Subject: Rachel UFO Sighting

From: [A Rachel, Nevada, Resident]

Monday 11:45 AM

From MAJIC12

Looking in the North West at a 45% angle, upward in the sky, a bright light or a reflection caught the attention of local artist in Rachel, NV.

Apparently, an object at least the length of an airliner, thousands of feet from the observer, was moving in a North Westerly direction against the wind. Object was observed through binoculars and had the appearance similar to a cigar or disc with reflective brilliant surface on the back or right side of object. This reflectic light, uh, had a redish-gold perimeter that varied in brilliance or intensity. As the object moved from an apparent stationary position to a steady course North West. Object was observed on this occasion for five minutes. Second time, after notifying a friend, Don, both witness's saw the same object 15 minutes later from another vantage point in Rachel. This time the object was moving to the South East at a lower angle.

Object at first, appeared to have the width or length of half a dime's width, held at arm's length.

On the day before, two other witness's have seen daylight and night-light object's, that grew in intensity before moving off at a great speed from a dead stand still. Again with no sound.

Some have speculated that the objects seen are the following:

A) An experamental Airforce Aerial Platform approximately 4 feet wide that s shaped like a disc and runs on a fan blade in the middle.

B) A B-2 Stealth Bomber that is painted silver or white.

C) A reflection in the sky from a temperature wheather station on the moutian.

D) Drifting balloon cluster from Las Vegas!

E) A vehicle that represents a foreign technology not possessed by the US Air Force.

Conclusion: Without further visual or solid confirmation, the sightings of this object must remain unknown as to its source.
