Thanks for taking the time to read this e-mail. I work for Twentieth Century Fox in Los Angeles and am in charge of the website for the upcoming movie "Independence Day." You may know of the film, it is from the same two men who brought you "Stargate", Dean Devlin and Roland Emmerich. It centers around an Alien Civilization of unimaginable strength and magnitude destroying the earth, and how the entire earth must come together to fight back. Trust me when I say that this film will be by far the most impressive movie of the year.

Anyway, the reason I am sending this email out is for a few reasons. First - Congratulations, your web site has made our list of cool alien related sites on the web. We are looking at our site as the online headquarters to the world of Aliens on the web, and your site fits perfectly into our directory listings of alien related sites.

Second - we want to inform you that our site at www.id4.com is up and running. Right now there is a teaser page in place, with content starting up about April 5. This site will be unrivaled in its design and original content on the web, and we would encourage reciprocal hyperlinks from your site to our home page.

Third - we want to invite you and all people visitng your site to join us in Nevada April 18th. The Governor of Nevada and Fox are sponsoing the renaming of the State Highway surrounding Area 51. The new name is the Extraterrestrial Highway. This party in Rachel, Nevada promises to be a blast, and we hope you can join us. For more information on the event, please check out our website. Feel free to copy the information and post it wherever you would like to on the internet.

So anyway, I hope this e-mail makes some sense. please chekc out www.id4.com and let me know what you think. I hope we are able to work together to make "Independenc Day" an awesome hit both in the movie theaters and on the web. If you have any questions, or want to stay in touch with us here in L.A, this email address is the best way to do it. Thanks again.

-ID4 Fox

P.S. Don't worry, as we start getting hats and t-shirts, we'll be sending them everywhere!
