RANGE 219B?

From: "Leo Rehbein" <leoreh@netins.net>
Subject: gov. files
Date: Thu, 13 Mar 1997 14:50:59 -0500

Someone mailed me this document, maybe you would want to put it up. I not sure what it means, maybe you can decipher it.
The document reads:

Authenticity check: B37D49-05
Alpha One, Bravo Three: Omega-2 is to be tested at range 219b, at 06:30 a.m. Full security check is required.

Thats the document, I can't tell you the source of it, but it is a reliable source. Thank you for your time.

A Rael-PYTHON CONNECTION?

> At the
> time, the symbol used by the group was a swastika inside a Star of David -- the obvious source of some controversy. According to Rael interviewed on the program, the symbol was meant to represent the group's all-inclusive love. The Raelians were dressed in white, meditated often and seemed to have liberal attitudes toward sex -- the more the better.

Regarding the swastika inside of the Star of David emblem, I've seen it before in the Monty Python's Life of Brian book. It stems from an outtake of the film with the same name where a rival terrorist organization, the Judain People's Front, describes how it will make the

area free of virtually everybody. The logo can be seen in a picture of Eric Idle as the groups leader on his helmet.

The logo does make an appearance at the end of the film when the JPF crack suicide squad makes a fatal attack on the city walls. It's hard to spot on the video but you can see it OK in the theater.

No conspiracy theory here, I just think it's another gag.

The principles of the UOF_engine may become clear when people have read the paper over Mr. Ronald D. Pearson, the great scientist. His address can also be found on internet, using Altavista or such a search-program

Olav.

NELLIS PREDICTION

From: Dave B <bethland@ix.netcom.com>
Subject: Black aircraft at Nellis airshow -- prediction
Date: Thu, 13 Mar 1997 23:33:11 -0600

Rather than a revelation, I predict a display of previous black projects that recently have seen the light of day. My guess -- most likely they will be UAV's.

THEY'LL CONSIDER IT!

Subject: MAILING LIST

On one of the last mailing lists this person brung up the Nellis Airshow and he said that their might be two black projects there the b-2 and f-22 prototype. He left a URL for the official web page and I went there. Thats where I noticed that you could send Nellis AFB E-mail, so I decided to. I said that since MJ-12 will probably tell truth on UFOs soon that they could help by showing us black projects so we would get used to aliens and their technology. Any way I told them they should have the Black Manta and the Aurora there or at least fly the Aurora over the air show and they responded to me that THEY WOULD CONSIDER IT!!!!!!!!!!!!!!
