Members of the Usenet Cabal are cordially invited to an open day and barbecue to be held at Area 51 on Saturday 5th July.

Guest of honour will be our top disinformation agent Majel Barrett-Shatner, who has worked tirelessly over the past three decades promoting the lie that alien races are friendly and that our fundamental differences can be resolved through negotiation and better understanding.

Also present will be John Loengard, who will be signing copies of his latest book "The Hive at Redmond".

There will be a creche facility with kiddies attractions, including our ever-popular levitating disks ride.

The main attraction of the day, though, is the barbecue. We are having a clear-out of our refrigerators here, and we hope to use up various meat products which are in cold storage, before their 50-year freezer life expires.

Cabal members for whom travel is awkward may take advantage of a ride from their front door. Please get in touch through the usual channels, and be prepared to state whether unmarked van or helicopter is preferred.

As they say in The Office, "Be there, or be Reticulan".

That's Majel Barrett-Roddenberry, I believe.

This BBQ will conflict with the Roswell 50th anniversary the same weekend. Wish we could have had more notice.
