Subject: A51 Scenery File for MS Flight Simulator

[This scenery file apparently lets you "fly into" Groom Lake in Microsoft Flight Simulator for the PC. -- GC]

This is a mass mail to all who requested my Area 51 file for FS6. Rather than send the actual file, which would be very time consuming, I will give you a link to follow so you can get your own copy. I have versions available for FS4, FS% and finally FS6. You make have any or all of them. The only thing I ask is that you sign my guest book. Thanks again for all of the support.
