hello psychospy,

i just wanted to know if you are for real in your interest in everything you do, or if you are just in it for a living with a passive interest in u.f.o's. i don't mean to offend you in any way, if you are sincere in your work i commend you, but, if not, well im just sorry to see that another human being has fallen to the way side of economic gain over the single most important subject -next to that of christ himself-----being possibility of life of any kind elsewhere in the cosmos,

good luck and thank you for your time

Dear Mr. Scavo:

I'm in it for a living with only passive interest in UFOs.

I am another human being has fallen to the way side of economic gain.

I am Christ himself.

Get bent!
