## U.S. Government Installations

Fact, folklore and mysteries connected to specific military bases and other restricted government installations. To be included in this list, a facility must be performing classified work for the government (or could be reasonably accused of such). List of known installations is fairly complete for Southwestern States, but selected for other states. All references are to WWW pages except where stated otherwise. Please report link errors and additions to [webmaster@ufomind.com](mailto:webmaster@ufomind.com)
