# Thurmond Was Present At CSETI's Briefing Of Congress

Subject: Thurmond Was Present At CSETI's Briefing Of Congress

The Corso-Thurmond controversy is old news now, but I just stumbled upon a piece of information which indicates that Senator Thurmond was present at CSETI's UFO briefing of the Congress.

The e-mail was sent to IUFO's mailing list on May 22, long before the dispute became known to the public on June 5.

As it is well known, Thurmond expressed his anger at having been lured into writing a foreword to Corso's alleged disclosure of the Pentagon's UFO cover-up - without knowing the book's actual contents, but thinking that Corso, an old friend and once a member of Thurmond's staff, had written an autobiography on his "ordinary" career.

Thurmond seems to be interested in the subject, though, so it is unlikely that he shouldn't have discussed it with Corso, who for many years and in the company of close friends has been quite frank about his UFO experiences.

To my mind it seems quite conceivable that the old man (he's over ninety) made a misjudgment and was corrected by his staff.

I don't advocate the more outlandish claims of the e-mail, by the way, without further proof.

Latest Revelations on UFOs From Insiders Going Public

By

Richard Boylan, Ph.D.

On April 9, 1997, a closed briefing was given Congressional, White House and other Administration officials on evidence of UFO reality and extraterrestrial presence. A witness revealed that among the dignitaries were Senator Strom Thurmond, Congressman Weingard, and the wife of the CIA Director. Testimony was given by Apollo astronaut Mitchell, Dr. Greer, and two dozen other prime government-insider witnesses.

Among those witnesses was Stephen Lovekin, a lawyer from North Carolina who worked with a Top Secret security clearance in the Pentagon during President Eisenhower's White House term during the '50s as a trained cryptologist, and was the military aide who regularly briefed President Eisenhower on UFO evidence and developments. The former military-intelligence official said that Eisenhower became angrier throughout his Presidency, because he was being shut out of the loop about "black technology", reverse-engineered from captured extraterrestrial devices. Lovekin testified that in the basement of the Pentagon, he was shown UFO metal from a downed ET craft, and saw apparent "hieroglyphic"-type ET writing on the metal.

Another expert who testifying under oath to the gathered Congressional and White House officials was rocket scientist David Adair, a NASA consultant. Adair stated that he could back up Lovekin's report, because in 1960 he himself was taken 20 stories underground at Area 51 to help figure out how an extraterrestrial engine taken from a UFO worked. On the engine cowling were the identical "hieroglyphic"-like ET symbols which he later saw Lovekin display at the Congressional briefing. Adair said that they eventually identified the UFO device as an electro-magnetic fusion-containment engine.

Dr. Greer has learned that one-third of the policy cabal controlling UFO information, a group variously known as MJ-12 and PI-40, wish public disclosure of UFO reality, while the rest do not support such initiative. Additionally, eight National Security insiders, including Navy and Air Force intelligence officers, told Dr. Greer that Star Wars weapons are being used to destroy UFOs approaching Earth.

A further glimpse into the military's secretive obsession with UFO technology was provided by retired Air Force Colonel Steve Wilson in late May, 1997, in response to reports of a huge UFO over Phoenix in mid-May. Colonel Wilson, who formerly headed the Air Force's Project Pounce [UFO recovery teams], said that there has been a stringent "lock-down" on Air Force personnel discussing UFOs since January 3, 1994. That was the date the military began publicly flying the enormous Black Triangle antigravity craft, which the Colonel said were back-engineered from UFOs.
