these as such.

@HeyLukOverThere Gaddis is an author that people should be familiar with as an influence. He contributed to much of the periodâ□□s UFO lore. He coined the phrase â□□Bermuda Triangleâ□□ - which would come to be of significance in the following decades.

@SBrowneITF I donâ□□t think it is that obvious at all. Human lore is filled with fabulous subjective and moral tales - the conveying of a story does not make it a true incident or a real occurrence. Ezekielâ□□s wheel encounter cannot be proven beyond being just symbolic religious allegory.

@Deepfryguy76 @Forteanjedi @JohnELTenney Con Artists and Hoaxers (profiteering exploiters of all kinds) certainly do influence how the subject of Aerial Anomalies is perceived and considered. Been part of that history from the beginning. Whether they contribute any real solutions to anomalous mysteries is debatable.

'FLYING SAUCER'

Venusian flying saucer or 'Scout Ship' photographed at 9.10 a.m. 13 December 1952 at Palomar Gardens, California, by George Adamski through his six-inch telescope. About 35 feet in diameter, this little space craft was made of a translucent metal. Notice the portholes, spherical landing gear and the lens or light on top of the cabin. The white line round the base of the dome appeared to be some form of power coil.

@ExoAcademian Which aliens are you referring to? There have been many different kinds described. Do we believe the claimed attributes of these alleged aliens, by anecdote only? Is a anecdotal claim the very proof in itself when making a claim, in your estimation? Are ALL claims to be believed?

2022-01-03T04:14:45+00:00

@ExoAcademian Which â□□vast swathsâ□□ demographic and which particular anecdotal accounts are you choosing to refer to? Are you saying that all Experiencer accounts are true? Which ones are and which arenâ□□t? There has been a variety of claimed encounter scenarios and entities over 60 years.

https://twitter.com/_/status/1477854398390980616

@AZColt @BigFootCyberArk Yes, THAT particular account makes reference to an anomalous atmospheric event. These here, however, are religious works that are likely symbolic representations and not events - of which there is nothing to denote that. My point exactly.

2022-01-03T03:36:03+00:00

https://twitter.com/_/status/1477846190360338435

@ExoAcademian Is this alien â□□abilityâ□□ really as â□□evidentâ□□ as you suggest? Where is this abili demonstrably evident? Anecdotal accounts? It is certainly in the lore, no doubt. And how does this alien â□□control mechanismâ□□ actually operate if evident? HOW is human perception manipulated?

2022-01-03T03:26:23+00:00

https://twitter.com/_/status/1477843757823414276

@TxUFOSightings In these prices, symbolic and artistic representations of spiritual deities are more likely interpretations than documentations of actual anomalous aerial events.

https://twitter.com/_/status/1477807686557261828

@FringeCenter @MiddleOfMayhem @MickWest @LuAngeles @STSMajesty Ultimately each case (and the totality of the subject) comes down to different interpretations of evidence and differing theoretical views on causality and reality. Not all cases are the same - or likely to be from the same source. Most evidence/cases are worthy of skepticism.

@BigFootCyberArk Maybe they are actually religious/symbolic art representations and not UFOs? Who says that they are? How do we know if these represent objective incidents, as opposed to being subjective fables? Could there be a bias of interpretation in describing these as UFOs, perhaps?

Delegitimizing belief-based conspiracy viewpoints, Intel manipulation, pseudoscientific pseudo-methodology & media Ufotainment sensationalism/exploitation will work to perpetuate the ridicule & stigma - halting any such paradigm-shifting revolution.

@DavidBWriter I hope for the success of Galileo, but I do think they have made some delegitimizing mistakes that are worthy of criticisms - even before their program has gotten off of the ground. Much of the UFO research/entertainment field is worthy of such critiques.

2021-12-22T03:56:50+00:00

https://twitter.com/_/status/1473502766412750854

@DavidBWriter I am a believer in UFOs & a proponent of serious scientific inquiry. I provide criticism if I feel it warranted. If an action is delegitimizing to the effort. Some are offering critiques because they actual do care for the seriousness of the subject & want to see it done right.

2021-12-22T03:53:03+00:00

https://twitter.com/_/status/1473501816142901248

@DavidBWriter There are many in the research field who are equally critical & supportive of Galileo - with a wide range of interpretations & beliefs systems with regards to UFO phenomena. Asking questions & providing criticism should not necessarily be construed as an attempt at destruction.

@gillibrandny Many activist proponents have not been critically scientific with regards to Aerial Anomalies - promoting biased secret conspiracy theories & cult-like beliefs in invisible crypto-terrestrial civilizations. We need legitimate scientific inquiry, not Ancient Aliens pseudoscience.

@SomewhereSkies The events around Elmwood, Wisconsin in the 70s-80s are well-known UFO history. The Elmwood hotspot became "UFO Headquarters" for a time and Elmwood has held a "UFO Days" parade and festival since. Historic markers mark various encounter sites throughout the area.

@MatthewSapero @physicsufo @nickpopemod I donâ□□t belong to MUFON and havenâ□□t for many years. I have been a member from time to time, but I have never been in a leadership position. @MatthewSapero @physicsufo @nickpopemod Instrumented claims require the instrumented data to back them up. Theoretical propositions are theoretical still, likewise, (even though backed by the mathematics and physics) until proven with observation through instrumentation and confirmation peer review of the data.

@MatthewSapero @physicsufo @nickpopemod Read that when it came out. Iâ□□m still more interested in actual data than anecdote, second hand info and interpretations. Review of actual data is better than just taking someoneâ□□s word for it - if we seek to be programmatic and scientific in an unbiased fashion.

@SnakePo9 @AgentBlackAcid Iâ□□m not confusing you with anyone. Nor am I questioning information in articles or media. I am addressing the issue of your omission of identity and how matters of trust will remain unresolved for an anonymous Intel person who works in the Disclosure advocacy media arena.

2021-12-19T08:55:40+00:00

https://twitter.com/_/status/1472490808272207878

@AgentBlackAcid @SnakePo9 Sure. But are they anonymous public activists - allegedly

connected to Intel - using activist media to call for openness, truthfulness and disclosures of governmental secrecy in a field that has a history of Intelligence manipulation and infiltration?

2021-12-19T08:48:25+00:00

https://twitter.com/_/status/1472488983468851205

@SnakePo9 As I actually donâ□□t know who you are, all I can say is: for many in the community (and I have been in this community for 44 years) the value of an unknown quantity of unknown goods is greatly limited and highly suspect. I would like nothing more than to give your opinions value.

2021-12-19T08:31:28+00:00

https://twitter.com/_/status/1472484714829291520

@SnakePo9 Arenâ□□t your personal employment considerations a perpetuation of that stigma? And how as an Disclosure activist in media are folks to trust your takes/judgement when they donâ□□t know who you actually are? Arenâ□□t there inherent honesty issues in these omissions?

@SnakePo9 Iâ□□ll go back and listen to it again. Not trying to bust your balls or antagonize you, I just generally have issue with those in Ufology that call for truth, disclosure and an end to stigma while hiding behind an alias. And the field has a history of manipulation, you know.

@Robin081564 @GalileoProject1 I agree with that assertion. I feel that there are a variety of phenomena at play. I believe in UFOs. I seek truth. I donâ□□t think it is close to being realized anything soon, however. And I donâ□□t think that it will come from Government or Military Intelligence manipulations.

@olof_rockner @Alien_Gray @TheUndeadGaucho I feel the opposite - that it is psychic voodoo until a claimed causative mechanism is proven. In the meantime CE5 is wholly pseudo-religiousness non-science ritual based in belief and intent. Aerial Anomalies are just unidentified objects, not religious manifestations.

U. S. Air Force Investigates 'Flying Saucers'

8-10-52

The U.S. Air Force is investigating the mysterious "flying saucers" that have excited and baffled people for the last five years. Recently radar jolted skeptics by picking up saucer-like objects. This has intensified the "saucer" search.

HOW AIR FORCE IS INVESTIGATING

1—Special cameras will photograph "saucers" and reveal whether they are earthly light reflections or solid objects.

2—Telescopic cameras will photograph the sky and record movements of the objects.

THEY MAY BE LIGHT REFLECTIONS . . .

"Flying saucers" are optical illusions caused by "temperature inversions" which project images of earthly lights on the sky. This is the theory of Dr. Donald H. Menzel of Harvard University. A layer of warm air turns downward light from bright objects. This creates bright, saucer-shaped images that seem to sweep across the sky.

BUT RADAR PICKS THEM UP

"Saucers" have appeared on radar screens but these screens will also pick up insubstantial objects such as raindrops. Radar sends out radio waves which bounce off objects and return as echo which is translated into "blips" on a radar screen. The "saucers," appearing as sharp "blips" on the screen, have puzzled experts.

WHERE 'SAUCER' REPORTS ORIGINATED

Others include airline pilots, air defense spotters, scientists, radar men.

OUTSTRIP FASTEST JET PLANES

"Saucers" have been seen traveling at various speeds. Estimated average speed is about three times that of the U.S. F-86 jet plane.

SAUCERS' STRANGE ACTIONS

Sky "disks" perform maneuvers that would kill a human pilot. Traveling at high speed, they often dart about the sky in violent zigzags.

WHAT PEOPLE SAW

This is how the Air Force interprets hundreds of reports of sightings.

HOW SKY OBJECTS APPEARED AT VARIOUS TIMES AND PLACES

This is how a "flying saucer" appeared close up to Capt. L. W. Vinther, Mid-Continent Airlines, on January 20, 1951. He described it as a brilliant white light moving at great speed. It reversed direction and traveled parallel to the DC-3 about 200 feet away. It was cigar-shaped, had a glider-type wing, six windows in front and a light recessed in the bottom. It soon disappeared.

The "Lubbock Lights," photographed at Lubbock, Tex., in 1951, looked like ships from outer space in formation.

Left, mysterious green fireball seen many times in the Southwest. Right, flying disks often are seen in pairs. Some are long, others appear to be circular.

FREQUENCY OF SIGHTINGS

Since June 24, 1947, when the first of the current wave of "flying saucers" was seen near Mt. Rainier, Wash., the Air Forces intelligence center has received more than 1,100 reports of sightings.

UNEXPLAINED 'FLYING SAUCER' SIGHTINGS

Many unexplained sightings have been near vital defense areas.

@john_flanigan @paulsanderson Probably an actual independent metallurgy lab not operated by UFO personalities. People in actual material analysis, not medical researchers. Military is probably also not the way to go. I havenâ□□t explored which labs would be better, I donâ□□t currently need any analysis done.

2021-12-11T21:23:37+00:00

https://twitter.com/_/status/1469779931144065034

@singularitymike One can always â□□save the phenomenonâ□□ and deny a falsification by saying that the â□□hiddenâ□□ proof was â□□out of sightâ□□ and that the challenger failed to find it when the burden is placed upon them instead of the claimant.

2021-12-11T21:19:29+00:00

https://twitter.com/_/status/1469778889916436482

@singularitymike Science doesnâ□□t have to prove a negative, but the claimant needs to provide proof for their positive assertion. Anything (nearly an infinite number of things) can be claimed - non-falsification (or even an impossible falsification) does not prove a positive assertion is true.

Assuming unknown data is an unfalsifiablity trick called â□□saving the phenomenonâ□□ in Philosophy of Science. Such assumptions can be made for any contention and, ultimately, works against establishing parameters.

@jplatte11 @MadScientistPod Non-usable/unknown data doesnâ□□t help us much does it? Iâ□□m interested in hotspots that can be known so that we can gather data on consistently localized phenomena for scientific consideration.

2021-12-10T16:59:11+00:00

https://twitter.com/_/status/1469350994677018627

@jplatte11 @MadScientistPod Places can experience flaps and waves as well. These can

happen and the location still not be constituted as a hotspot - except as a temporary designation (Piedmont, Fyffe, Gulf Breeze). The coastal California Island have had some encounters, but no actual hotspots or flaps.

2021-12-10T16:55:40+00:00

https://twitter.com/_/status/1469350110421209092

@jplatte11 @MadScientistPod Hotspots do have periods of activity/inactivity. This is why long-term data & research is of importance. What constitutes a hotspot is the data beyond just cultural folklore: consistent local grouped reports, over a long period of time, that go beyond statistical chance.

@jplatte11 @MadScientistPod And Iâ□□m not assuming â□□blindly,â□□ I am assuming â□□lazilyâ□□ aft they saw it on a reality TV program (Ancient Aliens, Unidentified, ExpeditionX, Demi Lovato, Rob Lowe) or from a UFO celeb selling a book or a tale on a TV show. Catalinaâ□□s a folklore hotspot, not an anomalous one.

@jplatte11 @MadScientistPod As a researcher who identifies/catalogues hotspots, I am familiar with the research involved. Itâ□□s a hotspot largely in the minds of TV producers, celebrity exploiters & internet folklorists. Itâ□□s not based upon any consistent correlative reporting data or statistical analysis.

@jplatte11 @MadScientistPod Sure it is. People assume that because a tic-tac was seen two decades ago that it is still there for some reason and that it is a hotspot. Several reality TV shows have searched there (with Elizondo even) reinforcing this myth that it is still there. TV people like Catalina.

@SicCoP1 Thatâ□□s part of it, but they are also proprietary and werenâ□□t supposed to be shared. And werenâ□□t cleared prior 2017. There is also ancillary data for these that are certainly classified. What was shared? Shouldnâ□□t the feds at least look to see if there was classification breach?

@paulsanderson The Government is indeed not a monolith, but it is very much a bureaucracy. And I remain skeptical as to if oversight will be effective or open - AAWSAP had Congressional oversight. Most Disclosurists, I contend, want their full Alien confirmation & not just â□□transparency.â□□ 1/2

@TheProjectUnity Itâ□□s called New Age (for 50 years now) because itâ□□s a modern â□□spiritualist movementâ□□ iteration of manipulative anti-science, pseudo-science, pseudo-religion, cultism & superstition. @zcichy I think the subject is hurt by a couple hundred people being involved. Demi Lovato-type celebrity exploiters, for instance. Ufotainment Celebrities, Exploitation Media, Hoaxers, Con Artists, New Age UFO Conferences and UFO Cults do more to damage the subject than any politician.

2021-12-03T05:32:29+00:00

https://twitter.com/_/status/1466641468148305925

@UAPorSAP @TheUFOTrail @fringequest @JohnELTenney @zcichy What does â□□Team Disclosureâ□□ even mean? I think for many activists Disclosure means a revelatory confirmation of Alien Visitation & UFO Conspiracy mythology by political authority. I think this is a pseudo-religious fantasy - an exploitable one. And a distraction from science.

2021-12-03T05:24:23+00:00

https://twitter.com/_/status/1466639428755988483

@paulsanderson @SicCoP1 @jplatte11 Most â□□stigmaâ□□ in this topic is self-derived/self-inflicted. People not wanting to be publicly known or judged for making an extraordinary claim because it affects how they want to be perceived. Itâ□□s not systemic as it may have been in previous eras relative to incompetency.

2021-12-03T05:16:27+00:00

https://twitter.com/_/status/1466637432711901190

@paulsanderson @SicCoP1 @jplatte11 There is plenty in the subject to ridicule. Much is worthy of it. The field itself is at war with itself and engages in ridicule. Half of #UFOTwitter ridicules the other half every day. What matters is the work being done to legitimize the subject so that we can get answers.

2021-12-03T05:10:10+00:00

https://twitter.com/_/status/1466635853246058496

@paulsanderson @SicCoP1 @jplatte11 Iâ□□m more concerned with the falsehoods that the UFO field itself produces - and there are ALOT of them. So much bullshit is promoted due to greed & biased belief. The scientific community is who needs convincing & the only way is by doing SCIENCE. This is how paradigms change.

2021-12-03T04:55:21+00:00

https://twitter.com/_/status/1466632121158668289

@paulsanderson @SicCoP1 @jplatte11 The scientific community is not discriminating against the subject or the community, the UFO research community is not producing any actual legitimate science - but rather, pseudoscience and Ufotainment mythology. No one is stopping UFO Science - no one is doing it.

2021-12-03T04:51:32+00:00

https://twitter.com/_/status/1466631161208320003

@paulsanderson @SicCoP1 @jplatte11 Stigma is not having a difference of opinion or a different interpretation, which many do about the UFO subject - it is a form of discrimination. Check your definitions. Discrimination based upon UFO beliefs as a normative is mostly mythology. Has it happened? Yes. Systemic? No.

@zcichy I agree. I donâ□□t support untrustworthy political Disclosure efforts to expose alleged Alien Coverup Conspiracy Theories. I support scientific inquiry & improving the anomaly research field. Disclosure is a fantasy, divisive & a waste of time that should be spent studying UFOs.

@zcichy I think UFOs and politics donâ□□t mix. Aerial Anomalies are a scientific mystery, not a political platform. Whenever politics enters the subject, political divisions arise. Egregious behavior should be challenged, but not political ideology. The mystery does not belong to a

party.

@jplatte11 @SicCoP1 I GPS map hotspots as part of my research. Have been for years. Ancient Aliens Celebrity Lue (hasnâ□□t even heard of Hessdalen) will be tasked with positioning? Already bad science. Watch when they follow non-scientific TV folklore & seek to position at Catalina. It will happen.

@jplatte11 @SicCoP1 What folks? And what are they going to be proven correct about? Whoâ□□s character am I assassinating? Ancient Aliens performers? I have nothing to apologize for. UFOs are real. Teaming up with the UFO reality TV show crowd is just bad for your scientific effortâ□□s legitimacy.

@jplatte11 @paulsanderson @SicCoP1 Not all UFOs are real. Most arenâ□□t. You should be skeptical most of the time. And what constitutes â□□good stuff?â□□ Is it that which verifies a specific biased conspiracy narrative? How will you know if it is good or not? Many didnâ□□t like the Roswell report from the 90s.

@SicCoP1 @jplatte11 There will always be differing views on the legitimacy of an unproven scientific contention. And on the validity of a methodology. Itâ□□s only career suicide, ultimately, if there isnâ□□t any science being produced. Aviâ□□s celebrity is demonstrative that the stigma is relative.

@WilliamCalamari @fringequest @carlanderson333 #UFOTwitter is dominated by the sub-cultures of activists & media voices that take advantage of the platformâ□□s structure of easy, low-level communication as an influencer of opinion/activism & promotion. Sub-camps use the platform strategically to counter opposing activism.

Police chopper attacked by UFO in Kentucky!

UFO shot fireballs at PD helicopter — then sped away!

Police officers report dogfight between UFO and helicopter

By GARDNER HARRIS
Gannett News Service

LOUISVILLE — Two police officers — described by their lieutenant as "solid guys" — say a two-minute dogfight with a pear-shaped UFO left them shaken early Friday night.

Spectacular encounter over Louisville lasts 2 minutes!

Two helicopter policemen patrolling the sky over Louisville, Ky., said they were fired on during a harrowing, two-minute dogfight — with a pear-shaped UFO.

The strange craft reportedly shot three fireballs during the encounter that also was witnessed by two other officers who monitored the situation from their positions on the ground below.

The cops involved have been tight-lipped, declining interview requests.

By JACK ALEXANDER
Special report from Louisville

But official reports, which are a matter of public record and available for any citizen to see, clearly suggest that the airborne officers were lucky to have escaped with their lives.

"I know what we saw and we weren't hallucinating," Kenny Graham, who was piloting the helicopter, said in his report.

"I was afraid the UFO was going to collide with us," he continued. "Then it turned at the last second and roared away at a speed I've never seen before."

Graham, 39, an 11-year police veteran, and Kenny Downs, 39, a five-year police veteran who was operating the chopper's spotlight, were on routine patrol when they saw what looked like "a fire" off to their left.

Downs instinctively aimed his spotlight on the object, which was shaped like a pear and drifting back and forth like a balloon on a string.

Without warning, the object sped toward the helicopter and circled it several times before zooming off in the opposite direction, Downs said.

Then the UFO turned and headed straight for the chopper, shooting fireballs that — by luck or design — fizzled out before they hit, according to Graham.

Afraid the UFO would ram the helicopter's tail rotor, Graham pushed his speed to more than 100 m.p.h.

Far from being outrun, the UFO shot past the chopper, instantly climbing hundreds of feet. It descended again momentarily.

But when Graham steered toward the craft for a closer look, it flew into the distance — and disappeared.

The amazing aerial maneuvering of the UFO didn't go unnoticed on the ground.

Officer Mike Smith saw the object for about a minute. He confirmed it fired three fireballs and disappeared.

Officer Joe Smolenski said he tried for more than a minute to catch up to the UFO in his patrol car. "I've been looking for UFOs for 14 years and I guess this is the closest I've come to something I can't explain," Smolenski said.

A lieutenant described the two helicopter officers as "solid guys" and good cops.

Downs said: "Kenny and I both go to church every week. After this, I might start going twice a week."

UFOs are a legitimate mystery deserving of serious and legitimate scientific investigation. Some strategies and personalities are delegitimizing for the field and the subject - I challenge those.

huntington_strange_travels STRANGE TRAVELS TO CRYPTID CON 2021 - Lexington, Kentucky. Looking forward to hitting the road tomorrow to head out to Lexington, Kentucky for the 2021 Cryptid Con! Always a fun and informative time! Been to all of them. A unique conclave of Cryptid Hunters, Ghost Investigators and UFO Researchers will be in attendance. We will certainly, also, be documenting dozens of weird places as we do some Strange Travels investigations along the way! Keep an eye out! See you there or on the road! @Go_Kick_Rocks88 Right. Science doesnâ□□t work on anecdote, but on testability & repeatability (evidentiary or methodologically). Anecdote provides clues to anomalies, but are not the conclusive answers in themselves. Testimony is the beginning of inquiry. We canâ□□t just take someoneâ□□s word for it.

@InvNightSchool @singularitymike @dansim8 There is undoubtedly much still to learn. But until we can exist outside of the objectively material realm, we worth within it. And we use logic-based material science to try to understand it (and the metaphysical as well) as best we can for usability. All else is faith-belief.

https://twitter.com/_/status/1460713766623010818

@InvNightSchool @singularitymike @dansim8 Perception or use? The Universe appears to behave through laws of action and reaction. Other life forms (such as ants) also use these laws to create cause and effect interactions with their environment. They exist separate from human perception. Or it could all be illusory.

https://twitter.com/_/status/1460712763454631936

@singularitymike @InvNightSchool @dansim8 But as we exist in the fishbowl, all we can do is swim. We exist in this perceptively materialist reality - this is what we have to work with. There

is much of reality (and all realities) that we will never know, lest we gain the knowledge of God. Itâ□□s all best guestwork.

@InvNightSchool @singularitymike @dansim8 Time, space, atoms, energy, distance, movement, speed, force, change of state. Logic and math (and language) serve as descriptives and predictives for these relations. These relations objectively exist to be discovered and understood (or not). They exist separate from Man.

@TheUndeadGaucho I believe in making the pool deeper. We should encourage those in the field to master the subject and its history. So many activists and hobbyists with so little knowledge of UFOs. The field needs reform, standards, goals, and legitimization. I encourage study over proselytizing.

@singularitymike @dansim8 Iâ□□m a life-long student of philosophy. I studied, many years ago, Philosophy of Science at Southeast Missouri State with an emphasis on Pseudoscience Demarcation & Evidence Sufficiency. Iâ□□m always down for philosophical discussion about seeking objective truth. Need more of this.

https://twitter.com/_/status/1460702020176912389

@singularitymike @dansim8 I agree. But we exist in current paradigms under certain

definitions. To change the paradigm, we still need definitions & persuasive evidence...all else is opinion & faith-belief (which much of philosophy & science already is). What we seek are the objective truths. And meaning.

@singularitymike @dansim8 Surety is dependent upon the sufficiency of the evidence. There is, indeed, more than enough sufficient evidence denoting that he is dead. There are also established criteria as to what defines this state. By definition & the sufficiency of the evidence we can factually conclude.

2021-11-16T19:43:17+00:00

https://twitter.com/_/status/1460694983644749835

@singularitymike @dansim8 Some may certainly argue. Iâ□□m pretty sure that he is, however, very much dead. An ex-Philosopher. Pushing up daisies. Not around any more. Gone.

2021-11-16T19:27:29+00:00

https://twitter.com/_/status/1460691008920997911

@dansim8 @singularitymike Under our current understandings, and by the whole of humanityâ□□s mutually accepted definitions, he is most certainly dead. Deceased. Not resting. Stone dead. Not pining. Demised. Passed on. No more. Expired. Ceased to be. Gone on to meet his maker. He is a late philosopher. RIP.

@SicCoP1 @thoreauawhelan People can define it as they wish. For me though its more about promotion as part of an activist (even coordinated) agenda as opposed to the details of belief. Disclosure Activists however tend to already have a bias of belief as they believe in narratives they want disclosed.

@buffcommacu @AFSUnidentified Many places have had sightings. Some have had several. Catalina has had some. What constitutes a â□□hotspotâ□□ is report frequency, pattern & form of reliability over long period. TV Media people like it because itâ□□s a near-LA resort. TV/folklore hotspot, not an actual/factual one.

@fringequest There is no Ufology accreditation. A Ufologist is a student of the subject itself. Anyone can call themselves one. I prefer UFO Resaercher myself. Any â□□expertiseâ□□ is largely subjective and based on years studying the subject. There is a volumous amount of material to consume.

@buffcommacu @AFSUnidentified @GalileoProject1 I think that if we are truly seeking scientific data then we should avoid current cultural bias by going to actual localized phenomenological locations that demonstrate actionable data gathering possibilities. Catalinaâ□□s reputation is based largely on TV myth, not report data.

2021-10-31T15:29:34+00:00

https://twitter.com/_/status/1454832930229039104

@buffcommacu @AFSUnidentified @GalileoProject1 Exactly. And I did mention Costa. And yes it does come down the case vetting standards. But if you have a large enough data base, models can be statistically derived. Determining an observation location from folklore belief or Ancient Aliens supposition would embrace bias.

2021-10-31T15:20:30+00:00

https://twitter.com/_/status/1454830647906811911

@buffcommacu @AFSUnidentified @GalileoProject1 They need to engage in a localized phenomenological study first. Utilization of reports (after rigorous vetting standards are applied) to create statistical models to determine UAP frequency & location. NUFORS, MUFON, NARCAP, Costa & others are possible data sources for modeling.

2021-10-31T15:08:58+00:00

https://twitter.com/_/status/1454827743678541825

@AFSUnidentified @GalileoProject1 It was a prediction, not a suggestion. Scientifically determined locations would be better than ones chosen by pop culture if we truly seek actual/usable data. And if the UAP research aspect of the project is legitimate.

@PostDisclosure @UAPmike I like you as well, Ryan. It can be argued that your aggression (or passionate persuasion/promotion) with your brand of activism is equally apparent. And perceived pejoratives abound within your critiques of â□□hatersâ□□ that question/challenge certain narratives, it can be said.

2021-10-26T17:11:33+00:00

https://twitter.com/_/status/1453046653959692294

@UAPmike Iâ□□m not dishonest & I donâ□□t misrepresent. These are actually the very things I am working against in the field. Why you continue to try to make the subject about me instead of the arguments themselves is demonstrative of the fact that you simply do not like the challenge itself.

2021-10-26T16:45:08+00:00

RT @jonathanstea: 50 types of psychological biases explained:

https://www.visualcapitalist.com/50-cognitive-biases-in-the-modern-world/
http://pbs.twimg.com/media/FCj749OVEAI3xak.jpg

50 COGNITIVE BIASES TO BE AWARE OF SO YOU CAN BE THE VERY BEST VERSION OF YOU

Memory | Social | Learning | Belief | Money | Politics

Fundamental Attribution Error

We judge others on their personality or fundamental character, but we judge ourselves on the situation.

Sally is late to class; she's lazy. You're late to class; it was a bad morning.

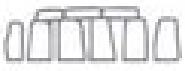
Self-Serving Bias

Our failures are situational, but our successes are our responsibility.

You won that award due to hard work rather than help or luck. Meanwhile, you failed a test because you hadn't gotten enough sleep.

In-Group Favoritism

We favor people who are in our in-group as opposed to an out-group.



Francis is in your church, so you like Francis more than Sally.

Bandwagon Effect

Ideas, fads, and beliefs grow as more people adopt them.

Sally believes fidget spinners help her children. Francis does, too.

Groupthink

Due to a desire for conformity and harmony in the group, we make irrational decisions, often to minimize conflict.

Sally wants to go get ice cream. Francis wants to shop for T-shirts. You suggest getting T-shirts with pictures of ice cream on them.

Halo Effect

If you see a person as having a positive trait, that positive impression will spill over into their other traits. (This also works for negative traits.)

"Taylor could never be mean, she's so cute!"

Moral Luck

Better moral standing happens due to a positive outcome; worse moral standing happens due to a negative outcome.

"X culture won X war because they were morally superior to the losers."

False Consensus

We believe more people agree with us than is actually the case.

"Everybody thinks that!"

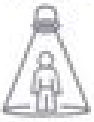
Curse of Knowledge

Once we know something, we assume everyone else knows it, too.

Alice is a teacher and struggles to understand the perspective of her new students.

Spotlight Effect

We overestimate how much people are paying attention to our behavior and appearance.



Sally is worried everyone's going to notice how lame her ice cream T-shirt is.

Availability Heuristic

We rely on immediate examples that come to mind while making judgments.

When trying to decide on which store to visit, you choose the one you most recently saw an ad for.

Defensive Attribution

As a witness who secretly fears being vulnerable to a serious mishap, we will blame the victim less and attacker more if we relate to the victim.

Sally sat too long at a green light because she was playing with her phone. She got rear-ended. Greg, who is known to text and drive, got out and yelled at the person who smacked into her.

Just-World Hypothesis

We tend to believe the world is just, therefore, we assume acts of injustice are deserved.

"Sally's purse was stolen because she was mean to Francis about their T-shirt and had bad karma."

Naive Realism

We believe that we observe objective reality and that other people are irrational, uninformed, or biased.

"I see the world as it really is — other people are dumb."

Naive Cynicism

We believe that we observe objective reality and that other people have a higher egocentric bias than they actually do in their intentions/actions.

"The only reason this person is doing something nice is to get something out of me."

Forer Effect (aka Barnum Effect)

We easily attribute our personalities to vague statements, even if they can apply to a wide range of people.

"This horoscope is so accurate!"

Dunning-Kruger Effect

The less you know, the more confident you are. The more you know, the less confident you are.

Francis confidently assures the group that there's no kelp in ice cream. They do not work in the dairy industry.

Anchoring

We rely heavily on the first piece of information introduced when making decisions.

"That's 50% off? It must be a great deal."

Automation Bias

We rely on automated systems, sometimes trusting too much in the automated correction of actually correct decisions.

Your phone auto-corrects "thr" to "it's," so you assume it's right.

Google Effect (aka Digital Amnesia)

We tend to forget information that's easily looked up in search engines.

"What was the name of that actor in that funny movie? I've looked it up like eight times..."

Reactance

We do the opposite of what we're told, especially when we perceive threats to personal freedoms.

One of Alice's students refuses to do his homework, even though both she and his parents tell him to.

Confirmation Bias

We tend to find and remember information that confirms our perceptions.

You can confirm a conspiracy theory based on scant evidence while ignoring contrary evidence.

Backfire Effect

Disproving evidence sometimes has the unwarranted effect of confirming our beliefs.

The evidence that disproves your conspiracy theory was probably faked by the government.

Third-Person Effect

We believe that others are more affected by mass media consumption than we ourselves are.

"You've clearly been brainwashed by the media!"

Belief Bias

We judge an argument's strength not by how strongly it supports the conclusion but how plausible the conclusion is in our own minds.

Sally mentions her supporting theory about your conspiracy theory, which you adopt wholeheartedly despite the fact that she has very little evidence for it.

Availability Cascade

Tied to our need for social acceptance, collective beliefs gain more plausibility through public repetition.

Declinism

We tend to romanticize the past and view the future negatively, believing that societies/institutions are by and large in decline.

Status Quo Bias

We tend to prefer things to stay the same; changes from the baseline are considered to be a loss.

Sunk Cost Fallacy (aka Escalation of Commitment)

We invest more in things that have cost us something rather than allowing our investments, even if we face negative outcomes.

Gambler's Fallacy

We think future possibilities are affected by past events.

@UfoSunday @MickWest Iâ□□m for getting more truth out. I not for Intel folks using the UFO issue to avoid responsibility for criminal acts as some certainly are. @fringequest @BarlowTerry Exactly. Testimony will have to be known before criminal acts vacated. @fringequest @BarlowTerry I agree. Which begs the question: what would amnesty be for? https://twitter.com/_/status/1451273081918459905

@AFSUnidentified @DakotahTUP @UAPmike @MiddleOfMayhem @OddFlyingThing Absurdity is certainly subjective, no doubt. Still incumbent upon the claimant making the claim to provide for their own case in a persuasive manner backed with sufficient evidence - however outrageous. The more outrageous, the harder it is however, as sub-claims require proof.

2021-10-21T19:39:20+00:00

https://twitter.com/_/status/1451271906007654409

@UAPmike @DakotahTUP @AFSUnidentified @MiddleOfMayhem @OddFlyingThing You can go to the Moon & refute my claim with negating evidence. How do we go about falsifying or verifying Lueâ□□s claim? Itâ□□s irrefutable & only HE can provide sufficient evidence of his claim. The trick here rests with â□□sufficiencyâ□□ - for some his word (anecdote) alone suffices.

2021-10-21T19:27:37+00:00

https://twitter.com/_/status/1451268959538487300

@DakotahTUP @UAPmike @AFSUnidentified @MiddleOfMayhem @OddFlyingThing Claim: I have a house in the Dark Side of the Moon. You can, one day, prove me wrong or not. But it is incumbent upon ME (the claimant) to provide sufficient evidence of the claim that I am making. I am the one trying to persuade. Irrefutable claims are suspect.

2021-10-21T19:24:42+00:00

https://twitter.com/_/status/1451268222162984976

@UAPmike @DakotahTUP @AFSUnidentified @MiddleOfMayhem @OddFlyingThing Absolutely. They donâ□□t have to be dismissed or embraced. But they have to be demonstrated at some point or the claim is null. In philosophy, logic and science the negative is assumed until the positive proven. Until then it is hypothetical and suspect (and maybe still correct).

2021-10-21T19:21:41+00:00

https://twitter.com/_/status/1451267464709480448

@DakotahTUP @UAPmike @AFSUnidentified @MiddleOfMayhem @OddFlyingThing You are right. Claimants making claims must provide proof of their claims. Otherwise it is just a claim and not based on evidence. I think there is a demonstration in â□□absurdity (unfalsifiability) by being absurdâ□□ taking place here.

2021-10-21T19:16:53+00:00

https://twitter.com/_/status/1451266256204611590

@AFSUnidentified @UAPmike @DakotahTUP @MiddleOfMayhem @OddFlyingThing I think he is demonstrating that Lue is not being required to show proof of his claim by making an outrageous counter-claim himself that can also not be negated.

https://twitter.com/_/status/1451263924758794242

@AjayDaGreat I think that the reason some (Intel & Media personalities) are proffering this is because there are people alive who have committed criminal acts that are prosecutable. Thatâ□□s who the amnesty would be for. And, btw, if journalists know of criminal acts they should report on them.

@LiberationTimes @LueElizondo This field of research has always been challenged. Reform measures are always called for in this, or any other field.

Calling for the destruction of a field of study is breathtakingly arrogant and divisive. Right at the worst time to be divisive.

Amazingly out of touch.

@LiberationTimes @LueElizondo Ufology is the study of the mystery, the history and the subculture of UFOs. The field consists of people studying the UFO subject. This niche research field is also a subculture/social group of people.

Considering past historical occurrences, this Intel threat is head-shaking.

@studyofUAPs While not Paperclip the Horten wing designs were certainly influential. There were lots of engineers that worked with them that went on to design for American aviation companies.

@JackFrostvc @dave_beaty A lot of details and names to sort out between 2004 and 2007 when video started showing up on civilian computers (Vision Unlimited). A few folks know names and such, but still many unanswered questions for the public.

@studyofUAPs Iâ□□ve been sharing a lot about his work lately as well over the past few weeks. Very interesting person and unique designs. I saw some of his handiwork during my last visit to Wright-Patterson. Paperclip scientists had a profound and lasting effect upon aviation/aerospace.

@mjbanias @BrandonFugal @BesseRonald @PostDisclosure Thanks for that MJ. I understand. And please do convey to him on my behalf that I seek serious and rigorous investigation

because I believe it is a worthy effort. You know this of me and that this is my intent. We deserve science beyond sensation.

@BrandonFugal @BesseRonald @PostDisclosure Iâ□□m critical of your approach with TV media & disagree with its merits, this shouldnâ□□t be construed as a criticism of you. I am offering my opinions. I am a long-time anomaly researcher who focuses on phenomenological localities & am interested in promoting serious investigation.

@BrandonFugal @PostDisclosure I still contend, respectfully, that your study is compromised by the television exploitation in my opinion. Itâ□□s not a matter of trusting you or not. Cynicism arises due to the fact that this location has a history of manipulation, secret programs, hidden science & exploitation.

@QuinnMan970 Sorry you feel that way (& that you feel that you have to call me names). I can be aggressive at times, yes. This though was a true ironic observation made on my own profile. I did not tag or blast out at Brandon. My comment was about the surreality of my life. Iâ□□m not a bad guy.

@Openmindedskep8 @BrandonFugal @PostDisclosure I agree. I respect him for his interaction with an often critical community. He doesnâ□□t have to engage. And I know he is hearing what we have to say. Hereâ□□s to hoping we get some real answers to our real questions. I believe that localized phenomenological places exist.

@SilvaRecord @RiotSeeds @InvNightSchool @a01744 Iâ□□m not down with the manipulative Disclosure Cult or the Media UFO Grift. And I donâ□□t have a problem calling them out. This is a problem for some. So they attack, because thatâ□□s all they can do. They arenâ□□t doing Ufology, they are promoting their belief-based cause and cult.

Iâ□□m not a celeb Ufotainer or a podcaster or a paid circuit speaker. I engage in field research & am not a pretend researcher. I donâ□□t promote cults.

@kjbrackley @TheUFOTrail @bradjohansson21 We all are. But many will settle for no less than Authority confirming bias. I seek the truth, but I try to push for scientific exploration of WHATEVER those truths may be. Aerial Anomalies do exist, but the way to real discovery is via scientific inquiry, not political decree.

2021-10-19T03:05:42+00:00

https://twitter.com/_/status/1450297076860997632

@TheUFOTrail @bradjohansson21 @kjbrackley That is quite often the case. Which is why many get so emotional and involved with pushing for Disclosure. They seek a Confirmation of their belief system AND a Vindication that denotes that THEY were correct (and superior) with their interpretations and perceived experiences.

@kjbrackley The Undeniable Event (visitation) is a big hope for some. The Big Reveal (political) with a demonstration of ET Reality is the ultimate Disclosurist Fantasy. Either way, the â□□Day of

Disclosureâ□□ is seen as a messianic event leading to a New Age of Humanity.

@AFSUnidentified @BarlowTerry You donâ□□t need the conclusions for a program. The topic itself is the consideration of the merit & the weight of accounts. The impact/influence of the subject makes these topics study-able. Those studying UFOs will study all aspects & pros/cons. This is how we progress. Academia.

2021-10-18T17:09:56+00:00

https://twitter.com/_/status/1450147144535531523

@AFSUnidentified @BarlowTerry The conclusions are as less important as the impact & interpretations. Just like all other subjects worthy of consideration. The UFO subject as a field of inquiry is older than the modern Civil Rights movement. It has had a profound effect upon culture, science & politics. Facts.

2021-10-18T17:04:41+00:00

https://twitter.com/_/status/1450145823900246017

@AFSUnidentified @BarlowTerry The subject has a history, movements, figures, cases, literature, culture, topics & philosophical issues. You most CERTAINLY can put this into a textbook. Several. Extremely multidisciplinary. A baccalaureate program in Science or Arts with associative minors is readily doable.

https://twitter.com/_/status/1450142546689204227

@MrRPRB @BarlowTerry That can be said for several fields of study with degrees. I think there is enough abundance of study in the subject that it can & should if we seek to focus the subject & denote credible expertise. Ufology is a history, a culture & field of inquiry. Worthy of legitimate study.

@InvNightSchool @Lynda_Katerra There are quite a few words/terms/phrases that folks can/do disagree upon in use. To each their own. I personally hate these terms being used in the UFO field for instance: UAP, Experiencer, Disclosure, Consciousness, Quantum, CE4, CE5, CE6, The Phenomenon. Just to name a few.

@BarlowTerry Ufology as a multi-disciplinary field is just as legitimate as comparable fields of study, especially cultural or focused ones like: Womenâ□□s Studies, African-American Studies, Environmental Studies, etc. We need to be writing courses and text-books if the field seeks legitimacy.

@a01744 I got you. The Disclosurist push with DeLonge & Company was still getting its traction in 2017. Activist converts were starting to communicate on social media more actively in 2018 & as TTSA pushed their media products. The hashtag and :prohibited: organizing identifiers came soon after.

@a01744 Itâ□□s been used in different combinations over the years. Most of the UFO research community is not Twitter active though - younger activists are. PURCHASE AGREEMENT FOR THE ACQUISITION OF INFORMATION

This Purchase Agreement ("Agreement") dated this _____ day of _____, 200__, defines a contract between Mutual UFO Network ("MUFON"), with an office located at 155 E. Boardwalk Drive, Ste. 300, Fort Collins, CO 80525, hereinafter referred to as "**Seller**" and Bigelow Aerospace Advanced Space Studies, LLC, ("BAASS"), a Nevada Limited Liability Company with an office located at 4640 S. Eastern Avenue, Las Vegas, Nevada 89119, hereinafter referred to as "**Buyer**".

1.0 This Agreement, all exhibits and other documents incorporated herein by reference, whether or not attached hereto, constitute the complete and exclusive statement of the Agreement between the parties hereto. This Agreement supersedes any previous understanding or agreement between **Seller** and **Buyer** (oral or written) with respect to the subject matter hereof.

2.0 **Engagement of Services: Buyer** is engaging **Seller** to:

a. Purchase field investigation services that provide diversified information covering the topic of aerial phenomenology and any spacecraft, mobile objects, or events that could be considered

http://pbs.twimg.com/media/FB65lqaWEAcmnA5.jpg

Purchase from **Seller** field investigation services and all information and material derived from those services, including, but not limited to: Physical evidence, signature information from detection devices (including third-party witness photographs, film, data from detection devices, ground or air-derived radar data from FAA or other sources, and satellite data), ground disturbance site information and evidence including photographs and other material including effects on humans, foliage, trees, soil, fauna and insects, photographs of casts of footprints, film, any other photographs, electronic information, interview transcripts, any testimony, including recordings (audio, video, stenographic, etc.) of first-hand accounts and observations, as well as any other item that may be recovered from prior, present, and future field investigations, submitted by MUFON which shall be hereinafter referred to as the "**Product** " **Buyer** is only obligated to return original case files, photos and audio recordings to **Seller** providing there is a written agreement to return such property belonging to **Seller** or other established ownerships. Such agreements shall be executed on a case by case basis. **Seller** agrees to provide the labor, resources and equipment necessary to deliver the **Products** to **Buyer** upon the scheduled and terms and described within this Agreement. Strict conformity of the **Product** with all dimensions and specifications described in this Agreement and/or any Exhibit or attachment shall be deemed a material term of this Agreement.

So the television production company does have significant influence over the investigative regimen, consultation choices, and experimental decisions - and are not simply observing as neutral documentarians/observers.

@BrandonFugal @BarlowTerry @TheUfoJoe History Channel is a corporate media entity. Some accept the format faults because they see any media effort as positive promotion for the subject. @WorldProFunTeam @red_pill_junkie I saw it. And I actually interact & chat with Russell Targ occasionally online. I know & talk to several folks in that film every so often. @red_pill_junkie Such proof is subjective. And the percentages are nowhere near 100% in repeatability or accuracy. I agree that there are interesting occurrences and an underlying something worth study, but there is little-to-no science completed on causative mechanics that goes beyond theory.

@UfoSunday @RiotSeeds I think that we well understand that UFOs have been looked at before. Your contention that Congress has recently reconsidered the subject in light of the 90s Roswell report - and have adjusted political strategy due to that inquiry - is not demonstrative.

And yes, some of the witnesses on the TTSA reality TV show have indeed talked to some staffers and committee members. Absolutely. Some members are indeed interested in incursions as they relate to security and safety.

@SicCoP1 @media_skyhigh I believe in UFOs/UAP. They are real. But I think this is moving politically, not because of the UFO/Aliens, but more so because there ARE UAV excursions & it can be positioned as such with necessary cover. I think guys like Rubio are interested in security/safety over science.

@RiotSeeds @a01744 I generally like these guys. I didnâ□□t even think it was aimed at me as I actually engage in field research & have a localized field study. I have studied UFOs for 40 years. How could a podcaster new to the subject after a year assume to suggest I am armchair? I am full-time.

@SicCoP1 Yes, they â□□MANAGED to get briefingsâ□□ before some committees in the following years after lobbying & media hype, but they certainly werenâ□□t compelled by the body of Congress as a result of the AATIP article from 2017. And briefing a few members does not the whole of Congress make.

@SicCoP1 No. I just donâ□□t think that it is correct that Congress as a body requested briefings when the AATIP story broke (2017) as you initially suggested. I think it took a lobbying and media effort, beginning with key committee staffers, over the subsequent years, to get to today.

@SicCoP1 I understand the chronology up to 2021, your initial point was about when the AATIP story broke in 2017. Who asked for briefings then? And there was certainly lobbying done after, Tom & Company promoted these efforts on social media & on their reality TV show.

2021-10-03T03:59:11+00:00

https://twitter.com/_/status/1444512326745526272

@SicCoP1 Did actual members of Congress ASK for briefings? (Who did? When?) Or was it more like targeted staffers were lobbied by TTSA/Mellon and then it went to specific Committees/Members? I donâ□□t think itâ□□s correct to imply that the whole of Congress demanded briefings.

@UAPmike Not too much that speaks to the realities behind UAP causes. The field has been focused on speculation & hype. Perhaps better understanding of atmospheric phenomena (sprites and such)? Necessary debunking of misidentified pics/videos? Revealing of hoaxed cases & con artists? :person_shrugging:

@fringequest @PostDisclosure @SicCoP1 @alicia_carrie @keithkloor Maybe Secret Invisible Psychic Vampire Shape-Shifting Tricksters from Hidden or Interdimensional Civilizations that have influenced Humanity through All Time? Or perhaps just something anomalous in the sky that is simply unidentified?

2021-09-25T18:43:41+00:00

https://twitter.com/_/status/1441835818893590528

@SicCoP1 @alicia_carrie @keithkloor A lot of pseudo-anthropomorphism these days: â□□The Phenomenon is a trickster and plays games with us. It will only reveal itself if it decides to.â□□ Statements like these are increasingly common in the field. Aerial Anomalies are simply unknown occurances, while many imbue intent.

2021-09-25T17:40:54+00:00

https://twitter.com/_/status/1441820017696333825

@SicCoP1 @alicia_carrie @keithkloor Saying â□□THE Phenomenonâ□□ also denotes that it is of a singular cause as opposed to being a variety of anomalous phenomena. This singular view brings with it incommensurability, anthropomorphism, intelligence bias, imbued intent, and even deification in order rectify this.

huntington_strange_travels MY NAZCA ART: THE SPIDER - Cape Girardeau, Missouri. Here is a piece I did a few years back (“Arana” - 2015 20X16) as part of a series (10) demonstrating some of the ancient geoglyphs on the Plains of Nazca, Peru. (Forgive the appropriate cobwebs from years of storage!) Acrylic on canvas with yarn glued to surface for relief (actual lines utilize removal). The lines of the real geoglyphs are over a foot wide. The possibly 2000 year-old lines were discovered, in modern times, after the invention of flight and as viewed from the air. Likely ritual in nature, some have postulated an Alien Influence. @TxUFOSightings Aerial Anomalies are real. The US Military has conceded this. They did so over 70 years ago when they invented the terms UFO (UFOB) & UAP. What the variety of anomalies entail is open to analysis, discussion & debate. For many Disclosure means admission of the coverup of aliens.

@InvNightSchool Perhaps. Possible environmental causes to these specific localized Aerial Anomalies. The study of UFOs/UAP is not an attempt to prove aliens, it is the study of Aerial Anomalies and their causes (UAP). There is, undoubtedly, a variety of causes.

@Edmonstar_7 @The5DRaver Some Probunkers likewise seek to maintain the phenomenological state or promote biased believer interpretations (aliens) despite obvious evidence denoting prosaic explanations. No evidence of a prosaic nature will be considered by those with extreme belief-system mindsets.

Those cases that have no obvious outcome will remain anomalous until proven resolved & accepted by consensus. Many famous encounters will remain unsolved forever. For those we can only measure the evidence, debate, & speculate. Extremes are less likely.

@InvNightSchool @PostDisclosure You should have seen the subject in the 70s. And the 80s. The media hype comes and goes in waves. Government programs as well. What we have had too little of is serious scientific inquiry. Seriously.

@UAPmike @TheUfoJoe Intriguing. So having a different/critical interpretation than your groupthink is cognitive dissonance & demonstrative of bias? Perhaps I could level the same argument back? @PostDisclosure People mistaking media hype for the Disclosure of Truth gets us nowhere closer to actually answering the Truth behind Aerial Anomalies. We already know there are anomalies (and have for 70+ years), we should FOCUS on solving them.

@InvNightSchool @SicCoP1 @UAPmike @rpowell2u That old incommensurability issue of a moving phenomenon. One localized anomaly studied long-term is the way to approach that. Few efforts outside Hessdalen have attempted this. Everyone is too busy doing TV and selling

@SicCoP1 @UAPmike @rpowell2u I have been in this field for over forty years. I can tell you that the subject has been increasingly easier to discuss openly since that time. There has been a cultural movement towards more openness/acceptance occurring for decades. Instant media has helped propel this shift.

2021-09-20T17:08:57+00:00

https://twitter.com/_/status/1440000037707206656

@SicCoP1 @UAPmike @rpowell2u PR certainly CAN help funding if someone is actually engaging in science to fund. Military and political bodies will act (and control) according to THOSE interests, not necessarily in the interest or for the benefit of scientific endeavors. SOLUTIONS will come from the SCIENCE.

2021-09-20T17:01:49+00:00

https://twitter.com/_/status/1439998241978867714

@SicCoP1 @UAPmike @rpowell2u Thatâ□□s certainly debatable. Galileo is getting funding chiefly due to the caliber of the effort (Harvard), not necessarily due to an incursion report. Other efforts have not gained such benefactors (see SkyHub or UAPX). NARCAP has worked the AIAA for years about safety concerns.

2021-09-20T16:53:08+00:00

https://twitter.com/_/status/1439996056499019778

@528vibes @ufouapam @FatherTerra @chrisotis78 Itâ□□s probably related to that specific frequency that a few Italian UFO enthusiasts claim UFOs utilize (see â□□Unidentifiedâ□□ season 1). Itâ□□s extremely sketchy and wholly pseudoscientific, not to mention connected to eccentric contactee claims.

https://twitter.com/_/status/1439983360726687747

@UAPmike @rpowell2u Certainly debatable. Robert (and even I) may even agree that the Nimitz case is compelling so as to spurn some public interest, but it is also very true that the SCU would be doing exactly what it is doing regardless. Aguidilla has probably been more impactful in this circle.

2021-09-20T15:46:43+00:00

https://twitter.com/_/status/1439979342692499458

https://twitter.com/_/status/1439978902559019021

@UAPmike I think that the formation of the SCU by former MUFON leadership had more to do

with Jan Harzanâ□□s handling/lack of leadership in the Ventre Affair & the â□□Secret Space Programâ□□ Symposium rather than any TTSA influence (I know this because I was talking to them during this period).

To be clear, many UFO organizations and high profile "researchers" became shameless enablers of poor investigative practices and sensational yet unverified tales. The most widely accepted reasons for such tactics is those tales put butts in seats. Little concern is typically given to the damage sustained to the credibility of an organization, the genre as a whole, or the consumers.

@fringequest More vocal folks on Twitter, but still a lot of folks on Facebook, maybe even more from the UFO Community. Twitter leans more Disclosure Activists, 2017 Fanboy and media/YouTube personality wonks, while Facebook has more actual UFO researchers/investigators.

@5X5_NEWS @MickWest @JeremyUnidenti1 I even brought it up as an avenue to explore at the SCU-AAPC 2019 with Elizondo in attendance. Of course everyone thinks I am saying the X-43 was the Tic-Tac & dismisses the connection outright as a result. We still donâ□□t have an inventory of ALL craft & pilots for this sequence.

DIRECTOR'S MESSAGE by Walt Andrus

Marvin Taylor and Paul Cerny are the recipients of an accolade from the Mutual UFO Network for their work in sponsoring "A Mother Lode UFO Symposium" on Saturday, October 11, 1980 at the Mother Lode Fairgrounds Main Building in Sonora, California under the auspices of MUFON. The speakers and their subjects were: J. Allen Hynek, Ph.D., "The Coming Age In UFOlogy"; Paul Cerny, "California Report and Ancient Sightings"; Tom Gates, "The Effect of UFOs on Society"; Marvin Taylor, "Society's Reluctance in Accepting UFOs"; Richard Boylan, "The Use and Abuse of Psychology and Hypnosis in UFOlogy"; John Dunlap, "UFO Propulsion Theories"; Phil Haydn-Myer, "International Sightings Since 1947"; Bill Lundgren, "Government Intervention and Response to UFO Phenomena"; Dick Morris, "UFO Movie and Slide Presentation"; and Larry Stanley, "Field Investigator's Practices".

On October 16th, MUFON under the direction of Paul Cerny, Western Regional Director, sponsored a UFO lecture at the Civic Auditorium in Redding, California featuring Dr. J. Allen Hynek and Tom Gates. Between speaking engagements, Dr. Hynek was introduced to steelhead fishing by Mr. Cerny in northern California. Dr. Hynek's public appearances in the "Golden Bear State" under the auspices of MUFON is indicative of the fine cooperation that exists between CUFOS and MUFON.

George D. Fawcett, MUFON State Director for North Carolina since 1974, was honored for his services by the Tar Heel UFO Study Group at the MUFON-NC Fourth Annual Training Conference in Winston-Salem on June 21 and 22, 1980. A tape recorded message, congratulating Mr. Fawcett for his dedicated service from Walt Andrus, was broadcast to the assemblage.

Stanley C. Ferguson, State Section Director for the Dallas, TX metroplex area, was instrumental in organizing a meeting for all MUFON members and interested people on October 15, 1980 at the home of the Reverend G. Neal Hern in Dallas. Its purpose was to organize the field investigators into a cohesive and trained team so as to respond to UFO sighting reports. The formal program consisted of two video taped films, "UFOs Are Real", a documentary co-written by a scientific consultant, Stanton T. Friedman; and Linda Howe's documentary on cattle mutilations, titled "A Strange Harvest". Stan and Neal are to be commended for initiating this activity in order to revitalize this part of the Lone Star State. This also became the occasion to introduce and announce the appointment of G. Neal Hern, an Episcopal Priest, as the new State Director for Texas, replacing William A. Dexter. Neal and his family reside at 4329 Irvin Simmons Drive, Dallas, TX 75229; telephone: (214) 358-4863. This is a culmination of several personal meetings between Rev. Hern and your director over the past year.

The continuity of MUFON's state organizations is maintained through planned transitions by retiring state directors, recommending and cooperating with their successors. Dan R. Wright, a former State Section Director, is succeeding Ron Westrum as State Director for Michigan. Ron will continue his relationship as a Consultant in Sociology and Field Investigator. Dan has his Masters Degree and is professionally a social research analyst. He may be contacted at 113 Sandstone Creek, #17, Grand Ledge, MI 48837; telephone: (517) 627-9497. David Fideler, P. O. Box 1479, Grand Rapids, MI 49501 will continue as Assistant State Director for Michigan.

After serving as State Director of North Carolina since 1974 and State Section Director in both Tennessee and North Carolina starting Sept. 3, 1971, George D. Fawcett has asked to take a less active role due to his business obligations. Henry H. Morton, Jr., 100 Covington St., Wadesboro, NC 28170; telephone (704) 851-9660, a field investigator and amateur radio operator (WA4IAT) has accepted the position of State Director for North Carolina. Henry has been the master of ceremonies for the third and fourth MUFON-NC UFO Training Conferences. Mrs. Gayle C. McBride will continue as Assistant State Director for NC.

As noted in the October issue of the JOURNAL, Stanton T. Friedman and family have moved to 110 Kings College Road, Fredericton, New Brunswick E3B 2E7, Canada. In addition to serving MUFON as a Consultant in Nuclear Physics, Stan has accepted the position of Provincial Director for the Atlantic Provinces, which includes New Brunswick, Nova Scotia, Newfoundland, and Prince Edward Island. Stan has been the most consistent featured speaker at our annual MUFON UFO Symposiums with his first in 1971 in St. Louis, MO.

L.J. Watson, Ph.D., a scientist in physical geography and remote sensing, has volunteered as a Consultant in his field of expertise. Dr. Watson resides at 5621 Terrace Drive, La Crescenta, CA 91214. He specializes in the areas of biogeography, climatology, remote sensing (use of aerial and LANSAT imagery to study the physical environment) and environmental assessment. Arlan K. Andrews, Sr., Sc.D., a Consultant in Mechanical Engineering to MUFON since 1972, is now living at 10140 Guilford Ave., Indianapolis, IN 46280.

Lee Mehciz, 301 North 8th St., DePere, WI 54115 has been reassigned as State Section Director for the Wisconsin counties of Brown, Kewaunee, Door, Outagamie, Calumet and Manitowac, having originally joined MUFON in 1973.

GOD'S NEW POLITICAL PARTY AND A NEW BIRTH OF FREEDOM

"Ladies and Gentlemen: As many of you know, for a period of 7 or 8 months, the Los Angeles Interplanetary Study Group has been playing for thousands of people throughout the greater Los Angeles area, an especially prepared series of 8 tape recordings prepared by the Space People for dissemination to the people of our planet. The tape recording you have just heard is one in that series. In this series of tape recorded messages, the Space People have told us of many things. They have told us about life on Mars and that there is much for us to learn and to do before we can once again become a member of the Universal Confederation of Planets. They have told us of the dangers to our own health and to the health and welfare of future generations, caused by atomic and nuclear bombs and the resultant destructive radiation from "fallout" and atomic waste products. Of the dangers to the continued existance of our earth as a planet through the fumbling, unenlightened attempts of our scientists to explode the hydrogen atom. Of their offer to the heads of our governments to cure the diseases of all our people. Of their contacts with the heads of our governments, soliciting their cooperation in helping our people, and telling them the truth about the actuality of the existance of the Space People, and of the refusal of these governments to cooperate with them. Of the complete disintegration of one of the other planets of our solar system when the people of Maldek refused to listen to reason and continued with their attempts to create more and more terrible weapons of destruction, until they finally exploded the living element hydrogen. Of how their whole planet was blown to bits and its remaining debris now constitutes the asteroid belt and a hazard to interplanetary navigation. Of interplanetary and intergalactic space travel. Of universal government, and of their desires to help us to help ourselves in our time of trial and peril. Of their plan to now contact the sincere people of earth who have the interest of their fellow man foremost in their hearts and who are not pawns of pressure groups and victims of power politics, since our governments refuse to tell the people the truth.

We are fortunate to be living in one of the most wonderful countries on earth. I am grateful for being an American and for the many fine principles of freedom, liberty, justice, and individual initiative for which this great country stands. But our country and our world now face many grave and dangerous problems. Here in America we have been very proud of what we thought was freedom of the press and of our rightful heritage of being well informed. Can ignorant people act either intelligently or wisely in making the right decisions required of them in dealing with the serious problems facing everyone.

How long can a people remain free when the truth is withheld from them? How long can we expect to have government of the people, by the people, and for the people, when the opinions of the masses are controlled by the amount of truth or untruth that a few elect to tell? How long, oh people of earth are we going to tolerate this ever-growing iron curtain of secrecy and untruth to keep us in darkness? How long are members of the press and representatives of the people going to be deceived into believing that keeping our people ignorant is good for them? How long, oh people of earth, are you going to allow the truth to be kept from us when our very lives are at stake? How long will it be before the vital subjects with which we deal are given the study, attention and consideration that they deserve? If present governments and political parties refuse to tell us the truth, perhaps it is time that a new political party be formed that will tell the people the truth; a political party that is founded on universal principles rather than man-made law; a party that concerns itself with describing the solutions to man's problems, instead of the usual practice of berating or smearing the personality or character of the opposing candidate, for lack of any constructive proposals or plans of its own.

The biggest problem facing the people of earth today is how to end the scourge of ever more terrifying and destructive wars. The threat of war and of total and complete annihilation strikes continuous fear and insecurity into the hearts of all the peoples of our planet. Ever since the beginning of our recorded history, man has engaged in continuous and unending warfare against his brothers of earth. In World War I, in the name of peace, man fought the war to end all wars, and we've been at war or preparing for war ever since.

PREPARING FOR WAR IS NO ANSWER TO PEACE----Might not we draw a conclusion from this, that perhaps the way to peace is not in expending the bulk of our time and energy in preparing for war? The solution present leaders offer for peace is to prepare for war. How gullible can people be? Certainly everyone knows that there is no winning a war if all life is lost in the process. Would it not be wiser and perhaps more profitable to spend more time considering proposals for bringing true peace to the earth, rather than spending so

From a controller's original sketch, some saucer movements July 20 on Washington radarscope are diagrammed above. At A, seven blips appeared suddenly. Two moved (B) near White House, one near Capitol. At C, one fled a northwestbound airliner (indicated by row of blips). Later (D) ten flocked at Andrews Field. E illustrates a saucer's right-angle turn compared with curving turn of ordinary aircraft.

@Eyes_OnTheSkies @JazzShaw @SilvaRecord Fact: Lazar is lying about key elements of his own story: especially his phony education. Yet, he gets a pass even though all (even his proponents) now accept that he has lied and continues to lie about this. Absent real evidence, it comes down to credibility - and he has none.

@UAPmike @SilvaRecord Aware of nuances. Been following the story since the 80s. I am also aware of how logic operates with regards to truth: liars donâ□□t always lie, but they are defined as liars when they do. He continues to lie about aspects of his tale (education), making this liarâ□□s tale suspect.

@Deepfryguy76 @Acecentric @UAPmike I have a good idea. Itâ□□s always been there. And itâ□□s why some donâ□□t want to touch the subject or donâ□□t take is seriously. Spooky narrative overshadows aerial anomalies as a legitimate field of inquiry. Throw spooky spy craft in there as

huntington_strange_travels THE LUBBOCK LIGHTS - Lubbock, Texas - First seen on August 25, 1951 by a group of local professors, the strange formation of nocturnal lights known as "The Lubbock Lights" would be seen (and photographed by Carl Hart Jr. on August 30th) by dozens of local witnesses over the following weeks. Reported by the popular media (including LIFE Magazine), and investigated by the US Air Force, the encounters at Lubbock would come to be known as one of the first celebrated mass sightings in UFO history. Skeptics of the period attributed the sightings to a formation of reflective birds. interpretations are problematic in this community. And adding, as I did in the initial response, that native aesthetics have anthropological reasons that are not UFO/alien. And AA Theories encourage exploitation.

@TheUndeadGaucho You know that segments of Ufology promote several Ancient Aliens interpretation of native craniums, right? You didnâ□□t make a post on anthropology, you hashtagged UFO Twitter because you are trying to connect this practice to aliens. Right? Did I miss something? http://pbs.twimg.com/media/E9hbLcvWUAA5eKP.jpg

@TheUndeadGaucho @InvNightSchool And please understand that I did not accuse you of racism. I was adding an interpretation. Skull Elongation theorizing and the Exploitation of Indigenous Remains by Ufotainment is a very real concern in the Ufological Field.

https://twitter.com/_/status/1429987242383183880

@InvNightSchool @TheUndeadGaucho Much of what is considered Ancient Alien Theory is undeniably racist at its base: primitives (of color) could not have done this (built pyramids, rock art, etc.) so they must have had help from an advanced (superior) people (aliens) with white skin.

https://twitter.com/_/status/1429986211951697924

@TheUndeadGaucho Not triggered. Just responding to what you put out there. You are attributing an Indigenous Peopleâ□□s cultural aesthetic to alien influence. You did that. You show a photo of a tribal person of color & argue that it is mimicry through deformation via ETs. Iâ□□m disagreeing.

2021-08-24T01:29:33+00:00

https://twitter.com/_/status/1429979155337261063

@TheUndeadGaucho Cultural practices by Indigenous Peoples are in no way relative to an Extraterrestrial viewpoint. Itâ□□s a form of racism to suggest that cultures that fit oneâ□□s definition of idealized aliens are, in fact, due to aliens. Aesthetics does not denote a confirmation of influence.

huntington_strange_travels THE NEW MASONIC TEMPLE - St. Louis, Missouri. The New Masonic Temple on Lindell Boulevard - one of the coolest-looking buildings in St. Louis. Built in 1926, this limestone, granite and marble structure stands 185 feet tall and houses fourteen levels consisting of six floors and eight mezzanines. A number of floors, along with a nascent theater, were never fully completed or utilized. Quite a few notable Freemason Lodge members have visited or participated in ceremonies over the decades: then-Senator and Mason Grand Master Harry Truman had an office in the Temple and famed pilot Charles Lindbergh was initiated by Rite here prior to his historic 1927 solo Atlantic Crossing. Scenes from the 1981 cult film “Escape from New York” were filmed around the building’s exterior steps and entrance. Actor Ernest Borgnine, who played “Cabbie” in the film, was also an active Mason and participated in ceremonies at the Temple during production. Recognized as an historic landmark in 1976, this building was put on the market in 2015 to the tune of 6 million dollars (it was sold to property developers in 2018). @RiotSeeds Agreed. Highly questionable. There are all kinds of folks hypnotizing each other these days (seeking confirmation bias) & making bank off of it. Some conferences have hypnosis workshops run by people who are not credentialed in the least. Pseudoscience lessens legitimacy efforts.

@Alderley I think it is a military craft meant to do military things. I donâ□□t believe that all Aerial Anomalies are attributable to just one cause. If such a craft has flown, it is quite possible that someone seeing is may have (mis)identified it as an unknown object/craft on occasion.

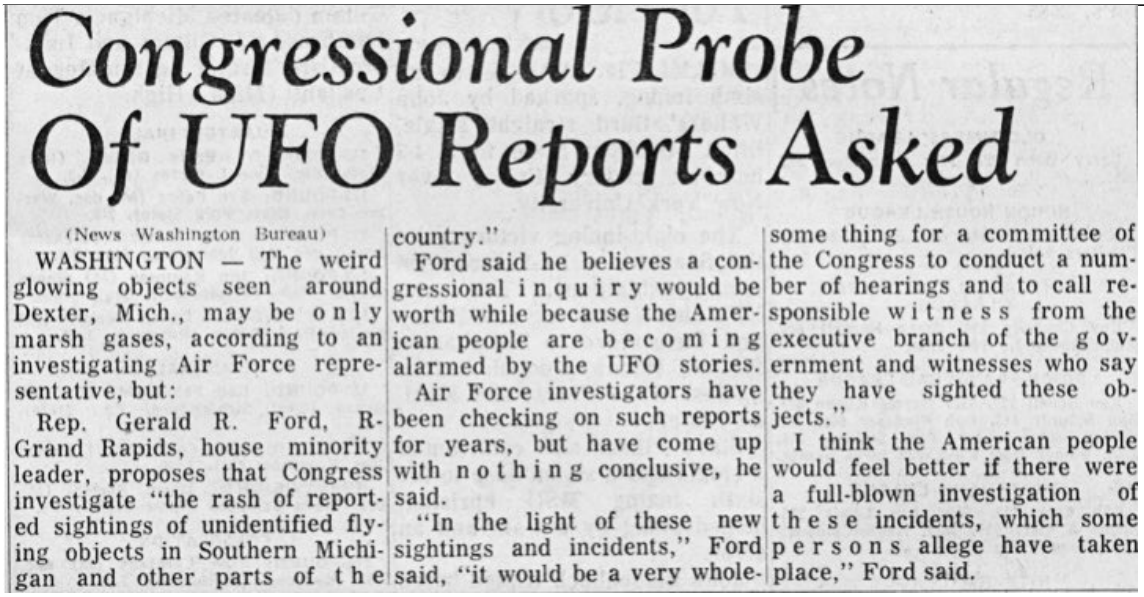
http://pbs.twimg.com/media/E8G3HCLWYAQWZ-D.jpg



Congressional Probe Of UFO Reports Asked

(News Washington Bureau)

WASHINGTON — The weird glowing objects seen around Dexter, Mich., may be only marsh gases, according to an investigating Air Force representative, but:

Rep. Gerald R. Ford, R-Grand Rapids, house minority leader, proposes that Congress investigate "the rash of reported sightings of unidentified flying objects in Southern Michigan and other parts of the country."

Ford said he believes a congressional inquiry would be worth while because the American people are becoming alarmed by the UFO stories.

Air Force investigators have been checking on such reports for years, but have come up with nothing conclusive, he said.

"In the light of these new sightings and incidents," Ford said, "it would be a very wholesome thing for a committee of the Congress to conduct a number of hearings and to call responsible witness from the executive branch of the government and witnesses who say they have sighted these objects."

I think the American people would feel better if there were a full-blown investigation of these incidents, which some persons allege have taken place," Ford said.

Bay State Legislator Thinks So

Is Air Force Hiding UFO Data?

By BULKLEY GRIFFIN
(NEWS Washington Bureau)

WASHINGTON Feb. 17—House Leader John W. McCormack said Friday that he feels the Air Force has not been completely frank with the public regarding the Unidentified Flying Objects.

McCormack made it plain he believes that some of these strange objects constitute something real, something that can't be explained away as familiar objects mistakenly identified.

Suggests Hearings

He suggested the holding of House hearings on the UFOs.

The Air Force has publicly maintained that all the sightings are explainable as familiar objects, such as stars, meteors, balloons and airplanes, that have been mistaken for something extraordinary.

"I feel that the Air Force has not been giving out all the information it has on the Unidentified Flying Objects," the Massachusetts congressman commented.

"These UFOs," said McCormack, speaking of the minority of sightings that can't satisfactorily be explained away, "must be in a very high state of development and of perfection. Whether they come from some other planet we don't know. We can't say they come from another planet till we find life on another planet. On the evidence we have, you can't pinpoint their source.

Can't Disregard

"So many expert witnesses have seen these objects," continued the leader of the House, "that you can't disregard so many unimpeachable sources. Among the experts who insist that some of these objects constitute something real, something unknown, are pilots, other persons with special skills in this area, persons of great responsibility, rational-minded witnesses.

"This is not all imagination. You can't rule out all these sight-

Sportsmen Mystified By Red, White Beams In Sky

CHAMBERLAIN LAKE, Feb. 17 — Sportsmen are still puzzled and mystified by an unusual night sighting here at about 9:30 Thursday evening.

An object with two powerful beams of light, red and white, was seen from Nugent's Airport and Sporting Camps and appeared to be hanging in mid-air at treetop level.

Sportsmen watched the object for nearly five minutes before it appeared to fall to earth and spend itself.

Allen O. Nugent, who has lived on the shores of Chamberlain Lake, pinpointed the sighting in the general area of Donnelly Point and the tramway, leading in the direction of Allagash Stream and Mountain.

(Editor's Note: *The United States Air Force has never denied the possibility that some form of life may exist on other planets. Nor has it denied that there may exist a capability for interplanetary travel. The Air Force has only said that after 19 years of investigation and almost 11,108 reported sightings, it does not have a single photograph, film, graph or sample of any vehicle of unknown origin. Nor has it ever had.*

These facts should be understood by every member of the Air Force. For this reason, THE AIRMAN *asked Maj. George W. Ogles, presently assigned to the Community Relations Division, Office of Information, Office of the Secretary of the Air Force, to prepare an article that simply "tells the truth about unidentified flying objects and what the US Air Force knows about them." He has done this admirably, and* THE AIRMAN *will present his article in two installments. This is the first*).

WHEN the number of unidentified flying object sightings reported to the United States Air Force during 1966 were finally tallied, the total came to 1,060, an increase of 173 over the 1965 total of 887.

The figures were not surprising, because the trend has been rising steadily over the last four years. There were 399 reported sightings in 1963, and 562 in 1964. And indications are that there is little likelihood the number of flying saucer sightings will diminish. Flying saucer cartoons and jokes abound throughout the na-

PROJECT 10073 RECORD CARD

1. DATE: 16 November 1956

2. LOCATION: Fox River Grove, Illinois

3. DATE-TIME GROUP: Local 1835; GMT 17/0035Z

4. TYPE OF OBSERVATION: ☒ Ground-Visual ☐ Ground-Radar ☐ Air-Visual ☐ Air-Intercept Radar

5. PHOTOS: ☐ Yes ☒ No

6. SOURCE: School Boy (14 years old)

7. LENGTH OF OBSERVATION: 7½ minutes

8. NUMBER OF OBJECTS: one

9. COURSE: SSE to NNE

10. BRIEF SUMMARY OF SIGHTING: Object like a bright dot observed. Appeared to be dull red. First round in shape, then changed into cigar shape. Three objects, much smaller and round. Appeared and seemed to converge on it.

11. COMMENTS: UFO sighting location is adjacent to one of the heaviest air traffics in US and under NW approach to Chicago which is approx 25 miles away. Certain inconsistencies in source's rpt. States size of dot; later discusses instruments, engines & smaller craft attached to it. Undoubtedly observed some obj, but over-active imagination. Probable a/c sighting.

12. CONCLUSIONS: ☐ Was Balloon ☐ Probably Balloon ☐ Possibly Balloon ☐ Was Aircraft ☒ Probably Aircraft ☐ Possibly Aircraft ☐ Was Astronomical ☐ Probably Astronomical ☐ Possibly Astronomical ☐ Other ☐ Insufficient Data for Evaluation ☐ Unknown

@MustelaVolantes @inf3rence @zcichy Itâ□□s is an obstacle to Science, not a barrier. To surrender to an unproven theory without evidence is a surrender to faith/religion/magic where only belief is required. I want to know, not just believe. I want to know the real phenomena, not

huntington_strange_travels MANTELL UFO CHASE CRASH SITE - Franklin, Kentucky. At the center of the photo, between the pole and the fence, is where Kentucky Air National Guard pilot and war veteran Captain Thomas F. Mantell's F-51D Mustang (C Flight, 165th Fighter Squadron - KANG) fighter plane crashed on January 7th, 1948 after Mantell lost consciousness during a sanctioned high-altitude chase of a silvery UFO seen traversing the Kentucky skies that day. He died here on impact at 3:18 p.m. - the time at which his watch had stopped. Air Force investigators subsequently claimed that Mantell most likely crashed because he got confused by Venus (or a balloon) and then blacked out from lack of air. Some have contended that he had an encounter with a malevolent Alien Craft and he was shot down/zapped. Now a classic case in UFO Lore, an historical marker stands in Franklin to commemorate this tragic event. @TheUfoJoe There was a plaid shirt (read Scottish Masons) that Old Navy (read NASA/Illuminati) had on sale which had a price that was numerically significant in his mind & related to Cydonian geometry (read Face in Mars). Therefore secret meeting code. I talked to him once: total believer.

@LuisCay99862776 I specialize in visiting & documenting phenomenological hotspots (localized). Field studies should be conducted at places where there is less transience & abundant reports of anomalies. Monitored instrumented arrays to determine long-term patterns to start. Experimental next.

2021-07-05T07:15:25+00:00

https://twitter.com/_/status/1411946802207772680

@LuisCay99862776 We need competing projects. Instrumented arrays at hotspots would be great for programmatic efforts. The whole field needs reform first, though. We need a working conference on standards, projects and goals. I lobbied for that when I attended the SCU Conference in Huntsville.

https://twitter.com/_/status/1411945780240338949

@LuisCay99862776 Everyone is too busy trying to do TV shows, not Science. Tech is cheap now & efforts like SkyHub & SCU are lending hope for long-term scientific inquiry. The celebrity lure is appealing & reality tropism is easy, so challenges await. Ultimately, we need evidence though. Period.:telescope:

https://twitter.com/_/status/1411934627078549509

@LuisCay99862776 We need more long-term, instrumented research effort like those at Hessdalen. Where there are real and measurable atmospheric/geological phenomena. Some localized anomalies may prove to be natural and a discovery for scientific knowledge.

2021-07-05T06:23:43+00:00

https://twitter.com/_/status/1411933791971590146

@LuisCay99862776 I see the problem as a multitude of aerial anomalies/problems that need to be solved, not a singular causal enigma/Phenomenon. Each case should be investigated on its own merits & conclusions reached based on the evidence. There may be as many causes as cases. Most are mundane.

2021-07-05T06:17:51+00:00

https://twitter.com/_/status/1411932318810451969

@LuisCay99862776 @TorisCleo Great question. And who is gathering any such evidence scientifically? Largely untrained amateurs doing so reactively and in a biased manner. Leaders in the field are more focused on entertainment careers rather than promoting legitimate scientific inquiry/evidence.

2021-07-05T06:13:51+00:00

https://twitter.com/_/status/1411931308993961987

@LuisCay99862776 There has been an exploitative fix in the culture since the beginning. Aerial Anomalies are real. Real scientific efforts and reform have been little attempted. Money and cash and fame opts out the hard work needed to establish scientific legitimacy. Pseudoscience reigns.

https://twitter.com/_/status/1411929137586003969

@TorisCleo Incommensurability is an issue. Transient phenomena is an issue. These are problems/challenges for evidence gathering methodology. Localizing phenomena for long-term, programmatic, instrumented study is the way to go. Very few in the field are engaging in ANY actual science.

2021-07-05T06:01:40+00:00

https://twitter.com/_/status/1411928245721866242

@TorisCleo Agreed. And exploiters as well. Left MUFON decades ago. I seek professional reform of the field and have lobbied for it for many years.

2021-07-05T05:59:39+00:00

https://twitter.com/_/status/1411927737166618626

@TorisCleo Not naive or handled. And there is no singular enigma, but a variety of phenomena that need to be explored and discovered. Some will undoubtedly never be explained fully. Efforts to investigate should be scientific in nature, as we are dealing with scientific anomalies.

2021-07-05T05:51:37+00:00

https://twitter.com/_/status/1411925714404847619

@TorisCleo Since 1978. APRO. MUFON. Iâ□□m more interested in investigating UFOs than in Disclosure Drama that goes nowhere or manipulative UFO cultism that promotes personalities for profits. I believe that the field needs to get serious & scientifically study UFOs if it seeks legitimacy.

@paulkimballfilm @Phenomix1 Great opportunity to totally make the subject look ridiculous and destroy its credible merits by putting Ancient Aliens stars and conspiracy promoters before a televised Committee. Which is what will probably happen. UFO stars want the gig in any case because of its $ value. :flying_saucer::money_bag:

@JasonColavito And yes, I know the Hills came earlier, but when the TV movie docu-drama aired in the 70s, The Enquirer did a lot of promo for the event (which was widely viewed and propelled the story into the culture more than the book account did).

@JasonColavito Many famous cases broke through into pop culture via The Enquirer in the 70s/80s: The Hills, Travis Walton, Coyne, Stanford Abduction, Betz Sphere and many others. Serious researchers got involved when Blue Ribbon Panel was organized/awards given 4 top cases. Big influencer then.

This is all one lecture on Cape Girardeau UFO History, btw. All of these are connected to or nearby my town. Plenty to talk about and more than enough to fill a lecture!

@UfoWatchdog @Go_Kick_Rocks88 @BrandonFugal I say about 63.23% cringe (a completely made up percentage, btw. :winking_face:). There are anomalies probably worthy of real and sustained scientific investigation at that location. They deserve programmatic and sustained (open) observation not reactive gimmickry, imo.

https://twitter.com/_/status/1403198616626466816

@quantum_prophet @Go_Kick_Rocks88 @UfoWatchdog @BrandonFugal It certainly can make a difference if a professional peer review science paper on anomalies was presented to academia/science foundations in order to work to change paradigms. Little to none of this has been done in actuality. Some just prefer it to be all entertainment, I guess.

@Go_Kick_Rocks88 @UfoWatchdog @BrandonFugal The problem with sensational TV though is that the experiments and results get skewed for television consumption. It is devised for an audience - which is why you see so many Ancient Aliens performers appearing. If they have

results they should write them up and present them.

@PostDisclosure Iâ□□m a Buddhist. Religious Belief requires no evidence beyond Faith. Science though requires Evidence beyond an individualâ□□s personal Faith (or account) in accepting a Theory as factual. To do so without evidence is an Act of Faith - a religious Act of Belief.

UFOLOGICAL CHALLENGE: For the long-term benefit of UFO/UAP Research, the UFO Community should CHALLENGE UFO event organizers, TV/doc producers and celebrity circuit speakers to donate a portion (10%) of their PROFITS to actual Scientific UFO Research. History Channel, Alien Con, Contact in the Desert, Prometheus Ent., etc., and other entities and celebrities profiting off of the community should GIVE BACK by helping fund scientific field research efforts being developed by groups like the SCU or Sky Hub. Exopolitical Intrigue and Media Ufotainment aside, serious SCIENTIFIC FIELD RESEARCH of anomalies is what needs to be done to move the subject forward and provide actual data which can help unravel the real mysteries behind Aerial Anomalies.

Please share or copy if you agree that this is reasonable!

@mesolithicguy You asked â□□so basically anyone in TVâ□□ and I answered with my critique of reality TV and then followed up by demonstrating its detrimental aspect by mentioning the most successful UFO/Paranormal show currently on the air. Many of Ufologyâ□□s fave UFO celebs appear on it.

@mesolithicguy No. Just sensationalized reality TV that exploits the subject and lessens credibility. Goes for Ghost Hunting and Bigfoot as well. Manipulative reality shows hurt these subjects & only benefits networks/production companies/celebrities. Zac Bagans hurts serious investigation.

2021-06-10T20:29:44+00:00

https://twitter.com/_/status/1403087004787740674

@mesolithicguy Then there are appearances and conventions and the dollars from those. Yeah, Brandon doesnâ□□t need the cash, but it all is a draw to the property (and its value) and a vanity piece that some folks of wealth would love to have. Celebrities visit there now. He digs his role.

@mesolithicguy And I think that YOU forget that the location is the setting for a reality TV show! Ask the many who have appeared on the program if they have/had contracts and agents or not. Keeping it real - unlike the network cable channel Entertainment Companies involved. Sorry.

@InvisibleColege @realityseaker Science operates by a different standard than courts of law. Courts require the persuading/convincing of lay people through a preponderance of the evidence. Science requires testable evidence in support of a theory to be presented to expert peers for critique or support.

2021-06-10T05:56:23+00:00

https://twitter.com/_/status/1402867219978244097

@UfoSunday Some things are certainly subjective. But I think most know what engaging in science means. What professional standards, conduct and discourse are. What exploitation, sensationalism, manipulation and profiteering looks like. How a cult operates and controls. What a lie/hoax is.

2021-06-10T05:47:35+00:00

2021-06-10T05:31:08+00:00

https://twitter.com/_/status/1402860863674097666

@realityseaker Science waits for the evidence to be presented in a professional way that goes beyond a reality TV show. It still waits. The way to legitimacy and proving a theory is by engaging in science. To do otherwise is to not. Being anti-science is not the way to convince Science.

@UfoWatchdog Aerial Anomalies are worthy of serious scientific study. Ufology has not been serious about doing that much. If at all. There is hope, though, with SkyHub and SCU. I am hopeful. :flying_saucer::telescope:

@UfoWatchdog Iâ□□ve been at it since the late 70s. We need to fulfill Hynekâ□□s promise by promoting better method, professionalism and engaging the Establishment instead of attacking it. Establishment Science has avoided the topic because it is a pseudo-scientific field filled with exploitation.

2021-06-10T05:16:06+00:00

https://twitter.com/_/status/1402857079786946566

@realityseaker UFOLOGY is not rising to the challenge to figure it out. It stops at the narrative - and exploits it. It presents nothing to the establishment which needs to be convinced. It doesnâ□□t engage in science or engage Science. The way to change a paradigm is to engage it with evidence.

2021-06-10T05:07:08+00:00

https://twitter.com/_/status/1402854825390399488

@realityseaker I think Ufology has failed. Too few people actually doing Science. Can you name any long-term, sustained programs? Maybe Hessdalen, but thatâ□□s it. Where are the peer-review papers? Most are busy doing TV and Conventions. Ufology has failed by not engaging Science. Ufology fail.

2021-06-10T04:58:36+00:00

https://twitter.com/_/status/1402852675667083264

@realityseaker Testimony in Science should be the BEGINNING of investigation, not the end. Science cannot just take someoneâ□□s word for it. It cannot rest on anecdote. Science needs evidence. PEOPLE can choose to believe or not, however - if the story seems valid/the teller convincing.

@Akam1129 @EndUap That Five Continents Forum appears to be pretty much a Russian effort as it was held in Moscow when it convened. I donâ□□t believe it was a UN-sponsored event and was a civilian effort with many goals, including a UN effort. Looks to be more like a UFO Conference rather than UN.

@Spacecowboy781 Testimony and photographs, soft evidence, will not work in Science as they will in a court. A postulation needs to be full-proof due to hard and testable evidence, not

prepondered over for a public persuasion.

@Spacecowboy781 If one is claiming to have a Venusian Cat (an extraordinary claim), one needs to produce a cat for testing and it needs to be demonstrated that it is from Venus (extraordinary evidence). In law, evidence sufficiency is a matter of lay group persuasion - Science is more demanding.

@Rett94291220 @mesolithicguy *The Phenomenon

2021-06-09T13:10:27+00:00

https://twitter.com/_/status/1402614067425075207

@Rett94291220 @mesolithicguy Aerial Anomalies are simply anomalous (out of place) things seen in the sky. They can be complicated and â□□phenomenologicalâ□□ or they can be unidentified â□□objects.â□□ Singular (unifying) interpretations stem from issues of incommensurability that arise from problematic investigation.

2021-06-09T13:02:26+00:00

https://twitter.com/_/status/1402612050187202560

@Rett94291220 @mesolithicguy I prefer to use â□□phenomenaâ□□ if I do because UFOs are derived from a variety of plural sources (Aerial Anomalies is most accurate). I avoid â□□The Phenomenonâ□□ because it is usually loaded with a biased, pseudo-religious deification: â□□The Phenomenon is sending me a message.â□□

2021-06-09T12:56:39+00:00

https://twitter.com/_/status/1402610595531264005

@Rett94291220 @mesolithicguy â□□Phenomenonâ□□ in its simplest sense means â□□mysteryâ□□ or â□□unknown.â□□ It is often misused: as in the redundant â□□UAP.â□□ In Science, something can also b â□□phenomenologicalâ□□ - a rare occurring â□□mechanismâ□□ due to unusual circumstances.

2021-06-09T12:47:22+00:00

https://twitter.com/_/status/1402608255822598145

@Rett94291220 @mesolithicguy â□□Phenomenonâ□□ is singular and â□□phenomenaâ□□ plural. Deper on if you believe in a singular causation or a variety. Some, in a biased fashion, use an anthropromorphized â□□The Phenomenaâ□□ to denote a singular source â□□beingâ□□ with intelligent attributes and magical trickster qualities.

@blackvaultcom @GrantCameron Would the barrage balloon be a leftover from Japanese defenses? Kinda seams pointless trying to protect Nagasaki from barrage after a nuke. And

would the Navy, likewise, put up a barrage balloon after taking the city? And was the US even in control of this area days after?

@JackHelliquinn Those look to be common Chinese lanterns, or sky lanterns. Think mini-hot air balloons. The light/fire goes off when the wick burns out. They travel with the direction of the wind. They go out (disappear) in the order of being placed aloft.

Ufology provides an "ego trip" for those who establish themselves as the local UFO expert and thus brighten an otherwise ignored and undistinguished life. They are eager to lecture before local clubs, appear on local radio and television, and give out newspaper interviews. When they are heavily and publicly ridiculed--which is often--they accept this as part of the great conspiracy against the truth.

@ddeanjohnson @ufo_classes @JasonColavito Absolutely. Right up to the point it becomes illegal lobbying or influence peddling. Not saying thatâ□□s what happened, but worth considering. Mellon did work for a company advocating for UFO policy/spending while also lobbying Congress for that. His influence opening the doors.

2021-06-06T02:05:46+00:00

https://twitter.com/_/status/1401359628340957188

@ddeanjohnson @ufo_classes @JasonColavito Yep. It gets tricky though when you are an ex-official and you are â□□lobbyingâ□□ elected/appointed officials on behalf of an entity/industry with the intent of influencing/changing policy that may benefit the lobbyist or the interests he/she represents. Especially if $ is involved.

@ddeanjohnson @ufo_classes @JasonColavito You, of course, are right. And this IS Twitter and not a court of law where a case is being presented/defended. Great questions for us to look into, though - well worth exploring and considering. Motivations of influence are just as important as the actions/results of influence.

@DrPatHistorian We can go back even further in the 1800s with such claims if we are open to interpreting â□□encountersâ□□ with â□□angels from the skyâ□□ as visitations by Extraterrestrials. The Mormons hold that their â□□prophetsâ□□ were visited and given messages by such Beings from the Heavens.

@RyanSprague51 We are in a drone Cold War arms race and have been for several decades.

Testing defenses and engaging in surveillance via remote flyers is how this is done now in the 21st Century. Countering and logging observational occurrences and incursions is what much of this is about.

This shadow effect seems profound, but it does nothing to actually explain any Aerial Anomalies or their causal mechanisms.

@las_i_tood @ExogenesisHH Motivating the public/politicians to WANT drone interception and constant surveillance are certainly some of the goals. Easier to push/fund if folks demand it, right? And the UFO topic/narrative/culture is easy to manipulate by those interested in promoting this.

@ResearchUap @dave_beaty Thatâ□□s when, if you disagree with an analysis/interpretation or a competing theory, you offer your own analysis - or critique the competing analysis/interpretation. Not all interpretations are equally valid - the validity of a contention is measured by the weight of the argument.

Not ALL UFOs are real.
MOST are explainable.
That which is debunkable SHOULD be debunked.
That which endures is WORTHY of consideration.

@mesolithicguy @JayFig78 If you think that CE-5 psychic manifestation rituals are Scientific, then perhaps its time for a refresher course on what should be deemed a science-based methodological program of critical inquiry.

@AWaifSoul @PostDisclosure @dave_beaty How about we take each anomaly on its own and stop imbuing what is a scientific problem with a biased anthropomorphic quality with a deified intent? There IS NO singular â□□The Phenomenonâ□□ for ALL anomalous events - just mysterious events that warrant truthful solutions.

2021-05-10T02:30:58+00:00

https://twitter.com/_/status/1391581500467040260

@dave_beaty @ExogenesisHH @PostDisclosure And it needs to do this in Academia, not via reality TV or Alien Cosplay Conferences meant to sway public opinion. Big problem though: the field is largely amateurs with very few professional researchers actually conducting any actual

research. We need more Science and less PR.

2021-05-10T02:23:06+00:00

https://twitter.com/_/status/1391579521904783364

@dave_beaty @ExogenesisHH @PostDisclosure Real academia sees these phony efforts and pseudo-scientific approaches and gets turned off by the whole of the field. Heck, I do and lâ□□m in it! The field needs serious reform away from exploitation and some serious promotion of the philosophical legitimacy of Anomaly Studies.

2021-05-10T02:16:44+00:00

https://twitter.com/_/status/1391577917055021058

@ExogenesisHH @dave_beaty @PostDisclosure They are marketed commercially as programmatic scientific efforts, when in actuality their science is sorely lacking and their results are never presented professionally beyond manipulative sensational reality television. Fraud science television hurts the subjectâ□□s credibility.

2021-05-10T02:11:01+00:00

https://twitter.com/_/status/1391576479478304769

@ExogenesisHH @dave_beaty @PostDisclosure (2/2) And this is largely because very few in the study field are actually investigating anomalies. Most are focused on the UFO Entertainment Industry, the Celebrity Speaking Circuit, and endless media cycle punditry. Exploitative rabbit holes that hamper legitimate progress.

2021-05-10T02:05:23+00:00

https://twitter.com/_/status/1391575060960403456

@ExogenesisHH @dave_beaty @PostDisclosure (1/2) Atmospheric Anomalies is part of the equation - and potential discovery science - I think. Ultimately, I think Mainstream Academia avoids the subject because it is never presented to academia in a professional-peer fashion derived from programmatic study.

@AFSUnidentified @SilvaRecord Not a fan of Church and Wilcock and the Contact Con Fests, btw. They are exploiters that hurt this field of legitimate study. And what do you mean â□□we killed Ufology?â□□ What does that even mean? You killed the research field, the conference circuit, the subculture, or what?

@AFSUnidentified @SilvaRecord LOL. This all is still the same Ufology as itâ□□s always been! Yes itâ□□s in desperate need of scientific reform and refocus towards evidence, but the field has always been replete with opportunists and sensationalism - with Disclosure always being just around the corner. Welcome.

of Project Grudge (see PROJECTS SIGN AND GRUDGE). Edward J. Ruppelt was the intelligence officer assigned to fulfill the general's request. As a result of Ruppelt's review, Project Grudge was revitalized with Ruppelt as its chief. On November 30, 1951, Project Grudge issued the first of twelve reports which were to span the next two years, during which time the project code name was changed to "Blue Book." As part of the overall upgrading of the UFO-report research carried out by PROJECT BLUE BOOK, Ruppelt initiated a contract with a research organization that was supposed to provide him with consultants in astronomy, physics, mathematics, psychology, et cetera. Although Ruppelt refers to this organization as Project Bear, because the organization did not wish to be publicly identified with UFO research, it is now known that it was the Battelle Memorial Institute, which does a considerable amount of highly classified government sponsored research. Its assignment was to determine if anything in the air "represented technological developments not known to this country" and to build a model of a "FLYING SAUCER" from the data. The researchers reported that they could neither devise a model of a flying saucer nor find physical evidence that they exist; they found no trends in the data. David SAUNDERS, later a member of the Colorado group (see COLORADO UFO PROJECT) that produced the CONDON REPORT, states that whoever performed the study did it in such a way as to minimize the possibility of finding something significant.

> This $100,000 taxpayer-financed report was issued in May of 1955 and purports to be a sophisticated statistical treatment of all the data in the files up through late 1952, a period when the Air Force was still getting much interesting input. The report contains more than 200 tables filled with numbers. It also makes use of an elementary statistic known as chi-square to lend credence to its primary argument. I was impressed by the fact that not even the formula used for calculating chi-square was correct. And with remarkable regularity, whoever did these statistics combined the categories so as to minimize his chances of finding anything significant. (See *UFOs? Yes!*, 1968.)

Again the Air Force had misjudged public response. Instead of quelling the controversy it gave it more fuel, especially when it was criticized by Ruppelt himself. The group stated that "the probability that any of the UNKNOWNS considered in this study are 'flying saucers' is concluded to be extremely small, since the most complete and reliable reports from the present data . . . conclusively failed to reveal even a rough model. . . ." Ruppelt countered that the Institute had not been asked to explain the unidentified reports or solve the UFO problem, but only to determine if unknown technological developments were evident in their movements.

Nevertheless, the Air Force used Special Report #14 as the foundation of their official stance for many years, for they could still say that the issue had been studied scientifically and the conclusion was drawn that UFOs were not extraterrestrial.

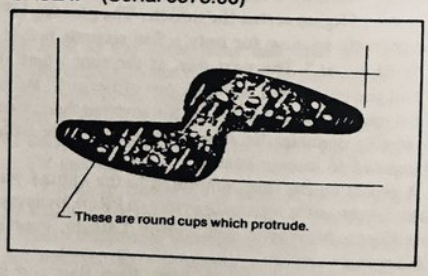
Special Report #14 states that out of 3,201 UFO reports examined, only twelve were found to contain sufficiently detailed descriptions to be of any practical use. Using these twelve cases—which the Air Force calls the "cream of the crop"—widely varying and sometimes weird sketches were made up. In Report #14 they are shown as proof that no one has agreed on the appearance of the flying saucers.

In the following columns, these twelve cases and sketches are given exactly as shown in Special Report #14.

CASE I. (Serial 0573.00)

Two men employed by a rug-cleaning firm were driving across a bridge at 0955 hours on July 29, 1948, when they saw an object glide across the road a few hundred feet in front of them. It was shiny and metallic in construction, about 6 to 8 feet long and 2 feet wide. It was in a flat glide path at an altitude of about 30 feet and in a moderate turn to the left. It was seen for only a few seconds and apparently went down in a wooded area, although no trace of it was found.

CASE I. (Serial 0573.00)



CASE II. (Serial 4508.00)

A naval aviation student, his wife, and several others were at a drive-in movie from 2115 to 2240 hours on April 20, 1952, during which time they saw several groups of objects fly over. There were from two to nine objects in a group and there were about 20 groups. The groups of objects flew in a straight line except for some changes in direction accomplished in a manner like any standard aircraft turn.

The objects were shaped like conventional aircraft. The unaccountable feature of the objects was that each had a red glow surrounding it and was glowing itself, although it was a cloudless night.

vines appeared to have been burned, although there was no evidence of flame.

Local residents seemed inclined to attribute the "burn" to a "fireball" or to lightning. Mr. Barr did not rule out lighting entirely, and when interviewed, he said that he had not informed authorities at first because he was skeptical. Pat Barr stated that she was convinced the object she had seen caused the damage to the bean crop and that it was an "air-flying object from outer space." It "wasn't anything earthly," she said.

Mr. Barr told interviewers that he "would hesitate to guess" at the object's identity or the cause of the scar on the field, but he did say that he felt it was "something unusual—I'll put it that way."

@SomewhereSkies @MicahHanks @DrAdamKehoe Technology is simply a method of doing something, not just manufactured mechanisms used as tools. The opposable thumb is a technology. Language is tech. @UFOS8N These data points also tend to be collected via a 1-800 phone reporting system - with which ANYONE can call with a sighting CLAIM and have it become part of the statistical data - unverified. Generally, only a few â□□interestingâ□□ cases are actually investigated by UFO groups.

2020-11-17T23:36:42+00:00

https://twitter.com/_/status/1328844541957378049

@UFOS8N Such raw report metadata (from NUFORC or MUFON), also tends to not be expunged of explained/questionable reports and most are not followed up on investigatorially - so the data is going to be skewed with a large volume of claimed sightings being accepted as legitimate.

@UFOS8N Raw reports (sighting claims) I believe. Most not investigated/vetted/verified - meaning that MOST, statistically, are likely mundane misidentifications (and some hoaxes). They are also not likely to be equally compelling as each will have differing degrees of credibility.

@tomdelonge @TTSAcademy There is still time to receive knowledge. Try reading as much Philosophy of Science texts as you can. The answers lie in critical thinking coupled with scientific thought and method. Improve your paradigm.

@WBBosley Some consider cognitive dissonance to be an fatal ailment when it comes conspiracies. It isnâ□□t. Maybe in a few. But, if you live long enough, you may come to realized that views on things CHANGE if you keep an open mind and apply CRITICAL THINKING. We fool OURSELVES in many ways.

@SicCoP1 @PostDisclosure Indeed. Still waiting to see that radar data, though. Yes, military observers seemingly make better witnesses. But we have had those since the foo-fighter era and Mantell to Fravor and others. Even had astronauts. There is Phenomena to investigate - but little by way of answers.

@PostDisclosure I appreciate that you keep your imminent disclosure hopes up, but we have been down the â□□officialdomâ□□ (appeal to authority) road before over the past 70+ years. Hopefully you wonâ□□t be too disappointed with the results of lobbying efforts, but you should be prepared to be.

@PostDisclosure They may also reach conclusions of a prosaic nature or simply state that it is of little defense concern. They could also just keep the report closed to the Committee and not release any findings or logistics of study publicly. They are not mandated to disclose anything.

@PostDisclosure True to the UAPTF not being Blue Book. This newly-formed Task Force is mandated to issue itâ□□s report to the Intelligence Committee next summer and will be less-encompassing than any previous long-term study. It will likely focus on anomalous incursion solely relative to defense.

2020-08-21T20:16:41+00:00

https://twitter.com/_/status/1296904076463091712

@PostDisclosure To those that think answers are to be found in secret files, likely see progress. However, the mystery remains without much scientific inquiry - regardless of exo-politics. The assumption that groups that promote field observation would not have occurred without TTSA is

wrong.

2020-08-21T20:06:25+00:00

https://twitter.com/_/status/1296901492453056518

@PostDisclosure And they are attempting to engage in actual science because MUFON and TTSA arenâ□□t. Right? Sure, media can encourage, but then itâ□□s up to actual programs to do actual science. UFODATA, UFODAP, SCU and others have come about not because of entertainment efforts, but despite them.

2020-08-21T19:55:04+00:00

https://twitter.com/_/status/1296898636673097728

@PostDisclosure Fascinating. Itâ□□s almost as if you think that UFO research didnâ□□t exist prior to 3 years ago! Those of us pushing for actual observational science have been doing so for DECADES. Itâ□□s coming about NOW because we have better/cheaper tech, and are tired of nowhere media approaches.

@LueElizondo Welcome! Best of luck to you. Talked to you in Hunstvillle last year. And Iâ□□ll offer the same encouragement as when we met: MORE SCIENCE PLEASE! The anomalies wait to be scientifically studied!

2020-08-21T19:41:17+00:00

https://twitter.com/_/status/1296895166968627213

@PostDisclosure But MUFON and TTSA arenâ□□t doing any observational field science are they? They are devoted to UFO entertainment media. Thus, the NEED for SkyHub and others to do actual science. When I met Lue I tried to encourage observational science. Not their focus. Their agenda is UFO PR.

2020-08-21T19:27:22+00:00

https://twitter.com/_/status/1296891662233481218

@PostDisclosure What is needed is more forensic EVIDENCE. More civilian science groups focused on Anomalous Science (like SkyHub and SCU) have come about largely because the ball has been dropped by other groups (like MUFON and TTSA) that have their focus on media rather than scientific inquiry.

Press Release to the Media on UFOs.

Sightings remain Unexplained.

High-Ranking Member of the U.S. Congress takes interest.

Commissioned Scientific UFO Study Report to be made public.

Possible Congressional Hearings on UFOs to result.

1966. http://pbs.twimg.com/media/EdypTZtXsAAklLl.jpg

CONGRESSMAN
GERALD R. FORD
HOUSE REPUBLICAN LEADER

NEWS RELEASE

FOR RELEASE ON THURSDAY, P.M.,
APRIL 21, 1966

STATEMENT BY HOUSE MINORITY LEADER GERALD R. FORD, R-MICHIGAN.

The Air Force has informed me it is arranging for a study by high-caliber scientists of some of the UFO sightings which have never been explained.

This study will be placed under contract soon after July 1, start of the new fiscal year. It will be carried out by a university which has no close ties with the Air Force so that the findings will be completely objective, Air Force officials tell me.

Those people engaged in the study will be high-caliber scientists who have never taken a position on UFO's, the Air Force said. It will be made clear to them that they are not being hired to come up with findings in support of previous Air Force statements regarding UFO's, I am informed.

The Air Force said there is too much effort involved to ask these scientists to make this study without pay.

The report will definitely be made public, the Air Force assured me. The whole purpose of the study is to clear the air as far as the public is concerned.

This, of course, was my purpose in recently requesting that public hearings on the subject of UFO's be conducted by either the House Armed Services Committee or the House Science and Astronautics Committee.

It was as a result of my call for a congressional investigation that the Air Force now is arranging for a study of UFO's by topflight scientists not connected in any way with the Air Force.

I would have preferred a congressional investigation with witnesses to include reliable persons from among those who say they have seen UFO's. I still think this would be beneficial. But the UFO study by a panel of scientists, with the report to be made public, is a step in the right direction.

@devgru1980mi You can convince/convert a billion people and you are still not solving the problem. Having a larger audience does not get us closer to answers for anomalous phenomena or change the existing paradigm of understanding. Only serious programmatic study does that.

@UfoJoe11 I think we CAN solve some of the mysteries (plural) if we focus on scientifically investigating localized phenomena. Certainly, IF â□□theyâ□□ have a saucer and aliens - then case closed on some of it. But not all of it. In the meantime, we should focus on the merits of each case.

https://twitter.com/_/status/1277496215924604929
@UfoJoe11 I think that a more effect approach is to provide scientific evidence to mainstream academia to push for better acceptance of the study of phenomenological occurances in order to change paradigms - rather than Media/PR/Political strategies to meant to sway popular

opinion.

@UfoJoe11 Well I think we need better scientific field investigations of the actual phenomena at work rather that sleuthing government paper trails. I think that the answers lie in better research/investigation of cases and that the answers are to be found there instead of intel files.

@MusicAndTruth @UfoJoe11 For me the Wilson documents is a sideshow. Crash stories are more interesting, but tend to be fraught with so much deception and manipulation that they are largely untrustworthy other than as Ufological folklore. @UfoJoe11 I thought I already responded! (Must have got lost in a thread or didnâ□□t post right.) The key problem, for me, certainly rests with the documentâ□□s namesake saying it didnâ□□t happen. Ultimately, what some intel guys said or didnâ□□t say 1/2

@UfoJoe11 Aside from the provenance and origins, the big one that stands out is the guy for whom the document is named says it didnâ□□t happen. Itâ□□s ALL untrustworthy intrigue, though, imo. Ultimately, what some intel guys supposedly said in the back of a car means little to me.

https://twitter.com/_/status/1277391196986408965

@UfoJoe11 I think that there will an article before the new season of Unidentified airs - as past is, usually, prologue. Undecided by they memo (it certainly has many problems) but I think that, overall, it is much ado about nothing as it has little bearing on the overall mystery. IMO.

@devgru1980mi Iâ□□m not sure it will be, but the proposed report certainly could be. We will have to see what it says wonâ□□t we? I am sure, though, that there will be those that decry the study/report if it doesnâ□□t say what they want it to.

If the past is prologue in the study of UFOs (and this is usually the case), then it is quite possible that ET proponents and Disclosurists may not be satisfied with the findings of a government-instituted report on UFOs. A â□□negative,â□□ mundane-leaning report is very possible.

@RichNilsenPhd @BrandonFugal @TheChilterns @Rizstanford @UAPGodz @UfoIssue @dave_beaty They have said that, yes. Hopefully if they do publish/present it will be something of substance beyond just a TV show cast promotional appearance at a comic-con or a â□□Contact In The Desertâ□□ type of circuit/circus event.

@RichNilsenPhd @BrandonFugal @TheChilterns @Rizstanford @UAPGodz @UfoIssue @dave_beaty For the program it was more like a few hundred hours over a few weeks. All reactive investigation done in a way to fit the sensationalized reality TV show format. We shall see if any peer-review papers result.

@mikeb8637 @BrandonFugal @TheChilterns @Rizstanford @UAPGodz @UfoIssue @dave_beaty What I want out of this is peer review science. Thatâ□□s how we develop further programs and potentially change paradigms.

@mikeb8637 @BrandonFugal @TheChilterns @Rizstanford @UAPGodz @UfoIssue @dave_beaty Iâ□□ve seen all kinds of methodologies utilized in investigations at dozens of anomalous locations - some scientific, some pseudo-scientific and some not-so-scientific. Would love to see a methodological program utilized at SWR. What I see is a Prometheus TV show.

@mikeb8637 @BrandonFugal @TheChilterns @Rizstanford @UAPGodz @UfoIssue @dave_beaty Not that I am aware of. I do travel to places with localized anomalous phenomena and write/photo places. My UFO Research does overlap, but I have been researching UFOs (and

other mysteries) for 40+ years. Iâ□□m interested in promoting scientific study - when it happens.

2020-05-25T20:24:44+00:00

https://twitter.com/_/status/1265015967580643331

@BrandonFugal @TheChilterns @Rizstanford @UAPGodz @UfoIssue @dave_beaty Reality TV is limited in its scientific reach and skews any methodological program of study. It has sensationalism built into its commercial modus operandi. I see a lot of reactive investigation, but not much by way of an organized program of inquiry.

I am the founder of the Brazilian Association of Ufology (BrasUFO). In other words, there is nothing hidden. Just stupid fanatic people. And there was no UFO crash at the scene. It was a rumor created over an explosion made, on a party day, in a factory of ammunition and war items from the Brazilian army. And people have already created this myth. There is NO evidence of a fall (not even an eyewitness), let alone a UFO. If you want more information just ask me to pass them all.

@IWANTTOKNOW2020 @mikeb8637 @devgru1980mi @alejandrotrojas @HISTORY @reddit To be fully truthful, and fair, you must point out that this is produced by the same â□□Ancient Aliensâ□□ production company and commercial network - and features talking heads that have appeared on that show. @mikeb8637 @devgru1980mi @alejandrotrojas @HISTORY @reddit I have been advocating for instrumented data collection at localized hotspot and open sharing for years. This, unfortunately, seems to be more of a commercial media exploitation venture rather than an open scientific program.

@GarryPNolan @nickpopemod If you are looking for pics of the â□□Tic-Tacâ□□ I donâ□□t have those as NO ONE knows what was encountered. If you are seeking experimental craft (or projects) that resemble a â□□Tic-Tacâ□□ in appearance there are quite a number of those if one cares to look.

2020-01-18T21:57:35+00:00
https://twitter.com/_/status/1218653688501284866
@luismen1991 @nickpopemod I donâ□□t think that Global Hawk fits the â□□Tic-Tacâ□□ in appearance. Several hybrid airship drones and aerostats do however.

2020-01-18T21:54:25+00:00
https://twitter.com/_/status/1218652891319349249
@GarryPNolan @nickpopemod That fictional cartoon craft looks nothing like a â□□Tic-Tac.â□□ Probably does have similar flight characteristics, though.

2020-01-18T21:33:53+00:00

@SilvaRecord @Greychapel2 @AFSUnidentified @GarryPNolan @nickpopemod A variety of â□□craftâ□□ and bogies were allegedly encountered in 2015 - including multiple objects that some characterize as a â□□fleetâ□□ - but were any described at looking like the â□□Tic-Tac?â□□ I donâ□□t be so. Accuracy is important. Seems like many are confusing events/objects.

https://twitter.com/_/status/1218638595826880512
@GarryPNolan @AFSUnidentified @SilvaRecord @nickpopemod And as to whether or not there are/have been projects that â□□look likeâ□□ a â□□â□□Tic-Tacâ□□ in appearance - Nick Pope is right, the are/have been. We are talking similar appearance, not flight characteristics. No one here is saying that similar-looking craft are what was encountered.

2020-01-18T20:51:16+00:00
https://twitter.com/_/status/1218636999608938497
@GarryPNolan @AFSUnidentified @SilvaRecord @nickpopemod Who is changing the subject? Not discounting the â□□Tic-Tacâ□□ encounter, just pointing out that no one observed a fleet of them. Accuracy is important if we are to unravel this mystery.

2020-01-18T20:30:02+00:00

https://twitter.com/_/status/1218631655541420033

@AFSUnidentified @SilvaRecord @GarryPNolan @nickpopemod Indeed. And this â□□fleetâ□□ of â□□Tic-Tacsâ□□ was witnessed visually? Or are we extrapolating the reported bogies with the visual/video? Who exactly witnessed a â□□fleetâ□□ of â□□Tic-Tac-shapedâ□□ objects?

@ScottBr31600449 Maybe take a break until spring. Catch up on your reading. Scale back the daily social media. And come back renewed - maybe attend some conferences. You are too important to lose. We need more critical thinkers like yourself - you canâ□t leave the field to those that arenâ□t.

@ScottBr31600449 This â□arenaâ□ can be exhausting and frustrating at times - no doubt. It is always good, and necessary, to take a break once in awhile. But, as one who cares about the field and the mystery to another who also cares (as you do) it is far too important a time to quit outright.

@TUPACABRA2 One isnâ€™t required to believe a certain way, one must simply just study the UFO subject (cases, history, theories, culture, literature, personalities) in a serious fashion. As a student of Ufology for over four decades, I find that there is still much yet to research & consider.

@blackvaultcom While the legitimacy-seeking UFO research field is need of professional/collegial REFORM, an organized focus & an effort to challenge exploiters in its ranks - talk of destroying the whole of the field & those in the culture is jingoistic posturing that doth protest too much.

@blackvaultcom Ufology is the multidisciplinary study of the subject of UFOs as a mystery, as a history & as a sub-culture. Anomaly research is but a part of the subjectâ□□s whole. The field has a rich history filled with personalities, fascinating cases, robust literature & cultural influences.

@528vibes All science fiction (speculative) is generally plausible - even predictive at times.

Would love to see evidence if an actual contention. Pretty big claim.

Subterranean Intelligence claims are older than the Shaver Mystery itself. Archetypal, even.

@UnexplainedSol Thatâ□□s my point entirely, donâ□□t shame competing interpretations - challenge them. Ask questions. Seek answers.

Itâ□□s all competing interpretations. Some evidence/cases are certainly bunk & some are undoubtedly anomalous. Most mundane. Arguments should be collegial 4 all views.

2. The photographs, which were received on 10 Sept, are alleged to have been taken near the A9 road at Clavine, north of Pitlochrie on the evening of 4 August. They show a large stationary, diamond-shaped object past which, it appears, a small jet aircraft is flying. The negatives have been considered by the relevant staffs who have established that the jet aircraft is a Harrier (and also identified a barely visible second aircraft, again probably a Harrier) but have reached no definite conclusion regarding the large object. It has also been confirmed that there is no record of Harriers operating in the area at the time at which the photographs are alleged to have been taken. The negatives have now been returned to the Scottish Daily Record.

3. In consultation with DDPR(RAF) it has been agreed that the attached lines to take should be used in responding to the Scottish Daily Record. These are consistent with the position adopted in the replies to the many public and occasional parliamentary enquiries on the subject of UFOs.

@UFO_Rabbit_Hole @BabbleAlien Measures of likelihood are great ways to logically separate out competing hypotheses of analysis with known quantities which may add the weight to the interpretations & postulations being proffered. Interpretations with complex conditions simply require more demonstrable support.

@The1Revolution We donâ□□t know what it is, so it is anomalous. There are competing interpretations from hoax to prosaic to covert to otherworldly. We have to consider the limited accounts and what can be demonstrated. Then it is a measure of likelihoods. Iâ□□m undecided until I hear from a witness.

@Mr_BenPrime Right on. Yes, it can remain quite bright, yet hazy, that late up there.

I worked as a professional chef in several kitchens in my time. After a long, busy shift, I wanted nothing more than to chill & sleep. But, you are right, sometimes outdoor activity would present itself. :person_shrugging:

@Mr_BenPrime Righto. I get that. But once it was out of the hands of the witnesses and the paper it became MODs and part of a program requiring classification. At any rate the officer who stole the image was keeping it without permission and released it without authority or permission.

@Mr_BenPrime I get you though, technicalities abound here. The image may not have been officially marked as they were assumed missing, destroyed, whatever. But they certainly were proprietary due to the investigative agency/office they were sent to & they follow security

@mrjeffknox @JeremyCorbell Watch the Rogan interview. He seemed to play it like he was a witness when directly asked about what he saw. No declarations or corrections of him not being an actual witness - just the group â□□weâ□□ parsings in response. He is an advocate of other peopleâ□□s accounts, not a witness.

@sazek @uncertainvector Thatâ□□s my understanding as well. He played the recent Rogan interview like he was a witness and so many advocates consider him as such when he didnâ□□t actually see a UFO/UAP - he saw instrument screens and heard alleged second-hand accounts from others.

@MindfulOfLight @LueElizondo We should all care about what claimed Aerial Anomalies actually are. They do have explanations, whatever they may be. Fact is, the vast majority are prosaic in nature. That small percentage of â□□trueâ□□ anomalies are worthy of serious scientific inquiry - not just mere belief.

@uapreddit @ToddRaymondL @SicCoP1 @PostDisclosure @Condorman6 @TheUfoJoe @travisstaylor1 For those cases that can be explained adequately - as many can be - likelihoods can also aid in creating measure values for interpretations. These values prevent embracing extreme interpretations with a categorizing biasing influence.

https://twitter.com/_/status/1549367558490447875

@uapreddit @ToddRaymondL @SicCoP1 @PostDisclosure @Condorman6 @TheUfoJoe @travisstaylor1 We may never actually know the true answers to many cases. Establishing likelihoods provides alternatives to embracing least-likely explanations or non-explanations that maintain the phenomenological state. This aids in parsing explanations for similar cases that can be known.

2022-07-19T05:43:33+00:00

https://twitter.com/_/status/1549268684643893257

@ToddRaymondL @SicCoP1 @PostDisclosure @Condorman6 @TheUfoJoe @travisstaylor1 Likely explanations must first be ruled out before advancing less-likely notions that require substantial suppositions/assumptions (that may be non-evidentiary speculations, speculative evidentiary interpretations or biased hypothetical-based extrapolations).

@fuegotaino @ChrisUKSharp In fact, the organizing of these already-functioning governmental departments were well already in the works prior to the birth of the Age of Flying Saucers.

@fuegotaino @ChrisUKSharp Iâ□□m familiar with the foundation of the Air Force, CIA & NSA. Iâ□□ve even sat at the table where they were signed into existence. The only thing that suggests a connection to Arnold or Roswell is a coincidence in timing, not anything demonstratively connective/causative.

@a01744 I donâ□□t even think they (social media) are influencing it that much. This is largely being driven by a handful of Intel/UAP media activists with political/media pull who have lobbied key pols & crouched the topic as a security oversite issue. Itâ□□s as much about UAVs as UAP.

2022-07-15T16:59:15+00:00

https://twitter.com/_/status/1547989180386447362

@a01744 Perhaps when they hear â□□UFOsâ□□ and not the largely culturally-unfamiliar â□□Ufologyâ□ term.

â□□Ancient Aliensâ□□ and â□□Skinwalkerâ□□ are undoubtedly big influencers to the uninitiated popula culture. This is why any delegitimizing/manipulative aspects they promote need to be challenged.

2022-07-15T16:53:31+00:00

https://twitter.com/_/status/1547987738342801408

@a01744 Note: possibly true of certain insular social media groupings. But the bulk of the UFO research community are actually not active on social media as people may think.

https://twitter.com/_/status/1547986704618831872

@a01744 Ufotainment, exploitation, cultism and hucksterism are certainly a part of the subject, but these oft-negative parts are not the sum of the whole. Ufology is a study, a history, a mystery and a subculture replete with the good, the bad and the highly questionable.

https://twitter.com/_/status/1547985106622566401

@a01744 Disagree.

Ufology: the study of UFOs, promotion of the legitimacy of the field.

UFOTwitter: largely political Disclosure activism/anti-activism, cyclical UAP news punditry, UFO content promotion.

Lueâ□□s goals: manipulation of UFO advocacy/culture/media for Intel policy & gain.
