Hi all,  
 Awhile ago, the TV show, Sightings, ran a segment on UFO sighting over Area S-30 (?) in the Nellis Range. I just found a website with screen captures of the object as it was caught on film by Nellis range cameras. These are still shots, but I saw it moving and it had very interesting characteristics. Has anyone else heard of any sort of exotic aircraft that looks like this? The actual video had the voices of people watching it as it occurred (from the control tower?) and they had no clue as to what this thing was and seemed quite excited.
