Subject: Area 51 on ET

I skipped seinfeld last night to watch Entertainment tonight because they had a clip about Area 51. Gillian Anderson (aka Scully) was hosting some paranormal show on The Learning Channel and they planned on doing an episode on Area 51. Bob Lazar was on for a spell(although I don't think they said his name) and they showed the same old crap with long distance photo's etc. Nothing interesting, but The Learning Channel show may be interesting. Has anyone else noticed that Bob lazar seemes to be coming out of his shell? I seem to spot him on television quite a bit now a days. Maybe he see's the window of opportunity closing and wants to cash in before Area 51 becomes another flavor of the month turned bland.
