## "Fishing Groom Lake" Book: Don't Buy It!

Subject: "Fishing Groom Lake" Book: Don't Buy It!

The "Fishing Groom Lake" book is awful. Do not buy it. The military frequencies for Area 51 are all old published freqs. that have been around for ever on the net and from Steven Douglas's "Military Monitoring Guide." The frequencies are garbage and are not accurate at all. The other stuff in the book is practically useless out at Area 51 unless a disk hovers next to you. They give you schematics on how to make devices, and if you can't make them...guess what.....you can buy them from the publisher.
