"Hot Gossip" interview with Michael Wolf

I found the following interview with Michael Wolf while doing a search for him on the Internet. The interview comes from the UK section of Hot Gossip magazine and the interviewer is Georgina Bruni. Since this site no longer seems to be in the search pages, I will type from the copy that I printed out when I first found the interview.

"A SHORT INTERVIEW WITH DR. MICHAEL WOLF

American born Dr. Michael Wolf, scientist and author of 'Catchers of Heaven' kindly gave me an interview which was much appreciated because it required tremendous effort on his part as he is in great pain and dying from a degenerating spinal condition.

His book is published as fiction because it was the only way he could get a copyright, but he assures me that it is based on a great deal of fact relating to the UFO and alien abduction phenomena. Dr. Wolf is no ordinary witness, as Emeritus of The New England Institute for Advanced Research, a member of the New York Academy of Sciences, and Patron Member of the American Association for the Advancement of Science, he has inside knowledge of the UFO and alien situation. This respected scientist was an MD in neurology for 30 years and he also studied pathology. During his career he was a consultant for the National Security Council and had top secret clearance which took him to the infamous Area 51 US base where he was a Team Leader on a scientific project which involved 'back engineering', copying or attempting to copy alien technology.

Area 51 is a top secret base in the Nevada desert which is so secure that not even the President of the United States is allowed access. Ufologists have known about the base for several years due to engineer Bob Lazar's expose, whereby he publicly claimed he had seen alien spacecraft and worked on 'back engineering' whilst employed at the base. But a couple of years ago it hit the headlines when the widow of an ex worker tried to sue for the death of her husband, which, she insisted, was the result of chemical poisoning obtained through his work

whilst employed at Area 51.

I asked Dr. Wolf if he could answer some questions and wanted to know how much of his book was fact.

`I'll try to answer what I can. The `Catchers of Heaven' could not be approved by the National Security Council for a copyright unless I wrote it as `Fiction', yet only by reading it can one read `between the lines' if you will. Only the character's respective names have been changed, but I do use my own name. There is very little fiction (if any) in the book, fiction was the only way I could receive a copyright.

In an interview with James Courant, you mention an automobile accident which occurred on Christmas day 1984, and that your intelligence officer informed you that your vehicle had been `fixed' in a deliberate act. Can you offer more details on why this dreadful act was carried out, why would they want to kill you at that time, and who are `they'?

`I was on an antiterrorism visit, by order of my superiors, to help devise antiterrorism methods. I was warned that my work might lead to retaliation, but I went ahead and still did what I had to do. Unfortunately, my wife and son and unborn child were killed as a bomb had been planted in the rental car we had used to celebrate both my son's birthday and my wife's and my anniversary.

I asked Dr. Wolf if, during his time as Team Leader at Area 51, or elsewhere, did he ever come in contact with any British scientists working on secret projects.

`Yes, but I cannot discuss it'.

Dr. Wolf, I understand that you worked alongside the aliens. Can you tell me more about them, how many different races did you come in contact with, what was your honest opinion of them, and where did they originate from? What was your first feeling when you met an alien?

`This will be addressed in the sequel to `The Catchers of Heaven, A Trilogy'. It will be known as `The Bright White Light Quartet'.

Dr. Wolf believes the US Government intends to inform the public about the UFO and alien situation.

`I must explain here, that this Government (US) does want a `processed release of UFO information, but you must know that the only way it will happen, is the slow `bureaucratic way' things get done in Government'.

Dr. Wolf is in constant pain and is disabled with his illness. He assures me he has tried to honestly answer some of my questions, some he can't answer for national security reasons. All the royalties from Dr. Wolf's book go to a non profit children's foundation."
