Subject: "Great Drives" visits Groom Lake

I happened to be watching our local PBS channel last night (5-1) and caught an episode of a series called "Great Drives". This great drive was along the entire length of US Highway 93. The host, driving a Jeep Wrangler, made a quick side trip to Area 51, stopping at the Black Mailbox and the Inn. Brief chat with Pat and whatshisname.

After having used the Web for a couple of years now I am convinced that lots of information isn't always better than no information at all.
