Glenn,

I think you've gone nuts!

First, the 'Cammo Dudes' successfully distracted your attention from doing real reporting of the Groom area.

Second, somebody has turned you into today's version of the 1950's contactee, with all this crap about UFOs and aliens.

In the beginning you did excellent work, especially in your work to eliminate JANET flights from being mistaken as UFOs. But you seem to have lost your way.

Sorry.

Larry Smith
