According to Psycho Glen, ALL these lights are just flares! Be forewarned that Psycho Glen is NOT what he appears to be. He is a part of an elaborate disinformation plan and many people are pulling his strings!

Area 51 is alive and well. Too many people have seen and recorded many unexplained lights over Groom Lake. If Psycho Glen was really any kind of objective field researcher, he wouldn't be claiming all these lights as mere flares. Unless of course, that is what he is being paid to do. He is having his strings pulled to disinform all of us! His higher ups have have done a far job of throwing off some attention to Area 51. One example is Psycho Glen taking cheap shots at the townfolk of Rachel. Another, more recent example of some current disinformation is the pathetic attempt of Popular Mechanic's (Jim Wilson's article on the "New Area 51") trying to confuse it's readers as to the new Area 51 being at Green River, Utah. What a crock!

I've said it before and I'll say it again, Psycho Glen just doesn't smell right!
