Hi all,
To put my two cents in--I've found quite a few satellite photos at the USGS site mentioned in <http://www.ufomind.com/area51/list/1997/mar/a21-001.shtml> that have Groom/Papoose Lakes in them and in all of these that area is blocked out with the phrase "Frames Edited from = O. Neg." as Anthony stated followed by one frame of a picture of the moon--what's up with that? I downloaded a couple if anyone wants to see them.
