Subject: Secret Entrances to Area 51?

Well, this is a believe it or not story..... I was talkin to one of my friends who lives in Las Vegas and he was telling me about how his dad was hired to go do some electrical work at Area 51. He told me that his dad was taken out into the desert with about 12 other guys in a couple of hum-vees and left there. They sat around for about 15 mins or so, wondering when they were gonna come back out and pick em up. at about that time he said a big door opened up from the ground and about 10 "guards" escorted them down a long tunnel to an underground rail system and then they proceeded on to Area 51. He says that you couldn't tell that there was even an entrance to this rail system unless you were probably looking really hard.

I guess its a believe it or not type story, I'm not so sure I believe it, but I thought I'd just pass it on to you. If you've heard anything similar, let me know, so I'll know if hes just making up some stupid story.
:)
