Subject: Sean Morton on Alien Video

I was just looking through the ufomind site and I stumbled onto something very interesting. I was an Glenns ling for Sean Morton and there was a posting about an interview he did on Art Bell. In this interview Mr Morton tells a story about a friend of his that is producing a video of an Alien Interrogation that supposedly took place at Area 51. They supposedly got the tape from someone who smuggled the tape out wrapped around his hand. Obviously this is our video. My point is, that if the person who produced this video is connected with Sean Morton, obviously he has some serious credibility problems. BTW this interview took place on March 13th. Before and public announcement was made I believe. The video is described in some detail and may be interesting reading for anyone who is actually considering buying this trash.

I always thought that you could tell a lot about someone by looking at those who they associate with.
