Historical BS from the "Colonel"

This is a portion of the log from that IRC chat the "Col" had with his Skywatch state directors back in 11/96. The names denote the state the director is from (i.e...PA is the Pennsylvania director, etc.). The words beside the name <Col> are those of Wilson himself. Quite the interesting read :)

[As usual with on-line chats, there is a lot of background noise. You have to filter it out to hear the Colonel's claims about his career. -GC]

  Crete!
<PADir> What did ya fly Col?
<Col> Started with the old AT-6 texan, F-51's, F-80's, F-100, F-86, etc,
  etc.
<UkDir> Best I could do was a little Piper with one prop and fixed wheels
  !!
<PADir> Sounds great! So 65 was your first exeperiance with downed ufo?
  I was just a little wipper snapper back then!--))
<Col> Last one was the X-8

```

<Col> Nope, first experience was in Korea in 1954
<Col> Yes, we are good friends
<PADir> 54? Wow, Can ya tell us a little about that one?
<UkDir> I was 10 in '54
<PADir> I meet Lear in Vegas at his home
<PADir> I was 2 in 54
<Col> Was out of Base 13, and 3 of us heading up the walu river to take
a dam out, and
<Col> I got hit with ground fire after taking dam out, was passing out,
gave fuel and location, and begin to black out
<Col> 3 days later a green light sat my F-51 down on the runway, and they
took me to hospital, I had been operated on with
<Col> laser surgery and was almost healed
<Col> No lasers back then
<PADir> Do you remeber anything during those three days? or were you out

<PADir> Hope you dont mind the questions cause after 23 yrs research here
I got a ton of them!--))
<Col> Don't remember a thing, jumped out of bed and got some reports, but
then the clamp came down and no one knew anything
<Col> Then MJ-12 and Black ops of Cia began there debriefing
<Col> Later they sent me to Stanford for testing
<Col> Was a 140 IQ, and now was rated at 232
<PADir> Col... Did ya ever meet Adamski or VanTassel?
<Col> Only slept 4 hours, but heart beat slowed to no detection, and felt
good after 4 hours, but all that tiome I never moved one muscle and
still don't
<Col> Yes, met them both long ago in Pasadena, Ca
<PADir> Col.. became freinds with a good freind of Adamski out of
Buffalo, a gentleman named Norm Weis.
<Col> Later found I had become Highly telepathic, and one day it scared
the hell out of me
<Col> Never knew I had it.
<PADir> Did ya ever meet Mantell?
<Col> Nope
<PADir> Do you mind all my Questions?--))
<Col> Nope
<PADir> Whew!
<UkDir> Interested in the 4 hours sleep.
<PADir> Ever hear of the Herb Schrimmer case
<Col> I've actually had people think I was dead
<UkDir> You see, I sleep EXACTLY 4 hours every night -- never a minute
longer
<Col> Interesting
Col> Not off hand
<UkDir> I wake in EXACTLY the position that I go to sleep in
<Col> yea, me too
<UkDir> But I have never lost any time
<UkDir> Not that I am aware of, anyway
<Col> Me either
<Col> BRB.....Need a fix.....Coffee Time
<PADir> Col.. while in the AF ever hear anything on Tesla?
<PADir> me too BRB

<UkDir> Ah. Didn't know that could be a problem
<PADir> Hello Jim!
<OKDir> hey!

<UkDir> Col, that will give me a chance to catch up on the
email.
<PADir> Yeah Life on the ever grwoing Inet!--))

<PADir> growing
<PADir> Col.. while in the AF ever hear anything on Tesla?
<Col> yes, watched them using his stuff at Almagordo, NM
<PADir> Col I talked to a gut awhile back using Iphone whom worked for
NASA and was in charge of the Video feed coming back from the Shuttles!
Very Intereting conversation we had!
<PADir> Col I wish I had half of your experiences!
<Col> I imagine, I have photos the astronauts sent me
<Col> How many know when a crop circle is real or not with only one on
site test?
<UkDir> Not me !
<PADir> He had quite a bit to say and confirmed every mission we ever
sent up and this contiues is monitored and followed by UFO's and he
was describing what he saw on video and how
they would turn off the feed to the rest of the world.
<PADir> Not me
<PADir> Compass?
<UkDir> Geiger?
<Col> Take a pie pan, fill it half full of water and grab a handfull of
dirt in the circle and put it in the pan
<PADir> hmmm? doesnt absorb water?
<Col> If it floats like packing peanuts, its real
<PADir> AHH
<Col> If it sinks and absorbs the water its fake
<PADir> Col no magnetic anomalies from the soil?

<FLDir> hello all!
<UkDir> Hi Dawn

<Col> sure, but why waste time with all other tests unless your sure
<Col> Hi Dawn
<FLDir> hi brian,dave. Colonel, and is it Jim from Oklahoma?
<PADir> Col... can you expand on the Experiments you seen the AF do
regarding Tesla?
<UkDir> I like simple tests. Thanks Col, I hope to try that one.
<PADir> Yeah I'll remember that one
<OKDir> hi FLDir
<Col> Know how to get a UFO to come right down close?
<PADir> Dawn: I spent hour and a half with NY Dir on phone. Got program
installed but shes having a conflict with other software on her system
<PADir> Do Tell Col!!!!!!!!!!!!!!
<UkDir> Now that is something I REAKLLY WANT TO KNOW!!
<UkDir> REALLY!!
<Col> You will before its over
<FLDir> Thanks for trying to help Michelle, is she frantic?
<PADir> Dawn: No not really, just that shes using proprietary software by
netcom, prodigy, aol, compuserve and never neen on IRC!--)
<PADir> been
<Col> Using that one method and there are several, I took that picture of
the Ufo
<PADir> Well col whats the secret?
<Col> a 100 feet and 10feet above the ground using it.
* PADir waitning with baited breath!
<Col> You use a series of flashes with a strong flashlight. That's how
they communicate
<PADir> Col I gotta tell ya something!!!!!!!!!!!!!!
<Col> go for it
<Col> AF figured out the long and short flash patterns
<PADir> When my sighting began over Lake Ontarion and spotted this bright
light over Lake I said to my friend Lets Flash My headlights, which I
did like in SOS and i swear to God thats when it came from 26 miles
across the Lake to Directly in front of my car!
<Col> They may have wondered what you were doing. Hahahahaha]
<PADir> You are the first person that ever mentioned this to me besides
my own experiance!
<PADir> Well it sure worked!
<UkDir> I didn't know about it --- I do now!!
<Col> There are 9 patterrens and you can get them to do different things
<PADir> what are they col
<UkDir> please .....
<Col> Too long to do here, but will be in the manuals we are doing
<OKDir> Same type of experience here, near Lawton,we were flashing our
lights and got quite a suprise, brian I was talking about this one eailer
...
<UkDir> I look forward to it in the manuals
<Col> Aweeee, Lawton, went to University there and took achaeology and
paleontology
<OKDir> you know about the wildlife refuge by scott mt.?
<OKDir> I dont go there at nite anymore...
<Col> My first dig the AF sent me on was a grey over 30,000 years old,

```

have the JPG on my puter
<UkDir> I would love to see that, Col
<OKDir> me too
<Col> send an email and I'll send it
<OKDir> cool
Col> Aweee, Lawton, went to University there and took achaeology and paleontology
<OKDir> you know about the wildlife refuge by scott mt.?
<OKDir> I dont go there at nite anymore...
<Col> I'd DCC it, but not sure where in my archives it is
<FLDir> may I also Colonel e-mail you for the jpg?
<Col> Would you guys like to see a good photo of our UFO PROTOTYPE, I flew the chase plane and got a good one
<Col> Sure FL
<FLDir> thank you.
<OKDir> you know about the wildlife refuge by scott mt.?
<OKDir> I dont go there at nite anymore...
<UkDir> Me too, please
<PAdir> Is that what you are sending us now?
<Col> yup
<PAdir> Great! Thanks Col!
<Col> They have since removed wheels and now have 3 pods
<PAdir> So Col what do you think about us getting together here for a staff meeting when everyone gets up to speed on IRC?
<Col> Sounds great
<PAdir> BRB Checking out photo!
<OKDir> nice picture!
<PAdir> Col what yr is that pic from?
<Col> On this one, the funny looking things in back are the Harrier type jets to get it off ground, they have since figured the primary out and have the pods which is what gets it up, then the anti-magnetic drives kick in
<Col> 1959
<PAdir> Wow!
<UkDir> WOW!!! That's one of the best I've ever seen
<FLDir> that was a great photo!
<Col> I have other things that I don't dare put on Skywatch, but send to individuals
<PAdir> Col I figure the Glow around many UFOs are the Ionization of the atmosphere from the force fiels/prpulsion system. How close am I?
<PAdir> Well Col when you feel you can Im ready for these Pics!
<Col> Nope, wrong
<PAdir> I also have a few of some good shots at night time over Lake Ontario of these glowing objects and will provide them when I move into new home and get them out of storage
<Col> I don't want to blow your minds too fast
<PAdir> You cant blow my mind. Nothing really would shock me at this point in the game
<UkDir> I recon that they need to make a shockwave some distance ahead, to allow them to move without the usual air resistance
<Col> I even have pics of the UFO's Germany had in 1907
<PAdir> Yeah I heard that also UK
<Col> No, the one ahead pulls, and the tail behind pushes
<UkDir> It maybe can be done with some sort of plasma?
<PAdir> Col you familiar with the Tonopah Test Range?
<Col> Creates a vacuum inside so there is no feeling of motion
<Col> yes
<PAdir> I was stationed on the perimeter for 4.5 yrs
<Col> Saw a couple of things, did ya?
<PAdir> Went and visited the Little Alien Inn!--)) Well lets just say a few friends of mine worked for the Security contractor there whom shared a little info with me!--))
<OKDir> I've been monitoring a lot of C-17 traffic into tonopah lately...
on hf
<Col> Bet, none of you knew we had a moonbase before the public saw the first moonlanding
<PAdir> OK What Freq?
<PAdir> Col what is your opinion of Alternative 3?
<Col> What about it/
<OKDir> 11176 or as they call 76 upper
<PAdir> Col what is your opinion of Alternative 3? Thats where i first heard of Moon Base and the Video implicating it
<PAdir> Thanks OK
<Col> I know, I've been there in 1964
PAdir> Col been there?
<Col> yes
<PAdir> Please decribe whatever! I just love this
<Col> Went up to our moonbase in 1964 in our UFO.
<PAdir> Whew! and.....--))
<Col> That is the ones the grey's took away from us on the apex of the dark side of the moon

<UkDir> Col, I enlarged and printed that UFO pic at 10 X 8 in colour at 720 dpi and have just put in a frame and hung it above my desk. It looks great.

<Col> Not many know the extent or how far ahead we really are. The X-117 is OLD, over twenty-five years old

<Col> well, it was X-117 when I first saw it

<Col> The Stealth, and what many do not know is it can become totally invisible

<PADir> Col tell us more. Like what was your mission. Is there a lot of bases there? Are we working with other countries there? Have we landed on other planets?

<Col> The reason they only sent one at a time to bagdad, afraid they would run into each other.

Col> Nope, Greys run us out and told us in no uncertain terms not to come back to the moon

<Col> We know that mars is used as landing and jump off site for many space travelers

<PADir> What about others that describe being picked up by what appear to look like human beings? How come we hear nothing about this. Seems like for the longest time all we hear about are greys.

<Col> this bull about meteors hitting moon and mars is horse hockey, look at photos and see mountains in the center of them higher than the craters

<Col> almost all the different ebes are doing some dna research or biological research

<Col> i guess because all but 1800 of them are clones

<PADir> Col How true is it that past Presidents have been in contact with other Ebes? I think it was Truman that supposedly meet with them at an Air Force base?

<Col> the 1800 original greys are hiding out in a space vehicle called phoebves

<Col> phoebes

<PADir> Hmmm? Must be a Huge Mother ship?

<Col> yes, he did near roswell, and when they wanted our unconditional surrender, he shot them down

<FLDir> Col. may I ask you about military abductions and what they are all about. I have vivid details of an underground facility w/ military and ebes. Any thing to this or is it a wild imagination?

<PADir> I wonder what the scoop is with this Hale-Bop?

<Col> that is the reason it travels just opposite in rotation

<Col> hale is a space ship and there are two smaller ones right behind it, was the reason for star wars

<Col> i don't know of any abductions by military

<PADir> Must be a huge one and I understand its headed this way.

<Col> we put a stop to black ops impersonating af tho

<Col> yes, and the two behind will drop off towards us as it passes by, has changed direction 4 times already

<FLDir> i can not say it is the military...just a recollection of uniformed human personel

<PADir> Wonder what the purpose of this coming visit is then?

<Col> cia black ops were impersonating military for years before we knew and put a stop to it

<FLDir> I see.

<Col> they were found out when they abducted a high ranking officer with mj-12 when he was in civies

<PADir> Col, any experiance with the so called cigar shaped mother ships of the Adamski era?

<FLDir> that was not very intelligent.

<Col> yes, and they are still around, more modern, and belong to reptiloid races

<PADir> Bottom line Col what is your understanding of their intent?

<Col> which ones, four races are benevolent that we know of

<PADir> Which races are the Benevolent ones?

<Col> pliedian, ummos, vegans, and the nordics

<PADir> Ahh the Adamski decribed Nordics! Well what role do the Benevolent Races play in the scheme of things to come I wonder?

<Col> pliedians are the only race besides the nephiliam that have time travel

<Col> they think we are not ready for cosmic travel because

<Col> we cannot get along with our niegbors let alone ourselves

<PADir> I Can understand that being that we demonstarte this every day!

<Col> yup

<FLDir> Have we translated any of the symbols similar to hyrglyphics(spelling sorry). and would you recognize some if you saw them?

<Col> they were also at the geneva talks and showed us what they could do if we kept exploding nuclear bombs. everyone quite and all panicked when france blew another one

<PADir> Col do you anything about the Pyamids under water off the coast of Floria? Friend of mine was on a Nuclear sub and said they mapped the whole earts oceans and they are clearly marked?

<Col> yes the pliedians put the pyramids in long before the egyptians came
<PADir> My understanding is that these pyramids were first assembeled to act as a type of Navigational Beacon for their craft. Wonder if this is true?
<Col> and yes, in the mj-12 manuals I got away with are the written languages of six races
<Col> the dna structure of about 90 different space travelers
<FLDir> great Col. are you going to share this with us also?
<Col> yes, in part they are and still do, you'll find them on all the planets in our solar system
<Col> yes, when groups get started, some will come with the charter
<PADir> Col why do you think many contact people are not allowed to recall events while taken aboard craft?
<Col> long ago they found most of them were thought crazy, became crazy, and it made it harder for them to return
<Col> the 1800 original greys have souls, but the clones do not
<Col> even the ones impregnated in our women and taken after 3 months have no souls
<PADir> Col did you see a lot of structures while on the moon and how long was your mission there?
<Col> souls or auras
<UkDir> This is facinating, but it's 4:00am here and with regret, I must go to bed.
<Col> was only there a few hours and saw maps of most that was up there, nASA is a joke
<Col> flly high
<Col> well, take care all, see you later
<FLDir> Col. : nothing on that Wolf guy huh? perhaps I was given bad info.
<PADir> I suspected for a long time that NASA is just a smoke screen for expenditures to do whatever they want with tax dollars and not justify any of it
<PADir> Night Col
