It would be very stupid for non-American citizens to take part in the "peoples march". You would only put your self in danger. It is wise not to participate in demonstrations if you are a foreigner in that country. The feds will have you locked up faster than their own citizens. Nothing like finding "foreigner aliens" marching up to one of the most secret military installations in the US.

The best buffet reviews I've read are from Glenn Campbell. Glenn is a UFO researcher, of all things; he's very well known and respected in the UFO field, and has been on network TV a number of times. He used to live in a trailer in the desert near Area 51 with no electricity or plumbing, but I guess that got a little boring and lonely for the poor guy. He moved to Vegas and lives near the Strip, where he has become an expert in the local's fine art of cheap buffet surfing. His Web page devoted to the best buffets in town is hilarious and informative, and a must-read for anybody who ever again plans to try one. I've recently added it as a featured link at my Vegas web site. Check it out! I'm at:

### DEAR AREA 51 PERSON: ANY SAUCER JOBS AVAILABLE

Subject: Aliens on earth!

Dear area 51 person,

Why is area 51 so classified? I found out! You people have a flying saucer, and phisical contact with aliens! And I already know what your going to tell me, "What are you talking about? I asure that there is no alien space craft or aliens that we have obtained, no aliens have ever visted earth." Yeah, right. I bet your also wondering where I found this out too, my secret. And i've seen a space craft myself. I have friends that have seen space crafts and reletives too. Now I want a straight answer, how much do you know about these aliens, and this space craft. And, to prove to you that I know about this space craft you have, i'll descibe it to you: from the out side it looks like an ordinary piece of metal, but from the in side there are no edges at all, everything is rounded off, no corners, it is completely un human. Also, to prove to you that you have had phisical contact with aliens I will tell you about them: One of them was about 5ft. 4in. and is bald, it has big eyes, so dark and shiney you could see yourself in them. When you speak to him, he speaks back, only in your voice. I know a lot about area 51, and I think

it's pretty cool, so if you can't tell me the stuff I want to know, could you at least tell me how I could get a job there, when I get older.

Scincerely,  
Mike

P.s. Why does the government pretend that area 51 doesn't exist? Everybody all ready knows about it.
