

# EG&G Vehicle Inventory

Below are government vehicles spotted at the EG&G terminal (Haven Ave.) or EG&G Special Projects offices (Grier Ave.).

- Plate: U.S. Government **691 05813**. Flatbed trailer followed from Grier Rd. office on 5/9/96. (Plate is for the trailer not the cab.) Spotted on routine survey of back of EG&G Grier Rd. office. Departed from office at about 9:30 am. Agent Coyote and myself followed it to US-95 north, then beyond Las Vegas, far enough to determine that it was going to either Mercury or Indian Springs. Flatbed carried a small modular office unit, apparently new. (It began to shed bits of its insulation when the truck got going on the highway.) Truck also carried a stack of what appeared to be drywall and several big rolls of heavy-gauge electrical cable (about 1" thick).
