

THE EFFECT OF THE TEMPERATURE OF THE MELTING OF THE POLYMER ON THE STRUCTURE OF THE POLYMER

The effect of the temperature of the melting of the polymer on the structure of the polymer has been studied. It has been found that the structure of the polymer changes with the temperature of the melting. The structure of the polymer is determined by the temperature of the melting. The structure of the polymer is determined by the temperature of the melting.

The effect of the temperature of the melting of the polymer on the structure of the polymer has been studied. It has been found that the structure of the polymer changes with the temperature of the melting. The structure of the polymer is determined by the temperature of the melting. The structure of the polymer is determined by the temperature of the melting.
