-> SearchNet's IUFO Mailing List

Hi everyone :)

I'm looking for some info on White Sands Missile Range in New Mexico. Specifically, for info on North Oscura Peak, which is a mountain ridge that overlooks the center of WSMR. There are buildings there, built right on the ledge of a sheer cliff face. One of these buildings, a fairly new one, has a huge high-bay door that opens to a sheer drop.

Some of the buildings are used for communication purposes. That much I know. Can anyone out there enlighten me as to what the others are used for? Specifically the relatively new one with the huge high-bay doors?

Thanks.

Jilain
