Gene Huff & the tragic end of Bob's credibility

I almost feel as if I should retract my previous comments concerning Hular. This second display changes things considerably in my opinion. The first evidence of this was a complete lack of that "special feeling" I usually get when soaking up the rantings and raving of Hular.

Not to imply this isn't him - it most certainly is. There is no doubt at all in my mind about this even excluding the circumstantial evidence previously covered. This thing isn't even original. It's nearly identical to previous official Hular releases posted to the newsgroup. The same tired old BS, the same details, the same flaws... even another exposure of Uhouse! The similarities are insane - not to mention the topic. Combined, this evidence would convict even OJ. talk about smoking guns... I wouldn't be surprised to find much of this was composed via cut & paste rather than the keyboard. The only "new" material we have are the lurid details of child molestation (a subject the author seems remarkably well versed in) and this too is really nothing new - we've heard it time and time again.

So what is new? What is revealed here? First and foremost for me at least, what has been revealed is that Gene Huff is not the loud and foul mouthed comedian I have always taken him to be. He is instead, a deranged and obsessed lunatic - displaying many of the characteristics he so diligently quoted from various publications. It's sad in a very real way, for I am no longer amused by his previous posts. Its like turning on the news to find Captain Kangaroo has been arrested for the murder of Bozo the Clown. A real pity, but no great loss.

In compensation for this loss we do receive a small token. This of course is that the Bob Lazar controversy (what tiny shreds remained) can now be laid to rest. I for one will not give it another thought. It has been suggested before that Lazar was crazy to let this guy be his mouthpiece on the net, and this has always been an interesting point. What I can't stop thinking now though, is that Lazar lets this guy into his home - into his life. Lazar confides in, and trusts this man - this raving and deranged psychopath. What does this say about Bob? To me, it says that Bob Lazar is not even worthy of consideration as a remotely interesting guy. I wouldn't have anything to do with Lazar/Huff now if I was being paid for it. Huff basically committed credibilty-suicide this time, and in doing so assassinated Bob Lazar's. I mean after all, this is HULAR we're talking about - by definition Huff can't shoot himself without wounding Lazar.

Birds of a feather...

Back in the real world: If I were you Glenn I would take some of the information contained in the second post and use it wisely. It is almost as if, in a cry for help, Huff was describing himself: a dangerous, gun-toting, stalker obsessed with an individual who just won't give him what he so desperately needs. In this light he has announced to the world that he is camped out on the borderline of sanity and is about to go "postal". the signs are numerous and disturbing indeed. Huff has always delighted in heaping his abuse upon those who are too "cowardly" to "come get some" and are "hiding behind fake names" - its practically his mantra. for reasons I cant clearly define yet I find the fact that he is now doing exactly this frightening. Perhaps a restraining order is more appropriate at this time than a lawsuit.
