UFO Encounter at Lee Vining, CA, in 1980

In 1980 my girlfriend and I where traveling between June Lake and Lake Tahoe, when we saw an object hovering about 1/4 mile off 395 just north of the Hawthorne turn off. As we got closer we could see that it was just hovering, it was as big our bigger than a 747, and you could clearly see orange and blue lights around the center, it was saucer shaped, as we got within 1/2 mile it just vanished, no sound no sign of it. We kept driving, and we got a weird sensation because we had lost 20-30 minutes we drove as far as Topaz Lake and stopped, we where are going to call the Air force but thought better of it.

A month later she came down with a weird virus that was in her Bone marrow, she was so ill they did not know what it was at mamouth hospital, she was in intensive care for 5 days, She got alittle better and we took her to Tahoe hospital, she had several spinal taps and they to where confused about it, the doctor said they would treat it like menengitis but they knew it wasn't, they had no Idea what this virus was. She got better, but she developed vertigo on long open hyways, and on bridges, she still to this day has vertigo!

I have no explanation, because most reports I've read it's very strange that not many discribe what we saw. if you have any info on large Ufos sightings let me know.
