Subject: UFO captured on video in Tempe, AZ

For the third week in a row Mike DeVarenes has captured a UFO on videotape. Nearly every weekend that Mike sits out on a skywatch in the beginning of 1997 he videotapes a UFO. Each time the video gets better than the last. Keep in mind Mike shoots in a Low-8 videocamera at 8X power and the videos are pretty good.

The latest video was shot today, Saturday January 18, 1997 at 11:07 P.M. in Tempe, Az. It shows a "white dot" flashing on and off and turning into the "black sphere" inbetween the flashes. The video lasts around 5 minutes long and has 4 witnesses on the audio who are watching it.

What will Mike DeVarenes shoot next week? Who knows but stay tuned as the OVNI Capterhouse takes a close look at his new videos in the following weeks.
