Let me make this perfectly clear: I am not a crook, and I am not a kitten abuser. This is a vicious lie spread by my enemies. It is a low, low blow, because I love those cats, I'd give my life for those cats, and never would I let any bit of discomfort befall them.

First of all, readers of the Desert Rat will note that the kittens were born under the Research Center on April 1, 1995. This means that as of now, February 1996, they are not kittens at all. They are CATS, virtually indistinguishable from adults except for a higher energy level.

I have only two cats now, the others having been given away to GOOD HOMES known to me. I am responsible now only for Jarod 3 and her mother. Yes, it is true that for 24-48 hours at a time, the cats can be left alone, but I have built a heated "cathouse" for them, and they are always supplied with water and dry cat food. If my cats are hungry, as the visitor in Tikaboo's message implied, it is only because they refuse the dry stuff and are holding out for the canned cuisine, which is rationed to them at only two cans a day.

Of course, cats can kill for themselves if they have to. That's what I like about cats. There are plenty of field mice in the desert around the Research Center. I try my best to encourage my cats to kill, but they don't have any respect for me. My cats hate me, like everyone else. They don't care about me. Oh, they'll purr, but I know they're just kissing up to me. All they really want is their cans opened.

If this is abuse, then I confess, I AM A KITTEN ABUSER.
