

## Hysteria

As a matter of fact, 1995 marks the Centennial of Hysteria. In 1895, Freud and Breuer published their *Studien über Hysterie*, igniting a whole new comic movement.

According to a brochure we picked up at the museum, centennial festivities were held Nov. 18 at the Institut Français de Vienne, Salon Rouge.

*Salon Rouge* is the "Red Room." That's the right color.
