Tues 1530

Psychospy,

Many thanks for including me on the newsletter list. I read #10 and am impressed. Definately a good read with great info. I am a staff photog with a very large Calif newspaper but am one of the few journalists I know that knows anything about aircraft, the military or even cares. Needless to say, I am unique among my coworkers. I even own several guuuuuns and know the difference between an automatic and a semi-automatic. What you describe as your experience with the media, especially the word merchants, is also my experience. How I hate MFFs. I've seen and been part of many. I've even made an attempt, during the Patty Hearst MFF, to encourage media self discipline. No luck. I almost got trampled to death by the TV crews. Looking forward to Desert Rat #11.

BigBirdd.
