## EG&G Products & Services

From: Ken MacGray <ken@vvcs.com>  
Date: Mon, 18 Aug 1997 14:08:25 -0800

Subject: From Groom Lake Research??  
Date: Sun, 17 Aug 1997 12:28:07 GMT

Anyone besides me think the list of products and services on the EG&G website is an unusual and very suspicious mix of hi-tech hardware and bio-tech?

Seems the company has used a lot of inside info from government research in their commercial line.

Sheila Widnall stated (as did Pres. Clinton) that revealing whether paint thinner and auto batteries exist at Groom Lake would aid "the enemy" in assembling a "mosaic" of research at the facility.

I have a news flash for these "geniuses" in Washington. Given that \*EVERYONE\* is aware of EG&G's 50 year involvement with Groom Lake, were I an "enemy agent", I could compose a damned pretty accurate mosaic from the products and services EG&G advertises on their GLOBALLY ACCESSIBLE web site (DUH!!). For anyone who missed the previous posting, here it is again.

There are obviously "tags" and fake markers in the file, but the revelations are in the genuine articles.

A lot of this stuff sounds like something Paul Owen or the "Major" would be involved in. I particularly took notice of the EMP, light wave, biomedical (especially human reproduction), and UAV entries. Also the Command, Control, Communications and Intelligence (C3) and Command, Control, Communications, Computer, Intelligence (C41) Systems references.

I heard from a friend of mine still in SOPs, that UAV's are the rage of the day, and there are some spooky things coming out of Dynatrend.

EG&G's biomed involvement with USAm goes back to the plutonium experiments with humans, and the equipment exposure trials and facilities scattered throughout the country during the late 40's, 50's and 60's.

I did take notice that almost everyone on the entire EG&G board is a big contributor and supporter of the Arts (symphony, ballet). Too bad they don't support their fellow humans' basic rights and freedoms.

Wanna buy some EG&G stock, anyone? How's 'bout selling me some of yours, Major?

Rthunder  
E & E, That's the key

---

Description: EG&G Dynatrend provides engineering, management, transportation/logistics, security and asset management to a wide range of government agencies. All of the services of the U.S. Treasury including U.S. Customs, Alcohol, Tobacco and Firearms, Secret Service and the IRS are supported by Dynatrend's asset management services as is the Food and Drug Administration. Designing and managing security systems for EPA, the U.S. State Department and the Bureau of Engraving and Printing are prime examples of the security services provided by EG & G Dynatrend.
