I submitted a message to the Area 51 Mailing List re:AF 2025 & Implanted Brain Chips. I submitted an incorrect URL. The INCORRECT URL is: <http://www.tech-ninja.com/soul.htm>

the CORRECT URL is:

<http://www.techninja.com/soulc/htm>

Is there any way to correct it without having to post another message? The other two URL's are correct.

CAN WE TALK?

Subject: Can we talk ?

I am sure that you have recieved many letters like the one I am about to write. I am an average citizen, well for the time being anyway, and like alot of other people, I want some answers. Why the whole shush thing about Area51 ? What do you have in there ? A spy plane.....the Aurora...a u.f.o. maybe...I dont know, but I want to know. A secret cant be kept forever.

One day the people of this country will demand the truth and you will have no choice but to tell us about what is going on BEHIND OUR BACKS, and what has been going on behind our backs for a long time.

Thank you for your attention.

Hey, I checked out the guy's address and he has a fairly large site dedicated to UFOs but the information displayed seems unrealistic. He doesn't seem to be just some little kid playing a bad joke but I think his story was probably given to him by one.

I have a question. I've been on this list a short time now, but does anyone have any infromation about landings in New Mexico and Africa on or about the end of December 1996? I heard rumors yesterday and would like some confrimation of these. Being so far away from AREA 51 I rarely hear anything other than from you guys. Any info is much welcomed thank you.
