".....Major bases of operations, apart from widely diversified private sites, include Edwards Air Force Base in California, Nellis Air Force Base in Nevada, particularly S4 and adjacent facilities, Los Alamos New Mexico, Fort Huachuca Arizona (Army Intelligence Headquarters), the Redstone Arsenal in Alabama, and a relatively new, expanding underground facility accessible only by air in a remote area of Utah, among others.

Additional facilities and operations centers exist in a number of other countries, including the United Kingdom, Australia, and Russia. Numerous agencies have deep cover, black, USAPS related units involved with these operations, including the National Reconnaissance Office (NRO), the National Security Agency (NSA), the CIA, the Defense Intelligence Agency (DIA), the Air Force Office of Special Investigations (AFOSI), Naval Intelligence, Army Intelligence, Air Force Intelligence, the FBI, and others. An even more extensive list of private, civilian and corporate entities have significant involvement. The majority of scientific, technical and advanced technology operations are centered in the civilian industrial and research firms. Significant - and lethal - security is provided by private contractors.

The majority of personnel as well as the leadership of most if not all of these agencies and private groups are uninvolved and unaware of these compartmentalized, unacknowledged operations. For this reason, sweeping accusations related to any particular agency or corporate entity are wholly unwarranted. 'Plausible deniability' exists at many levels. Moreover, specialization and compartmentalization allows a number of operations to exist without those involved knowing that their task is related to the UFO/ET subject. ...."
