Goober,

I just browsed your website after not gagging myself on it for quite some time. A few corrections. I am not Bob Lazar's business manager, nor does he have one. It is comical how you try and belittle my position in ufology, whatever that is. After the movie comes out, you'll probably be suicidal(as though you're not already!). Whatever my position is, what everyone is sure of is that it is definitely superior to yours. You no longer sell the Lazar Tape or the Lazar Tape poster and anyone who sells it to you will no longer distribute it. If you try to sell bootlegs and I find out, I'll handle you personally, and btw, I'd look forward to that opportunity. (I realize we still owe you 2 tapes and I'll see that you get them). When I received the pictures of you, what you didn't know was that I also received much written information and it checked out. It seems that you have a history of consorting with those much younger than you. It's OK with me if you choose to continue to be a child molestor, it's just that we have certain minimal psychological, moral, and I.Q. standards for those who sell our merchandise and, quite frankly, you fall short in all categories. I would like to thank you for all of the laughs though. What am I talking about? I'm talking about the fact that Bob Lazar and I and a few others who are unknown to you all have each others' passwords for our computers. We all have additional private email addresses, but the likes of you could never get them. Anyway, I received all of your email to Bob regarding your theories on a piece of my brain missing, etc., and I read them before Bob did. It's always so funny that you think he thinks enough of you to treat you like a human!:) EVERYONE else with his password thought you were as much of a scream as I did! It was even more funny when he called you and told you you were printing lies about him and you told your readers that he had opened up a mother fucking HOT LINE of all things!:) Goober, you don't have a hot line to Bob Lazar and you've never had a discrete conversation with him on the phone, via email, or on hard copy! Get a clue dick for brains!:) Anyway, you be a good little child molestor and check out our new web page where we'll cover the likes of you. You are a liar, a coward, and a pervert, that's why people hate you so much!

Your idol,

Gene Huff
