[Below is an alleged building list for the Groom Lake base. The source is an unofficial base map sold by the Area 51 Research Center (Rachel, NV 89001), published January 1995. The map was prepared for the Research Center by "Shadowhawk Research Associates." This list corresponds to numbered buildings shown on the map, which is 19" x 25" at a scale of 1:4800. The map does not specify where the building names and numbers came from or the date of the data.
