Subject: Popular Mechanics Article - Can Anyone Report?

Can someone please report on the current Popular Mechanics article we have been hearing about - proposing another "Area 51". Is it more hot air?

A synopsis and review would be helpful.

Supposedly an "Area 6413" is mentioned, which sounds to me like restricted airspace, not a land area. (Groom Lake and the Nevada Test Site are covered by R-4808N.)

Glenn
